June 28, 2018

Honorable Mayor Frank G. Jackson
City of Cleveland Council and
Citizens of the City of Cleveland, Ohio

Introduction

We are pleased to submit the Comprehensive Annual Financial Report (CAFR) of the City of Cleveland (the City) for the year ended December 31, 2017. This report, prepared by the Department of Finance, includes the basic financial statements that summarize the various operations and cash flows related to the City's 2017 activities. Our intention is to provide a clear, comprehensive and materially accurate overview of the City's financial position at the close of last year. The enclosed information has been designed to allow the reader to gain an understanding of the City's finances, including financial trends, financial instruments and fund performances. The City has complete responsibility for all information contained in this report.

This report consists of management's representations concerning the finances of the City. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the City has established a comprehensive internal control framework that is designed both to protect the City's assets from loss, theft, or misuse and to compile sufficient, reliable information for the preparation of the City's financial statements in conformity with generally accepted accounting principles (GAAP) in the United States of America. Because the cost of internal controls should not outweigh their benefits, this comprehensive framework of internal controls has been designed to provide reasonable, rather than absolute, assurance that the financial statements will be free of material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The City's financial statements have been audited by Clark, Schaefer, Hackett & Co. The goal of the independent audit is to provide reasonable assurance that the financial statements of the City for the year ended December 31, 2017, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. Clark, Schaefer, Hackett & Co. concluded, based upon its audit, that there was a reasonable basis for rendering an unmodified opinion that the City's financial statements for the year ended December 31, 2017, are fairly presented in conformity with GAAP. The Independent Auditors' Report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the City was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in the City's separately issued Single Audit Report.

GAAP requires that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The City's MD&A can be found immediately following the Independent Auditors' Report.

Structure of this Comprehensive Annual Financial Report

This CAFR is designed to assist the reader in understanding the City's finances. This CAFR consists of the following sections:

- The Introductory Section, which includes this letter of transmittal and contains information pertinent to the City's management and organization.
- The Financial Section contains the Independent Auditors' Report, MD&A, Basic Financial Statements, Required Supplementary Information and various other statements and schedules pertaining to the City's funds and activities.
- The Statistical Section contains numerous tables of financial and demographic information. Much of this information is shown with comparative data for the ten-year period from 2008 through 2017.

References throughout this report to Note 1, Note 2, etc., are to the Notes to Financial Statements included in the Financial Section of this CAFR.

Profile of the Government

The City

The City is a municipal corporation and political subdivision of the State of Ohio. It is located on the southern shore of Lake Erie and is the county seat of Cuyahoga County.

The City is included in the Cleveland-Elyria, OH Metropolitan Statistical Area (MSA), comprised of Cuyahoga, Lake, Lorain, Geauga and Medina counties. This MSA is the 32nd largest of 382 Metropolitan Areas in the United States and the largest Metropolitan Area in the State of Ohio.

The City is located in the northeast part of the state, approximately 150 miles north-east of Columbus. Bordering Lake Erie, The City is home to world-renowned medical facilities, professional sports venues, a casino, Severance Hall, numerous lakefront parks, the Port of Cleveland, the Rock and Roll Hall of Fame and operates the nation's ninth largest water system. Interstate highways I-71, I-480, I-77 and I-90 serve as some of the City's major transportation arteries. The City is rich in educational and medical facilities, including Cleveland State University, Case Western Reserve University, the Cleveland Clinic and University Hospitals of Cleveland.

City Government

The City operates under and is governed by, the Charter which was first adopted by the voters in 1913 and has been and may be further amended by the voters from time to time. The City is also subject to certain general State laws that are applicable to all cities in the State. In addition, under Article XVIII, Section 3 of the Ohio Constitution, the City may exercise all powers of local self-government and may exercise police powers to the extent not in conflict with applicable general State laws. The Charter provides for a mayor-council form of government.

The City's chief executive and administrative officer is the Mayor, elected by the voters for a four-year term. Frank G. Jackson was elected as Mayor of the City in November 2005 and began his first term on January 2, 2006. In November 2017, he was re-elected to a fourth term, which will make him the City's longest serving Mayor. Prior to assuming office as Mayor, Mr. Jackson served as a Ward 5 City Council member for 16 years and in 2002 was elected by the then 21-member City Council (Council) to serve as Council President. Under the Charter, the Mayor may veto any legislation passed by Council, but a veto may be overridden by a two-thirds vote of all members of the Council.

Legislative authority is currently vested in a 17-member Council. Council members serve four year terms and are elected from wards. The present terms of the Mayor and Council members expire on December 31, 2021. The Council fixes compensation of City officials and employees and enacts ordinances and resolutions relating to City services, tax levies, appropriating and borrowing money, licensing and regulating businesses and trades and other municipal functions. The presiding officer is the President of Council, elected by the Council members. Kevin J. Kelley was elected as President of Council in November 2013 and re-elected in November 2017. The Clerk of Council is appointed by Council. The Charter establishes certain administrative departments; the Council may establish divisions within departments or additional departments. The Mayor appoints all of the directors of the City's 12 departments.

The Director of Finance and City Controller believe that, to the best of their knowledge, the data contained in this report present fairly the financial position and results of operations of the various funds of the City. All necessary disclosures are included in this report to enable the reader to understand the City's financial activities.

Financial Reporting Entity

The City has applied guidelines established by Governmental Accounting Standards Board (GASB) Statement No. 61, *The Financial Reporting Entity: Omnibus an Amendment of GASB Statements No. 14 and No. 34*. Provisions outlined in this statement define the operational, functional and organizational units for which the City, "acting as Primary Government", is required to include as part of its reporting entity. The inclusion of a component unit as part of the City's reporting entity requires the appointment of a voting majority of the component unit's board and either (1) the City's ability to impose its will over the component unit or (2) the possibility that the component unit will provide a financial benefit to or impose a financial burden on the City.

Under these provisions, the City's financial reporting entity acts as a single rather than multi-component unit. The provisions permit the entity to include all funds, agencies, boards and commissions that, by definition, comprise components within the primary government itself. For the City, these components include police and fire protection services, waste collection, parks and recreation, health, select social services and general administrative services. Primary enterprise activities owned and operated by the City include a water system, electric distribution system and two airports.

In accordance with GASB Statement No. 61, the Cuyahoga Metropolitan Housing Authority, Cleveland-Cuyahoga Port Authority and Cleveland Municipal School District are defined as related organizations and Gateway Economic Development Corporation of Greater Cleveland is defined as a jointly governed organization. None of these organizations are included within the City's reporting entity.

Internal Control

Management of the City is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the City are protected from loss, theft or misuse. The internal control structure ensures that accounting data is compiled to allow for the preparation of financial statements in conformity with GAAP. The internal control structure is designed to provide reasonable assurances that these objectives are met. The concept of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal, state and county financial assistance, the City is also responsible for maintaining a rigorous internal control structure that ensures full compliance with applicable laws and regulations related to those programs. This internal control structure is subject to periodic evaluation by management, external auditors and the internal audit staff of the City. The City is required to undergo an annual audit in conformity with the provisions of the U.S. Office of Management and Budget's Uniform Administration Requirements, Cost Principles and Audit Requirements for Federal Awards (Uniform Guidance). The information related to the Uniform Guidance, including the schedule of federal awards expenditures, findings and recommendations and auditor's reports on the internal control structure and compliance with applicable laws and regulations are included in a separate report.

Accounting and Financial Reporting

The City's accounting system is organized and operated on a fund basis. A fund is defined as an independent fiscal and accounting entity with a self-balancing set of accounts. The types of funds to be used are determined by GAAP and the number of individual funds established is determined by sound financial administration. Each fund is a separate accounting entity with its own self-balancing set of accounts, assets, deferred outflows of resources, liabilities, deferred inflows of resources and fund balance. The City's governmental funds include the General Fund, Special Revenue Funds, Debt Service Funds and Capital Projects Funds. The City's proprietary funds are its Enterprise Funds that provide services to the general public, including utilities and airport service and Internal Service Funds that provide services to City departments, divisions and other governments. The City also maintains Fiduciary Funds to account for assets held by the City in an agent capacity for individuals, private organizations and other governments.

Except for budgetary purposes, the basis of accounting used by the City conforms to GAAP as applicable to governmental units. All governmental funds are accounted for using a current financial resources (current assets, deferred outflows of resources, current liabilities and deferred inflows of resources) measurement focus. The modified accrual basis of accounting is utilized for governmental funds. Revenues are recognized when they are susceptible to accrual (both measurable and available). Expenditures are recognized when the related liability is incurred, except for interest on long-term debt which is recorded when due.

The measurement focus of the City's proprietary funds is on the flow of total economic resources (all assets, deferred outflows of resources, liabilities and deferred inflows of resources). The accrual basis of accounting (revenues are recognized when earned and expenses when incurred) is utilized for the Enterprise and Internal Service Funds.

The City's basis of accounting for budgetary purposes differs from GAAP in that revenues are recognized when received, rather than when susceptible to accrual (measurable and available) and encumbrances and pre-encumbrances are included as expenditures rather than included in fund balances.

Budgeting Procedures

Detailed provisions regulating the City's budget, tax levies and appropriations are set forth in the Ohio Revised Code and the City Charter. The Mayor is required to submit the appropriation budget, called "The Mayor's Estimate" to City Council by February 1 of each year. The Council may adopt a temporary appropriation measure for the first three months of the year, but must adopt a permanent appropriation measure for the fiscal year by April 1. The Cuyahoga County Fiscal Officer must certify that the City's appropriation measure does not exceed the amounts set forth in the County Budget Commission's Certificate of Estimated Resources.

In June of 2015, GASB Statement No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68 and Amendments to Certain Provisions of GASB Statements 67 and 68*, was issued. This Statement is effective for fiscal periods beginning after June 15, 2015 - except those provisions that address employers and governmental nonemployer contributing entities for pensions that are not within the scope of GASB Statement No. 68, *Accounting and Financial Reporting for Pensions – an Amendment of GASB Statement No. 27*, which are effective for fiscal years beginning after June 15, 2016. The objective of this Statement is to improve the usefulness of information about pensions included in the general purpose external financial reports of state and local governments for making decisions and assessing accountability. This Statement establishes requirements for defined benefit pensions that are not within the scope of GASB Statement No. 68, as well as for the assets accumulated for purposes of providing those pensions. In addition, it establishes requirements for defined contribution pensions that are not within the scope of GASB Statement No. 68. It also amends certain provisions of GASB Statement No. 67, *Financial Reporting for Pension Plans – an Amendment of GASB Statement No. 25* and GASB Statement No. 68 for pension plans and pensions that are within their respective scopes. As required, the City has implemented GASB Statement No. 73 as of December 31, 2017.

In June of 2015, GASB Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans (OPEB)*, was issued. This Statement is effective for financial statements for fiscal years beginning after June 15, 2016. This Statement replaces GASB Statement No. 43, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, as amended and GASB Statement No. 57, *OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans*. It also includes requirements for defined contribution OPEB plans that replace the requirements for those OPEB plans in GASB Statement No. 25, *Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans*, as amended, GASB Statement No. 43 and GASB Statement No.

50, *Pension Disclosures an Amendment of GASB Statements No. 25 and No. 27*. The objective of this Statement is to improve the usefulness of information about postemployment benefits other than pensions included in the general purpose external financial reports of state and local governmental OPEB plans for making decisions and assessing accountability. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for all postemployment benefits (pensions and OPEB) with regard to providing decision-useful information, supporting assessments of accountability and inter-period equity and creating additional transparency. The City has determined that GASB Statement No. 74 has no impact on its financial statements as of December 31, 2017.

In January of 2016, GASB Statement No. 80, *Blending Requirements for Certain Component Units an Amendment of GASB Statement No. 14*, was issued. The requirements of this Statement are effective for reporting periods beginning after June 15, 2016. This Statement amends the blending requirements established in paragraph 53 of GASB Statement No. 14, *The Financial Reporting Entity*, as amended. This Statement amends the blending requirements for the financial statement presentation of component units of all state and local governments. The additional criterion requires blending of a component unit incorporated as a not-for-profit corporation in which the primary government is the sole corporate member. The additional criterion does not apply to component units included in the financial reporting entity pursuant to the provisions of GASB Statement No. 39, *Determining Whether Certain Organizations Are Component Units an Amendment of GASB Statement No. 14*. The City has determined that GASB Statement No. 80 has no impact on its financial statements as of December 31, 2017.

In March of 2016, GASB Statement No. 81, *Irrevocable Split-Interest Agreements*, was issued. The requirements of this Statement are effective for financial statements for periods beginning after December 15, 2016 and should be applied retroactively. The objective of this Statement is to improve accounting and financial reporting for irrevocable split-interest agreements by providing recognition and measurement guidance for situations in which a government is a beneficiary of the agreement. This Statement requires that a government that receives resources pursuant to an irrevocable split-interest agreement recognize assets, liabilities and deferred inflows of resources at the inception of the agreement. Furthermore, this Statement requires that a government recognize assets representing its beneficial interests in irrevocable split-interest agreements that are administered by a third party, if the government controls the present service capacity of the beneficial interests. This Statement requires that a government recognize revenue when the resources become applicable to the reporting period. The City has determined that GASB Statement No. 81 has no impact on its financial statements as of December 31, 2017.

In March of 2016, GASB Statement No. 82, *Pension Issues an Amendment of GASB Statements No. 67, No. 68 and No. 73*, was issued. The requirements of this Statement are effective for reporting periods beginning after June 15, 2016, except for the requirements of this Statement for the selection of assumptions in a circumstance in which an employer's pension liability is measured as of a date other than the employer's most recent fiscal year-end. In that circumstance, the requirements for the selection of assumptions are effective for that employer in the first reporting period in which the measurement date of the pension liability is on or after June 15, 2017. The objective of this Statement is to address certain issues that have been raised with respect to GASB Statements No. 67, No. 68 and No. 73. Specifically, this Statement addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements. As required, the City has implemented GASB Statement No. 82 as of December 31, 2017.

The City maintains budgetary control on a non-GAAP basis at the character level (personnel and related expenditures and other expenditures) within each division. Lower levels within each character are accounted for and reported internally. Lower levels are referred to as the program level. Estimated expenditure amounts must be pre-encumbered and subsequently encumbered prior to the release of purchase orders to vendors or finalization of other contracts. Pre-encumbrances and encumbrances that would exceed the available character level appropriation are not approved or recorded until the Council authorizes additional appropriations or transfers. Unencumbered appropriations lapse at the end of each calendar year. As an additional control over expenditures, the City Charter requires that all contracts in excess of \$50,000 shall first be authorized and directed by ordinance of Council.

Budget-to-actual comparisons are provided in this report for each individual governmental fund for which an appropriated annual budget has been adopted. For the General Fund, this comparison is shown on page 65 as part of the basic financial statements. For other governmental funds with appropriated annual budgets, this comparison is presented in the supplementary information subsection of this report along with more detailed information regarding the General Fund, which starts on page 140.

Factors Affecting Financial Condition

Local Economy

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the City operates.

The City's economic condition draws strength and stability from its evolving role as the focal point of a growing, changing and substantial regional economy. The City is located at the center of one of the nation's heaviest population concentrations. The Cleveland Metropolitan area is a significant local market, housing 2.1 million people. The City also provides superior links to the global markets. The Cleveland-Cuyahoga Port Authority handles the largest amount of overseas cargo on Lake Erie and includes a Foreign Trade Zone. The City is also well-served with extensive highways and Cleveland Hopkins International Airport is serviced by all major airlines. The re-emergence of downtown Cleveland as a vibrant center for national and regional entertainment and major cultural activities signals a turning point in the City's overall fortunes and is paving the way for further economic expansion that will be significantly more entrepreneurial in scope.

Major Industries, Economic Conditions and Employment

The City, as well as most large urban municipalities across the nation, has faced significant economic challenges in recent years. Like all manufacturing cities across the country, the City has tried to combat the declining industry base with more professional and service industry opportunities. The City's budget basis income tax collections increased 23.6% in 2017 due to an increased income tax rate from 2.0% to 2.5%.

While the City's economy has shifted more toward education and health care services, its manufacturing base has assumed a smaller, yet still vital role. Competitive pressures in manufacturing have limited job creation, but the competitive position of the City based industrial companies has improved.

For 2017, the U.S. Bureau of Labor Statistics (BLS) indicates that the Cleveland area employment base continues to become more diversified. The following table summarizes the percentage of nonfarm employment in the Cleveland area by major industry.

Industry	Percent of Workforce
Education and health services	20.10 %
Trade, transportation and utilities	17.67
Professional and business services	13.73
Government	12.81
Manufacturing	11.52
Leisure and hospitality	9.46
Financial activities	6.30
Other services	3.79
Mining, logging and construction	3.31
Information	1.31
Total	<u>100.00 %</u>

Current Projects and 2017 Accomplishments

The 2017 budget focused on continuing the City's commitment to improve the quality of life of its citizens by strengthening its neighborhoods, fostering a favorable business climate and providing superior services.

The City achieved the following 2017 programmatic goals and projects:

Department of Community Development

- The Department continued implementing neighborhood strategies to reduce blight and promote recovery from the economic downturn by making or supporting investments throughout Cleveland. Investments include, but are not limited to demolition, housing renovation, home repair, land reutilization, development of new affordable housing, storefront façade improvements, addressing homelessness and needed public services. All approaches are consistent with the Citywide plan to deploy sustainable and green principles.
- The U.S. Department of Housing and Urban Development (HUD) approved its priorities to focus our resources to address Affordable Housing, Homelessness, Non-Homeless Persons with Special Needs, Stabilizing Neighborhood Housing Markets, Non-Housing Community Development and Public Housing. The City receives approximately \$25 million in entitlement funding. This amount represents the eighth largest block grants in the country. Using the City's network of over 80 partners, the City is able to deploy funding to those that need help. Each year, on average, the City's entitlement program benefits over 100,000 residents, 300 housing units and leverages over \$10 million in other resources.
- All housing projects that receive City financial assistance, including tax abatement, are required to meet the City's Green Building Standards (GBS). The GBS incorporates national standards such as Leadership in Energy & Environmental Design (LEED) and Enterprise Community Partners' Green Community Standards.
- Several noteworthy multifamily projects were completed in 2017, including The Lofts at Lion Mills, a 36-unit rehabilitation of an existing building to support affordable housing and Hough Heritage, a 60-unit newly constructed building of affordable housing targeted at a population with income of 60.0% or less than the area wide median income.
- Construction started on several projects that promoted strategic Citywide or neighborhood objectives, including Emerald IX, breaking ground on 66 permanent supportive housing apartment units and Aspen Place, serving low and moderate income households in a 40-unit apartment building.
- The Department addressed lead hazards in 131 units of housing through the Lead Hazard Reduction Demonstration Grant. The City was awarded a new Lead Demonstration Grant in June of 2017 for \$3.4 million.

Department of Building and Housing

- The Department inspected, condemned and razed over 500 structures.
- Initiated 1,539 court cases against negligent property owners.
- Issued 3,780 violation notices.
- Issued 17,865 construction permits valued at \$1.339 billion in new construction.
- Boarded-up and secured 2,871 vacant structures.
- Issued 1,117 condemnation notices.

Department of Economic Development

- The Department received grant and pass through loan funding in excess of \$3.4 million. The grants include DigitalC's MidTown Tech Hive and the Dave's Supermarket on Chester Avenue. The MidTown Tech Hive project features a partnership with DigitalC and the Teaching Institute for Excellence in Science, Technology, Engineering and Math (STEM) to provide co-working space for entrepreneurs, with a focus on the neighborhoods surrounding the Health Tech Corridor.
- The Small Business Administration (SBA) provides recoverable grants to businesses that may face difficulties meeting the SBA's 25.0% equity requirement. The City provides up to \$50,000 of total project cost to each borrower, reducing the business' equity needs to as little as 10.0%. The Department provided \$52,692 in 2017 with total project costs of \$545,000, exhausting the original grant. The County and the City agreed to add an additional amount of \$250,000 each to re-authorize the program in late 2017.
- The Neighborhood Retail Assistance Program provided \$439,500 of assistance for 12 projects that leveraged almost \$1.7 million of total project investment. Vacant storefronts are being replaced by restaurants, cafés and locally-owned retail shops. The small businesses will create 35 new jobs. A few of the loan recipients include Il Rione Pizzeria, Urban Kutz Barbershop and Café Sausalito.
- Under the Vacant Property Initiative (VPI) Program, the City provided approximately \$1.2 million in assistance to 9 borrowers. The total project cost for these borrowers is almost \$29 million and will create over 250 new jobs. A few borrowers include Simon's Supermarket, the Tenk Center and Pioneer Cladding and Glazing.

Department of Public Health (CDPH)

- The Division of Environment inspected approximately 3,100 food operators for a total of approximately 7,200 inspections, 127 pools and 330 schools. The Division responded to over 600 cases where high levels of lead were found in a child's blood. The Division investigated over 5,000 citizen nuisance complaints and issued 1,234 tickets.
- The Division of Health program, Mom's First, served over 1,700 participants in 2017. The infant mortality rate (IMR) for babies in the Mom's First program is 5.4 per 1,000 live births, compared to the overall IMR of 10.2 per 1,000 live births.
- In 2017, the Community Health Worker Certification training program was introduced through the Ohio Board of Nursing. This will directly impact the quality of services provided through this intervention.
- The HIV programs distributed over 99,000 condoms and conducted 11,343 HIV tests. The social media marketing campaigns totaled more than 17.9 million impressions across all media platforms.
- Over 1,200 childhood immunizations and 900 flu shots were administered.
- Behavioral Health had an increase in demand for services, particularly as opiate use continued to grow. CenterPoint, an outpatient alcohol and drug treatment program, has been helping citizens by offering treatment programs.
- Vital statistics issued 58,805 birth certificates and 64,265 death certificates.
- The Division of Air Quality issued four action referrals, 83 notices of violation and 95 resolutions of violation signifying an 87.0% compliance rate on facility inspections.
- The Division of Air Quality completed 286 asbestos inspections, 18 Title V facilities inspections, 13 Federally Enforceable Permit to Install and Operate facility inspections, six unannounced minor facility inspections, 57 gasoline dispensing facilities inspections and five anti-tampering used car dealership inspections.
- The Division of Air Quality investigated over 400 citizen complaints and distributed three Citizen Air Monitoring Program canisters to the community.

- The Department partnered with TV20 and produced the segments that discussed Mom's First and how families can receive services, Safe Sleep, information on mobile food pantry, importance of childhood immunizations, public service announcements on HIV, syphilis as well as seasonal influenza with the importance of receiving a flu vaccine.

Department of Aging

- Provided core services to 5,013 unduplicated clients, seniors and adults with disabilities.
- Secured approximately \$650,000 in grants to support programs for seniors and adults with disabilities.
- The Annual Senior Day attracted more than 2,000 senior citizens. The Annual Cleveland Senior Walk, held in September had over 1,000 participants. The Annual Disability Awareness Day luncheon held in October included over 200 participants.
- Age Friendly Cleveland worked on implementing six age-friendly strategies that will improve the age-friendly features of the City including the falls prevention campaign, age-friendly checklist in city planning, call-in senior center, senior companions, medical equipment exchange and age-friendly event planning guide.

The Office of Equal Opportunity (OEO)

- Under Codified Ordinance No. 188, OEO penalizes contractors that fail to meet the Cleveland Resident Employment Law. Since 2009, over \$398,000 in penalties have been collected for non-compliance with Codified Ordinance No. 188.
- Under Codified Ordinance No. 123.08, OEO is the Citywide Prevailing Wage Coordinator. Since 2011, OEO has established itself as a convener and facilitator of standardized policies and procedures related to prevailing wage. This model of Prevailing Wage Coordinators informally reporting to the Director of OEO to ensure standardization in practices, policies and procedures has been deemed effective. In addition, the implementation of Labor Compliance Tracker (LCP) software has enhanced standardization and effectiveness through technology. As such OEO, through the Director, will continue the role of convener and facilitator.
- OEO has been utilizing two compliance software systems, Business to Government Now (B2GNow) and LCP. Adoption of this technology meets the Mayoral goal of efficiency through technology.
- In 2017, OEO continued to maintain a registry of certified contractors. To date, there are 632 certified contractors in B2GNow. The certification team continues to provide in-depth consultation to applicants assisting them with certification and engaging contractors with doing business with the City. Additionally, the certification team provides business development and outreach through Contractors' Meetings; a platform of sharing information, networking and outreach.

Department of Public Works

- The Division of Recreation served 110,195 nutritious after school and summer meals.
- The Bureau of Cultural Arts had the most artistic entries for the 2017 National Arts Program of anyone in the nation. In 2017, there were 275 entries from the Division of Recreation.
- The Division of Recreation started the Mural Mania program where youth design and paint indoor murals at recreation centers with the guidance of recreation instructors. Murals were painted at Estabrook and Cudell.
- The Division of Recreation sent a youth basketball team to Lithuania to compete in the Children's Games. The team won the silver medal. A team was also sent to Orlando for the Summer Classic and that team placed 2nd also receiving a silver medal.

- In collaboration with the Mayor's Office, the Division of Recreation implemented various Preventative Intervention Opportunities including chess, yoga, visits to the Karamu Theatre, Cleveland rape crisis seminars, photography and dance.
- The Division of Recreation developed a partnership with the Foundry and started rowing and sailing programs. This partnership allows youth to learn the techniques of rowing, sailing, water safety and experience the sports on the water.
- The Division of Recreation had an obstacle course at the Mayor's Night Out Against Crime and had over 150 youth and adult participants.
- The Division of Recreation in partnership with Youth Opportunities Unlimited (YOU), provided worksites for 430 youths during the summer; 371 youths at centers and 59 youths at pools. The City's recreational facilities hosted approximately 12.0% of last year's 3,551 participants of YOU.
- The Division of Park Maintenance serviced 72,837 vacant properties, provided four Citywide cuts to vacant lots and performed 1,465 illegal dumpsite clean-ups.
- The Division of Park Maintenance, Urban Forestry unit, trimmed 3,184 trees, removed 1,344 trees and planted 235 new trees.
- The Division of Motor Vehicle Maintenance (MVM) purchased 110 new vehicles, which included 85 police vehicles, three plow trucks, nine ambulances, two fire trucks, four street sweepers, five waste collection trucks and two leaf box trucks.
- MVM re-evaluated department vehicles and they were rehabbed and reassigned to other departments for use.
- MVM upgraded their computer software programs, which increased technician productivity and assists with logging of their daily activities.
- The Division of Waste Collection collected and disposed of 241,250 tons of debris and recycled 26,915 tons of materials.
- The Division of Streets resurfaced 476,296 square yards of curb-to-curb projects.
- The Division of Traffic Engineering painted 630 miles of lane lines and replaced 1,300 traffic light bulbs. The Division also upgraded traffic signs and 72 intersections to energy efficient Light Emitting Diode (LED) bulbs.

Department of Public Safety

- The Law Enforcement Records Management System (LERMS) for the Division of Police was upgraded in 2017 and now provides enhanced record-keeping and management functions. The robust LERMS platform streamlines police reporting and has allowed for the implementation of Field Based Reporting. Upon completion of Division-wide training in January 2018, all district personnel will have the ability to enter police reports directly to the LERMS from the mobile data terminals located in police patrol vehicles.
- The Division of Police has completely revised its use of force policies. Employing new and innovative approaches to instruction with the traditional classroom setting being augmented with scenario-based action and role play. The use of force training focused on de-escalation, dealing with the mentally ill and people in crisis. In 2017, all officers in the Division were trained and tested on the new use of force policies which went into effect at the beginning of 2018.
- The City of Cleveland Division of Emergency Medical Service (EMS) logistics section replenished over 300 first aid kits utilized by the Division of Police to provide life-saving first aid.

- The Matter of Balance Program continued in 2017 with additional sites, targeting locations where EMS frequently has service calls for falls.
- In 2017, recognizing the opioid epidemic that plagues our community, EMS collaborated with Project Dawn to dispense Project Dawn Kits to the public. Project Dawn Kits provide naloxone to individuals, family members or friends for those at risk of opioid overdose. Naloxone reverses the effects of opioids, (including but not limited to heroin, fentanyl and analogs.) The Project Dawn Kits are dispensed from EMS headquarters during normal business hours as well as from the ambulance while on emergency calls for those at risk of opioid overdose.
- The City and Cuyahoga County Sheriff have reached an agreement to have the Cuyahoga County Sheriff assume all jail duties for the City of Cleveland. By August 2018, it is anticipated that all City jail facilities will be closed and all arrests within the City of Cleveland will be booked, processed and housed at the County jail.
- The Office of Professional Standards continues to make progress in updating their operating procedures for investigations. The responsibility for investigating complaints against Cleveland police officers has been transferred to civilian investigators rather than police officers. The City and the U.S. Department of Justice (DOJ) signed a settlement agreement, known as a Consent Decree, which marks a new way of policing in the City, one built on a strong foundation of progressive change, sustained trust and accountability. The Consent Decree is a reflection of ideas from people and groups across the community – including residents, civil rights organizations, activists, clergy, student groups, business and philanthropic organizations and elected officials, as well as the police unions and the Division of Police.
- The complete civilianization of the Office of Professional Standards investigative staff is working to break down barriers, real or perceived, between the community and the Division of Police. The Office of Professional Standards now provides online access to the complaint process, free parking for complainants and the installation of audio and video cameras in the lobby of every police district.
- The Office of Professional Standards and the Civilian Police Review Board are working closely with the DOJ and the monitoring team to ensure that citizen complaints involving sworn and civilian employees of the Division of Police are thoroughly investigated and resolved. New operating manuals for the Office of Professional Standards and the Civilian Police Review Board have been drafted and staffing levels have been increased to ensure complaints are investigated timely and resolved fairly and impartially. These changes have been implemented to build trust and accountability.
- The Cleveland Division of Animal Care & Control City Dogs Program continues to be a big success. It is anticipated that construction of the new City Kennel to be located at W. 93rd and Detroit Avenue will be completed in December 2018.

Department of Public Utilities

- The Division of Water services not only the City, but also 75 direct service communities, seven master meter communities and three emergency standby communities. They provide water to approximately 418,000 city and suburban accounts in the Cleveland metropolitan area. Of these 418,000 accounts, approximately 114,000 accounts were located within the City; accounting for 23.2% of the Division's metered sales revenue. The Division also sells water to master meter communities that operate their own distribution systems and they provide billing and payment services for the Northeast Ohio Regional Sewer District (NEORS) and other communities. In 2017, the major capital projects for the Division of Water included suburban water main renewal, network upgrades and motor vehicles.
- The Division of Cleveland Public Power (CPP) provided approximately 73,000 residential and business customers in the City with reliable and affordable power. In 2017, CPP sold approximately 1.588 billion Kilowatt hours (kWh) of electricity. In 2017, the major capital projects for the Division of CPP included transformers, motor vehicles and infrastructure related to the Opportunity Corridor.

- The Division of Water Pollution Control maintains the local sanitary sewer and storm water collection system within the City. The system is comprised of over 1,400 miles of sewer lines, more than 44,000 storm drains and 12 pump stations. In 2017, the Division's sewers transported 1,789,836 thousand cubic feet (Mcf's) of water. In 2017, the major capital projects for the Division included sewer installations, connections, replacements and rehabilitation, as well as motor vehicles.

Department of Port Control

- During 2017, Cleveland Hopkins International Airport (CLE) enplaned 4,562,740 passengers and had aircraft landed weight of 5,455,096,000 pounds.
- In 2017, the CLE Airport Inline Baggage System was implemented. It allows for all airline passenger checked bags to be processed in one consolidated system. All airlines now operate with the optimized system, which has allowed for standalone screening machines to be removed from the ticketing lobby and has increased capacity for pedestrian movements and landside operations.
- During 2017, a snow removal equipment facility was substantially completed. This will provide a storage building for all snow removal equipment instead of the equipment being parked in open lots and exposed to the elements.
- The Department is working to provide a redundant electrical feed to the Airport that is required during critical events that affect power to terminal spaces as well as the security checkpoints, vertical circulation, ticketing lobby and bag claim areas. The objective is to provide uninterrupted power to the Airport environment from either of the main substations. This project was substantially completed in 2017.

Department of Law

- Drafted approximately 511 contracts and reviewed 915 contracts for legal form and correctness.
- Prepared and processed 458 pieces of legislation for introduction to City Council.
- Obtained 636 search warrants for Housing Court enforcement actions and helped the Department of Building and Housing obtain legal authorization for 484 demolitions of unsafe structures in the City.
- Responded to 2,330 citizen requests for non-routine public records and responded to 277 subpoenas for public records.
- Implemented the web-based records request system in October 2017. From the time that it was implemented until the end of the year, the City responded to 2,899 public record requests.
- Processed 655 claims for property damage and other losses.
- Represented the City in 859 civil cases pending in various Ohio state and federal courts.
- Prosecuted 1,543 criminal complaints in housing court for failing to comply with the Department of Building and Housing administrative orders at sites with code violations found at properties. Successfully prosecuted civil nuisance abatement actions for numerous properties across the City.
- Processed 2,840 citizen complaints in the prosecutor's office.
- Issued 17,290 misdemeanor charges, of which, 1,314 were domestic-violence and issued 4,579 felony charges, of which, 506 were domestic violence.
- Issued 1,648 operating vehicle impaired charges and 35,662 traffic offense charges.

Office of Capital Projects

- The Office of Capital Projects completed construction on several projects including Cleveland Parkway Drive (Rocky River Drive to East end at cul de sac); East 71st Street (Harvard Avenue to Grant Ave); Harvard Avenue (East 93rd Street to East 116th Street); Scranton Road (Fairfield Avenue to Carter Road); Carter Road (Scranton Road to Columbus Road); Clark Avenue (Lorain Road to West 65th Street); East 152nd Street (Waterloo Road to Woodworth Avenue); and Pearl Road (Brookpark Road to I-71).
- In conjunction with the City's resurfacing program, 764 American with Disability Act (ADA) ramps were installed.
- There were 88 required inspections and inventory of bridges completed.
- The Office of Capital Projects inspected 320 roads, bridges, subdivisions and utility cut projects in the public right of way to ensure quality control.
- The Office of Capital Projects furthered the City's neighborhood revitalization efforts through the implementation, construction and/or rehabilitation of City facilities and infrastructure, design and/or construction was completed on the East Side Maintenance Facility, West Side Market Phase Five parking lot, 205 St. Clair Finance, Ridge Road Transfer Station Truck Scale Phase One as well as several recreation center and park improvements.
- Managed the Towpath Trail Project, including groundbreaking for Stage Three, Steelyard Commons to Liberty Avenue and secured a grant of \$500,000 from the State of Ohio Clean Ohio Trails Fund for Stage One, Harvard Avenue to Steelyard Commons.
- Managed consultants and site selection process for the new Cleveland Police headquarters for the Department of Public Safety.
- Continued oversight of right of way and real estate matters for roads and bridge reconstruction projects including: Hope Memorial Bridge Rehabilitation, Opportunity Corridor, Carter and Scranton Roads, West 73rd Street and Battery Park Avenue Extension, East 152nd Street and West 19th Street.
- Handled real estate transactions needed for various public works and private development projects including: Centric, Cedar Hill Multipurpose Trail, new Lincoln Park gazebo, East 9th Street Rock Boxes, Mt. Pleasant neighborhood historic markers and Flats East Phase Two.
- Negotiated and completed leases or lease renewals with Ohio Means Jobs workforce program headquarters, Cleveland Heights-University Heights City School District for a portion of Roxboro Middle School campus and Cleveland Police commission.
- Oversaw and coordinated real estate matters for the Cleveland Metropolitan School District's master facilities plan, NEORS D Project Clean Lake green and grey infrastructure projects and various projects with the Cleveland Metroparks and City's Department of Public Utilities.

Office of Sustainability

- Renewed EnergyCAP Utility Data Management Software and managed and reported on utility and energy data for all City facilities. Since 2010, the City is using 9.0% less energy per square foot of building space, saving more than \$4 million per year.
- The City is recognized as a SolSmart Bronze City for advancing solar energy growth. The City achieved this recognition partly for completing a solar guide, making it easier for residents and businesses to go solar.
- Continued implementation of Mayor Jackson's Sustainable Cleveland 2019 initiative, including hosting the ninth annual Sustainable Cleveland Summit and celebrating the Year of Vibrant Green Space throughout 2017.

- Promoted green building by continuing to implement the Sustainable Municipal Building Policy that was adopted in 2013. This policy requires that green building practices are incorporated into the siting, design, construction, remodeling, repair, maintenance, operation and deconstruction of all City facilities.
- Procured 11 water bottle filling stations and replacement filters for the City facilities, including eight recreation centers.
- Secured or managed the following grants: \$442,000 from the U.S. Environmental Protection Agency (EPA) to install approximately 20,000 square feet of permeable pavers and plant 150 trees at Marion Motley Park; \$350,000 from the U.S. EPA and City of Cleveland Community Cost Share to install four bio-retention cells at Wildwood Park to improve water quality at nearby beaches; \$250,000 from NEORS to install a rain collection system at the new City Kennel; \$110,000 from Partners for Places and the Gund Foundation to support an update to the Cleveland Climate Action Plan and neighborhood climate action projects, with a focus on equity and engagement; \$100,000 from the U.S. Forest Service to plant approximately 150 trees in the Cudell and Buckeye-Shaker neighborhoods; \$50,000 from the Ohio Development Services Agency for a feasibility study assessing potential for alternative fuel use, including electric vehicles, in the City's fleet; and \$5,000 from the Cuyahoga County Solid Waste District for recycling education.
- Continued implementation of the City's Bikeway Implementation Plan by adding 13 miles of bikeway.

2018 Budget

During 2017, the City started the process of enhancing City services using the additional income tax dollars resulting from a 0.5% income tax increase that was passed in November 2016. Some of the major City Departments that had service enhancements include the Department of Public Safety, Public Works, Public Health and the Mayor's Office of Capital Projects. The enhanced services will continue in 2018.

The estimate of receipts and expenditures for all General Fund departments and divisions for the 2018 budget are:

- Total revenues and other financing sources are projected to increase from \$615.2 million in 2017 to \$623.5 million in 2018. This increase is predominantly attributed to the collection of a full year of income tax at the 2.5% rate, as opposed to 2017, which received income tax collections at this rate for 11 of the 12 months.
- Total expenditures and other financing uses are estimated to increase from \$595.8 million in 2017 to \$622.9 million in 2018. This increase, again, can be attributed to the increase in income tax receipts as the City will provide additional and enhanced services. The Division of Police plans to hire 150 police officers in 2018 and an additional 100 officers in the first quarter of 2019. A minimum of four academy classes are planned during 2018. The Division of Fire will hire 80 personnel to maintain staff levels and account for attrition. The Division of Emergency Medical Service added three new EMS bases to the city neighborhoods and will add 48 new Emergency Medical Technicians/paramedics, including promoting five supervisors to oversee field operations. The Division of Animal Care and Control will open a new \$4 million kennel in 2018. The Office of Professional Standards will enhance operations to meet the citizen complaint goals of the Department of Justice by a staff increase of one senior investigator, two full-time investigators and a community engagement coordinator. The Cleveland Department of Public Health will focus on addressing and preventing lead poisoning, reducing infant mortality and HIV and sexually transmitted disease rates, impacting the opiate epidemic, improving our environment and becoming a fully accredited local health department. The Department of Public Works will continue using its enhanced budget to maintain staff added in 2017 and continue improving city services such as street sweeping, pothole repair, waste collection, leaf removal and more. The Department of Building and Housing will continue to implement and create healthy neighborhoods by increasing rental registration to 57,000 rental units, systematically inspecting rental units for life, safety and lead issues and razing structures through the Safe Routes to School Demolition Program.

Long-term financial planning:

The City has a long-term goal of increasing the Rainy Day Reserve Fund to 10.0% of General Fund budgetary expenditures and other financing uses (approximately \$59.6 million). The fund balance in the Rainy Day Reserve Fund at December 31, 2017 was \$26.0 million. This will allow the City to obtain the lowest rates possible when issuing debt and also withstand economic downturns with minimum disruptions to City services. The City also has a goal of having a structurally balanced budget where the cost to run the City is in line with the revenue collected. A structurally balanced budget allows the City to eliminate the dependency on a carry-over balance. The City was able to achieve a structurally balanced budget for 2017 and 2018.

The following projects currently underway will provide the momentum necessary to continue rebuilding the City's economic base:

- The Cleveland Clinic and Case Western Reserve University continued construction. This project is intended to burnish the City's image as a center of medicine and medical education. The four-story building will house the Cleveland Clinic Lerner College of Medicine, Case Western Reserve University's School of Medicine, School of Dental Medicine and Frances Payne Bolton School of Nursing. It will include a free-standing, two or three story dental clinic. The Health Education Campus is scheduled to open in the summer of 2019.

Business Incentives and creating Economic Development

Note 20 – Tax Abatements are a requirement in the City's CAFR, based upon GASB Statement No. 77, *Tax Abatement Disclosures*. This footnote disclosure focuses on lost tax dollars and the costs to government entities. The following will reveal the benefits derived from offering business incentives.

Department of Economic Development

In partnership with Hemingway Development, Dave's Supermarket will be constructing a brand new grocery store located at the corner of East 61st Street and Chester Avenue. This 60,000 square foot new construction supermarket will be part of the Hemingway Development's Link59 campus. The one-story building will include approximately 50,000 square feet for the grocery store and approximately 10,000 square feet of mezzanine space for a pharmacy, bank and neighborhood gathering space. The total development cost for the project is approximately \$16.7 million. In order to fund a gap in the construction budget, the City provided multiple incentives including a 10 year, 75.0% tax abatement, HUD 108, Stormwater Ohio Development Services Agency and Vacant Property Initiative loans. The project estimates the retention of 115 full-time equivalent jobs in the City, with an annual payroll of \$3.9 million.

In addition, new developments are coming to the East Side Market, which is a City-owned building located on the corner of East 105th Street and St. Clair Avenue. It operated as a public market until 2007 and has since been vacant. Northeast Ohio Neighborhood Health Services, Inc. (NEON), responded to a request for proposal to lease the East Side Market from the City and plans to sublease space out to food related businesses. The 19,620 square foot building will become a full service grocery store, occupying a minimum of 60.0% of the building. NEON will also open a health and wellness center. The building will also include a number of other amenities as well, including a café style eatery, demonstration kitchen, event space, specialty kiosks, refrigerated storage and distribution space for lease to neighborhood entities, farmer's market vendor spaces and free Wi-Fi. Total project costs for redevelopment are estimated at \$4.3 million. The Department of Economic Development helped provide a 10 year, 75.0% tax abatement for the new grocery location. The project estimates to create approximately 25 full-time jobs with an estimated payroll of \$520,000.

Department of Community Development

The Community Reinvestment Area (CRA) Program is a direct incentive tax exemption program benefiting property owners who renovate existing or construct new residential buildings to encourage revitalization of the existing housing stock and the development of new structures. This program permits municipalities or counties to designate areas where housing investment has been discouraged.

The tax abatement process starts with the applicant completing an application with supporting documentation of the completed construction/rehabilitation work.

The City reviews the application to ensure the applicant meets program requirements; if the application is in compliance with the program requirements the City will approve and grant the tax abatement. The City notifies and provides a copy of the instrument granting the tax exemption to the Cleveland Municipal School District. The City forwards the application to the Cuyahoga County Fiscal Officer office for further processing. The Cuyahoga County Appraisal Department under the County Fiscal Officer, assigns taxable values to new construction or remodel residential property.

The tax abatement program is an important and useful tool; for developers as an attractive incentive for promoting home sales; for homebuyers by making homeownership more affordable; and for the City, helping to make it a city of choice.

Monitoring incentives:

The City is required by Statute, to file online annually, by March 31st, all CRA tax abatement information with the State of Ohio.

The City pursuant to various sections (5709 and 3735) under the Ohio Revised Code, established a housing council. This housing council consists of seven members: two are appointed by the Mayor, one member is appointed by the Planning Commission, two members are appointed by City Council and two are appointed from the other members of the housing council. They serve three year terms. Their purpose is to look at the property conditions of the residential properties that have been granted CRA incentives.

Tax abatement is available to both homeowners and developers. Work must be completed under a permit issued by the City's Department of Building and Housing on property located in the City only. During 2016, the length or term of abatement would vary from 10 to 15 years depending on the type of project respectively. For tax abatements processed after August 8, 2017, pursuant to Ordinance # 244-17, passed May 22, 2017 and effective May 24, 2017, the term for all projects eligible for CRA tax abatement is 15 years.

The Residential Property Tax Abatement Program aims to:

- Stimulate community revitalization
- Retain city residents and attract new residents
- Attract homeowners
- Reduce development costs for homeownership and rental projects

Residents and developers seeking tax abatement for residential projects must meet Cleveland GBS.

The GBS is designed to save homeowners money on utilities and support local green jobs, while also improving the health of the community and reduce our collective contribution to climate change. GBS also creates direct benefits for developers and builders, including cost savings from efficient operation, a marketing advantage and public recognition for high performance homes. Tax abatement has contributed to the development of 22,228 units of housing dating back to 1994. Since 2010 (the first year of GBS), 4,232 GBS units were completed. In 2016, a total of 1,012 units met the GBS.

- Single family – 62 new construction, 79 rehabs
- Multi-family – 232 new construction, 639 rehabs

The City has offered tax abatements to various affordable housing development projects. The tax abatement program has made affordable low income housing development projects more affordable to operate and to pass savings on to tenants by providing lower rents. These types of housing development projects are not financially feasible without the total funding package that includes tax abatement.

The City has additional development programs that do not meet the requirements of GASB Statement No. 77.

Major Initiatives

As the City plans ahead to achieve increased municipal efficiencies and enhanced infrastructure coordination, the Mayor has launched the following initiatives:

- *Connecting Cleveland 2020 Citywide Plan* – a plan for the future of the City and its neighborhoods. It seeks to create great neighborhoods by creating “connections” between people, places and opportunities. It is developing buildings as well as developing people and communities. It means linking the physical and the social in order to create a community that is truly viable and sustainable. The plan lays out a practical vision to achieve its goals through a strategy that builds on the City’s unique assets and the assets in each of its diverse neighborhoods.
- *Mayor Frank G. Jackson Scholarship Program* – improving the quality of life for all residents has been the driving force behind the goals Mayor Jackson has set for his administration. The key to this effort is ensuring that all children have access to a high quality education. As such, due to the generous contributions through the United Way Combined Campaign, the Mayor established several scholarship programs to support the City employees, their children and Cleveland Municipal School District students interested in pursuing a full-time college education.
- *Sustainable Cleveland 2019* – a 10-year initiative facilitated by the Office of Sustainability that engages people from all walks of life, working together to design and develop a thriving and resilient region. Working groups emerge from the annual Sustainable Cleveland 2019 summits and focus on different topics to build a brighter future for Cleveland. Since 2013, the City has implemented its sustainable building policy on new construction, renovations and Fix it First projects. This policy sets the standard of LEED silver for new construction.
- *Clean Cleveland* – is a systematic delivery system designed to deliver service more efficiently and improve quality of service to Cleveland neighborhoods, without spending more money. Departments and divisions coordinate across boundaries to provide services, not limited to vacant structure clean-up, waste collection, street sweeping, graffiti removal, hydrant painting and abandoned structure board up or demolition.

Awards and Acknowledgements

The Independent Audit: The City Charter requires an annual audit of the financial statements of all accounts of the City by an Independent Certified Public Accountant. Accordingly, this year’s audit was completed by Clark, Schaefer, Hackett & Co. The year ended December 31, 2017, represents the 37th consecutive year the City has prepared a CAFR. In addition to the independent auditors, the City maintains its own Internal Audit Division. Along with the duty of assisting the independent auditors, the Internal Audit Division is responsible for strengthening and reviewing the City’s internal controls. The Internal Audit Division performs its own independent operational and financial audits of the City’s many funds, departments and divisions. We believe that the City’s internal control structure adequately safeguards its assets and provides reasonable assurance of proper recording of all financial transactions.

Government Finance Officers Association (GFOA) Certificate of Achievement Award: The GFOA of the United States and Canada awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Cleveland, Ohio for its CAFR for the fiscal year ended December 31, 2016. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized CAFR, the contents of which conform to program standards. Such CAFR’s must satisfy both GAAP and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. The City has received a Certificate of Achievement for the last 33 years (years ended 1984 – 2016). We believe our current report continues to conform to the Certificate of Achievement program requirements and we are submitting it to the GFOA.

Acknowledgements: The preparation of this report could not have been accomplished without the efficient and dedicated service of the Finance Department, particularly the Division of Financial Reporting and Control. We would also like to thank the Mayor, the cabinet and members of City Council. Without their continued support, the Department of Finance could not have maintained the financial management practices required to ensure the financial integrity of the City. We would like to thank the representatives of Clark, Schaefer, Hackett & Co. for their efforts and professional conduct throughout the audit engagement.

Very truly yours,

Sharon Dumas, Director

INDEPENDENT AUDITORS' REPORT

To the Honorable Frank G. Jackson, Mayor, Members of Council and the Audit Committee
City of Cleveland, Ohio:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Cleveland, Ohio (the "City") as of and for the year ended December 31, 2017, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Cleveland, Ohio, as of December 31, 2017, and the respective changes in financial position and, where applicable, cash flows and the budgetary comparison for the General Fund thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and schedules of net pension liabilities and pension contributions, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining and individual nonmajor fund financial statements and schedules, capital assets schedules, introductory section, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and schedules and capital assets schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated June 28, 2018 on our consideration of the City of Cleveland's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Cleveland's internal control over financial reporting and compliance.

CITY OF CLEVELAND, OHIO

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the City of Cleveland (the City) we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the year ended December 31, 2017. Please read this information in conjunction with the City's financial statements and footnotes that begin on page 58.

FINANCIAL HIGHLIGHTS

- The assets and deferred outflows of resources of the City exceeded its liabilities and deferred inflows of resources at December 31, 2017 by approximately \$2.692 billion (net position). Of this amount, \$114.6 million (unrestricted net position) may be used to meet the City's ongoing obligations to citizens and creditors.
- Of the approximately \$2.692 billion of net position, governmental activities accounted for approximately \$446.7 million of net position, while business-type activities net position accounted for approximately \$2.245 billion.
- The City's net position increased by \$137.4 million as compared to 2016. The governmental activities net position increased by \$28.5 million and the business-type activities net position increased by \$108.9 million.
- At the end of the current year, unassigned fund balance for the General Fund was \$92.7 million, which represents the amount available for spending at the City's discretion. The unassigned fund balance equals 17.0% of the total General Fund expenditures and other financing uses.
- In 2017, the City's total long-term debt and other long-term debt-related obligations, excluding premiums, accreted interest and discounts decreased by \$125.6 million. The decrease indicates that the City's debt service payments and debt refunded or defeased exceeded new debt issued in 2017.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements are comprised of five components: (1) government-wide financial statements, (2) fund financial statements, (3) General Fund budget and actual statement, (4) notes to the financial statements and (5) required supplementary information. This report also contains other supplementary information in addition to the basic financial statements.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private sector business.

The statement of net position presents financial information on all of the City's assets, liabilities and deferred inflows/outflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities presents information showing how the City's net position changed during the most recent year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City principally include: General Government; Public Works; Public Safety; Community Development; Building and Housing;

Public Health and Economic Development. The business-type activities of the City principally include: water; electricity; and airport facilities.

The government-wide financial statements can be found on pages 58-61 of this report.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on the near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the City's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City presents 31 individual governmental funds on a modified accrual basis. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General Fund, which is considered to be a major fund. Data from the other 30 governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The City adopts an annually appropriated budget for its General Fund, Enterprise and Internal Service Funds. The City adopts an annually appropriated budget for some of its Special Revenue and Debt Service Funds. The General Fund budgetary comparison has been provided as a separate financial statement to demonstrate compliance with its budget.

The basic governmental fund financial statements can be found on pages 62-65 of this report.

Proprietary funds. The City maintains two different types of proprietary funds. The first type is Enterprise Funds. They are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses Enterprise Funds to account for its water, electric, airport, sewer, public auditorium, markets, parking lots, cemeteries and golf course operations. The second type of proprietary fund the City uses is Internal Service Funds to account for its motor vehicle maintenance, printing and reproduction, postal services, utilities administration, sinking fund administration, municipal income tax administration, telephone exchange, radio communications operations, workers' compensation reserve, health self-insurance fund and prescription self-insurance fund. Internal Service Funds are an accounting device used to accumulate and allocate costs internally throughout the City's various functions. Because most of the internal services predominantly benefit governmental rather than business-type functions, they have been included within the governmental activities in the government-wide financial statements, except for the Utilities Administration Fund which has been classified as a business-type activity.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Division of Water, Cleveland Public Power and Department of Port Control Funds, which are considered to be major funds of the City. Conversely, Internal Service Funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the nonmajor Enterprise and Internal Service Funds is provided in the form of combining statements elsewhere in this report.

The basic proprietary fund financial statements can be found on pages 66-70 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City’s own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. All of the City’s fiduciary funds are Agency Funds.

The basic fiduciary fund financial statement can be found on page 71 of this report.

Notes to the financial statements. The notes provide additional information that is essential to achieve a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 73-132 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Information regarding the government-wide net position of the City is provided below:

**Summary Statements of Net Position

During 2015, the City adopted Governmental Accounting Standards Board (GASB) Statement No. 68, *Accounting and Financial Reporting for Pensions – an Amendment of GASB Statement No. 27* and GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date – an Amendment of GASB Statement No. 68*, which significantly revised accounting for pension costs and liabilities. For reasons discussed below, many end users of these financial statements will gain a clearer understanding of the City’s actual financial condition by adding deferred inflows of resources related to pension and the net pension liability to the reported net position and subtracting deferred outflows of resources related to pension.

GASB standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. When accounting for pension costs, GASB Statement No. 27 focused on a funding approach. This approach limited pension costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan’s net pension liability. GASB Statement No. 68 takes an earnings approach to pension accounting; however, the nature of Ohio’s statewide pension systems and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

Under the new standards required by GASB Statement No. 68, the net pension liability equals the City’s proportionate share of each plan’s collective:

1. Present value of estimated future pension benefits attributable to active and inactive employees’ past service
2. Minus plan assets available to pay these benefits

GASB notes that pension obligations, whether funded or unfunded, are part of the “employment exchange” – that is, the employee is trading his or her labor in exchange for wages, benefits and the promise of a future pension. GASB noted that the unfunded portion of this pension promise is a present obligation of the City’s, part of a bargained-for benefit to the employee and should accordingly be reported by the City as a liability since they received the benefit of the exchange. However, the City is not responsible for certain key factors affecting the balance of this liability. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State Statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State Statute. The employee enters the employment exchange with the knowledge that the employer’s promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the pension system. In Ohio, there is no legal means to enforce the unfunded liability of the pension system against the public employer. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The pension system is responsible for the administration of the plan.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability. As explained above, changes in pension benefits, contribution rates and return on investments affect the balance of the net pension liability, but are outside the control of the City. In the event that contributions, investment returns and other changes are insufficient to keep up with required pension payments, State Statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability is satisfied, this liability is separately identified within the long-term liability section of the statement of net position.

In accordance with GASB Statement No. 68, the City’s statements prepared on an accrual basis of accounting include an annual pension expense for their proportionate share of each plan’s change in net pension liability not accounted for as deferred inflows/outflows of resources.

As a result of implementing GASB Statement No. 68, the City is reporting a net pension liability and deferred inflows/outflows of resources related to pension on the accrual basis of accounting.

As noted earlier, net position may serve, over time, as a useful indicator of a government’s financial position. The City’s assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by approximately \$2.692 billion at the close of the most recent fiscal year. This represents an increase of 5.4% in 2017. Of the City’s net position, 16.6% represents its governmental net position and 83.4% represents its business-type net position.

Of the net position from governmental activities, \$719.5 million represents its investment in capital assets (e.g., land, land improvements, buildings, infrastructure, furniture, fixtures, equipment and vehicles), net of accumulated depreciation, less any related, still-outstanding debt issued to acquire, construct or improve those assets. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other resources, since the capital assets themselves cannot be used to liquidate these liabilities. Another significant portion of net position, \$161.0 million, represents resources that are subject to external restrictions on how they may be used. The deficit of \$433.8 million is due to net pension liability.

In 2017, the total assets and deferred outflows of resources from governmental activities increased by \$93.1 million. This increase is primarily attributed to increases in deferred outflows of resources of \$10.4 million and cash and cash equivalents of \$111.3 million offset by a decrease in grants receivable of \$24.2 million. The increase in cash and cash equivalents is primarily attributed to an increase in income tax receipts due to the income tax rate increase from 2.0% to 2.5% and the City starting to collect Sin Tax money again from the County in 2017. The increase in deferred outflows of resources is mainly attributed to changes in assumptions for the OPERS pension. In addition, assessments receivable increased over the prior year due to a reclassification from accounts receivable to more accurately present these elements.

Also in 2017, the total liabilities and deferred inflows of resources from governmental activities increased by \$64.6 million. This was caused primarily by an increase in net pension liability of \$65.1 million.

Of the business-type net position, \$1.483 billion represents its investment in capital assets, net of accumulated depreciation, less any related, still-outstanding debt issued to acquire, construct or improve those assets. These capital assets are used to provide services to their customers. Consequently, these assets are not available for future spending. Although the City's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other resources, since the capital assets themselves cannot be used to liquidate these liabilities. An additional \$214.1 million of net position is subject to external restrictions on their use. The remaining balance of \$548.4 million is unrestricted and may be used to meet the City's ongoing obligations to customers and creditors.

In 2017, business-type total assets and deferred outflows of resources increased by \$49.6 million. This increase is primarily due to an increase of cash and cash equivalents of \$53.8 million, accounts receivable of \$17.6 million, capital assets of \$23.2 million and deferred outflow of resources of \$9.1 million offset by a decrease in restricted cash and cash equivalents of \$33.2 million and unbilled revenue of \$24.2 million. The Division of Water continued to hold strong results, reporting an increase in unrestricted cash and cash equivalents of \$45.1 million over the prior year. The increase in deferred outflows of resources is mainly attributed to changes in assumptions for the OPERS pension.

Business-type total liabilities and deferred inflows of resources decreased by \$59.2 million due to a decrease in long-term obligations of \$118.5 million offset by an increase in pension liability of \$37.0 million attributed to investment returns not meeting expectations and changes in assumptions, accounts payable of \$18.4 million and due to other governments of \$9.4 million. The decrease to long-term obligations is primarily due to the Division of Airport's retirement of debt of \$39.8 million and the Division of Water's net change in debt of \$71.8 million.

At the end of the current year, the City is able to report positive balances in total net position for both its governmental activities and its business-type activities. Information regarding government-wide changes in net position is provided below:

**Changes in Net Position

Transfers	<u>(8,354)</u>	<u>(4,591)</u>	<u>8,354</u>	<u>4,591</u>	<u>-</u>	<u>-</u>
Changes in net position	28,534	19,363	108,860	57,871	137,394	77,234
Net position at beginning of year	<u>418,205</u>	<u>398,842</u>	<u>2,136,573</u>	<u>2,078,702</u>	<u>2,554,778</u>	<u>2,477,544</u>
Net position at end of year	<u>\$ 446,739</u>	<u>\$ 418,205</u>	<u>\$ 2,245,433</u>	<u>\$ 2,136,573</u>	<u>\$ 2,692,172</u>	<u>\$ 2,554,778</u>

Governmental activities increased the City's net position by \$28.5 million as compared to a \$19.3 million increase in 2016. The increase is primarily attributed to increases in income tax revenue of \$92.3 million, due to an increase in the income tax rate from 2.0% to 2.5% and property tax of \$23.4 million due to a large delinquent balance written off by the County in 2016. The increase was offset by a decrease in operating grants and contributions of \$40.7 million or 35.5% due to the completion and close out in 2017 of the Republican National Convention grant. Capital grants and contributions also decreased \$51.6 million due to the infrastructure renovations at Public Square completed in 2016.

Business-type activities increased the City's net position by \$108.9 million in 2017 compared to \$57.9 million increase in 2016. The increase is primarily attributed to an increase in capital grants and contributions of \$74.0 million due to the Division of Water's acquisitions of watermain lines from the Cities of Cleveland Heights, Beachwood, Macedonia and Valley View amounting to \$45.8 million and the Divisions' of Port Control receiving awards in the amount of \$34.5 million from the Federal Airport Improvement, Transportation Security Administration Law Enforcement Officer and Canine Grants. Also, an increase in operating grants and contributions of \$3.7 million is due to the increase of investment income for the Division of Water.

Revenues by Source - Governmental Activities

Other includes other taxes, shared revenues, unrestricted investment earnings and other general revenues.

Expenses and Program Revenues - Governmental Activities

(Amounts in Thousands)

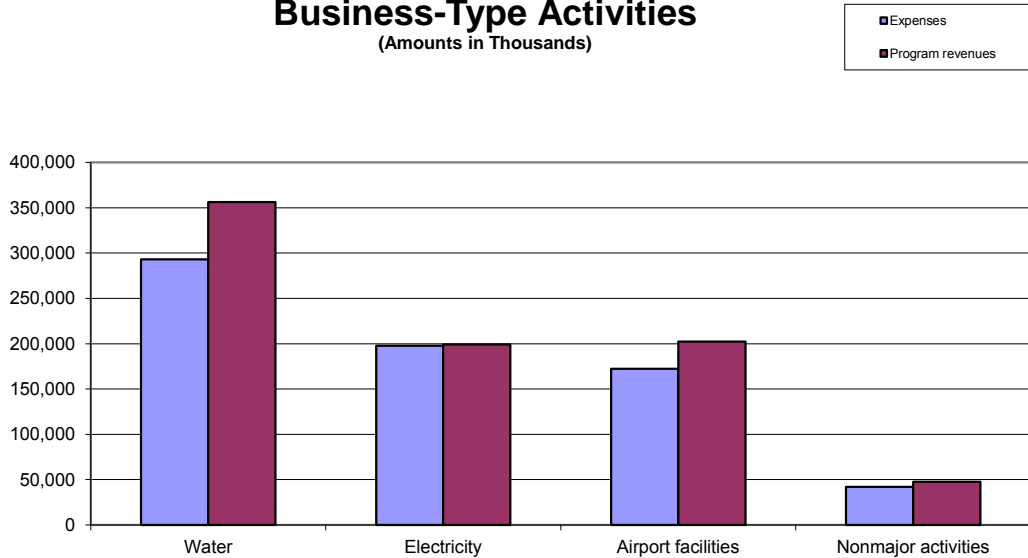

Revenues by Source - Business-Type Activities

Expenses and Program Revenues - Business-Type Activities

(Amounts in Thousands)

Business-type activities are principally accounted for in the City's Enterprise Funds. The City operates three major Enterprise Funds encompassing two airports, a water system and an electric distribution system. The City also operates other Enterprise Funds consisting of a sewer system, cemeteries, a public auditorium, municipal parking lots and public market facilities. The City owns two golf courses whose management and operations are currently leased to outside entities. The operating results of the City's Major Enterprise Funds are discussed below.

Division of Water: The Division operates a major public water supply system, the ninth largest in the United States that serves not only the City, but also 75 direct service, seven master meter and three emergency standby suburban municipalities in Cuyahoga, Medina, Summit, Portage, Lake and Geauga Counties. They provide water to approximately 418,000 city and suburban accounts in the Cleveland Metropolitan Area. Operating revenue in 2017 decreased to \$301.5 million from \$310.1 million in 2016. The reduction is primarily attributed to a decrease in unbilled revenue and partially offset by an increase in fixed fee revenue. Operating expenses, exclusive of depreciation, increased approximately 14.0% to \$185.4 million compared to \$162.6 million in 2016.

Division of Cleveland Public Power: The Division supplies electrical service to approximately 73,000 customers in the City. The Division is responsible for supplying, transmitting and distributing electricity and providing related electrical services to customers within its service area. The Division's 2017 operating revenue increased by 1.0% to \$194.9 million from \$193.0 million in 2016. Purchased power expense decreased by 1.2% to \$123.4 million in 2017 from \$124.9 million in 2016. Operating expenses, exclusive of depreciation and purchased power increased 6.9% to \$44.5 million compared to \$41.7 million in 2016.

Department of Port Control: The City's Department of Port Control includes the Divisions of Cleveland Hopkins International Airport and Burke Lakefront Airport. During 2017, 27 passenger airlines provided scheduled airline service at Cleveland Hopkins International Airport. Burke Lakefront Airport, a federally certified commercial and general aviation reliever airport, provides the majority of its services to air taxi operators serving the City's downtown business activities. The airports' operating income decreased \$1.8 million in 2017 largely due to decreased landing fees from signatory airlines offset by an increase in concession revenue related to rideshare income. Total operating expenses for 2017 increased \$4.5 million primarily due to higher pension retirement benefits. The Divisions' capital and other contributions increased by \$25.7 million related to the Airport Improvement Program Grants.

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the City's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current year, the City's governmental funds reported combined ending fund balances of \$504.0 million, an increase of \$75.9 million and approximately 17.7% in comparison with the prior year. The components of the governmental fund balances include an unassigned balance of \$92.7 million, which indicates the amount available for spending at the City's discretion. An additional \$296.3 million of fund balance is available for expenditures that are legally restricted for a particular purpose. An additional \$72.8 million is committed to fund specific purposes and cannot be reassigned without legislative approval. The remaining assigned balance of \$42.2 million represents funds that the City intends to use for a specific purpose.

The General Fund is the chief operating fund of the City. At the end of the current year, the unassigned fund balance of the General Fund was \$92.7 million and the total fund balance was \$134.9 million. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures and transfers out. Unassigned fund balance represents 17.0% of total General Fund expenditures and other financing uses, while total fund balance represents approximately 24.8% of that same amount.

A two-year comparison of General Fund activity is shown below. The revenues, expenditures and changes in fund balance shown in these comparisons are presented on the modified accrual basis of accounting applicable to governmental funds.

General Fund
Statement of Revenues, Expenditures and Changes in Fund Balance Information - GAAP Basis
2017 and 2016

(Amounts in Thousands)

	<u>2017</u>	<u>2016</u>

Fund balance at end of year	<u>\$ 134,860</u>	<u>\$ 81,722</u>

Analysis of General Fund Revenues

General Fund revenues and other sources totaled \$597.2 million in 2017, an increase of approximately \$81.7 million from 2016. A discussion of each of the major types of General Fund revenues follows.

Municipal Income Taxes

Ohio law authorizes a municipal income tax both on corporate income (net profits from the operation of a business or profession) and employee wages, salaries and other compensation at a rate of up to 1% without voter authorization and at a rate above 1% with voter authorization. In 2016, the voters in the City approved increases of one-half of one percent to the rate of the income tax, bringing it to the current 2.5% rate. By the terms of the 1981 voter approval, as amended in 1985, one-ninth of the receipts of the total 2.5% tax (the Restricted Income Tax) must be used only for capital improvements, debt service or obligations issued for capital improvements or the payment of past deficits. The remaining eight-ninths of the municipal income tax is recorded in the General Fund and is pledged to and may also be used for, debt service on General Obligation Bonds of the City, to the extent required and certain other obligations of the City.

The income tax is also imposed on gross salaries and wages earned in the City by non-residents of the City and on salaries, wages and other compensation of City residents earned within or outside the City. The income tax liability of a City resident employed outside the City is reduced by a credit equal to 100% of the tax paid to the municipality in which the City resident is employed. The tax on business profits is imposed on that part of profits attributable to business conducted within the City. In 2017, approximately 92% of the total income taxes paid to the City were derived from non-residents employed in the City and business profits.

Income tax revenue increased approximately \$81.8 million in 2017, primarily due to the increased income tax rate.

Property Taxes

Taxes collected from real property in one calendar year are levied in the preceding calendar year on assessed values as of January 1 of that preceding year. Public utility real and tangible personal property taxes collected in one calendar year are levied in the preceding calendar year on assessed values determined as of December 31 of the second year preceding the tax collection year.

The “assessed valuation” of real property is fixed at 35% of true value and is determined pursuant to rules of the State Tax Commissioner. An exception is that real property devoted exclusively to agricultural use is to be assessed at not more than 35% of its current agricultural use value. Real property devoted exclusively to forestry or timber growing is taxed at 50% of the local tax rate multiplied by the assessed value.

The assessed values of taxable property in the City for the past two years were as follows:

Tax Collection Year	Real Property		Public Utility Tangible Personal		Total Assessed Valuation
(Amounts in Thousands)					
2017	\$	4,240,407	\$	387,919	\$ 4,628,326
2016	\$	4,257,595	\$	331,843	\$ 4,589,438

Property tax revenue increased by \$1.4 million as a result of an increase in residential property valuations.

State Local Government Funds, Other Taxes and Other Shared Revenues

State Local Government Funds, Other Taxes and Other Shared Revenues include taxes levied and collected by the State of Ohio or counties and partially redistributed to the City and other political subdivisions. Other Taxes and Other Shared Revenues include state income, sales, admission, motor vehicle, parking, hotel, commercial activity, corporate franchise, casino, homestead and rollback, public utility, estate and cigarette taxes as well as liquor fees. State Local Government Funds revenue decreased by \$56,000 or 0.2% due to the State’s decision to redirect some of the fund’s collections to villages and townships in 2017. Other Taxes decreased by \$2.3 million or 4.6% from 2016 levels primarily as a result of decreases in admission tax receipts and hotel tax revenues. Other Shared Revenues increased by \$1.1 million or 6.7% from 2016 levels primarily as a result of the Highland Hills Joint Economic Development Zone Shared Income Tax Revenue.

The State Local Government Funds (LGF) are major sources of non-tax General Fund revenue. Through these funds, Ohio subdivisions share in a portion of the State’s collection of the sales tax, use tax, personal income tax, corporate franchise tax and public utilities excise tax. The percentages of the five taxes supporting these funds have varied over the years. At times, the dollar amount in the funds has been capped at specified levels.

Pursuant to statutory law in Ohio, State LGF revenues are divided into county and municipal portions. The county portion, the larger of the two, is distributed to each of the State’s 88 counties and is allocated based upon a statutory formula utilizing county population and county municipal property values. Once received by a county, the funds can either be distributed to all subdivisions using the statutory formula or the county and its subdivisions may agree upon an alternate method for allocating the funds. Cuyahoga County and its recipient communities have chosen the latter method which is comprised of a base allocation and an excess allocation. The excess allocation takes into account such factors as assessed value per capita, per capita income, population density and the number of individuals receiving public assistance. The municipal portion of the LGF is distributed directly by the State to those municipalities that collect an income tax. A municipality receives its share of the funds based upon its percentage of total municipal income taxes collected throughout the state in a given year.

Analysis of General Fund Expenditures

General Fund expenditures and other financing uses totaled \$544.1 million in 2017, an increase of 5.7% from 2016. The amount of expenditures and other uses by function on a GAAP basis, including the increases (decreases) over the prior year, are shown in the following table:

<u>Expenditures and Other Financing Uses</u>	<u>Actual 2017</u>	<u>% of Total</u>	<u>Actual 2016</u>	<u>% of Total</u>	<u>Increase (Decrease)</u>	<u>% Change</u>
(Amounts in Thousands)						
Current:						
General Government	\$ 92,883	17.07	\$ 89,973	17.47	\$ 2,910	3.23
Public Works	71,107	13.07	64,821	12.59	6,286	9.70
Public Safety	316,948	58.25	304,498	59.13	12,450	4.09
Community Development	290	0.05	181	0.04	109	60.22
Building and Housing	10,380	1.91	8,915	1.73	1,465	16.43
Public Health	6,336	1.17	5,751	1.12	585	10.17
Economic Development	1,573	0.29	1,609	0.31	(36)	(2.24)
Other	6,640	1.22	7,388	1.43	(748)	(10.12)
Capital Outlay	2,378	0.44	585	0.11	1,793	306.50
Principal retirement		0.00	250	0.05	(250)	(100.00)
Transfers Out	<u>35,546</u>	6.53	<u>30,988</u>	6.02	<u>4,558</u>	14.71
Total Expenditures and Other Financing Uses	<u>\$ 544,081</u>		<u>\$ 514,959</u>		<u>\$ 29,122</u>	

The total expenditures and other financing uses increased by \$29.1 million. The growth was primarily caused by increases in Public Works and Public Safety. The increase in Public Works was due to increases in salaries and benefits, motor vehicle maintenance charges and waste disposal and fees. Public Safety had increases in salaries and benefits, interdepartmental service charges and costs associated with the transfer of operations at the City jails to Cuyahoga County.

Proprietary Funds. The City’s proprietary fund financial statements provide the same type of information found in the government-wide financial statements, but in more detail.

The unrestricted net position of the Division of Water, Cleveland Public Power and the Department of Port Control Funds amounted to \$391.5 million, \$22.7 million and \$102.9 million, respectively, at December 31, 2017. The change in net position for each of the respective funds amounted to increases of \$64.2 million, \$2.1 million and \$29.5 million during 2017. Other factors concerning the finances of the City’s proprietary funds have already been addressed in the discussion of the City’s business-type activities.

Major Functional Expense Categories. A discussion of the City’s major functional expense categories follows:

Employees and Labor Relations

As of December 31, 2017 and 2016, the City had approximately 7,002 and 6,750 full-time employees, respectively. Of the 7,002 full-time employees, approximately 5,176 full-time employees are represented by 39 collective bargaining units. The largest collective bargaining units, together with the approximate number of employees represented by such units, include the American Federation of State, County and Municipal Employees, Local 100 – 1,061 members; Cleveland Police Patrolmen’s Association (CPPA) – 1,187 members; the Association of Cleveland Firefighters – 727 members; Municipal Foreman and Laborers Union, Local 1099 – 413 members; and Local 507 – 341 members.

There have been no significant labor disputes or work stoppages in the City within the last 34 years.

The Council, by ordinance, establishes schedules of salaries, wages and other economic benefits for City employees. Generally, the terms of these ordinances have been the product of negotiations with representatives of the employees or bargaining units and increases in economic benefits have normally been provided on an annual basis.

Chapter 4117 of the Ohio Revised Code (the Collective Bargaining Law), establishes procedures for and regulates public employer-employee collective bargaining and labor relations for the City and other state and local governmental units in Ohio. The Collective Bargaining Law creates a three-member State Employment Relations Board (the SERB), which administers and enforces the Collective Bargaining Law. Among other things, the Collective Bargaining Law: (i) creates rights and obligations of public employers, public employees and public employee organizations with respect to labor relations; (ii) defines the employees it covers; (iii) establishes methods for (a) the recognition of employees and organizations as exclusive representatives for collective bargaining and (b) the determination of bargaining units; (iv) establishes matters for which collective bargaining is either required, prohibited or optional; (v) establishes procedures for bargaining and the resolution of disputes, including negotiation, mediation and fact finding; and (vi) permits all covered employees to strike, except certain enumerated classes of employees, such as police and fire personnel.

Over the past two years, the total salaries and wages paid to the City’s employees from all funds were as follows:

<u>Year</u>	<u>Amount Paid</u>	
	(Amounts in Thousands)	
2017	\$	439,600
2016	\$	440,194

In 2017, there was a minor decrease in salaries and wages payable due to attrition, with new hires having a lower starting salary than those retiring.

GENERAL FUND BUDGETARY ANALYSIS

In 2017, the principal differences between the original and final revenue and other sources budget included a \$7.1 million increase in miscellaneous which was a result of reimbursement of costs associated with the Republican National Convention. There was a decrease of \$5.9 million in the Public Safety budgeted expenditures which was attributed to changes in anticipated staffing. As well as a \$22.0 million increase in capital outlay due to the costs associated with vehicles, residential demolition, commercial demolition and residential rehabilitation.

The major differences between the final amended budget and the actual total revenues were decreases of \$8.3 million in income taxes and increases of \$5.8 million in other taxes. Income taxes decreased due to the change in the deadline of filing the final return for the net profit return. The increase in other taxes was primarily attributed to admissions tax, motor vehicle lessor tax and parking tax collections.

The major differences between the final amended budget and the actual total expenditures were decreases of \$10.4 million in General Government, \$4.3 million in Public Works and \$15.5 million in Public Safety all due to anticipated additional staffing.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital assets: The City’s capital assets for its governmental and business-type activities as of December 31, 2017, amounts to \$4.298 billion (net of accumulated depreciation). This capital assets balance includes land; land improvements; utility plant; buildings, structures and improvements; furniture, fixtures, equipment and vehicles; infrastructure; and construction in progress. The total increase in the City’s capital assets for the current fiscal year was 0.65% (a .38% increase for governmental activities and a .77% increase for business-type activities). A summary of the City’s capital assets at December 31, 2017 is as follows:

	<u>Capital Assets, Net of Accumulated Depreciation</u>		
	<u>Governmental</u>	<u>Business-Type</u>	<u>Total</u>
	<u>Activities</u>	<u>Activities</u>	
	(Amounts in Thousands)		
Land	\$ 67,240	\$ 192,202	\$ 259,442
Land improvements	74,327	68,686	143,013
Utility plant		1,665,481	1,665,481
Buildings, structures and improvements	346,595	292,167	638,762
Furniture, fixtures, equipment and vehicles	82,209	187,240	269,449
Infrastructure	437,533	351,000	788,533
Construction in progress	<u>241,324</u>	<u>291,921</u>	<u>533,245</u>
 Total	 <u>\$ 1,249,228</u>	 <u>\$ 3,048,697</u>	 <u>\$ 4,297,925</u>

Additions to construction in progress during the current fiscal year affecting the City’s capital assets included the following:

- The Division of Cleveland Public Power incurred \$10.6 million of capital additions relating to the Opportunity Corridor Phase II, General Engineering Services, Underground Cable Reconstruction and Transformers Series A.
- The Division of Water incurred \$35.3 million of capital additions mainly consisting of Suburban Watermain Renewals and related engineering services, AMR Phase II, Water Towers and Third High Pump Station.

- The Department of Port Control capital improvements totaled approximately \$46.9 million. Major projects were Snow Removal Equipment and Vehicle Maintenance Building Additions Project, Snow Removal Equipment Acquisition, CLE Inline Baggage System Project, Main Substation (MS) One and Two Electrical Distribution Enhancement Phase II, North Airfield Improvements Project Phase I and Airport Signage Program within the Cleveland Airport System environment.
- The Division of Water Pollution Control had capital improvements of \$17.3 million. The largest capital additions were the Emergency Sewer Repairs, Catch Basins & Manholes and Massie Avenue Sewer.
- Major capital projects for Governmental Activities included land improvements, vehicles and equipment, various computer system upgrades and infrastructure improvements.

The primary sources for financing the City's Capital Improvement Projects are general obligation bond proceeds, certificates of participation proceeds, urban renewal bond proceeds, revenue bond proceeds, proceeds from capital leases, interest earned on funds during the construction period, restricted income taxes and funds from the State Issue 2 and Local Transportation Improvement Programs. The City has three primary goals relating to its Capital Improvements: (1) preservation and revitalization of the City's neighborhoods, (2) economic development and job creation and (3) providing cost-effective, basic City services to Cleveland residents and the business community. Additional information on the City's capital assets, including commitments made for future capital expenditures, can be found in Note 14 – Capital Assets.

Long-term debt and certain other obligations: At the end of the current fiscal year, the City had total long-term debt and certain other obligations outstanding of \$2.291 billion as shown below. General Obligation Bonds are typically issued for general governmental activities and are backed by the full faith and credit of the City. Revenue bonds are typically recorded in the applicable Enterprise Fund and are supported by the revenues generated by the respective Enterprise Fund. The remainder of the City's debt represents bonds or notes secured solely by specified revenue sources.

The activity in the City's debt obligations outstanding during the year ended December 31, 2017 is summarized below (excluding unamortized discounts, premiums and accreted interest).

	Balance January 1, <u>2017</u>	Debt Issued	Debt Refunded or Defeased	Debt Retired	Balance December 31, <u>2017</u>
	(Amounts in Thousands)				
<u>Governmental Activities:</u>					
General Obligation Bonds	\$ 233,900	\$	\$	\$ (22,500)	\$ 211,400
Urban Renewal Bonds	1,615			(780)	835
Subordinated Income Tax Refunding Bonds	35,275			(2,315)	32,960
Subordinate Lien Income Tax Bonds	258,160	142,850	(95,300)	(9,425)	296,285
Non-Tax Revenue Bonds	60,328			(3,623)	56,705

Loans Payable	91,316			(7,838)	83,478
	<u>1,709,094</u>	<u>113,585</u>	<u>(133,010)</u>	<u>(104,698)</u>	<u>1,584,971</u>
Total Business –Type Activities					
Total	<u>\$ 2,416,232</u>	<u>\$ 256,435</u>	<u>\$ (228,310)</u>	<u>\$ (153,739)</u>	<u>\$ 2,290,618</u>

Funds used to meet the debt service requirements of the City's General Obligation Bonds are from certain ad valorem taxes, restricted income taxes and interest earnings. Ad valorem taxes, the primary source of funds, amounted to \$17.6 million in 2017 which represents approximately 53.0% of the debt service requirements on the General Obligation Bonds. These taxes were derived from a levy of \$4.35 per \$1,000 of assessed property. The remaining 47.0% of debt service requirements is retired from a portion of the City's restricted income tax proceeds, homestead and rollback reimbursement from the State, interest earnings and other miscellaneous revenue sources generated within the Debt Service Funds.

The City issues its General Obligation Bonds within the context of its Capital Improvement Program. Programs which have benefited due to the issuance of general obligation debt include, but are not limited to, public facilities improvements, bridge and roadway improvements, recreation facilities, cemeteries and urban redevelopment. The City's Enterprise Funds implement their own individual Capital Improvement Programs and issue revenue bond and note debt necessary to fund their programs.

The City's bond ratings for governmental and revenue bonds are as follows as of December 31, 2017:

	Moody's Investors Service	Standard & Poor's	Fitch Ratings
General Obligation Bonds**	A1	AA+	A+
Subordinate Lien Income Tax Bonds**	A1	AA+	N/A
Non-tax Revenue Bonds	A2	A	N/A
Stadium Certificates of Participation	A3	A	N/A
Waterworks Improvement Revenue Bonds***	Aa1	AA+	N/A
Second Lien Water Revenue Bonds***	Aa2	AA	N/A
Public Power System Revenue Bonds	A3	A-	N/A
Airport System Revenue Bonds	Baa1	A-	BBB+
Parking Facility Refunding Revenue Bonds (Insured Ratings)*	A2	AA	N/A
Water Pollution Control Revenue Bonds	Aa3	A+	N/A

* Parking Facilities' bonds only carry an insured rating.

** On May 24, 2017 S&P Global Ratings raised its rating on the City's General Obligation Bonds and Subordinate Lien Income Tax Bonds to AA+ from AA.

*** On August 9, 2017 S&P Global Ratings raised its rating on the City's Water Revenue Bonds to AA+ and its rating on the Subordinate Lien Water Revenue Bonds to AA.

The ratio of net general bonded debt to assessed valuation and the amount of bonded debt per capita are useful indicators of the City's debt position to management, citizens and investors. Net general bonded debt is total general bonded debt supported by taxes less amounts available in the Debt Service Fund. This data at December 31, 2017 was:

Net General Bonded Debt:	\$206,385,000
Ratio of Net Bonded Debt to Assessed Valuation:	4.46%
Net General Bonded Debt Per Capita:	\$520.10

The Ohio Revised Code provides that the net debt of a municipal corporation, whether or not approved by the electors, shall not exceed 10.50% of the assessed value of all property in the municipal corporation as listed and assessed for taxation. In addition, the unvoted net debt of municipal corporations cannot exceed 5.50% of total assessed value of property. The City's total debt limit (10.50%) is \$485,974,208 and unvoted debt limit (5.50%) is \$254,557,918. At December 31, 2017, the City had capacity under the indirect debt limitation calculation per the Ohio Revised Code to issue approximately \$100 million in additional unvoted debt. However, these debt limitations are not expected to affect the financing of any currently planned facilities or services.

In addition, the City has entered into various derivative or hedging agreements. Derivative instruments are contracts, the value of which depends on, or derives from, the value of an underlying asset, index or rate. The most common types of derivatives used by governments are interest rate swaps and interest rate locks. A detailed description of each outstanding derivative, including its terms, objectives, risks and fair value, can be found in Note 5 – Debt and Other Long-Term Obligations.

The City reports a deferred outflow of resource and a liability in the amount of the fair value of the interest rate swaps, which reflect the prevailing interest rate environment at December 31, 2017 and an investment loss or gain as appropriate, based on the change in fair value. The specific terms and conditions of each swap have been provided by the respective counterparty for each swap and confirmed by the City's financial advisor.

Additional information on the City's long-term debt can be found in Note 5 – Debt and Other Long-Term Obligations.

FACTORS EXPECTED TO IMPACT THE CITY'S FUTURE FINANCIAL POSITION OR RESULTS OF OPERATIONS

The City, like all municipalities both local and national, continues to face the challenges of economic recession. Basic operating costs continue to rise due to negotiated salary increases, higher benefit costs and federal and state mandates being placed upon municipalities at the same time federal and state funding is being reduced.

Over the last several years, the City has seen significant reductions in funding from the federal and state governments. To offset these reductions, the City continues to focus on stimulating economic and community development throughout its core business districts and neighborhoods to strengthen its housing stock value and ensure a strong local job market.

Other Impacting Factors

- Effective November 1, 2017, the City entered into an agreement to cease its jail operations at its City Jails and the Cleveland House of Corrections and to contract with Cuyahoga County to provide the City with prisoner booking, housing and other related services.

NEED ADDITIONAL INFORMATION

This financial report is designed to provide a general overview of the City's finances for all those with an interest in the City's finances. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the Office of the Finance Director, City Hall, Room 104, 601 Lakeside Avenue, Cleveland, Ohio 44114.

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used in governmental activities (excluding internal service fund capital assets) are not financial resources and, therefore, are not reported in the funds.	1,245,489
Other long-term assets are not available to pay for current-period expenditures and, therefore, are deferred in the funds.	80,193
Long-term liabilities, including bonds and claims payable, are not due and payable in the current period and therefore are not reported in the funds.	(852,046)
The assets, liabilities and deferred outflows/inflows of resources of most of the internal service funds are included in the governmental activities in the statement of net position.	18,466
The net pension liability is not due and payable in the current period; (excluding internal service fund net pension liability) therefore the liability and related deferred inflows/outflows of resources are not reported in governmental funds:	<u>(549,365)</u>
Net position of governmental activities	<u>\$ 446,739</u>

CITY OF CLEVELAND, OHIO

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES OF GOVERNMENTAL FUNDS FOR THE YEAR ENDED DECEMBER 31, 2017 (Amounts in Thousands)

Amounts reported for governmental activities in the statement of activities (pages 60 and 61) are different because:

Net change in fund balances - total governmental funds (page 63)	\$ 75,945
Governmental funds report capital outlays as expenditures; however, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.	7,080
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	(10,129)
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences, including accrued interest, in the treatment of long-term debt and related items.	(2,063)
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	(389)
Contractually required contributions are reported as expenditures in the governmental funds; however, the statement of net position reports these amounts as deferred outflows of resources, except for changes in the net pension liability which are reported as pension expense in the statement of activities.	(52,678)
The net revenue of certain activities of internal service funds is reported with governmental activities.	<u>10,768</u>
Change in net position of governmental activities (pages 60 and 61)	<u>\$ 28,534</u>

The notes to financial statements are an integral part of this statement.

CITY OF CLEVELAND, OHIO
NOTES TO FINANCIAL STATEMENTS

NOTE 1 – DESCRIPTION OF CITY OPERATIONS AND REPORTING ENTITY

The City: The City of Cleveland, Ohio (the City) operates under an elected Mayor/Council (17 Council members) administrative/legislative form of government.

Reporting Entity: The accompanying financial statements as of December 31, 2017 and for the year then ended have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) applicable to local governments. The Governmental Accounting Standards Board (GASB) is the standard-setting body for establishing governmental accounting and financial reporting principles, which are primarily set forth in the GASB's Codification of Governmental Accounting and Financial Reporting Standards (GASB Codification).

In evaluating how to define the governmental reporting entity, the City complies with the provisions of GASB Statement No. 61, under which the financial statements include all the organizations, activities, functions and component units for which the City (primary government) is financially accountable. Financial accountability is defined as the appointment of a voting majority of the component unit's board and either (1) the City's ability to impose its will over the component unit or (2) the possibility that the component unit will provide a financial benefit to or impose a financial burden on the City.

On this basis, the City's financial reporting entity has no component units but includes in its financial statements the financial activities of all departments, agencies, boards and commissions that are part of the primary government, including police and fire protection, waste collection, parks and recreation, health, certain social services and general administrative services. In addition, the City owns and operates several enterprise activities, the principal ones consisting of a water system, an electric distribution system and two airports.

The following entities are related organizations of the City of Cleveland; however, the City's accountability does not extend beyond its appointing authority:

Cuyahoga Metropolitan Housing Authority – Created under the Ohio Revised Code, the Cuyahoga Metropolitan Housing Authority provides public housing services. The five-member board consists of two appointed by the Mayor of the City of Cleveland, two appointed by Cleveland City Council and one appointed by the Mayor of the City of East Cleveland with approval from its City Council.

Cleveland-Cuyahoga County Port Authority – Created under the Ohio Revised Code, the Cleveland-Cuyahoga County Port Authority conducts port operations and economic development activities. The nine-member Board of Directors consists of three appointed by the Cuyahoga County Commissioners and six appointed by the City of Cleveland.

Cleveland Metropolitan School District (Schools) – In November of 1998, the Mayor of the City of Cleveland was given appointing authority for the Schools. As approved by the State Legislature, the Ohio Revised Code provides for the Mayor to appoint a Chief Executive Officer who must be approved by the Board of Education (the Board). The Board is comprised of nine-members. The members of the Board are appointed by the Mayor from a pool of candidates presented to the Mayor by an independent nominating panel. In November 2002, the voters of Cleveland elected to maintain the current governance structure.

The following entity is a jointly governed organization of the City; however, the City has no ongoing financial interest or responsibility:

Gateway Economic Development Corporation of Greater Cleveland (Gateway) – Gateway is responsible for the operations of a sports complex and related economic development. The five-member board consists of two members appointed by the City, two members appointed by the Board of County Commissioners and one by the President of the Board of County Commissioners with concurrence of the Mayor of the City of Cleveland.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Significant Accounting Policies:

The following is a summary of the more significant policies followed during the preparation of the accompanying financial statements.

A. *Government-Wide and Fund Financial Statements*

GASB Statement No. 34, *Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments*, established requirements and a reporting model for the annual financial reports of state and local governments. GASB Statement No. 34 was developed to make annual reports easier to understand and more useful to the people who use governmental financial information to make decisions. Financial information of the City is presented in the following format:

Basic Financial Statements:

1. *Government-wide financial statements* consist of a statement of net position and a statement of activities. These statements report all of the assets, deferred outflows of resources, liabilities, deferred inflows of resources, revenues, expenses, gains and losses of the City. Governmental activities are reported separately from business-type activities. Governmental activities are normally supported by taxes and intergovernmental revenues whereas business-type activities are normally supported by fees and charges for services and are usually intended by management to be financially self-sustaining. Fiduciary funds of the City are not included in these government-wide financial statements.

Interfund receivables and payables, bonds and notes issued and held by the City as investments within governmental and business-type activities have been eliminated in the government-wide statement of net position. Related interest amounts are eliminated in the government-wide statement of activities. These eliminations minimize the duplicating effect on assets and liabilities within the governmental and business-type activities total column.

Internal Service Fund balances, whether positive or negative, have been eliminated against the expenses and program revenues shown as governmental activities in the statement of activities, except for the Utilities Administration Fund which is shown in the business-type activities column.

The statement of activities presents a comparison between direct expenses and program revenues for the different business-type activities of the City and for each function of the City’s governmental activities.

Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenue includes (a) charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions, including special assessments that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues. General revenues are considered unrestricted in nature.

Program revenues and expenses previously reported as “Other” program revenues and expenses in governmental activities on the statement of activities are now classified as General Government program revenues and expenses as appropriate.

Business-type activities on the government-wide statement of activities summarizes other Enterprise Funds as Nonmajor activities. These include Sewer, Public Auditorium, West Side Market, East Side Market, Municipal Parking Lots, Cemeteries and Golf Courses.

2. *Fund financial statements* consist of a series of statements focusing on information about the City's major governmental and enterprise funds. Separate statements are presented for the governmental, proprietary and fiduciary funds.

The City's major Governmental Fund is the General Fund. Of the City's business-type activities, the Division of Water Fund, Cleveland Public Power Fund and Department of Port Control Fund are considered major Enterprise Funds.

The General Fund is the primary operating fund of the City. It is used to account for all financial resources, except those required to be accounted for in other funds. Its revenues consist primarily of income and property taxes, investment earnings, other taxes, other shared revenues, charges for services, licenses and permits, fines forfeits and settlements.

General Fund expenditures represent costs of General Government; Public Works (including waste collection); Public Safety (including police and fire); Building and Housing; Public Health; Community Development; and Economic Development. General Fund resources are also transferred annually to support other services which are accounted for in other separate funds.

The Division of Water Fund is a segment of the Department of Public Utilities of the City. The Division of Water was created for the purpose of supplying water services to customers within the Cleveland Metropolitan Area.

The Cleveland Public Power Fund is a segment of the Department of Public Utilities of the City. The Cleveland Public Power Fund was established by the City to provide electrical services to customers within the City.

The Department of Port Control Fund was established to account for the operations of the City's airport facilities.

While not considered major funds, the City maintains Internal Service Funds used to account for the financing of goods or services provided by one department or division to another department, division or other government on a cost-reimbursement basis.

Also maintained by the City are fiduciary funds, such as Agency Funds, used to account for assets held by the City as an agent for individuals, private organizations or other governments.

3. The City's General Fund budget to actual statement is presented as part of the basic financial statements.
4. Notes to financial statements provide information that is essential to a user's understanding of the basic financial statements.
5. The Required Supplementary Information is essential to a user's understanding of the City pension liability and contributions made to fund it.

B. *Financial Reporting Presentation*

The accounts of the City are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund balance (equity), revenues and expenditures (expenses). The fund types and classifications that the City reports are as follows:

GOVERNMENTAL FUNDS

1. **General Fund** – The General Fund is used to account for and report all financial resources not accounted for and reported in another fund.

2. **Special Revenue Funds** – Special Revenue Funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures of specified purposes other than debt service or capital projects. The term proceeds of specific revenue sources establishes that one or more specific restricted or committed revenues should be the foundation for a special revenue fund.
3. **Debt Service Funds** – Debt Service Funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest. Debt Service Funds should be used to report resources if legally mandated (i.e. debt payable from property taxes). Financial resources that are being accumulated for principal and interest maturing in future years also should be reported in debt service funds.
4. **Capital Project Funds** – Capital Project Funds are used to account for and report financial resources that are restricted or committed to expenditures for capital outlays, including the acquisition or construction of capital facilities and other capital assets. Capital Project Funds exclude those types of capital-related outflows financed by proprietary funds or for assets that will be held in trust for individuals, private organizations, or other governments.

PROPRIETARY FUNDS

1. **Enterprise Funds** – The Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private business enterprises, where the intent of the governing body is that the costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges.
2. **Internal Service Funds** – The Internal Service Funds are used to account for the financing of goods or services provided by one department or division to other departments or divisions or to other governments on a cost-reimbursement basis. The City's most significant Internal Service Funds are used to account for Motor Vehicle Maintenance, Municipal Income Tax Administration, Workers' Compensation Reserve, Health Self Insurance Fund and Prescription Self Insurance Fund.

FIDUCIARY FUNDS

1. **Agency Funds** – Agency Funds are used to account for assets held by the City as an agent for individuals, private organizations and other governments. The Agency Funds are custodial in nature (assets equal liabilities) and do not have a measurement focus. However, the accrual basis of accounting is used to recognize receivables and payables. The City's more significant Agency Funds are used to account for Municipal Court and income tax collections for other municipalities.

Fiduciary funds are not included in the government-wide statements.

C. *Measurement Focus and Basis of Accounting*

Except for budgetary purposes, the basis of accounting used by the City conforms to GAAP as applicable to governmental units. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

The government-wide, proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus. The government-wide, proprietary and fiduciary fund financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the City gives (or receives) value without directly receiving (or giving) equal value in exchange, include income taxes, property taxes, grants, shared revenue and donations. On an accrual basis, revenue from income taxes is recognized in the period in which the taxpayer's liability occurs and revenue from property taxes is recognized in the fiscal year for which the taxes are levied. On an accrual basis, revenue in the form of shared revenue is recognized when the provider government recognizes its liability to the City. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include: (1) timing requirements which specify the year when the resources are required to be used or the year when use is first

permitted; (2) matching requirements, in which the City must provide local resources to be used for a specified purpose; and (3) expenditure requirements, in which the resources are provided to the City on a cost-reimbursement basis.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when both measurable and available. Revenues are considered to be available when they are collected within the current period or soon enough thereafter to pay liabilities of the current period. The City generally considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after year end. Expenditures are generally recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments and compensated absences, which are recognized as expenditures only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt are reported as other financing sources.

In applying the susceptible-to-accrual concept under the modified accrual basis, the following revenue sources are deemed both measurable and available (i.e., collectible within the current year or within sixty days after year end and available to pay obligations of the current period): income taxes, investment earnings and other shared revenues. Reimbursements due for federal or state funded projects are accrued as revenue at the time the expenditures are made or, when received in advance, recorded as unearned revenue until expenditures are made. Property taxes and special assessments, though measurable, are not available to finance current period obligations. Therefore, property tax receivables are recorded and deferred until they become available. Other revenues, including licenses, fees, fines and forfeits and charges for services are recorded as revenue when received in cash because they are generally not measurable until actually received.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Operating expenses are necessary costs incurred to provide the goods or services that are the primary activity of the fund. Non-operating revenues, such as investment income and passenger facility charges, result from non-exchange transactions or ancillary activities.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed. The City uses unrestricted resources that are committed first, assigned second and unassigned last.

D. ***Budgetary Procedures***

The City is required by State law to adopt annual budgets for the General Fund, certain Special Revenue Funds (including the Division of Streets, Restricted Income Tax, Rainy Day Reserve, Schools Recreation and Cultural Activities and Cleveland Stadium Operations Funds), Debt Service Funds (except for Cleveland Stadium Debt Service, Urban Renewal and Urban Renewal Reserve Funds) and Proprietary Operating Funds. Modifications to the original budget are approved by City Council throughout the year. The City maintains budgetary control by not permitting expenditures to exceed appropriations for personnel costs (including benefits) and other costs (including debt service and capital outlay), within a division of the City, without the approval of City Council. Adjustments to the budget can only be made within a division and then within each category. Further legislation is needed in order to move budget amounts from "personnel" to "other" or vice versa, or between divisions. City Council adopted five appropriation amendments during 2017 which reallocated appropriations and increased the budget by 1.4% from the original budget.

Unencumbered appropriations for annually budgeted funds lapse at year end.

The City's budgetary process does not include annual budgeting for certain Special Revenue Funds and Capital Project Funds. Appropriations in these funds remain open and carry over to succeeding years (i.e., multi-year) until the related expenditures are made or until they are modified or canceled. Appropriations for these funds are controlled on a project basis.

The City's budgetary process accounts for certain transactions on a basis other than GAAP. The major differences between the budget basis and the GAAP basis are that:

- Revenues are recorded when received in cash (budget) as opposed to when susceptible to accrual (GAAP).
- Expenditures are recorded when paid in cash (budget) as opposed to when the liability is incurred (GAAP).
- Encumbrances and pre-encumbrances are recorded as the equivalent of expenditures (budget) as opposed to being included in fund balances (GAAP).

A reconciliation of the General Fund's results of operations for 2017 reported on the budget basis versus the GAAP basis is as follows:

	(Amounts in Thousands)	
Excess (deficiency) of Revenues and Other Financing Sources over (under)		
Expenditures and Other Financing Uses (Budget Basis)	\$	19,400
Adjustments:		
Revenue Accruals		(18,025)
Expenditure and other financing sources (uses) Accruals		11,399
Encumbrances and Pre-Encumbrances		40,364
Net Change in Fund Balance	\$	<u>53,138</u>

E. **Other Significant Accounting Policies**

Cash and Cash Equivalents: Cash resources of certain individual funds are combined to form a pool of cash and investments which is managed by the City Treasurer. Investments in the Pooled Cash and Segregated Accounts, consists of obligations of the U.S. Treasury, agencies and instrumentalities; State Treasurer Asset Reserve Fund (STAR Ohio); commercial paper; U.S. Government Money Market Mutual Funds; guaranteed investment contracts; manuscript debt; bonds and other State of Ohio obligations; certificates of deposit; and repurchase transactions are carried at fair value (see Note 4 – Pooled And Segregated Cash And Investments) based on quoted market values, where applicable. Interest earned on pooled cash and investments is distributed to the appropriate funds utilizing a formula based on the month-end balance of cash and investments of each fund. Cash equivalents are defined as highly liquid investments with a maturity of three months or less at the time they are purchased by the City.

Investments: The City follows the provisions of GASB Statement No. 72, *Fair Value Measurement and Application*, which requires governmental entities to record their investments at fair value within the fair value hierarchy. The hierarchy is based on the valuation inputs used to measure fair value of the assets. Level 1 inputs are quoted prices in an active market for identical assets. Level 2 inputs are significant other observable inputs. Level 3 inputs are significant unobservable inputs.

The City has invested funds in the State Treasury Asset Reserve of Ohio (STAR Ohio) during 2017. STAR Ohio is an investment pool managed by the State Treasurer's Office, which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but has adopted GASB Statement No. 79, *Certain External Investment Pools and Pool Participants*, for the purpose of measuring the value of shares in STAR Ohio. The City measures their investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides a NAV share that approximates fair value.

Unbilled Revenue: Unbilled revenues are estimates for services rendered but not billed to customers at year end.

Recoverable Costs of Purchased Power: The City passes through certain power costs to the customer as Energy Adjustment Charges. The power costs related to recoverable costs of purchased power will be billed to customers in future billing periods.

Inventory of Supplies: Utility funds' inventory is valued at average cost. All other enterprise and internal service funds' inventory is valued at cost using the first in/first out method. Inventory generally consists of construction materials, utility plant supplies and parts inventory not yet placed into service. Inventory costs are charged to operations when consumed. Inventory purchased by governmental funds are treated as expenditures when acquired.

Restricted Assets: Issuance of debt and amounts set aside for payment of Enterprise Fund revenue bonds and construction loans are classified as restricted assets since their use is limited by applicable bond indentures. Passenger facility charges are restricted for capital expenditures or related debt. Construction loans are restricted to fund approved capital projects.

Capital Assets: Capital assets, which include property, plant, equipment and infrastructure assets (e.g., roads, bridges, sidewalks and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements to the extent the City's capitalization threshold is met. The City defines capital assets as assets with an estimated useful life in excess of one year and an individual cost of more than \$5,000 for land, furniture, fixtures, equipment and vehicles; and \$10,000 for all other assets or projects. Assets are recorded at historical cost or estimated historical cost, if historical cost is not available. Contributed capital assets are recorded at their acquisition value on the date contributed.

As permitted under the implementation provisions of GASB Statement No. 34, the historical cost of infrastructure assets acquired, significantly reconstructed or that received significant improvements prior to January 1, 1980 have not been included as part of governmental capital assets in the government-wide financial statements.

Capital assets in the proprietary funds are capitalized in the fund in which they are utilized. The valuation basis for proprietary fund capital assets are the same as those used for the general capital assets. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. Capitalized interest is amortized on the straight-line basis over the estimated useful lives of such assets. The City applies guidance provided by the GASB. This guidance requires capitalization of the interest cost of the borrowings less interest earned on investment of the bond proceeds from the date of the borrowing until the assets constructed from the bond proceeds are ready for their intended use. This guidance is applied to Waterworks Improvement Revenue Bonds, Public Power System Revenue Bonds, Water Pollution Control Revenue Bonds and Airport System Revenue Bonds.

Costs for maintenance and repairs are expensed when incurred. However, costs for repairs and upgrading that materially add to the value or life of an asset and meet the above criteria are capitalized.

The City depreciates capital assets on a straight-line basis using the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Land improvements	15-100
Utility plant	5-100
Buildings, structures and improvements	5-60
Furniture, fixtures, equipment and vehicles	3-60
Infrastructure	3-50

Compensated Absences: The City accrues for compensated absences such as vacation, sick leave and compensatory time using the termination payment method specified under GASB Statement No. 16, *Accounting for Compensated Absences*. In the government-wide and proprietary funds financial statements, the entire amount of unpaid compensated absences is reported as a liability. A liability for compensated absences is accrued in the governmental funds only if the amount is currently due and payable at year end. These amounts are recorded as accrued wages and benefits in the fund from which the employees who have accumulated leave are paid. The remaining portion of the liability is not reported in the governmental funds.

Normally, all vacation time is to be taken in the year available. The City allows employees to carryover vacation time from one year to the next. Sick days not taken may be accumulated until retirement. An employee is paid one-third of accumulated sick leave upon retirement, calculated at the average of the highest three years of pay, with the balance being forfeited.

Uniformed police and fire employees are eligible to defer earned vacation time and overtime, with the appropriate approvals, until retirement. Once deferred, the employee cannot use deferred time as vacation. Deferred vacation is paid to the employee upon retirement, calculated using their current hourly rate at the date of retirement. Deferred overtime is paid once a year upon request up to the amount budgeted for the year for such purpose. If requests exceed the budgeted amounts, the requests are to be paid on a pro-rata basis.

Long-Term Obligations: In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities and proprietary fund type statements of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Losses on refundings are deferred and amortized over the life of the new debt, or the life of the refunded debt, whichever is shorter. Bonds payable are reported net of the applicable unamortized bond premium or discount.

In the governmental fund financial statements, bond premiums and discounts are reported as other financing sources and uses during the period in which they are incurred. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures.

Swap Agreements: The City may enter into interest rate swap agreements to modify interest rates on outstanding debt. The City has accordingly recorded the fair value of each swap in the government-wide financial statements. As further described in Note 5 – Debt And Other Long-Term Obligations, the City has four swap agreements outstanding at December 31, 2017, one for its Subordinated Income Tax Variable Rate Refunding Bonds, one on the Parking Facilities Refunding Revenue Bonds and two associated with the 2015 Water Revenue Bonds Series AA and 2010 Water Revenue Bonds Series U and V.

Grants Revenues: Grants and assistance awards made on the basis of entitlement programs are recorded as grant receivables and revenues when entitlement occurs. Reimbursement-type grants are recorded as grant receivables and revenues when the related expenditures (expenses) are incurred. The City accounts for loans receivable related to the Economic Development Funds, Urban Development Action Funds, Community Development Block Grants, Neighborhood Development Investment Funds and Supplemental Empowerment Zone as restricted or committed fund balance in the fund financial statements as applicable to the extent that these loans do not have to be repaid to the Federal government. The loan proceeds are earmarked for future reprogramming under federal guidelines and are not available to fund current operating expenditures of the City.

Encumbrances and Pre-Encumbrances: Encumbrance accounting, under which purchase orders, requisitions, contracts and other commitments for expenditures are recorded as encumbrances or pre-encumbrances to reserve the applicable portion of the appropriation.

Interfund Transactions: During the course of normal operations, the City has numerous transactions between funds, including the allocation of centralized expenses and transfers of resources to provide services, construct assets and service debt. Such transactions are generally reflected as transfers or direct expenses of the fund that is ultimately charged for such costs.

Statement of Cash Flows: The City utilizes the direct method of reporting cash flows from operating activities in the Statement of Cash Flows as defined by the GASB Statement No. 9, *Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities that use Proprietary Fund Accounting*. In the statement of cash flows, cash receipts and cash payments are classified according to operating, noncapital financing, capital and related financing and investing activities.

Deferred Outflows/Inflows of Resources: In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

Pensions: For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions and pension expense, information about the fiduciary net position of the pension plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension systems report investments at fair value.

F. ***Accounting Pronouncements***

In June of 2015, GASB Statement No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68 and Amendments to Certain Provisions of GASB Statements 67 and 68*, was issued. This Statement is effective for fiscal periods beginning after June 15, 2015 —except those provisions that address employers and governmental nonemployer contributing entities for pensions that are not within the scope of GASB Statement No. 68, which are effective for fiscal years beginning after June 15, 2016. The objective of this Statement is to improve the usefulness of information about pensions included in the general purpose external financial reports of state and local governments for making decisions and assessing accountability. This Statement establishes requirements for defined benefit pensions that are not within the scope of GASB Statement No. 68, as well as for the assets accumulated for purposes of providing those pensions. In addition, it establishes requirements for defined contribution pensions that are not within the scope of GASB Statement No. 68. It also amends certain provisions of GASB Statement No. 67 and GASB Statement No. 68 for pension plans and pensions that are within their respective scopes. As required, the City has implemented GASB Statement No. 73 as of December 31, 2017.

In June of 2015, GASB Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans* (OPEB), was issued. This Statement is effective for financial statements for fiscal years beginning after June 15, 2016. This Statement replaces GASB Statements No. 43, as amended and No. 57, *OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans*. It also includes requirements for defined contribution OPEB plans that replace the requirements for those OPEB plans in GASB Statement No. 25, *Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans*, as amended, GASB Statement No. 43 and GASB Statement No. 50, *Pension Disclosures*. The objective of this Statement is to improve the usefulness of information about postemployment benefits other than pensions included in the general purpose external financial reports of state and local governmental OPEB plans for making decisions and assessing accountability. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for all postemployment benefits (pensions and OPEB) with regard to providing decision-useful information, supporting assessments of accountability and interperiod equity and creating additional transparency. The City has determined that GASB Statement No. 74 has no impact on its financial statements as of December 31, 2017.

In January of 2016, GASB Statement No. 80, *Blending Requirements for Certain Component Units – an Amendment of GASB Statement No. 14*, was issued. The requirements of this Statement are effective for reporting periods beginning after June 15, 2016. This Statement amends the blending requirements established in paragraph 53 of GASB Statement No. 14, as amended. This Statement amends the blending requirements for the financial statement presentation of component units of all state and local governments. The additional criterion requires blending of a component unit incorporated as a not-for-profit corporation in which the primary government is the sole corporate member. The additional criterion does not apply to component units included in the financial reporting entity pursuant to the provisions of GASB Statement No. 39. The City has determined that GASB Statement No. 80 has no impact on its financial statements as of December 31, 2017.

In March of 2016, GASB Statement No. 81, *Irrevocable Split-Interest Agreements*, was issued. The requirements of this Statement are effective for financial statements for periods beginning after December 15, 2016 and should be applied retroactively. The objective of this Statement is to improve accounting and financial reporting for irrevocable split-interest agreements by providing recognition and measurement guidance for situations in which a government is a beneficiary of the agreement. This Statement requires that a government that receives resources pursuant to an irrevocable split-interest agreement recognize assets, liabilities and deferred inflows of resources at the inception of the agreement. Furthermore, this Statement requires that a government recognize assets representing its beneficial interests in irrevocable split-interest agreements that are administered by a third party, if the government controls the present service capacity of the beneficial interests. This Statement requires that a government recognize revenue when the resources become applicable to the reporting period. The City has determined that GASB Statement No. 81 has no impact on its financial statements as of December 31, 2017.

In March of 2016, GASB Statement No. 82, *Pension Issues an Amendment of GASB Statements No. 67, No. 68 and No. 73*, was issued. The requirements of this Statement are effective for reporting periods beginning after June 15, 2016, except for the requirements of this Statement for the selection of assumptions in a circumstance in which an employer's pension liability is measured as of a date other than the employer's most recent fiscal year-end. In that circumstance, the requirements for the selection of assumptions are effective for that employer in the first reporting period in which the measurement date of the pension liability is on or after June 15, 2017. The objective of this Statement is to address certain issues that have been raised with respect to GASB Statements No. 67, No. 68 and No. 73. Specifically, this Statement addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements. As required, the City has implemented GASB Statement No. 82 as of December 31, 2017.

NOTE 3 – RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

- A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net position.

The governmental fund balance sheet includes a reconciliation between *fund balance – total governmental funds and net position – governmental activities* as reported in the government-wide statement of net position. One element of that reconciliation explains that long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds. The details of this \$852.0 million difference are as follows:

	(Amounts in Thousands)	
Bonds and notes payable	\$	(701,284)
Other payable		(22,000)
Interest rate swap		(8)
Unamortized bond premium/discount		(55,742)
Accrued interest payable		(4,181)
Capital leases payable		(4,363)
Claims and adjustments		(9,614)
Loss on refunding		17,752
Compensated absences		(72,606)
Net adjustment to <i>fund balance - total governmental funds</i> to arrive at <i>net position - governmental activities</i>	\$	(852,046)

Another element of that reconciliation states that net pension liability is not due and payable in the current period; therefore, the liability and the related deferred outflows of resources and deferred inflows of resources are not reported in the governmental funds. The details of this \$549.4 million differences are as follows:

	(Amounts in Thousands)	
Deferred outflows of resources	\$	187,888
Deferred inflows of resources		(27,169)
Net pension liability		<u>(710,084)</u>
Net adjustment to <i>fund balance - total governmental funds</i> to arrive at <i>net position - governmental activities</i>	\$	<u><u>(549,365)</u></u>

- B. Explanation of certain differences between the governmental fund statement of revenues, expenditures and changes in fund balances and the government-wide statement of activities.

The governmental fund statement of revenues, expenditures and changes in fund balances includes a reconciliation between *net changes in fund balances – total governmental funds* and *changes in net position of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains that governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. The details of this \$7.1 million difference are as follows:

	(Amounts in Thousands)	
Capital outlay	\$	50,659
Contributed Capital		20,162
Depreciation expense		(63,334)
Capital asset disposal		<u>(407)</u>
Net adjustment to <i>changes in fund balances - total governmental funds</i> to arrive at <i>change in net position of governmental activities</i>	\$	<u><u>7,080</u></u>

Another element of that reconciliation states that revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the fund statements. The details of this \$10.1 million difference are as follows:

	(Amounts in Thousands)	
Reversal of prior year deferred inflows of resources	\$	(90,322)
Current year deferred inflows of resources		<u>80,193</u>
Net adjustment to <i>changes in fund balances - total governmental funds</i> to arrive at <i>change in net position of governmental activities</i>	\$	<u><u>(10,129)</u></u>

Another element of that reconciliation states that the issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. The net effect of these differences, including accrued interest and in the treatment of long-term debt is \$2.1 million which is detailed as follows:

(Amounts in Thousands)	
Debt issued or incurred:	
Issuance of general obligation bonds and other obligations	\$ (142,850)
Accrued interest	4,875
Interest rate swap	26
Premium on debt	(21,916)
Principal repayments:	
General obligation debt and other obligations	46,060
Payment on capital lease	2,981
Refunding of general obligation bonds and other obligations	108,761
Net adjustment to <i>changes in fund balances - total</i>	
governmental funds to arrive at <i>change in net position of</i>	
<i>governmental activities</i>	
	\$ (2,063)

Another element of that reconciliation states that some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. The details of this \$389,000 difference are as follows:

(Amounts in Thousands)	
Compensated absences	\$ 1,768
Claims judgements	(2,157)
Net adjustment to <i>changes in fund balances - total</i>	
<i>governmental funds</i> to arrive at <i>change in net position of</i>	
<i>governmental activities</i>	
	\$ (389)

NOTE 4 – POOLED AND SEGREGATED CASH AND INVESTMENTS

Monies for the Debt Service Funds, certain Capital Project Funds, certain Agency Funds, Department of Port Control, Division of Water, Division of Water Pollution Control, Division of Cleveland Public Power, Division of Municipal Parking Lots, Cemeteries, Golf Courses, Public Auditorium and certain Special Revenue Funds are deposited or invested in individual segregated bank accounts.

Monies of all other funds of the City, including the accounts of the General Fund, other Special Revenue Funds, other Capital Project Funds, other Enterprise Funds, Internal Service Funds and other fiduciary funds are maintained or invested in a common group of bank accounts. Collectively these common bank accounts and investments represent the Pooled Cash Account (PCA). Each fund whose monies are included in the PCA has equity therein.

Certain funds have made disbursements from the PCA in excess of their individual equities in the PCA. Such amounts have been classified as due to other funds and due from other funds between the Restricted Income Tax Special Revenue Fund and the respective funds that have made disbursements in excess of their individual equities in the PCA.

The City has restrictive arrangements for certain segregated monies held in the banks' trust departments in which the City must act in conjunction with a trust officer in order to make investments. The City's role is that of investment manager and the trust officer's role is that of purchasing agent. For other segregated monies, the City acts alone in placing investments with the banks. Amounts held in escrow are designated for a special purpose and are entrusted to a third party to fulfill certain legal provisions.

Deposits: Ohio law requires that deposits be placed in eligible banks located in Ohio. The City's policy is to place deposits only with major commercial banks having offices within the City of Cleveland. Any public depository in which the City places deposits must pledge as collateral eligible securities of aggregate market value equal to the excess of deposits not insured by the Federal Deposit Insurance Corporation. Further, City ordinance requires such collateral amounts to exceed deposits by 10%. Collateral that may be pledged is limited to obligations of the following entities: the United States and its agencies, the State of Ohio, the Ohio Student Loan Commission and any legally constituted taxing subdivision within the State of Ohio. The City also requires that non-pooled securities pledged be held by either the Federal Reserve Bank or other trust institution, as designated by the City, as trustee. This collateral is held in joint custody with the financial institution pledging the collateral and cannot be sold or released without written consent from the City.

Monthly, the City determines that the collateral has a market value adequate to cover the deposits and that it has been segregated either physically or in book entry form. At year end, the carrying amount of the City's deposits including certificates of deposit was \$134,373,000 and the actual bank balance totaled \$132,323,000. The difference represents outstanding warrants payable and normal reconciling items. Based on the criteria described in GASB Statement No. 3, *Deposits with Financial Institutions, Investments (Including Repurchase Agreements) and Reverse Repurchase Agreements* and GASB Statement No. 40, *Deposit and Investment Risk Disclosures – an Amendment of GASB Statement No. 3*, \$132,323,000 of the bank balance was insured or collateralized with securities held by the City or by its agent in the City's name.

Custodial credit risk for deposits is the risk that in the event of bank failure, the City will not be able to recover deposits or collateral for securities that are in possession of an outside party. At year end, the City's deposits were fully insured or collateralized. All deposits are collateralized with eligible securities pledged and deposited either with the City or with a qualified trustee by the financial institution as security for repayment of all public monies deposited in the financial institution whose market value at all times is equal to at least 110% of the carrying value of the deposits being secured.

Investments: The City's investment policies are governed by State Statutes and City ordinances which authorize the City to invest in obligations of the U.S. Treasury, agencies and instrumentalities; State Treasurer Asset Reserve Fund (STAR Ohio); commercial paper; U.S. Government Money Market Mutual Funds; guaranteed investment contracts; manuscript debt; bonds and other State of Ohio obligations; certificates of deposit; and repurchase transactions. Such repurchase transactions must be purchased from financial institutions as previously discussed in "Deposits" or registered broker/dealers. Repurchase transactions are not to exceed a period of one year and confirmation of securities pledged must be obtained. Generally, investments are recorded in segregated accounts by way of book entry through the bank's commercial or trust department and are kept at the Federal Reserve Bank in the depository institution's separate custodial account for the City, apart from the assets of the depository institution. Ohio statute prohibits the use of reverse repurchase agreements.

Investment securities are exposed to various risks such as interest rate, market and credit. Fair values of securities fluctuate based on the magnitude of changing market conditions; therefore, significant changes in market conditions could materially affect portfolio value.

The City categorizes its fair value measurements within the fair value hierarchy established by GAAP. The hierarchy is based on the valuation inputs used to measure fair value of the assets. Level 1 inputs are quoted prices in active markets for identical assets. Level 2 inputs are significant other observable inputs. Level 3 inputs are significant unobservable inputs. The City's investments in money market mutual funds and STAR Ohio are excluded from fair value measurement requirements under GASB Statement No. 72 and instead are reported at amortized cost.

The following is a summary of the fair value hierarchy of the fair value of investments of the City (excluding STAR Ohio and money market mutual funds) as of December 31, 2017:

<u>Type of Investment</u>	<u>Fair Value</u>	<u>Fair Value Measurements Using</u>	
		<u>Level 1</u>	<u>Level 2</u>
(Amounts in Thousands)			
U.S. Treasury Bonds	\$ 40,051	\$ 40,051	\$
U.S. Treasury Bills	3,025	3,025	
Commercial Paper	54,650		54,650
Manuscript Debt	5,490		5,490
Other	<u>7,161</u>	<u> </u>	<u>7,161</u>
Total Investments	<u>\$ 110,377</u>	<u>\$ 43,076</u>	<u>\$ 67,301</u>

Interest rate risk: In accordance with its investment policy, the City limits its exposure to fair value losses caused by rising interest rates, investing primarily in short-term investments maturing within five years from the date of purchase. The intent is to avoid the need to sell securities prior to maturity.

Custodial Credit Risk: For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of the investments or collateral securities that are in the possession of an outside party. The City does not have an investment policy dealing with investment custodial risk beyond the requirement in the State Statute.

Credit Risk: The City's investments as of December 31, 2017 include U.S. Treasury Bonds, U.S. Treasury Bills, STAR Ohio, commercial paper, money market mutual funds, manuscript debt and other investments. The City maintains the highest ratings for its investments. The investments in U.S. Treasury Bills carry a Moody's rating of Aaa, the highest rating given by Moody. Investments in the U.S. Treasury Bonds, Dreyfus Government Cash Management Mutual Fund, First American Government Obligations Fund, Federated Government Obligations Fund, PNC Treasury Money Market Fund, Morgan Stanley Government Institutional Mutual Funds, Zion Bank Federal Government Obligation Funds and STAR Ohio carry a rating of AAAM, which is the highest money market fund rating given by Standard & Poor's. Ohio law requires that STAR Ohio maintain the highest rating provided by at least one nationally recognized standard rating service. Investments in U.S. Bank N.A. Open Commercial Paper carries a Standard & Poor's rating of A-1+. The City has no investment policy that would further limit its investment choices.

The City's investments shown in the following table include those which are classified as cash equivalents in accordance with the provisions of GASB Statement No. 9:

<u>Type of Investment</u>	<u>Value</u>	<u>Cost</u>	<u>Investment Maturities</u>		
			<u>Less than One Year</u>	<u>1 - 5 Years</u>	<u>5 Years or More</u>
(Amounts in Thousands)					
U.S. Treasury Bonds	\$ 40,051	\$ 40,079	\$	\$ 40,051	\$
U.S. Treasury Bills	3,025	3,020	3,025		
STAR Ohio	676,742	676,742	676,742		
Commercial Paper	54,650	54,650	54,650		
Money Market Mutual Funds	529,282	529,282	529,282		
Manuscript Debt	5,490	5,490			5,490
Other	<u>7,161</u>	<u>7,161</u>	<u>7,161</u>		
Total Investments	<u>1,316,401</u>	<u>1,316,424</u>	<u>1,270,860</u>	<u>40,051</u>	<u>5,490</u>
Total Deposits	<u>134,373</u>	<u>134,373</u>	<u>134,373</u>		
Total Deposits and Investments	<u>\$ 1,450,774</u>	<u>\$ 1,450,797</u>	<u>\$ 1,405,233</u>	<u>\$ 40,051</u>	<u>\$ 5,490</u>

STAR Ohio is an investment pool created pursuant to Ohio statutes and managed by the Treasurer of the State of Ohio. The fair value of the City's position in STAR Ohio is equal to the value of the shares the City owns in the investment pool. Investment type "Other" consist of deposits into collective cash escrow pools managed by either Bank of New York, Huntington or U.S. Bank, as trustee.

Concentration of Credit Risk: The City places a limitation on the amount it may invest in any one issuer to help minimize the concentration of credit risk. As of December 31, 2017, the investments in U. S. Treasury Bonds, U.S. Treasury Bills, STAR Ohio, commercial paper, money market mutual funds, manuscript debt and other are approximately 3.0%, 0.2%, 51.4%, 4.2%, 40.2%, 0.4% and 0.6%, respectively, of the City's total investments.

Reconciliation to Financial Statements: Total cash and investments are reported as follows:

(Concluded)

Internal Service Funds predominantly serve the governmental funds, except the Utilities Administration Fund, which serves only business-type activity funds. Long-term liabilities for all Internal Service Funds, except the Utilities Administration Fund, are included as part of the totals for governmental activities in the government-wide statement of net position. At December 31, 2017, \$1,361,000 and \$16,328,000 of the Internal Service Funds, except for Utilities Administration Fund, compensated absences and pension liability, respectively, were included in the governmental activities. Long-term liabilities for the Utilities Administration Fund are included as part of the totals for business-type activities in the government-wide statements. At December 31, 2017, \$927,000 and \$9,545,000 of the Utilities Administration Fund compensated absences and pension liability, respectively, were included in business-type activities.

The Subordinated Income Tax Refunding Bonds were issued initially to fund the City's obligation for the employer's accrued liability to the Police and Firemen's Disability and Pension Fund of the State of Ohio. All other bonds were issued to fund capital related activities.

The accrued wages and benefits liability will be paid from the fund from which the employees' salaries are paid. The estimated claims payable liability will be paid from the fund that incurred the liability or from Judgment Bond proceeds.

A detailed summary of principal due for General Obligation Bonds and business-type activities debt by purpose is as follows for 2017:

	<u>Original Issue Amount</u>	<u>Balance January 1, 2017</u>	<u>Additions</u>	<u>(Reductions)</u>	<u>Balance December 31, 2017</u>

The schedule of minimum principal and interest payments for construction loans above includes the amortization on eleven loans provided to the Division of Water by the Ohio Water Development Authority (OWDA) and two loans to the Division of Water Pollution Control by the Ohio Public Works Commission (OPWC). One OWDA loan provided to the Division of Water Pollution Control was paid off in 2017. This amortization is based upon the full amount expected to be financed, regardless of whether the Division of Water and the Division of Water Pollution Control have received all the loan proceeds. At December 31, 2017, the amount financed on these OWDA loan projects, which is reflected in the amortization schedule, less the principal payments made to date, equaled the actual loan balances shown on the schedule of long-term debt outstanding and changes in long-term debt obligations.

OWDA completed an interest rate buy-down in 2015 which resulted in interest rate savings on the current loans. Market rate loans with interest rates higher than 4.0% saw a reduction in rates to 4.0% while rates over 3.0% on OWDA loans were reduced to 3.0%. The buy-down commenced retroactively to the January 1, 2016 payment.

General Obligation Bonds

General Obligation Bonds: General Obligation Bonds are backed by the full faith and credit of the City. Such bonds are payable from ad valorem property taxes levied within the limitations provided by law, irrespective of whether such bonds are secured by other receipts of the City in addition to such ad valorem property taxes.

Effective May 18, 2016, the City issued \$47,545,000 Various Purpose and Refunding General Obligation Bonds, Series 2016A. A portion of the proceeds of these bonds in the amount of \$28,125,000 are being used to pay costs of permanent improvements to roads and bridges, to parks and recreation facilities and to various other public facilities. The remaining proceeds were used to refund \$1,795,000 of the outstanding Series 2007A General Obligation Bonds and to refund \$17,815,000 of the outstanding Series 2011 General Obligation Bonds. Net proceeds of the Series 2016A Bonds in the amount of \$22,383,372 were placed in an irrevocable escrow account to pay the principal and interest on the refunded bonds until the respective call date. As a result, the refunded bonds were defeased and the liability for those bonds has been removed from long-term debt. The City completed the refunding in order to achieve debt service savings of \$1,505,000 and an economic gain (the difference between the present values of the old and new debt service) of \$1,538,000 or 7.8%. Proceeds of the bonds were also used to fund issuance costs and the initial interest payments.

Also on May 18, 2016, the City issued \$4,260,000 Final Judgment General Obligation Refunding Bonds, Series 2016B. Proceeds were used to refund \$710,000 of outstanding Series 2007B Final Judgment General Obligation Bonds and \$3,980,000 of outstanding Series 2008A Final Judgment General Obligation Bonds. Proceeds in the amount of \$5,056,203 were placed in an irrevocable escrow account to pay the principal and interest on the refunded bonds until the respective call date for each series of bonds. As a result of this refunding, the refunded bonds were defeased and the liability for those bonds has been removed from long-term debt. The City realized net present value debt service savings of \$636,000 (the economic gain) or 13.6% from this refunding.

Under the direct debt limitation imposed by the Ohio Revised Code, the City had the capacity to issue \$254,557,918 of additional unvoted debt at December 31, 2017.

Other Governmental Obligations

Urban Renewal Bonds: In 1993, the City issued \$10,800,000 of Urban Renewal Bonds (Rock and Roll Hall of Fame and Museum Project) for the purpose of paying a portion of the costs of the acquisition and construction of a “port authority educational and cultural facility” to conduct programs of an educational and instructional nature relating to the field of contemporary music, including rock and roll music, which constitutes the Rock and Roll Hall of Fame and Museum (the Facility). The net proceeds were contributed to the Cleveland-Cuyahoga County Port Authority which owns and leases the Facility to Rock and Roll Hall of Fame and Museum, Inc., an Ohio non-profit corporation. The Facility opened in September 1995. The Urban Renewal Bonds are not general obligations of the City and are not secured by the full faith and credit of the City nor are they payable from the general revenues or assets of the City. The Urban Renewal Bonds are secured solely by pledged receipts, consisting of payments to be made in lieu of real property taxes pursuant to development agreements between the City and certain property owners and interest income on those payments.

Subordinated Income Tax Variable Rate Refunding Bonds: Effective June 1, 1994, the City issued \$74,700,000 of Subordinated Income Tax Variable Rate Refunding Bonds, Series 1994. The proceeds were used to fund the City’s obligation for the employer’s accrued liability to the Ohio Police and Fire Pension Fund (the Fund). The principal use of the proceeds was the current refunding of the City’s obligation to the Fund for the employer’s accrued liability in the amount of \$104,686,400, which was payable in semi-annual installments of \$2,696,243 through May 15, 2035. Pursuant to Section 742.30 (C) of the Ohio Revised Code, the City and the Fund entered into an agreement that permitted the City to make a one-time payment to the Fund to extinguish the City’s obligation. The payment amount of \$70,493,204 was calculated by applying a 35% discount factor to the \$104,686,400 accrued liability plus adding accrued interest of \$2,447,044.

Effective August 6, 2008, the City issued \$59,960,000 Subordinate Lien Unrestricted Income Tax Bonds, Series 2008 (Police and Fire Pension Payment) to refund all the outstanding Subordinated Income Tax Variable Rate Refunding Bonds, Series 1994. An interest rate swap related to the Series 1994 Bonds was terminated by the City on July 28, 2008 and the termination payment of \$4,325,000 owed to Ambac Financial Services, LLC, the swap counterparty, was paid from the proceeds of the Series 2008 Bonds. The City refunded the Series 1994 Bonds in order to address the increased interest rates incurred on the Bonds as a result of the downgrade of the bond insurer. The Bonds are not general obligations of the City and are not secured by its full faith and credit.

On November 18, 2015, the City issued \$28,975,000 Subordinate Lien Unrestricted Income Tax Refunding Bonds, Series 2015 (Police & Fire Pension Payment). The City issued these bonds in order to refund \$30,310,000 of the outstanding Series 2008 Subordinate Lien Unrestricted Income Tax Bonds (Police & Fire Pension). Proceeds of the Series 2015 Bonds in the amount of \$33,492,387 were placed in an irrevocable escrow account to pay the principal and interest on the refunded bonds on the call date. As a result, the refunded bonds were defeased and the liability

for those bonds was removed from long-term debt. The City completed the refunding in order to achieve debt service savings of \$1,867,000 and an economic gain (the difference between the present values of the old and new debt service) of \$1,809,000 or 5.97%.

The Series 2008 and Series 2015 Bonds are unvoted special obligations secured by a pledge of and a lien on the unrestricted municipal income taxes of the City, to the extent that such income taxes are not needed to pay debt service on the City's currently outstanding unvoted General Obligation Bonds or unvoted General Obligation Bonds issued in the future.

Interest Rate Swap Transaction:

Terms: On February 7, 2003, the City sold an option to JPMorgan Chase Bank (JPM) that gives JPM the right to execute an interest rate swap at its discretion at any time until the option expires on May 15, 2024 on a declining notional amount equal to the outstanding principal amount of the City's Subordinated Income Tax Variable Rate Refunding Bonds, Series 1994. The swaption is now associated with portions of the Series 2008 and Series 2015 Bonds. Under the swap agreement, the City will be the fixed rate receiver, receiving the fixed rate of 4.88% and JPM will be the floating rate receiver, receiving interest on what would have been the outstanding notional amount of the original 1994 Bonds of \$32,200,000 at December 31, 2017, at a rate equal to the weekly Securities Industry and Financial Markets Association (SIFMA) index. If the option is exercised, the stated termination date under the swap agreement with JPM will be May 15, 2024. The obligation of the City under the swap agreement to make periodic floating rate payments (but not any termination payment) is secured by a subordinate pledge of the income tax receipts, subordinate to the pledge of the income tax receipts made under the "General Bond Ordinance" securing the City's General Obligation Bonds. The payment of any termination payment is subordinate to the payment of debt service on the Subordinate Lien Unrestricted Income Tax Bonds, Series 2008 and Series 2015 and the periodic floating rate payments under the swap agreement.

Objective: The City entered into the swaption in order to potentially capture in the future the savings which could be derived from converting these bonds back to a variable rate if or when the option is exercised. In exchange for selling the option to JPM, the City received a premium payment of \$1,700,000.

Basis Risk: There is no basis risk for the City associated with this transaction with the exception of the risk inherent in all variable rate debt. If the option is exercised, the City will receive a fixed rate of 4.88% which is 12 basis points less than the fixed rate being paid on the Series 2008 Bonds and the Series 2015 Bonds. This transaction would leave the City paying the weekly SIFMA rate plus 12 basis points.

Counterparty Risk: The City selected JPM as a counterparty partly due to its credit strength. Over the long-term, it is possible that the credit strength of JPM could change and this event could trigger a termination payment on the part of the City.

Termination Risk: The swap agreement may be terminated prior to its stated termination date under certain circumstances. Upon termination, a payment may be owed by the City to JPM, or by JPM to the City, depending upon the prevailing economic circumstances at the time of the termination.

Fair Value: The fair value of the swaption at December 31, 2017 as reported by JPM was \$8,000 which would be payable by the City.

Subordinate Lien Income Tax Bonds: Effective June 13, 2017, the City issued \$65,400,000 Subordinate Lien Income Tax Improvement and Refunding Bonds, Series 2017A. A portion of the proceeds of these bonds in the amount of \$51,223,550 will be used to pay costs of permanent improvements to roads and bridges, to parks and recreation facilities and to various other public facilities. Other proceeds were used to refund \$14,970,000 of outstanding Series 2008 and Series 2012 Subordinate Lien Income Tax Bonds. Net proceeds in the amount of \$15,661,535 were deposited into an irrevocable escrow account to pay the principal and interest on the refunded bonds when it comes due. As a result, the refunded bonds were defeased and the liability for those bonds has been removed from long-term debt. This refunding resulted in \$1,363,000 debt service savings and an economic gain (the difference between the present values of the old and new debt service) of \$1,186,000 or 7.9%.

On December 28, 2017, the City issued \$77,450,000 Subordinate Lien Income Tax Refunding Bonds, Series 2017B. These bonds were issued to advance refund \$80,330,000 of outstanding public facilities improvement and bridge and roadway improvement Subordinate Lien Income Tax Bonds issued in 2013, 2014 and 2015. The City decided to refund the bonds at that time due to a provision in the new federal tax laws that eliminates tax-exempt advance

refunding bonds after December 31, 2017. Net proceeds in the amount of \$92,137,073, along with \$962,292 from the debt service fund, were placed in an irrevocable escrow account to make the principal and interest payments on the refunded bonds until their call date. The refunded bonds are therefore defeased and have been removed from long-term debt. As a result of this refunding, the City achieved \$3,483,000 of net present value debt service savings or 4.3%.

These bonds are special obligations of the City and are not general obligation debt and are not secured by a pledge of the full faith and credit of the City. The bonds are payable from the City's municipal income tax revenues to the extent those revenues are not needed to pay debt service charges on the City's unvoted general obligation debt or unvoted general obligation debt issued in the future. It is the City's intention to continue paying the debt service on the Subordinate Lien Income Tax Bonds from the Restricted Income Tax collections to the extent that funds are available from that portion of income tax receipts. The portion of the debt service not covered by the Restricted Income Tax, if any, will be paid from the unrestricted General Fund portion of income tax receipts.

Non-Tax Revenue Bonds – Stadium: On September 4, 2014, the City issued \$7,745,000 Non-Tax Revenue Refunding Bonds, Series 2014 for the Cleveland Stadium Project. These bonds refunded \$8,275,000 of the outstanding 2004 Non-Tax Revenue Refunding Bonds (Cleveland Stadium Project). Net proceeds of the Series 2014 Bonds in the amount of \$8,478,644 were placed in an irrevocable escrow account to pay the principal and interest on the refunded bonds on December 1, 2014. As a result, the refunded bonds were defeased and the liability for the Series 2004 Bonds has been removed from long-term debt. The City completed the refunding in order to achieve debt service savings of \$854,000 and an economic gain (the difference between the present values of the old and new debt service) of \$842,000 or 10.2%. These bonds do not represent a general obligation debt or pledge of the full faith and credit or taxing power of the City and are payable solely from non-tax revenues of the City.

Non-Tax Revenue Bonds – Economic Development Bonds Series 2003A and Series 2003B (Lower Euclid Avenue Project): In November 2003, the City issued \$7,200,000 Economic Development Revenue Bonds, Series 2003A and \$1,000,000 Economic Development Revenue Bonds, Series 2003B-1 for the Lower Euclid Avenue Project. In November 2004, the final \$1,000,000 Economic Development Revenue Bonds, Series 2003B-2 were issued. The proceeds of these bonds were made available to the owners of certain properties on Euclid Avenue for the construction and renovation of commercial restaurant and retail facilities and the construction of a parking garage. These Tax Increment Financing (TIF) Bonds are secured by a pledge of (a) service payments in lieu of taxes received by the City from the owners of certain properties located within a tax increment financing district, (b) loan payments payable to the City and (c) by a pledge of certain non-tax revenues of the City, subject to the prior pledge by the City of such non-tax revenues to secure other obligations of the City. Only the Series 2003A Bonds remain outstanding.

Non-Tax Revenue Bonds – Taxable Economic and Community Development Revenue Bonds (Core City): Effective April 9, 2015, the City issued \$15,280,000 Taxable Economic and Community Development Revenue Bonds, Series 2015 (Core City Fund). The proceeds of these bonds will be used to provide funds for eligible projects, including, but not limited to, the acquisition, construction, equipping or improvement of multi-unit housing and commercial development and the preparation or remediation of sites for these purposes. The principal and interest on these bonds are to be paid from non-tax revenues of the City and net project revenues.

On September 4, 2014, the City issued \$12,365,000 Taxable Economic and Community Development Refunding Revenue Bonds, Series 2014 (Core City Fund). The City issued these bonds in order to refund \$11,845,000 of the outstanding Taxable Economic and Community Development Bonds, Series 2004. Net proceeds of the Series 2014 Bonds in the amount of \$12,156,019 were deposited into an irrevocable escrow account to pay the principal and interest on the refunded bonds on December 1, 2014. As a result, the refunded bonds were defeased and the liability for the Series 2004 Core City Bonds was removed from long-term debt. This refunding resulted in \$1,248,000 of debt service savings and \$1,219,000 of net present value debt service savings or 10.3%. The Series 2014 Bonds were issued as fixed rate securities and are special obligations of the City, payable from non-tax revenues and net project revenues.

Effective July 24, 2008, the City issued \$28,160,000 Taxable Economic and Community Development Refunding Revenue Bonds, Series 2008 (Core City Fund). The proceeds of these bonds were used to refund the outstanding \$26,900,000 Series 2003 Taxable Economic and Community Development Revenue Bonds, to fund a bond reserve fund and to pay the costs of issuing the bonds. The Series 2003 Bonds were refunded in order to address increased interest rates incurred on the bonds due to the collapse of the auction rate securities market. The Series 2008 Bonds, which were special obligations of the City, were issued as variable rate demand obligations secured by a letter of credit provided by Citizens Bank. Upon the expiration of the letter of credit in 2011, the City obtained a new letter

of credit for the Series 2008 Bonds from PNC Bank. At the expiration of the PNC Bank letter of credit, the City elected to refund the outstanding \$25,360,000 Series 2008 Bonds with \$25,360,000 Taxable Economic and Community Development Bonds, Series 2013A, effective May 30, 2013. The bonds remain variable rate bonds and were privately placed with KeyBank National Association for a period of five years. As a result of this refunding, it is estimated that the City will achieve net present value debt service savings of \$1,178,000 or 4.65% and total debt service savings of \$1,464,000. The Bonds are payable from the City's non-tax revenues and net project revenues.

Annual Appropriation Bonds – Flats East Bank: On December 21, 2010, the City issued \$11,000,000 City Annual Appropriation Bonds through the Cleveland-Cuyahoga County Port Authority. The proceeds of the bonds were used to provide funds for land purchase and public improvements in the area of the Flats East Development Project. The bonds are special obligations of the Port Authority payable from appropriation payments made by the City under a cooperative agreement. The City's obligation to make payments is subject to and dependent upon annual appropriations being made by the City. The City intends to make these debt service payments from the Restricted Income Tax collections.

Certificates of Participation (COPS) - Stadium: In June 1997, Certificates of Participation (COPS) in the amount of \$139,345,000 were issued to assist in the construction of an open-air stadium for the play of professional football and other events. The City will make lease payments subject to annual appropriation by City Council and certification by the Director of Finance as to the availability of funds from those appropriations. These obligations do not constitute a debt or pledge of the full faith and credit of the City.

Effective October 11, 2007, the City issued \$108,390,000 Refunding COPS, Series 2007, to currently refund \$105,800,000 of the outstanding COPS, Series 1997. These were issued as auction rate securities and a swap associated with this transaction went into effect on November 15, 2007.

Due to the downgrade of the bond insurers beginning in late 2007 and the collapse of the auction rate securities market, the COPS, Series 2007 experienced failed auctions and interest rates as high as 12% in early 2008. To address these issues, the City converted all of the outstanding \$108,390,000 COPS, Series 2007 Auction Rate Certificates to Weekly Rate Certificates effective May 29, 2008. The payment of principal and interest was secured by a direct-pay letter of credit provided by Wachovia Bank, National Association.

Effective April 22, 2010, the City issued \$63,225,000 COPS, Series 2010A and \$69,900,000 COPS, Series 2010B to refund all of the outstanding \$108,390,000 COPS, Series 2007, upon the expiration of the Wachovia letter of credit. Proceeds of the COPS, Series 2010, were used to currently refund the COPS, Series 2007, on the day of closing, to fund a required debt service reserve fund deposit in the amount of \$8,324,045, to make a termination payment on the existing hedge agreement with UBS in the amount of \$17,322,000 and to pay costs of issuing the COPS. This refunding was undertaken (1) to remove Ambac as the bond and swap insurer and eliminate the risk of early termination of the hedge agreement due to Ambac's possible insolvency, (2) to obtain lower credit enhancement costs and (3) to restructure debt service payments. The COPS, Series 2010A, were issued as fixed rate obligations. The COPS, Series 2010B, were purchased by Wells Fargo Bank, National Association, as floating rate obligations for a period of three years, the interest on which is reset weekly based on the SIFMA index plus a spread. As a result of this refunding, the City achieved an economic gain (the difference between the present values of the old and new debt service) of approximately \$3,461,000 or 3.19%.

Effective March 21, 2013, the City completed a conversion and remarketing of the COPS, Series 2010B. This was done in order to change the index rate being charged on the bonds as well as to extend the interest rate period until March 2018. The COPS, Series 2010B, were again purchased by Wells Fargo Bank, National Association.

Capital Lease Arrangements: The City has entered into various agreements to lease equipment. Such agreements are treated as lease purchases (Capital Leases) and are classified as long-term lease obligations in the financial statements. The lease contracts contain annual one-year renewal options that can be exercised by the City if sufficient funds are appropriated by City Council. Upon the exercise of each annual one-year renewal option and satisfaction of the lease obligations related thereto, title to the equipment will pass to the City.

On June 30, 2011, the City entered into an equipment lease agreement with PNC Equipment Finance LLC. This enabled the City to purchase approximately \$6,585,000 of vehicles and equipment for various departments, including police cars, a fire truck, waste collection equipment and EMS ambulances. On June 5, 2012, the City entered into a second vehicle lease agreement with PNC Equipment Finance LLC in the amount of \$6,507,400. The funds were used to purchase a variety of vehicles including police cars, EMS ambulances and waste collection equipment. Effective June 20, 2013, the City entered into a \$6,535,000 vehicle lease agreement with Huntington

Public Capital Corporation. The funds were again used to purchase a variety of vehicles including police cars, EMS ambulances and waste collection equipment. Payments on all of these equipment leases are made over a period of seven years from issuance from the Restricted Income Tax Fund.

The assets recorded by the City under Capital Leases were as follows as of December 31, 2017:

Governmental	
<u>Activities</u>	
(Amounts in Thousands)	
Furniture, fixtures and equipment	\$ 43,964
Less – accumulated depreciation	<u>(30,252)</u>
Net book value	<u><u>\$ 13,712</u></u>

State Infrastructure Bank Loan: The Ohio Department of Transportation provided the City with a 3% loan for the construction of the Fulton Road Bridge. The amount of the loan is \$2,100,000. The loan is payable over 10 years to the Ohio Treasurer of State on a bi-annual basis.

West 150th Street Improvement Loan: The Ohio Public Works Commission (OPWC) approved a loan to the City to finance a portion of the West 150th Street Improvement project. OPWC committed up to \$1,949,332 at a 0% interest rate for 20 years. The City and the City of Brook Park have an agreement to share the debt service requirements of the OPWC loan. The City of Brook Park will pay 100% of the annual debt service requirements and the City will reimburse the City of Brook Park 65% of the annual debt service requirement.

Cleveland Browns Stadium Obligation: Pursuant to an agreement entered into in 2014 between the City and Cleveland Browns Stadium Company LLC (Browns), the City has agreed to pay the Browns \$2,000,000 per year on or before June 1 for fifteen years. This period of time coincides with the years remaining on the lease. These payments are to offset the capital improvements made by the Browns. The Browns may use this annual payment as they deem appropriate, including for operations and maintenance expenses. This payment is subject to annual appropriation by the City.

Accrued Wages and Benefits: Accrued wages and benefits, included in long-term obligations, consist of the non-current portion of vacation and sick pay benefits earned by employees of the City. The City accrues vacation and sick pay benefits when earned and future compensation is likely.

Police and Fire Overtime and Deferred Vacation Pay: Uniformed employees of the Police and Fire Divisions accumulate overtime compensation in accordance with the union contracts and the requirements of the Fair Labor Standards Act. In addition, uniformed employees may defer earned vacation time, with the appropriate approvals, until retirement. The liabilities for overtime and deferred vacation time, at current pay rates including their related fringe benefits and converted to straight time hours, at December 31, 2017, follow:

<u>Division</u>	<u>Overtime</u>		<u>Deferred Vacation</u>	
	<u>Hours</u>	<u>Dollars</u>	<u>Hours</u>	<u>Dollars</u>
(Amounts in Thousands)				
Police	1,051	\$ 34,529		\$
Fire	<u>128</u>	<u>4,333</u>	<u>64</u>	<u>2,142</u>
Total	<u><u>1,179</u></u>	<u><u>\$ 38,862</u></u>	<u><u>64</u></u>	<u><u>\$ 2,142</u></u>

Business-Type (Enterprise Fund) Obligations

Airport System Revenue Bonds: These bonds are secured by the pledge of airport revenues and moneys in the special funds which include, among others, the bond service fund, bond service reserve fund, the renewal and replacement fund and the airport development fund, as defined in the revenue bond indenture. Further, the City has assigned to the trustee all its interests in and rights to the airline use agreements under the revenue bond indenture.

Effective February 1, 2017, the City entered into an amendment to extend the period of time during which U.S. Bank National Association will be the holder of the Airport System Revenue Bonds, Series 2014A & 2014B. The bonds remain in a variable rate mode with the Airport System again paying on a monthly basis an amount equal to SIFMA plus a spread on the 2014A Bonds and an amount equal to one month LIBOR plus a spread on the 2014B Bonds.

Effective February 23, 2016, Airport System Revenue Bonds, Series 2016A, were issued in the amount of \$108,120,000. These bonds were issued to advance refund \$126,700,000 of outstanding Series 2000C Airport System Bonds. Bond proceeds in the amount of \$126,957,834, along with \$1,055,840 from the Series 2000 Interest Account and \$4,497,749 released from the debt service reserve fund, were placed in an irrevocable escrow account to pay the principal and interest on the refunded bonds when due. As a result of this refunding, the refunded bonds were defeased and the liability for those bonds has been removed from long-term debt. The City completed this refunding in order to achieve debt service savings of approximately \$22,111,000 and realized an economic gain (the difference between the present values of the old and new debt service) of \$15,727,000 or 12.4%.

At the same time that the City sold the Series 2016A Bonds, the City also sold \$36,235,000 Airport System Revenue Bonds, Series 2016B, on a forward delivery basis. The Series 2016B Bonds were issued effective October 4, 2016 to refund \$41,235,000 of outstanding Airport System Revenue Bonds, Series 2006A. Bond proceeds in the amount of \$41,157,840, along with \$515,000 from the Series 2006 Interest Account and \$593,035 released from the debt service reserve fund, were placed in an irrevocable escrow account to pay the principal and interest on the refunded bonds when due. The refunded bonds are considered to be defeased and the liability for those bonds has been removed from long-term debt. The City realized debt service savings of approximately \$6,586,000 and net present value savings of \$5,149,000 or 12.5% from this refunding.

Effective April 1, 2016, the Airport System Revenue Bonds, Series 2013A, which had been directly purchased by U.S. Bank National Association in 2013 were tendered and then purchased by PNC Bank National Association. The bonds remain in a variable rate mode with the Airport System again paying on a monthly basis an amount equal to one month LIBOR plus a spread.

Public Power System Revenue Bonds: These bonds are payable from the net revenues derived from the Public Power System and are secured by a pledge of and lien on such net revenues.

On December 14, 2016, the City issued \$42,025,000 Public Power System Revenue Refunding Bonds, Series 2016. These bonds were issued to refund \$45,285,000 of outstanding Series 2006A-1 Public Power System Bonds. Net proceeds of the bonds in the amount of \$45,649,796 were placed in an irrevocable escrow account to pay the principal and interest on the refunded bonds on January 13, 2017. The refunded 2006A-1 Bonds are considered to be defeased and the liability for those bonds has been removed from long-term debt. The City completed the refunding in order to achieve debt service savings of approximately \$3,965,000 and an economic gain (the difference between the present values of the old and new debt service) of \$3,647,000 or 8.05%.

Effective October 30, 2014, the City issued \$76,885,000 Public Power System Taxable Revenue Refunding Bonds, Series 2014. These bonds were issued to refund \$68,745,000 of outstanding Public Power System Bonds for the purpose of restructuring the Division's debt in order to level out the annual principal and interest payments over the life of the Division's bonds. As a result of this restructuring, the Division will pay approximately \$4 million less in annual debt service payments through 2024, with yearly debt service payments of approximately \$18 million from 2014 through 2038.

Waterworks Improvement Revenue Bonds: These bonds are payable from the revenues derived from operation of the Waterworks System after the payment of all operating and maintenance expenses (net revenue) and from monies and investments on deposit in the Revenue Fund, the Debt Service Fund, the Debt Service Reserve Fund, the Contingency Fund and the Additions and Improvements Fund.

On September 7, 2017, Water Revenue Bonds, Series BB, 2017, were issued in the amount of \$15,760,000. The bonds were issued to advance refund \$16,835,000 of outstanding Series X Water Revenue Bonds, 2012. Net bond proceeds in the amount of \$19,078,451, along with \$126,167 from the Series X debt service fund, were placed in an irrevocable escrow account to pay the principal and interest on the refunded bonds when due. As a result of this refunding, the City realized an economic gain (the difference between the present values of the old and new debt service) of \$1,367,000 or 8.1% and achieved debt service savings of \$1,727,000.

At the same time the City sold the Series BB Bonds, the City also sold \$54,730,000 Water Revenue Bonds, Series CC, on a forward delivery basis. The Series CC Bonds were ultimately issued effective October 3, 2017 to refund \$70,325,000 of outstanding Water Revenue Bonds, Series P, 2005. Net bond proceeds in the amount of \$64,119,219, along with \$874,438 from the Series P Interest account and \$7,080,119 released from the debt service reserve fund, were placed in an irrevocable escrow account to pay the principal and interest on the refunded bonds. The City realized present value savings of \$10,760,000 or 15.3% from this refunding.

Effective October 10, 2017, the City issued \$43,095,000 Water Revenue Bonds, Second Lien Series B, 2017. These bonds provided funds to advance refund \$45,850,000 of outstanding Second Lien Series A Bonds, 2012. Net bond proceeds in the amount of \$51,753,988, along with \$566,000 from the Second Lien Series A Interest account, were placed in an irrevocable escrow account to pay the principal and interest on the refunded bonds. As a result of this refunding, the City achieved net present value debt service savings of \$3,103,000 or 6.8%.

Upon the mandatory tender by the direct purchasers of the Water Revenue Bonds, Series U, 2010 and the Water Revenue Bonds, Series V, 2010, the City entered into new direct purchase agreements on both series of bonds. Effective December 1, 2016, the \$54,935,000 Water Series U Bonds and the \$26,495,000 Water Series V Bonds were directly purchased by PNC Bank, National Association. The City will be paying an interest rate equal to 65.001% of one month LIBOR plus a spread for the next three years.

In conjunction with the issuance of the Water Revenue Bonds, Second Lien Series A 2012, the City established a Subordinate Bonds indenture for the Division of Water. Bonds issued under this indenture are special obligations of the City payable solely from and secured solely by a pledge of and lien on the Subordinate Pledged Revenues and the Subordinate Pledged funds. The Subordinate Pledged Revenues generally consist of the net revenues of the Division which remain after the payment of all operating expenses and the deposit of all funds required to be made on behalf of the Senior Lien bonds. Bonds issued under this indenture are subordinate to those issued as senior lien bonds under the Division of Water's Amended and Restated Indenture.

Interest Rate Swap Transactions:

Series AA, Series U and Series V Bonds (previously Series Q, Series R and Series S Bonds):

When the Water Series R and Series S Bonds were refunded in 2010, the swap associated with these bonds was transferred to a portion of the new Series U and Series V Bonds. The portion of the swap associated with Series Q remained unchanged. The Series Q Bonds were then refunded in 2015 and the swap associated with those bonds was transferred to the new Series AA Bonds.

Terms: Simultaneously with the issuance of the City's \$175,000,000 Water Revenue Bonds, Series M on August 10, 2004, the City entered into floating to fixed rate swap agreements with notional amounts equal to the total declining balance of the Series M Bonds. Bear Stearns Financial Products Inc. (Bear Stearns) (which has since been acquired by JPMorgan Chase Bank, N.A. (JPM)) was the counterparty on a two-thirds pro-rata share of the transaction and Morgan Stanley Capital Services Inc. (Morgan Stanley) was the counterparty on a one-third pro-rata share of the transaction. Under the original swap agreements for the Series M Bonds, the Water System was the fixed rate payor, paying a fixed rate of 3.533%. Each counterparty was a floating rate payor, with each paying the Water System 61.25% of one month LIBOR plus a spread. Net payments were exchanged semiannually on January 1 and July 1. The obligation of the Water System to make periodic payments (but not any termination payment) was secured by a pledge of and lien on the net revenues of the Water System on a parity with the pledge and lien securing the payment of debt service on the bonds. Both the bond debt service payments on the Series M Bonds and the periodic swap payments were insured by Financial Security Assurance (FSA).

As part of the refunding of the Series M Bonds, the City amended and restated the original swap agreements to (a) eliminate the swap insurance and related insurer rights, (b) modify the payment frequency, (c) transfer the original swap agreement from Bear Stearns to JPM and (d) split each original swap agreement into two separate

interest rate swaps in order to hedge separate series of bonds. The original Bear Stearns swap which has been assumed by JPM hedged the entire principal amount of Series R and certain maturities of the Series Q Bonds. The original Morgan Stanley swap hedged the entire principal amount of Series S and a portion of the Series Q Bonds. The floating rate received by the City was not altered. However, the fixed rate paid by the City was adjusted to 3.553% for the JPM swap and 3.5975% for the Morgan Stanley swap. The termination date for the swaps associated with Series Q (now the Series AA Bonds) is January 1, 2021 while the termination date for the Series R and Series S swaps is January 1, 2033. Net payments are now exchanged monthly. With the refunding of the Series R and Series S Bonds, the JPM swap now hedges all but \$200,000 of the Series U Bonds and the Morgan Stanley swap hedges all but \$200,000 of the Series V Bonds.

Objective: The City entered into the swaps in order to maximize the savings associated with the refunding of the bonds. The actual savings to be realized by the Water System will depend upon the payments made on the variable rate bonds and the payments received under the swap agreement.

Basis Risk: By entering into swaps based upon the 30 day LIBOR rate of interest, the City has undertaken basis risk associated with a change in tax rates and structure. While the average relationship between SIFMA (tax-exempt) and LIBOR (taxable) interest rates has been 67% over time, this relationship may not always apply. If the payments received from the counterparties are less than the amount paid on the variable rate bonds, the Water System must make up the difference in addition to paying the fixed rate resulting from the swap. As a result of the turmoil in the financial markets beginning in 2008, the SIFMA/LIBOR ratio has been significantly higher and lower than 67% for periods of time. In addition, a reduction in federal income tax rates, such as the one recently enacted, might increase the percentage relationship between SIFMA and LIBOR and may potentially increase the cost of financing.

Counterparty Risk: The City selected highly rated counterparties in order to minimize this risk. However, in the wake of the sub-prime mortgage crisis, Bear Stearns was acquired by JPM. The portion of the City's swap with Bear Stearns as the counterparty was assumed by JPM. Over the long-term it is possible that the credit strength of JPM and/or Morgan Stanley could change and this event could trigger a termination payment on part of the City.

Termination Risk: The swap agreement may be terminated prior to its stated termination date under certain circumstances. Upon termination, a payment may be owed by the City to JPM and Morgan Stanley or by JPM and Morgan Stanley to the City, depending upon the prevailing economic circumstances at the time of the termination.

Fair Value: The fair value of the swaps (including accrued amounts) at December 31, 2017 as reported by JPM and Morgan Stanley totaled \$11,107,000 which would be payable by the City.

Water Pollution Control Revenue Bonds: On April 14, 2016, the City issued \$32,390,000 Water Pollution Control Revenue Bonds, Series 2016 (Green Bonds). This was the first series of revenue bonds issued by the Division, with the bonds being issued under and secured by a newly created Master Trust Agreement. The proceeds of these bonds are being used to pay capital costs relating to the acquisition, construction and improvement of the system along with funding the debt service reserve requirement and paying the costs of issuing the bonds.

In conjunction with the issuance of the Series 2016 Water Pollution Control Revenue Bonds, the City entered into a Master Trust Agreement for the Series 2016 Bonds and any future series of revenue bonds. Under the terms of the Trust Agreement, the Bonds are special obligations payable solely from and secured by a pledge of and lien on the net revenues of the Division and the Special Funds. The Special Funds include the construction fund, the debt service fund, the debt service reserve fund, the rate stabilization fund, the contingency fund and the balance subfund.

Ohio Water Development Authority and Ohio Public Works Commission Loans: These loans are payable from net revenues derived from the Waterworks and Water Pollution Control Systems. These obligations do not have a lien on revenues of the Divisions.

Parking Facilities Refunding Revenue Bonds: These bonds are payable from net revenues generated from certain parking facilities and other operating revenues of the Division of Parking Facilities, including parking meter revenue. In addition, the City has pledged other non-tax revenue to meet debt service requirements. The City has pledged and assigned to the trustee a first lien on pledged revenues consisting of fines and penalties collected as a result of the violation of municipal parking ordinances and fines, waivers and costs relating to citations for misdemeanor offenses and the special funds as defined within the bond indenture.

Effective October 6, 2011, the City completed the sale of the City-owned Gateway North Parking Garage to Rock Ohio Caesars Gateway LLC. The garage is now being used by the purchaser in conjunction with a casino

constructed in the Higbee Building adjacent to the garage. The net proceeds of the sale of the garage received by the City totaled \$20,915,504. Of this amount, \$19,578,288 was placed into an irrevocable escrow fund, along with \$1,967,425 released from the debt service reserve fund as a result of the transaction, to be used to pay the principal and interest as it comes due on \$16,145,000 Parking Facilities Refunding Revenue Bonds, Series 2006. As a result, these bonds were considered to be defeased and the liability for the bonds was removed from long-term debt. In addition, \$480,000 of the sale proceeds was used to terminate the portion of an existing basis swap which was associated with the bonds being defeased. Sale proceeds were also utilized to pay costs of the transaction. As a result of this transaction, the City expects to save approximately \$600,000 annually through 2022.

Effective August 15, 2006, the City issued \$57,520,000 of Parking Facilities Refunding Revenue Bonds, Series 2006. The bonds were issued to currently refund \$56,300,000 of the outstanding Parking Facilities Refunding Revenue Bonds, Series 1996. In addition, proceeds were also used to fund a portion of a payment owed by the City upon early termination under an interest rate swaption agreement entered into in 2003. At the time of the issuance of the Series 2006 Bonds, the City entered into a basis swap agreement with UBS which is described below.

On April 16, 2013, the City entered into a novation agreement with UBS, AG and PNC Bank, National Association (PNC) under which the basis swap was transferred from UBS to PNC effective March 15, 2013. All of the terms of the original basis swap remain the same. The City agreed to transfer the swap to PNC based upon UBS' mandate to downsize its swap portfolio.

Interest Rate Swap Transaction:

Terms: Simultaneously with the issuance of the City's \$57,520,000 Parking Facilities Refunding Revenue Bonds, Series 2006 on August 15, 2006, the City entered into a floating-to-floating rate basis swap agreement with a notional amount equal to the total declining balance of the Series 2006 Bonds. UBS was the counterparty on the transaction. As stated above, the basis swap was transferred to PNC Bank, National Association in 2013. Under the swap agreement for the Series 2006 Bonds, the City is a floating rate payor, paying a floating rate based on the SIFMA index. The counterparty is also a floating rate payor, paying the City 67% of one month LIBOR. The City also received an upfront payment in the amount of \$1,606,000. Net payments are exchanged semi-annually each March 15 and September 15. The obligation of the City to make periodic payments (but not any termination payment) is secured by a pledge of and lien on the parking revenues and additional pledged revenues as defined in the trust indenture securing the Parking Facilities Refunding Revenue Bonds, Series 2006, on parity with the pledge and lien securing the payment of debt service on the bonds.

Objective: The City entered into the swap in order to maximize the savings associated with the refunding of the bonds and to reduce the City's risk exposure. The actual overall savings to be realized by the City will depend upon the net payments received under the swap agreement.

Basis Risk: By entering into a swap based upon the 30 day LIBOR rate of interest, the City has undertaken basis risk associated with a change in tax rates and structure. While the average relationship between the SIFMA (tax-exempt) and LIBOR (taxable) interest rates has been 67%, this relationship may not always apply. Since late 2008, this relationship has been significantly higher or lower for various periods of time due to the disruptions in the financial markets. The payments received from the counterparty may be less than the amount owed to the counterparty, resulting in a net increase in debt service. From 2013 to early 2016, the SIFMA/LIBOR relationship was significantly lower than 67%. In this case, payments received from the counterparty were greater than the amount owed to the counterparty which resulted in a net decrease in debt service. In addition, a reduction in federal income tax rates, such as the one that was approved in late 2017, might increase the percentage relationship between SIFMA and LIBOR and may potentially increase the cost of the financing.

Counterparty Risk: The City selected a highly rated counterparty in order to minimize this risk. However, over the long-term it is possible that the credit strength of PNC could change and this event could trigger a termination payment on part of the City.

Termination Risk: The swap agreement may be terminated prior to its stated termination date under certain circumstances. Upon termination, a payment may be owed by the City to PNC or by PNC to the City, depending upon the prevailing economic circumstances at the time of the termination. The City obtained insurance to mitigate much of the risk associated with termination due to the event of a downgrade of the City's bond rating. An amount due by the City to PNC upon early termination of the agreement is insured by FSA (now Assured Guaranty Municipal Corp.) up to a maximum amount of \$8,000,000.

Fair Value: The fair value of the swap at December 31, 2017 as reported by PNC totaled \$90,000, which would be payable by the City.

Debt Covenants: The Enterprise Funds' bond agreements have certain restrictive covenants and principally require that bond reserve funds be maintained for most series of bonds and that fees charged to customers be in sufficient amounts, as defined, to satisfy the obligations under the indenture agreements. In addition, special provisions exist regarding covenant violations, redemption of principal and maintenance of properties in good condition.

Defeasance of Debt

The City has defeased certain debt by placing cash or the proceeds of new bonds in irrevocable trusts to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and defeased bonds are not recorded in the City's financial statements.

The aggregate amount of defeased debt outstanding at December 31, 2017 is as follows:

<u>Bond Issue</u>	(Amounts in Thousands)	<u>Bond Issue</u>	
<u>Parking Facilities Bonds:</u>		<u>Unvoted Tax Supported General Obligation:</u>	
Series 2006	\$ 8,420	Series 2008A	\$ 7,500
		Series 2011	17,815
<u>Water Revenue Bonds:</u>		<u>Subordinate Lien Income Tax Bonds:</u>	
Series P, 2007	\$ 70,325	Series 2008	\$ 39,860
Series X, 2012	16,835	Series 2012	2,915
Second Lien Series A, 2012	45,850	Series 2013A	12,745
		Series 2014A	10,040
<u>Subordinate Lien Unrestricted Income Tax Bonds:</u>		Series 2014B	17,055
Series 2008	\$ 28,830	Series 2015A	40,490

Airport Special Facilities Revenue Bonds

Airport Special Facilities Revenue Bonds, Series 1990, totaling \$76,320,000 were issued to finance the acquisition and construction of a terminal, hangar and other support facilities leased to Continental Airlines (now United Continental Holdings, Inc.) at Cleveland Hopkins International Airport. These bonds were refunded in 1999 by the issuance of Airport Special Revenue Refunding Bonds, Series 1999 totaling \$71,440,000. In January 2016, United Airlines deposited funds with the trustee sufficient to pay off the Airport Special Revenue Refunding Bonds, Series 1999. Additional Airport Special Facilities Revenue Bonds, Series 1998, totaling \$75,120,000, were issued in 1998 to finance the design and construction of certain airport facilities leased to Continental Airlines, including a new regional jet concourse. Because principal and interest on these bonds are unconditionally guaranteed by Continental Airlines (now United Continental Holdings, Inc.) and paid directly by Continental Airlines, these bonds do not constitute a debt, liability or general obligation of the City or a pledge of the City's revenues. As such, no liabilities relating to these bonds are included in the accompanying financial statements.

Pledges of Future Revenues

The City has pledged future airport revenues to repay \$684,610,000 in various Airport System Revenue Bonds issued in various years since 2006. Proceeds from the bonds provided financing for airport operations. The bonds are payable from airport net revenues and are payable through 2033. Annual principal and interest payments on the bonds are expected to require less than 70% of net revenues. The total principal and interest remaining to be paid on the various Airport System Revenue Bonds is \$944,333,000. Principal and interest funded in the current year and total net revenues (including other available funds) were \$68,437,000 and \$97,869,000 respectively.

The City has pledged future power system revenues, net of specified operating expenses, to repay \$202,173,000 in various Public Power System Revenue Bonds issued in various years since 2008. Proceeds from the bonds provided financing for Public Power System improvements. The bonds are payable from Public Power System net revenues

and are payable through 2038. Annual principal and interest payments on the bonds are expected to require less than 66% of net revenues. The total principal and interest remaining to be paid on the various Public Power System Revenue Bonds is \$372,178,000. Principal and interest paid for the current year and total net revenues were \$17,902,000 and \$27,265,000 respectively.

The City has pledged future water system revenues, net of specified operating expenses, to repay \$565,100,000 in various Senior Lien Water Revenue Bonds and Subordinate Lien Bonds issued in various years since 1993. Proceeds from the bonds provided financing for Water System improvements. The bonds are payable from Water System net revenues and are payable through 2042. Annual principal and interest payments on the bonds are expected to require less than 42% of net revenues. The total principal and interest remaining to be paid on the various Senior and Subordinate Lien Water Revenue Bonds is \$767,850,000. Amounts deposited for principal and interest in the current year on the Senior Lien Bonds and total net revenues were \$49,546,000 and \$120,604,000 respectively.

The City has pledged future water pollution control revenues to repay \$31,840,000 in Water Pollution Control Revenue Bonds issued in 2016. Proceeds from the bonds are being used to pay capital costs relating to the acquisition, construction and improvement of the system. The bonds are payable from water pollution control net revenues and are payable through 2045. Annual principal and interest payments on the bonds are expected to require less than 24% of net revenues. The total principal and interest remaining to be paid on the various Water Pollution Control Revenue Bonds is \$59,726,000. Principal and interest funded in the current year and total net revenues (including other available funds) were \$2,134,000 and \$8,772,000 respectively.

The City has pledged future revenues from certain parking facilities, net of specified operating expenses and other operating revenues to repay \$17,770,000 of Parking Facilities Refunding Revenue Bonds issued in 2006. Proceeds from the bonds initially issued provided financing for the construction of parking facilities. The bonds are payable from parking facilities net revenues and are payable through 2022. Annual principal and interest payments on the bonds are expected to require the full amount of net operating revenues. The total principal and interest remaining to be paid on the Parking Facilities Refunding Revenue Bonds is \$20,664,000. Principal and interest paid for the current year (including net swap payments) and total net revenues were \$4,167,000 and \$5,372,000 respectively.

In 2017, no additional pledged revenue was required to meet the debt service on the Parking Facilities Refunding Revenue Bonds. The trust indenture requires, among other things, that the Division of Parking Facilities will fix parking rates and will charge and collect fees for the use of the parking facilities and will restrict operating expenses. As of December 31, 2017, the Division of Parking Facilities was in compliance with the terms and requirements of the trust indenture.

Derivative Instruments

Derivative instruments are contracts, the value of which depends on, or derives from, the value of an underlying asset, index or rate. The most common types of derivatives used by governments are interest rate swaps and interest rate locks. The City has entered into various derivative or hedging agreements since 1999. A detailed description of each outstanding derivative, including its terms, objectives, risks and fair value, can be found in the section discussing the bonds to which the derivative relates.

The derivative instruments are classified as Level 2 inputs of the fair value hierarchy and are considered to be significant other observable inputs. The derivative instruments are calculated using the zero-coupon discounting method which takes into consideration the prevailing interest rate environment, the specific terms and conditions of a given transaction and assumes that the current forward rate implied by the yield curve are the market's best estimate of future spot interest rates. The income approach is then used to obtain the fair value of the swaps, where future amounts are converted to a single current (discounted) amount, using a rate of return that takes into account the relative risk of nonperformance associated with the cash flows and time value of money.

The table below presents the fair value balances and notional amounts of the City's derivative instruments outstanding at December 31, 2017, classified by type and the changes in fair value of these derivatives during fiscal year 2017 as reported in the 2017 financial statements. The fair values of the interest rate swaps, which reflect the prevailing interest rate environment at December 31, 2017 and the specific terms and conditions of each swap, have been provided by the respective counterparty for each swap and confirmed by the City's financial advisor.

	<u>Changes in Fair Value</u>		<u>Fair Value at December 31, 2017</u>		
	<u>Classification</u>	<u>Amount</u>	<u>Classification</u>	<u>Amount</u>	<u>Notional</u>
(Amounts in Thousands)					
Investment Derivatives:					
Governmental Activities:					
Fixed to floating interest rate swap					
2003 Subordinated Income Tax Swaption	Investment Revenue	\$ 26	Debt	\$ (8)	\$ 32,200
Business-Type Activities:					
Floating to floating interest rate swap					
2006 Parking Basis Swap	Investment Revenue	128	Debt	(90)	17,770
Hedging Derivatives:					
Floating to fixed interest rate swaps					
2015 AA Water Swap	Deferred inflow	1,403	Debt	(1,696)	50,105
2010 U Water Swap	Deferred inflow	1,352	Debt	(6,284)	54,735
2010 V Water Swap	Deferred inflow	675	Debt	(3,127)	26,295

The table below presents the objective and significant terms of the City's derivative instruments at December 31, 2017, along with the credit rating of each swap counterparty.

<u>Bonds</u>	<u>Type</u>	<u>Objective</u>	<u>Notional Amount</u>	<u>Effective Date</u>	<u>Maturity Date</u>	<u>Terms</u>	<u>Counterparty Credit Rating</u>
Subordinated Income Tax Bonds	Receive Fixed Interest Rate Swaption	Hedge of changes in fair value of Series 1994 Subordinated Income Tax Bonds	\$ 32,200,000	2/7/2003	5/15/2024	If option is exercised, Receive 4.88%, pay SIFMA	Aa3/A+/AA-
Water Series AA	Pay Fixed Interest Rate Swap	Hedge of changes in cash flow on the Series AA Water System Bonds	\$ 32,670,000	8/10/2004	1/1/2021	Pay 3.553%, receive 61.25% of LIBOR + 28 bps	Aa3/A+/AA-
Water Series AA	Pay Fixed Interest Rate Swap	Hedge of changes in cash flow on the Series AA Water System Bonds	\$ 17,435,000	8/10/2004	1/1/2021	Pay 3.5975%, receive 61.25% of LIBOR + 28 bps	A3/BBB+/A
Water Series U	Pay Fixed Interest Rate Swap	Hedge in changes in cash flow on the Series U Water System Bonds	\$ 54,735,000	2/12/2009	1/1/2033	Pay 3.553%, receive 61.25% of LIBOR + 28 bps	Aa3/A+/AA-

2006 Parking Bonds	Basis Swap - Pay Floating/Receive Floating	Exchange floating rate payments on Series 2006 Parking System Bonds	\$ 17,770,000	8/15/2006	9/15/2022	Pay SIFMA, receive 67% of LIBOR	A2/A/A+

The following table presents the aggregate debt service requirements on the City's hedged debt and net receipts/payments on the associated hedging derivative instruments as of December 31, 2017. These amounts assume that the interest rates on variable rate bonds and the reference rates in existence as of December 31, 2017 remain the same for the life of the hedging agreement. However, these rates will vary over time and the actual interest payments on the variable rate bonds and the net receipts/payments on the hedging derivative instruments will deviate from the numbers presented below.

Aggregate Cash Flows on Hedging Derivative Instruments

Fiscal Year Ending	Hedging			
December 31	Principal	Interest	Derivatives, Net	Total
(Amounts in Thousands)				
2018	\$	\$ 2,383	\$ 2,828	\$ 5,211
2019		2,384	2,524	4,908
2020		2,390	2,205	4,595
2021	2,170	2,356	1,874	6,400
2022	14,830	2,162	1,530	18,522
2023-2027	81,415	7,391	2,782	91,588
2028-2032	61,730	2,526	217	64,473
2033	12,085	14	1	12,100
Total	<u>\$ 172,230</u>	<u>\$ 21,606</u>	<u>\$ 13,961</u>	<u>\$ 207,797</u>

NOTE 6 – RISK MANAGEMENT

Self Insurance: The City is exposed to various risks of loss related to torts; thefts of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City does not carry commercial insurance for such risks, except for certain proprietary funds and the football stadium. In accordance with GASB Statement No. 10, *Accounting and Financial Reporting for Risk Financing and Related Insurance Issues*, claims liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported (IBNRs). Claims that meet this criteria are reported as liabilities of either governmental or business-type activities in the government-wide statement of net position. In the fund financial statements, claims liabilities that relate to proprietary funds are reported. The current portion of claims is reported as a fund liability in governmental funds; however, the long-term portion of claims liabilities is not reported.

The result of the process to estimate the claims liability is not an exact amount as it depends on many complex factors, such as inflation, changes in legal doctrines and damage awards. Accordingly, claims are re-evaluated periodically to consider the effects of inflation, recent claim settlement trends (including frequency and amount of pay-outs) and other economic and social factors. The estimate of the claims liability also includes amounts for incremental claim adjustment expenses related to specific claims and other claim adjustment expenses, regardless of whether allocated to specific claims. Estimated recoveries, for example from salvage or subrogation, are another component of the claims liability estimate.

Changes in the estimated claims payable for all funds during the years ended December 31, 2017 and 2016 were as follows:

	<u>2017</u>	<u>2016</u>
	(Amounts in Thousands)	
Estimated claims payable, January 1	\$ 11,567	\$ 14,993
Current year claims (including IBNRs) and changes in estimates	10,081	6,056
Claim payments	<u>(10,113)</u>	<u>(9,482)</u>
Estimated claims payable, December 31	<u>\$ 11,535</u>	<u>\$ 11,567</u>

The estimated claims liabilities are based on the estimated cost of settling claims (including incremental claim adjustment expenses) through a case-by-case review of all outstanding claims and by using historical experience. Claims payable are included as accounts payable on the modified accrual financial statements and are reclassified to long-term obligations as due within one year or due in more than one year on the Statement of Net Position.

Insurance: Certain proprietary funds carry insurance to cover particular liability risks and property protection. Otherwise, the City is generally self-insured. No material losses, including incurred but not reported losses, occurred in 2017. There was no significant decrease in any insurance coverage in 2017. In addition, there were no insurance settlements in excess of insurance coverage during the past three years.

The City provides the choice of two separate health insurance plans to its employees. The operating funds are charged a monthly rate per employee by type of coverage.

Expenses for claims are recorded on a current basis. Claims are accrued based upon an actuarially estimated claims liability IBNR. These estimates are based on past experience and current claims outstanding. Actual claims may differ from the estimates. This claims liability is recorded in the Internal Service Fund and the government-wide statements as claims payable.

Changes in the estimated claims payable for the Health and Prescription Self Insurance Funds during the year ended December 31, 2017 and 2016 is as follows:

	<u>2017</u>	<u>2016</u>
	(Amounts in Thousands)	
Estimated claims payable, January 1	\$ 9,386	\$ 10,707
Current year claims (including IBNRs) and changes in estimates	87,062	79,009
Claim payments	<u>(87,643)</u>	<u>(80,330)</u>
Estimated claims payable, December 31	<u>\$ 8,805</u>	<u>\$ 9,386</u>

In January of 2003, the City exercised the option of retrospective rating as the premium rating mechanism for its workers' compensation program. The total estimated claims liability outstanding at December 31, 2017 was \$17,502,000. Of this amount, \$7,539,000 was recorded as a fund liability within each respective fund. The remaining \$9,963,000 is due in future years and is recorded as a liability in the Workers' Compensation Reserve Internal Service Fund. This liability is funded by charging the appropriate funds their proportionate share of this liability and recording the associated due to or due from as appropriate.

NOTE 7 – CONTINGENCIES

General Contingencies: Various claims and lawsuits are pending against the City. In accordance with GASB Statement No. 10, those claims which are considered “probable” are accrued (see Note 6 – Risk Management), while those claims that are considered “reasonably possible” are disclosed but not accrued.

As of December 31, 2017, the City had \$5,500,000 in claims for which an unfavorable outcome is deemed to be reasonably possible.

These estimates were based on a case-by-case review of outstanding claims by the City’s in-house legal department.

Contingent Liabilities: The City is a member of American Municipal Power (AMP) and has participated in the AMP Generating Station (AMPGS) Project. This project intended to develop a pulverized coal power plant in Meigs County, Ohio. The City’s share was 80,000 kilowatts of a total 771,281 kilowatts, giving the City a 10.37% share. The AMPGS Project required participants to sign “take or pay” contracts with AMP. As such, the participants are obligated to pay any costs incurred for the project. In November 2009, the participants voted to terminate the AMPGS Project due to projected escalating costs. These costs were therefore deemed impaired and participants were obligated to pay costs already incurred. In prior years, payment of these costs was not required due to AMP’s pursuit of legal action to collect them from Bechtel Corporation (Bechtel). As a result of a March 31, 2014 legal ruling, the AMP Board of Trustees on April 15, 2014 and the AMPGS participants on April 16, 2014 approved the collection of the impaired costs and provided the participants with an estimate of their liability. The City’s estimated share at March 31, 2014 of the impaired costs is \$13,813,694. The City received a credit of \$6,447,719 related to their participation in the AMP Fremont Energy Center (AFEC) Project and another credit of \$3,617,994, related to the AMPGS costs deemed to have future benefit for the project participants, classified as Plant Held for Future Use (PHFU), leaving a net impaired cost estimate of \$3,747,981. Because payment is now probable and reasonably estimable, the City is reporting a payable to AMP in its business-type activities and in its electric enterprise fund for these impaired costs. AMP financed these costs on its revolving line of credit. Any additional costs (including line-of-credit interest and legal fees) or amounts received related to the project will impact the City’s liability. These amounts will be recorded as they become estimable.

In late 2016, AMP reached a settlement in the Bechtel litigation. On December 8, 2016, at the AMPGS Participants meeting, options for the allocation of the settlement funds were approved. The AMPGS Participants and the AMP Board of Trustees voted to allocate the settlement among the participants and the AMP General Fund based on each participant’s original project share in kW including the AMP General Fund’s project share. Since March 31, 2014, the City has made payments of \$1,309,050 to AMP toward its net impaired cost estimate. Also since March 31, 2014, the City’s allocation of additional costs incurred by the project is \$164,676 and interest expense incurred on AMP’s line-of-credit of \$148,939. As part of the Bechtel Settlement, the City received a credit of \$394,149 against its stranded cost liability, resulting in a net impaired cost estimate at December 31, 2017, of \$2,358,397.

The City does have a potential PHFU liability of \$3,788,482 resulting in a net total potential liability of \$6,146,879, assuming the assets making up the PHFU (principally the land comprising the Meigs County site) has no value and also assuming the City’s credit balance would earn zero interest. Stranded costs as well as PHFU costs are subject to change, including future borrowing costs on the AMP line of credit. Activities include negative items such as property taxes as well as positive items like revenue from leases or sale of all or a portion of the Meigs County site property.

The City intends to recover these costs and repay AMP over the next 12 years through a power cost adjustment, thus this incurred cost has been capitalized and reported as a regulated asset, as allowed by GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*. The City intends to recover 50% of these costs from the customers through the Energy Adjustment Charge passed along to customer’s monthly bills.

Contingencies Under Grant Programs: The City participates in a number of federally assisted Investment Act Grant Programs, principal of which are Community Development Block Grants, the Healthy Start Initiative, Federal HOME Program, Youth Opportunity Area Grant, Workforce Investment Act Grant, Empowerment Zone and Federal Aviation Administration Airport Improvement Grant Programs. These programs are subject to financial and compliance audits by the grantors or their representatives.

In addition to the federally assisted Investment Act Grant Programs, the City received a portion of the American Recovery and Reinvestment Act (ARRA) funds. These funds were funded through existing programs. The ARRA funds are subject to financial and compliance audits by the grantor or their representative and are subject to availability.

NOTE 8 – INTERFUND TRANSACTIONS AND BALANCES

Interfund Transactions: During the course of normal operations, the City records numerous transactions between funds including expenditures and transfers of resources to provide services, subsidize operations and service debt. The City has the following types of transactions among funds:

Nonreciprocal interfund transfers – Flows of assets between funds without equivalent flows of assets in return and without a requirement for repayment. This includes transfers to subsidize various funds.

For the year ended December 31, 2017, transfers consisted of the following:

Transfers Out	Transfers In				
	Total	Other Governmental Funds	Total Governmental Funds	Enterprise Funds	Internal Service Funds
(Amounts in Thousands)					
Governmental Funds:					
General	\$ 35,546	\$ 33,480	\$ 33,480	\$ 1,466	\$ 600
Other Governmental	<u>47,642</u>	<u>47,642</u>	<u>47,642</u>		
Total Governmental Funds	<u>83,188</u>	<u>81,122</u>	<u>81,122</u>	<u>1,466</u>	<u>600</u>
Total	<u>\$ 83,188</u>	<u>\$ 81,122</u>	<u>\$ 81,122</u>	<u>\$ 1,466</u>	<u>\$ 600</u>

Interfund Balances: Interfund balances at December 31, 2017 represent charges for services or reimbursable expenses. These remaining balances resulted from the time lag between the dates that (1) interfund goods or services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting records and (3) payments between funds are made. All are expected to be paid within one year.

Reciprocal interfund services provided and used – Purchases and sales of goods and services between funds for a price approximating their external exchange value.

Interfund receivable and payable balances as of December 31, 2017 are as follows:

Due To	Total	Due From								
		General Fund	Other Governmental Funds	Total Governmental Funds	Division of Water Fund	Cleveland Public Power Fund	Department of Port Control Fund	Other Enterprise Funds	Total Enterprise Funds	Internal Service Funds
Governmental Funds:										
General	\$ 3,591	\$	\$ 1	\$ 1	\$	\$ 1,577	\$ 18	\$ 16	\$ 1,611	\$ 1,979
Other Governmental	9,974	1,781	7,838	9,619		17		4	21	334
Total Governmental	\$ 13,565									
Enterprise Funds:										
Division of Water	\$ 1,845	8		8		1,501		21	1,522	315
Cleveland Public Power	378	3		3	276			10	286	89
Department of Port Control	767	569		569		24			24	174
Other Enterprise	4,462	50		50	4,248	97			4,345	67
Total Enterprise	\$ 7,452									
Internal Service Funds	113	3		3		7		4	11	99
Total Due To/Due From	\$ 21,130	\$ 2,414	\$ 7,839	\$ 10,253	\$ 4,524	\$ 3,223	\$ 18	\$ 55	\$ 7,820	\$ 3,057

NOTE 9 – INCOME TAXES

Effective January 1, 2017, the City income tax rate increased to 2.5% from 2.0% and the credit provided to City residents for income taxes paid to other municipalities increased to 100% with a maximum credit limited to 2.5%. A portion of the City income tax is restricted in its use to capital expenditures and debt service and is included in the Restricted Income Tax Special Revenue Fund. All other income tax proceeds are included in the General Fund.

Employers within the City are required to withhold income taxes on employee compensation and remit withholdings to the City at least quarterly. Corporations and other individual taxpayers are required to pay their estimated tax quarterly and file a declaration annually.

NOTE 10 – PROPERTY TAXES

Property taxes include amounts levied against all real and public utility property located in the City. The 2016 levy for collection in 2017 was based upon an assessed valuation of approximately \$4.6 billion. Ohio law prohibits taxation of property from all taxing authorities in excess of 10 mills of assessed value without a vote of the people. Under current procedures, the City's share is 4.4 mills, of which 4.35 mills is dedicated to debt service and .05 mills is dedicated to the payment of fire pension obligations. A revaluation of all property is required to be completed no less than every six years, with a statistical update every third year. The last update was completed in 2015. Assessed values are established by the Cuyahoga County (County) Fiscal Officer. The County Treasurer collects property taxes on behalf of all taxing districts in the County including the City.

Real property taxes, excluding public utility property, are assessed at 35% of appraised market value. Pertinent real property tax dates are:

- Collection Dates January 26 and July 13 of the current year
- Lien Date January 1 of the year preceding the collection year
- Levy Date October 1 of the year preceding the collection year

An electric company's taxable utility production equipment is assessed at 25% of true value, while all of its other taxable property is assessed at 88% of true value. Pertinent public utility tangible personal property tax dates are:

- Collection Dates January 26 and July 13 of the current year
- Lien Date January 1 of the year preceding the collection year
- Levy Date October 1 of the year preceding the collection year

NOTE 11 – DEFERRED INFLOWS / DEFERRED OUTFLOWS OF RESOURCES

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

On the modified accrual basis of accounting, the City has recorded certain receivables relating to property taxes and unavailable revenue. Unavailable revenues and property taxes levied to finance 2018 operations have been reported as deferred inflows of resources in the governmental fund balance sheet for the following:

	Governmental Type Funds		
	Other		
	Governmental		
	<u>General</u>	<u>Funds</u>	<u>Totals</u>
	(Amounts in Thousands)		
Income taxes receivable	\$ 20,955	\$ 2,619	\$ 23,574
Property taxes receivable	48,261	25,142	73,403
Special assessments receivable	5,040	12,497	17,537
Local government receivable	8,373		8,373
Homestead rollback	3,103	1,616	4,719
Emergency medical service receivable	3,589		3,589
Motor vehicle taxes receivable		1,426	1,426
Municipal gas tax receivable		1,078	1,078
State gasoline tax receivable		2,036	2,036
Due from other governments	2,643	402	3,045
Accounts receivable	<u>648</u>		<u>648</u>
Total deferred inflows of resources	<u>\$ 92,612</u>	<u>\$ 46,816</u>	<u>\$ 139,428</u>

NOTE 12 – DEFINED BENEFIT PENSION PLANS

Net Pension Liability: The net pension liability reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents the City’s proportionate share of each pension plan’s collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan’s fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the City’s obligation for this liability to annually required payments. The City cannot control benefit terms or the manner in which pensions are financed; however, the City does receive the benefit of employees’ services in exchange for compensation including pension.

GASB Statement No. 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State Statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State Statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan’s board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan’s unfunded benefits is presented as a long-term net pension liability on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in accrued wages and benefits on both the accrual and modified accrual bases of accounting.

Ohio Public Employees Retirement System (OPERS): City employees, other than full-time police and firefighters, participate in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans. The traditional pension plan is a cost-sharing, multiple-employer defined benefit pension plan. The member-directed plan is a defined contribution plan and the combined plan is a cost-sharing, multiple-employer defined benefit pension plan with defined contribution features. While members (e.g. City employees) may elect the member-directed plan and the combined plan, substantially all employee members are in OPERS’ traditional plan; therefore, the following disclosure focuses on the traditional pension plan.

OPERS provides retirement, disability, survivor and death benefits and annual cost of living adjustments to members of the traditional plan. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about OPERS’ fiduciary net position that may be obtained by visiting <https://www.opers.org/financial/reports.shtml>, by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 800-222-7377.

Senate Bill (SB) 343 was enacted into law with an effective date of January 7, 2013. In the legislation, members were categorized into three groups with varying provisions of the law applicable to each group. The following table provides age and service requirements for retirement and the retirement formula applied to final average salary (FAS) for the three member groups under the traditional plan as per the reduced benefits adopted by SB 343 (see OPERS CAFR referenced above for additional information):

Group A	Group B	Group C
Eligible to retire prior to January 7, 2013 or five years after January 7, 2013	20 years of service credit prior to January 7, 2013 or eligible to retire ten years after January 7, 2013	Members not in other Groups and members hired on or after January 7, 2013
State and Local	State and Local	State and Local
Age and Service Requirements: Age 60 with 60 months of service credit or Age 55 with 25 years of service credit	Age and Service Requirements: Age 60 with 60 months of service credit or Age 55 with 25 years of service credit	Age and Service Requirements: Age 57 with 25 years of service credit or Age 62 with 5 years of service credit
Formula: 2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30	Formula: 2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30	Formula: 2.2% of FAS multiplied by years of service for the first 35 years and 2.5% for service years in excess of 35

FAS represents the average of the three highest years of earnings over a member's career for Groups A and B. Group C is based on the average of the five highest years of earnings over a member's career. Members who retire before meeting the age and years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount.

When a benefit recipient has received benefits for 12 months, an annual cost of living adjustment (COLA) is provided. This COLA is calculated on the base retirement benefit at the date of retirement and is not compounded. For those retiring prior to January 7, 2013, the COLA will continue to be a 3.0% simple annual COLA. For those retiring subsequent to January 7, 2013, beginning in calendar year 2019, the COLA will be based on the average percentage increase in the Consumer Price Index, capped at 3.0%.

Funding Policy: The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

	<u>State and Local</u>	
2017 Statutory Maximum Contribution Rates		
Employer	14.0	%
Employee	10.0	
2017 Actual Contribution Rates		
Employer:		
Pension	13.0	
Post-employment Health Care Benefits	1.0	
	<hr/>	
Total Employer	14.0	%
	<hr/>	
Employee	10.0	%
	<hr/>	

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll. The City’s contractually required contribution was \$34,457,000 for 2017. All required payments have been made.

Ohio Police & Fire Pension Fund (OP&F): City full-time police and firefighters participate in Ohio Police and Fire Pension Fund (OP&F), a cost-sharing, multiple-employer defined benefit pension plan administered by OP&F. OP&F provides retirement and disability pension benefits, annual cost-of-living adjustments and death benefits to plan members and beneficiaries. Benefit provisions are established by the Ohio State Legislature and are codified in Chapter 742 of the Ohio Revised Code. OP&F issues a publicly available financial report that includes financial information and required supplementary information and detailed information about OP&F fiduciary net position. The report that may be obtained by visiting the OP&F website at www.op-f.org or by writing to the Ohio Police and Fire Pension Fund, 140 East Town Street, Columbus, Ohio 43215-5164.

Upon attaining a qualifying age with sufficient years of service, a member of OP&F may retire and receive a lifetime monthly pension. OP&F offers four types of service retirement: normal, service commuted, age/service commuted and actuarially reduced. Each type has different eligibility guidelines and is calculated using the member’s average annual salary. The following discussion of the pension formula relates to normal service retirement.

For members hired after July 1, 2013, the minimum retirement age is 52 for normal service retirement with at least 25 years of service credit. For members hired on or before July 1, 2013, the minimum retirement age is 48 for normal service retirement with at least 25 years of service credit.

The annual pension benefit for normal service retirement is equal to a percentage of the allowable average annual salary. The percentage equals 2.5% for each of the first 20 years of service credit, 2.0% for each of the next five years of service credit and 1.5% for each year of service credit in excess of 25 years. The maximum pension of 72.0% of the allowable average annual salary is paid after 33 years of service credit.

Under normal service retirement, retired members who are at least 55 years old and have been receiving OP&F benefits for at least one year may be eligible for a cost-of-living allowance adjustment. The age 55 provision for receiving a COLA does not apply to those who are receiving a permanent and total disability benefit and statutory survivors.

Members retiring under normal service retirement, with less than 15 years of service credit on July 1, 2013, will receive a COLA equal to either 3.0% or the percent increase, if any, in the consumer price index (CPI) over the 12-month period ending on September 30 of the immediately preceding year, whichever is less. The COLA amount for members with at least 15 years of service credit as of July 1, 2013 is equal to 3.0% of their base pension or disability benefit.

Funding Policy: The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

	<u>Police</u>	<u>Firefighters</u>
2017 Statutory Maximum Contribution Rates		
Employer	19.50 %	24.00 %
Employee	12.25	12.25
2017 Actual Contribution Rates		
Employer:		
Pension	19.00	23.50
Post-employment Health Care Benefits	<u>0.50</u>	<u>0.50</u>
Total Employer	<u>19.50 %</u>	<u>24.00 %</u>
Employee	12.25 %	12.25 %

Employer contribution rates are expressed as a percentage of covered payroll. The City's contractually required contribution to OP&F was \$32,482,000 for 2017. All required payments have been made.

Pension Liabilities, Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions: The net pension liability for OPERS was measured as of December 31, 2016 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. OP&F's total pension liability was measured as of December 31, 2016 and was determined by rolling forward the total pension liability as of January 1, 2016 to December 31, 2016. The City's proportion of the net pension liability was based on the City's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

	<u>OPERS</u>	<u>OP&F</u>	<u>Total</u>
	(Amounts in Thousands)		
Proportionate Share of the Net Pension Liability	\$ 434,615	\$ 469,535	\$ 904,150
Proportion of the Net Pension Liability	1.918603%	7.413054%	
Change in Proportion	(0.072962)%	0.291579%	
Pension Expense	\$ 93,598	\$ 57,151	\$ 150,749

At December 31, 2017, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>OPERS</u>	<u>OP&F</u>	<u>Total</u>
	(Amounts in Thousands)		
Deferred Outflows of Resources			
Differences in expected and actual economic experience	\$ 590	\$ 133	\$ 723
Net difference between projected and actual earnings on pension plan investments	67,849	44,026	111,875
Change in assumptions	69,287		69,287
Change in City's proportionate share		15,682	15,682
Contributions subsequent to the measurement date	34,457	32,482	66,939
Total Deferred Outflows of Resources	<u>\$ 172,183</u>	<u>\$ 92,323</u>	<u>\$ 264,506</u>
Deferred Inflows of Resources			
Differences between expected and actual experience	\$ 3,127	\$ 1,039	\$ 4,166
Change in City's proportionate share	9,137	19,318	28,455
Total Deferred Inflows of Resources	<u>\$ 12,264</u>	<u>\$ 20,357</u>	<u>\$ 32,621</u>

The \$66,939,000 reported as deferred outflows of resources related to pension resulting from City contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending December 31, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

	<u>OPERS</u>	<u>OP&F</u>	<u>Total</u>
	(Amounts in Thousands)		
Year Ending December 31:			
2018	\$ 50,749	\$ 15,305	\$ 66,054
2019	53,195	15,305	68,500
2020	23,570	11,023	34,593
2021	(1,948)	(4,637)	(6,585)
2022	(38)	2,178	2,140
Thereafter	(66)	310	244
Total	<u>\$ 125,462</u>	<u>\$ 39,484</u>	<u>\$ 164,946</u>

Actuarial Assumptions – OPERS: Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation. The total pension liability in the December 31, 2016, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

	December 31, 2016 Valuation	December 31, 2015 and prior valuations
Wage Inflation	3.25%	3.75%

Investment Rate of Return	7.5%	8%
Actuarial Cost Method	Individual Entry Age	Individual Entry Age
Mortality Tables	RP-2014	RP-2000

Mortality rates are based on the RP-2014 Healthy Annuitant Mortality table. For males, Healthy Annuitant Mortality tables were used, adjusted for mortality improvement back to the observation period base of 2006 and then established the base year as 2015. For females, Healthy Annuitant Mortality tables were used, adjusted for mortality improvements back to the observation period base year of 2006 and then established the base year as 2010. The mortality rates used in evaluating disability allowances were based on the RP-2014 Disabled mortality tables, adjusted for mortality improvement back to the observation base year of 2006 and then established the base year as 2015 for males and 2010 for females. Mortality rates for a particular calendar year for both healthy and disabled retiree mortality tables are determined by applying the MP-2015 mortality improvement scale to the above described tables.

The most recent experience study was completed for the five year period ended December 31, 2015.

The long-term rate of return on defined benefit investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

During 2016, OPERS managed investments in four investment portfolios: the Defined Benefit portfolio, the 401(h) Health Care Trust portfolio, the 115 Health Care Trust portfolio and the Defined Contribution portfolio. The 401(h) Health Care Trust portfolio was closed as of June 30, 2016 and the net position transferred to the 115 Health Care Trust portfolio on July 1, 2016. The Defined Benefit portfolio contains the investment assets of the Traditional Pension Plan, the defined benefit component of the Combined Plan and the annuitized accounts of the Member-Directed Plan. The Defined Benefit portfolio historically included the assets of the Member-Directed retiree medical accounts funded through the Voluntary Employees' Beneficiary Association (VEBA) Trust. However, the VEBA Trust was closed as of June 30, 2016 and the net position transferred to the 115 Health Care Trust portfolio on July 1, 2016. Within the Defined Benefit portfolio, contributions into the plans are all recorded at the same time and benefit payments all occur on the first of the month. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The annual money-weighted rate of return expressing investment performance, net of investment expenses and adjusted for the changing amounts actually invested, for the Defined Benefit portfolio is 8.3% for 2016.

The allocation of investment assets with the Defined Benefit portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the defined benefit pension plans. The table below displays the Board-approved asset allocation policy for 2016 and the long-term expected real rates of return:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Weighted Average Long-Term Expected Real Rate of Return (Arithmetic)</u>
Fixed Income	23.00 %	2.75 %
Domestic Equities	20.70	6.34
Real Estate	10.00	4.75
Private Equity	10.00	8.97
International Equities	18.30	7.95
Other investments	18.00	4.92
Total	<u>100.00 %</u>	5.66 %

Discount Rate: The discount rate used to measure the total pension liability was 7.50%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefits payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the City's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate: The following table presents the City's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.50%, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.50%) or one-percentage-point higher (8.50%) than the current rate:

	<u>1% Decrease 6.50%</u>	<u>Current Discount Rate 7.50%</u>	<u>1% Increase 8.50%</u>
	(Amounts in Thousands)		
City's proportionate share of the net pension liability	\$ 665,369	\$ 434,615	\$ 242,374

Actuarial Assumptions – OP&F: OP&F's total pension liability as of December 31, 2016 is based on the results of an actuarial valuation date of January 1, 2016 and rolled-forward using generally accepted actuarial procedures. The total pension liability is determined by OP&F's actuaries in accordance with GASB Statement No. 67, as part of their annual valuation. Actuarial valuations of an ongoing plan involve estimates of reported amounts and assumptions about probability of occurrence of events far into the future. Examples include assumptions about future employment mortality, salary increases, disabilities, retirements and employment terminations. Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of January 1, 2016, are presented below:

Valuation Date	January 1, 2016
Actuarial Cost Method	Entry Age Normal
Investment Rate of Return	8.25%
Projected Salary Increases	4.25%-11%
Payroll Increases	3.75%
Inflation Assumptions	3.25%
Cost of Living Adjustments	2.6% and 3%

Rates of death are based on the RP2000 Combined Table, age-adjusted as follows. For active members, set back six years. For disability retirements, set forward five years for police and three years for firefighters. For service retirements, set back zero years for police and two years for firefighters. For beneficiaries, set back zero years. The rates are applied on a fully generational basis, with a base year of 2009, using mortality improvement Scale AA.

The most recent experience study was completed January 1, 2012.

The long-term expected rate of return on pension plan investments was determined using a building-block approach and assumes a time horizon, as defined in the Statement of Investment Policy. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate and adding the expected return from rebalancing uncorrelated asset classes.

Best estimates of the long-term expected geometric real rates of return for each major asset class included in OP&F's target asset allocation as of December 31, 2016 are summarized below:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long Term Expected Real Rate of Return</u>
Domestic Equity	16 %	5.21 %
Non-US Equity	16	5.40 %
Core Fixed Income *	20	2.37 %
Global Inflation Protected *	20	2.33 %
High Yield	15	4.48 %
Real Estate	12	5.65 %
Private Markets	8	7.99 %
Real Assets	5	6.87 %
Master Limited Partnerships	8	7.36 %
Total	<u>120 %</u>	

* levered 2x

OP&F's Board of Trustees has incorporated the "risk parity" concept into OP&F's asset liability valuation with the goal of reducing equity risk exposure, which reduces overall Total Portfolio risk without sacrificing return and creating a more risk-balanced portfolio based on their relationship between asset classes and economic environments. From the notional portfolio perspective above, the Total Portfolio may be levered up to 1.2 times due to the application of leverage in certain fixed income asset classes.

Discount Rate: The total pension liability was calculated using the discount rate of 8.25%. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State Statute. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return 8.25%. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of

current plan members. Therefore, a long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the City's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate: Net pension liability is sensitive to changes in the discount rate and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 8.25%, as well as what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (7.25%), or one percentage point higher (9.25%) than the current rate.

	1% Decrease	Current	Discount Rate	1% Increase
	7.25%	8.25%	8.25%	9.25%
	(Amounts in Thousands)			
City's proportionate share of the net pension liability	\$ 625,365	\$	469,535	\$ 337,467

NOTE 13 – OTHER POSTEMPLOYMENT BENEFITS

Plan Description - Ohio Public Employees Retirement System: All full-time employees, other than non-administrative full-time police officers and firefighters, participate in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans: The Traditional Pension Plan – a cost-sharing, multiple-employer defined benefit pension plan; the Member-Directed Plan – a defined contribution plan; and the Combined Plan – a cost-sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan.

OPERS maintains a cost-sharing, multiple-employer defined benefit post-employment health care trust, which funds multiple health care plans including medical coverage, prescription drug coverage and deposits to a Health Reimbursement Arrangement to qualifying benefit recipients of both the Traditional Pension and the Combined plans. This trust is also used to fund health care for Member-Directed Plan participants, in the form of a Retiree Medical Account (RMA). At retirement or refund, Member-Directed Plan participants may be eligible for reimbursement of qualified medical expenses from their vested RMA balance.

In order to qualify for health care coverage, age-and-service retirees under the Traditional Pension and Combined plans must have 20 or more years of qualifying Ohio service credit. Health care coverage for disability benefit recipients and qualified survivor benefit recipients is available. The health care coverage provided by OPERS meets the definition of an Other Post Employment Benefit (OPEB) as described in GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*. Please see the Plan Statement in the OPERS 2016 CAFR for details.

The Ohio Revised Code permits, but does not require, OPERS to provide health care to its eligible benefit recipients. Authority to establish and amend health care coverage is provided to the OPERS Board of Trustees (OPERS Board) in Chapter 145 of the Ohio Revised Code.

OPERS issues a stand-alone financial report. Interested parties may obtain a copy by visiting <https://www.opers.org/financial/reports.shtml>, by writing to OPERS, 277 East Town Street, Columbus, OH 43215-4642, or by calling 614-222-5601 or 800-222-7377.

Funding Policy - Ohio Public Employees Retirement System: The Ohio Revised Code provides the statutory authority requiring public employers to fund post-retirement health care through their contributions to OPERS. A portion of each employer's contribution to OPERS is set aside to fund OPERS health care plans.

Employer contribution rates are expressed as a percentage of the covered payroll of active members. In 2017, State and Local employers contributed at a rate of 14.0% of covered payroll. These are the maximum employer contribution rates permitted by the Ohio Revised Code. Active member contributions do not fund health care.

Each year, the OPERS Board determines the portion of the employer contribution rate that will be set aside to fund health care plans. The portion of employer contributions allocated to health care for members in the Traditional Pension Plan and Combined Plan was 1.0% during calendar year 2017. As recommended by OPERS' actuary, the

portion of employer contributions allocated to health care beginning January 1, 2018 decreased to 0.0% for both plans. The OPERS Board is also authorized to establish rules for the retiree or their surviving beneficiaries to pay a portion of the health care provided. Payment amounts vary depending on the number of covered dependents and the coverage selected. The employer contribution as a percentage of covered payroll deposited for Member-Directed Plan participants for 2017 was 4.0%.

The City's actual contributions to OPERS to fund postemployment benefits were \$2,649,361 in 2017, \$5,203,426 in 2016 and \$5,191,682 in 2015. The required payments due in 2017, 2016 and 2015 have been made.

Plan Description - Ohio Police and Fire Pension Fund: The City contributes to the Ohio Police and Fire Pension Fund (OP&F) sponsored health care program, a cost-sharing multiple-employer defined postemployment health care plan administered by OP&F. OP&F provides health care benefits including coverage for medical, prescription drugs, dental, vision, Medicare Part B Premium and long-term care to retirees, qualifying benefit recipients and their eligible dependents.

OP&F provides access to post-retirement health care coverage for any person who receives or is eligible to receive a monthly service, disability, or statutory survivor benefit or is a spouse or eligible dependent child of such person. The health care coverage provided by OP&F meets the definition of an Other Post Employment Benefit (OPEB) as described in GASB Statement No. 45.

The Ohio Revised Code allows, but does not mandate OP&F to provide OPEB benefits. Authority for the OP&F Board of Trustees to provide health care coverage to eligible participants and to establish and amend benefits are codified in Chapter 742 of the Ohio Revised Code.

OP&F issues a publicly available financial report that includes financial information and required supplementary information for the Plan. That report may be obtained by writing to OP&F, 140 East Town Street, Columbus, Ohio 43215-5164. That report is also available on OP&F's website at www.op-f.org.

Funding Policy - Ohio Police and Fire Pension Fund: The Ohio Revised Code provides for contribution requirements of the participating employers and of plan members to the OP&F (defined benefit pension plan). Participating employers are required to contribute to the pension plan at rates expressed as percentages of the payroll of active pension plan members, currently, 19.5% and 24% of covered payroll for police and fire employers, respectively. The Ohio Revised Code states that the employer contribution may not exceed 19.5% of covered payroll for police employer units and 24% of covered payroll for fire employer units. Active members do not make contributions to the OPEB Plan.

OP&F maintains funds for health care in two separate accounts. One for health care benefits under an IRS Code Section 115 trust and one for Medicare Part B reimbursements administrated as an Internal Revenue Code 401(h) account, both of which are within the defined benefit pension plan, under the authority granted by the Ohio Revised Code to the OP&F Board of Trustees.

The Board of Trustees is authorized to allocate a portion of the total employer contributions made into the pension plan to the Section 115 trust and the Section 401(h) account as the employer contribution for retiree health care benefits. The portion of employer contributions allocated to health care was 0.5% of covered payroll from January 1, 2017 through December 31, 2017. The amount of employer contributions allocated to the health care plan each year is subject to the Trustees' primary responsibility to ensure that pension benefits are adequately funded and is limited by the provisions of Sections 115 and 401(h).

The OP&F Board of Trustees also is authorized to establish requirements for contributions to the health care plan by retirees and their eligible dependents, or their surviving beneficiaries. Payment amounts vary depending on the number of covered dependents and the coverage selected.

The City's contributions to OP&F that were allocated to the healthcare plan for the years ending December 31, 2017, 2016 and 2015 were \$800,896, \$833,169 and \$844,530, respectively. The required payments due in 2017, 2016 and 2015 have been made.

NOTE 14 – CAPITAL ASSETS

Capital asset activity for the year ended December 31, 2017 was as follows:

	Balance January 1, 2017	<u>Additions</u>	<u>Reductions</u>	Balance December 31, 2017
		(Amounts in Thousands)		
Governmental Activities:				
Capital assets, not being depreciated:

The additions to accumulated depreciation may not match depreciation expense due to assets transferred between Business-Type Activities and Governmental Activities, if the transferred assets have been depreciated prior to this year.

Depreciation: Depreciation expense was charged to functions/programs of the City as follows:

	<u>(Amounts in Thousands)</u>	
Governmental Activities:		
General Government	\$	27,889
Public Works		24,116
Public Safety		9,238
Building and Housing		94
Community Development		1,512
Public Health		336
Economic Development		149
Depreciation expense on capital assets held by the City's internal service funds that is charged to the various functions based on their usage of the assets		528
Total depreciation expense charged to governmental activities	\$	63,862
Business-Type Activities:		
Water	\$	77,835
Electricity		19,555
Airport Facilities		53,576
Nonmajor activities		9,128
Depreciation expense on capital assets held by the City's internal service funds that is charged to the various functions based on their usage of the assets		96
Total depreciation expense charged to business-type activities	\$	160,190

Capital Commitments: Significant commitments of the City as of December 31, 2017 are composed of the following:

<u>Project Description</u>	<u>Spent-to-Date</u>	<u>Remaining Commitment</u>
	(Amounts in Thousands)	
Governmental Activities:		
East 105 SR 10 Quebec to Chester Pedestrian Bridge	\$ 8,286	\$ 17,566
Ken Johnson Recreation Center	126	8,891
Brown's Stadium Improvements	4,778	7,229
Vehicles		7,000
Ward 1 Recreation Center	11	6,989
Cleveland Citywide Dev. Corp Housing		5,650
Demolition Services	74	4,926
New Building-Kennels	2,038	4,855
West 130 Brookpark to Lorain	941	4,659
2017 Street Resurfacing		4,401

<u>Project Description</u>	<u>Spent-to-Date</u>	<u>Remaining Commitment</u>
	(Amounts in Thousands)	
Business-Type Activities:		
North Airfield Improvements	\$ 163	\$ 25,117
Southern Transmission Line	1,096	13,637
Secondary Site Improvements		12,750
Post PEP Plant	30	11,000
BKL Shoreline Restoration	570	9,585
Trunk Main Renewal 2016		9,000
Post PEP		7,500
Snow Removal Equipment & Vehicles		7,142
Crown Residuals		6,500
Aurora Road Pump Station	6	5,994
Kirtland Crib		5,500
Boosted Third High System		5,000
Watermain Renewal 2018		5,000
Billing Upgrades 2018		5,000

Capital Grant Programs: The City participates in the State Issue 2 program and the Local Transportation Improvement Program. Through these programs, the State of Ohio (State) provides financial assistance to the City for its various road and bridge improvements and storm water detention facilities. The Ohio Public Works Commission (OPWC) is the State agency which oversees the allocation of State bond proceeds and tax revenue to selected projects which have met funding requirements. Upon approval of the OPWC, the City and the State create project agreements establishing each entity's financial contribution toward each project. During 2017, the State funded \$11,644,000 of road and bridge improvement projects.

Capitalized Interest: Interest expense incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed, net of interest income earned on invested debt proceeds. For 2017, interest expense incurred for the Enterprise Funds was \$73,278,000 of which \$8,631,000 was capitalized net of \$394,000 of interest income capitalized.

NOTE 15 – SERVICE CONCESSION ARRANGEMENTS

In 2010, the City entered into an agreement with Cleveland Metropolitan Park District (Cleveland Metroparks) under which Cleveland Metroparks will operate and collect user fees from Seneca Golf Course for 99 years. Cleveland Metroparks has paid the City \$99 for this agreement. They have agreed to complete at least \$4,000,000 of capital improvements. As completed, all capital improvements performed by Cleveland Metroparks will become an asset of Seneca Golf Course and the City. Upon expiration of the agreement, all improvements will be vest in the City. Cleveland Metroparks is required to operate and maintain the golf course in accordance with the City Contract.

In 2012, the City entered into an agreement with Mark A Nance Golf Ohio, LLC (MAN) under which MAN will operate and collect user fees from the Highland Park Golf Course for the next 10 years. MAN will pay 5% of revenues greater than \$800,000 in years 2012 through 2017. In years 2018 and beyond, MAN will pay 5% on gross revenues up to \$800,000; 10% of gross revenues \$801,000 through \$1,000,000; and 15% of gross revenues greater than \$1,000,000. In addition to receiving a portion of gross revenues, MAN will also make necessary capital improvements to the golf course. As completed, all capital improvements performed by MAN will become an asset of Highland Park Golf Course and the City. MAN is required to operate and maintain the golf course in accordance with the City Contract.

The City reports the golf courses and related equipment as a capital asset with a carrying amount of \$2,964,000 at year end.

NOTE 16 – SEGMENT INFORMATION

The City has issued revenue bonds and construction loans to finance the activities accounted for in the following Enterprise Funds:

- Division of Water
- Cleveland Public Power
- Department of Port Control
- Water Pollution Control
- Municipal Parking Lots

Investors in the revenue bonds rely solely on the revenues generated from the specific enterprise activity to which the debt obligations pertain for repayment.

Shown below is summarized financial information for the City's enterprise activity that has issued long-term obligations and is not reported as a major fund in the proprietary funds financial statements:

Condensed Statement of Net Position Information

	<u>Water Pollution Control</u>	<u>Municipal Parking Lots</u>

NOTE 17 – FUND BALANCES / NET POSITION

Fund Balance Classifications: Fund balance is classified in five categories (1) Nonspendable, (2) Restricted, (3) Committed, (4) Assigned and (5) Unassigned. Nonspendable fund balances include amounts that are not in spendable form or are legally required to remain intact. Restricted fund balances include amounts that have external restrictions by either grantors, debt covenants, laws or other governments. Committed fund balances include amounts that are committed to a specific purpose. To establish, modify or rescind committed fund balances legislation must go before administration with passage by council ordinance. Per City policy, assigned fund balances include amounts that have an intended use by the Mayor and/or the Director of Finance to be used for a specific purpose. Unassigned fund balances include amounts that have not been assigned to any purpose. The General Fund is the only fund that reports a positive unassigned fund balance amount. In other governmental funds, if expenditures incurred for specific purposes exceed the amounts restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance. Fund expenditures and encumbrances are from restricted resources to the extent of the restricted fund reserve and followed by committed then assigned and unassigned resources.

Below are the fund balance classifications for the governmental funds by category with specific purpose information at December 31, 2017:

	General Fund	Other Governmental	Total Governmental
	(Amounts in Thousands)		
Fund Balances			
Restricted			
Debt Service	\$	\$ 79,476	\$ 79,476
Recreation capital expenditures		37,992	37,992

Unassigned	92,692		92,692
Total Fund Balances	\$ 134,860	\$ 369,142	\$ 504,002

Net Position: Net position represents the difference between assets, deferred outflows of resources, liabilities and deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings issued to acquire, construct or improve those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. The City applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available. Net position is restricted for debt service, loans and other purposes. Other purposes include street construction and maintenance, grant programs and debt or capital funding from restricted income tax.

Rainy Day Reserve Fund: The City, in accordance with Section 5705.13(A), Revised Code, has established by ordinance the Rainy Day Reserve Fund (Rainy Day). The Rainy Day’s goal is to accumulate at least a level equal to two percent of the General Fund’s expenditures and not exceed ten percent of the General Fund’s expenditures. The City funds the Rainy Day through transfers from the General Fund, when funds become available. In order to use the Rainy Day, the City must pass an ordinance. The amount of the Rainy Day is reported within the unassigned fund balance classification in the City’s General Fund.

NOTE 18 – GATEWAY ECONOMIC DEVELOPMENT CORPORATION

In accordance with an agreement with Gateway Economic Development Corporation (Gateway), Gateway is required to reimburse the City for the excess of the debt service requirements of the Parking Facilities Refunding Revenue Bonds attributed to the two Gateway garages over the net revenues generated by the two Gateway garages. In October 2011, the City sold one of the Gateway garages and defeased the applicable bonds. Going forward the amounts required to be reimbursed will be calculated based upon the net revenues of the remaining garage and remaining applicable bonds outstanding.

The first garage on the Gateway site was completed in January 1994. The second garage was completed in August 1994.

In 2017, net revenues generated by the one remaining Gateway garage were less than the debt service payments attributed to that garage by \$1,194,000. Cumulative debt service payments funded by the City that are due from Gateway totaled \$52,442,000 at December 31, 2017. Due to the uncertainty of collecting such amounts, an allowance has been recorded to offset the amounts in full; therefore, these amounts do not appear in the accompanying financial statements.

To enhance the security of the bonds issued by the County for the construction of facilities at Gateway, the City has agreed to pledge annually a percentage of admissions taxes on all events held at the arena to pay debt service if other revenue sources are not sufficient. Any exempted admissions tax not required for debt service will be reimbursed to the City. The City’s current admissions tax rate is 8%. For the year ended December 31, 2017, the City pledged \$6,382,000.

NOTE 19 – COMPLIANCE AND ACCOUNTABILITY

At December 31, 2017, the following funds had a net position deficiency. These deficiencies are the result of a change in accounting for net pension liability for which there is no repayment schedule.

	<u>Amount</u>	
	(Amounts in Thousands)	
Utilities Administration	\$	4,483
Sinking Fund Administration		247
Municipal Income Tax Administration		4,192
Telephone Exchange		575

NOTE 20 – TAX ABATEMENTS

Pursuant to Governmental Accounting Standards Board Statement No. 77, the City is required to disclose certain information about tax abatements as defined in the Statement. For purposes of GASB Statement No. 77, a tax abatement is a reduction in tax revenues that results from an agreement between one or more governments and an individual or entity in which (a) one or more governments promise to forgo tax revenues to which they are otherwise entitled and (b) the individual or entity promise to take a specific action after the agreement has been entered into that contributes to economic development or otherwise benefits the City or the citizens of the City. The City has entered into such agreements. A description of each of the City's abatement programs where the City has promised to forgo taxes follows:

Real Estate tax abatements - Residential

Pursuant to Ohio Revised Code 3735, the City established a Community Reinvestment Area which included all land within the boundaries of the City. The City authorizes abatements through passage of public ordinances, based on residential investment criteria and through an application process, including proof that the improvements have been made. The abatement equals an agreed upon percentage of the additional property tax resulting from the increase in assessed value as a result of the improvements. The amount of the abatement is deducted from the recipient's property tax bill. The establishment of the Community Reinvestment Area gave the City the ability to provide incentives for the development of safe and affordable housing in Cleveland's neighborhoods. The City's tax abatement program provides incentives for current residents to rehabilitate their homes and to attract new residents into the City. Abated taxes are recouped when specific conditions are no longer met in the terms of the tax abatement agreement. Taxes are abated on the improved value of a parcel, where new construction occurs, or on the structure where remodeling applies. The collection of taxes continues on the land and unimproved portion of a remodeled structure. The tax abatement is revoked when the tax abated property has code violations and the property is not maintained and/or when the portion of taxes on a property or parcel that was not abated become delinquent.

Real Estate tax abatements – Commercial

Pursuant to Ohio Revised Code 5709, the City established an Enterprise Zone in 1995, which included all land within the boundaries of the City. The City authorizes incentives through passage of public ordinances, based upon each project criteria and through a contractual application process with each business, including proof that the improvements have been made. The abatement equals a percentage of the additional real property tax resulting from the increase in real property tax bill. Abated taxes may be recouped if the project is not completed and/or required job creation is not met. The establishment of the Enterprise Zone gave the City the ability to retain and expand businesses located in the City and create new jobs by partially abating real property taxes of new or improved business real estate including mixed-use and commercial improvements.

The City has offered tax incentives including Enterprise Zone tax abatements of up to 60% for a period of ten years to businesses making a substantial investment in the City with new development or redevelopment of commercial real property. To qualify, the City considers projects where the enterprise must meet one of the following conditions:

- An investment in an expansion must equal at least 10% of the market value of the facility prior to the expenditure.
- The renovation of an existing facility requires expenditures totaling at least 50% of the market value of the subject facility.
- When occupying a vacant facility or site an enterprise must incur expenditures to renovate or expand the facility equal to at least 20% of the market value of the subject facility.
- Establishing a new facility in an Enterprise Zone.

Businesses which submit applications for tax abatement must be willing and able to attest that without abatement, the proposed investment would not take place in the City. The business must justify this statement documenting that the investment would not be cost effective without abatement or that they are considering a more economically advantageous location outside the City.

Also, to address the existence of food deserts, the City recertified its Enterprise Zone to extend the term of the tax abatement to the maximum allowable amount. Accordingly and pursuant to Ohio Revised Code 5709.62, the City offers a 15-year, 75% tax abatement to business improving real property with a grocery store.

Below is the information relevant to the disclosure of real estate tax abatement program for the year ended December 31, 2017.

<u>Tax Abatement Program</u>	<u>Total Amount of Taxes Abated For the year 2017</u> (Amounts in Thousands)
Community Reinvestment Area (CRA)	
Residential properties	\$ 2,651
Enterprise Zone Program	
Commercial properties	1,351

NOTE 21 – SUBSEQUENT EVENTS

The City entered into an agreement to cease its jail operations at its City Jails and the Cleveland House of Corrections and to contract with Cuyahoga County (the County) to provide the City with prisoner booking, housing and other related services. The City shall pay the County a one-time amount equal to \$5,603,414 for non-recurring start-up expenses necessary for the County to effectuate the takeover of all City Prisoner operations. The one-time amount shall be paid in two equal payments. The first half payment of \$2,801,707 was paid in 2017 and the second half payment of \$2,801,707 shall be paid in 2018. The parties agree that the transfer of the City’s prisoner detention operations to the County will benefit the public and result in more economical, efficient and effective operation of prisoner services.

Effective March 1, 2018, the City entered into an amendment to extend the period of time during which Wells Fargo Municipal Capital Strategies, LLC will be the holder of the \$69,900,000 Refunding Certificates of Participation, Series 2010B (Cleveland Stadium Project). The new Interest Rate Period will end on March 19, 2021. The bonds remain in a variable rate mode with the City again paying on a monthly basis an amount equal to SIFMA plus a spread.

On April 30, 2018, City Council approved legislation authorizing the issuance of not to exceed \$92,080,000 of General Obligation Bonds. Pursuant to this authorization, the City issued \$80,435,000 Various Purpose General Obligation Bonds, Series 2018 on June 20, 2018 to fund \$79,161,000 of capital improvement projects. These bonds were issued to fund park and recreation improvements, public facility improvements and road and bridge improvements. Legislation was also approved in April to allow the refunding of any outstanding general obligation bonds in order to achieve at least 3% debt service savings or to restructure the debt.

Also on April 30, 2018 City Council approved legislation authorizing the issuance of not to exceed \$64,000,000 of Subordinate Lien Income Tax Bonds. These bonds are being issued for public facility improvements and will be specifically used for the acquisition, construction and/or rehabilitation of a new police headquarters building.

Effective May 1, 2018, the City’s \$21,860,000 Taxable Economic and Community Development Refunding Revenue Bonds, Series 2013A (Core City Fund) were directly purchased by PNC Bank, National Association for a period of three years upon the expiration of the prior direct placement. The bonds remain in a variable rate mode with the City again paying on a monthly basis an amount equal to LIBOR plus a spread.

On May 17, 2018, the Water Revenue Bonds, Series AA, 2015 were directly purchased by Royal Bank of Canada for a period of three years upon the expiration of the previous direct placement. The bonds remain in a variable rate mode with the City now paying on a monthly basis an amount equal to SIFMA plus a spread.

On May 21, 2018, legislation was approved by City Council authorizing the issuance not to exceed \$47,500,000 of Airport System Revenue Bonds. The purpose of the bonds will be to fund approximately \$35 million of capital improvements at Cleveland Hopkins Airport along with funding the required deposit to the reserve fund, to pay issuance costs and to cover interest costs for the initial two years. It is expected that the bonds will be issued in the latter half of 2018.

Effective June 27, 2018, the City issued \$47,245,000 of Public Power System Revenue Refunding Bonds, Series 2018. These bonds were sold to currently refund \$52,435,000 of outstanding 2008 Public Power System Revenue Refunding Bonds for debt service savings. As a result of the refunding, the City will realize \$5.0 million of net present value debt service savings for Cleveland Public Power.

CITY OF CLEVELAND, OHIO

NONMAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS

Special Revenue Funds are used to account for specific revenues that are legally restricted or committed by the City to expenditures for particular purposes. The City's Special Revenue Funds are described below:

Division of Streets	To account for motor vehicle license tax and gasoline excise tax used for the repair and building of streets.
Restricted Income Tax	To account for one-ninth of the City's income tax collections. Monies are to be used for capital improvement purposes, repayment of debt and elimination of any deficit balance in any fund of the City.
Cleveland Stadium Operations	To account for the operating activities of Cleveland Browns Stadium.
Community Development Block Grants	To account for revenue from the federal government and expenditures as prescribed under the Community Development Block Grant Program.
Community Development Funds	To account for revenue earmarked for citywide development.
Building and Housing Funds	To account for revenue earmarked to administer and enforce the provisions of the Cleveland building, housing and zoning codes plus the national electrical code and state building, plumbing and elevator codes.
Urban Development Action Funds	To account for revenue from the federal government under the Urban Development Action Grant Program.
Economic Development Funds	To account for revenue earmarked to revitalize distressed cities by stimulating economic development.
Workforce Innovation and Opportunity Act (WIOA)	To account for revenue and expenditures from the State of Ohio under the Workforce Innovation and Opportunity Act.
General Government Funds	To account for revenue earmarked for general government activities.
Public Works Funds	To account for specific revenue earmarked for the public works activity.
Public Safety Funds	To account for revenue earmarked for public safety activities.

SPECIAL REVENUE FUNDS (Continued)

Public Health Funds	To account for revenue earmarked for the improvement of public health.
Gateway Shared Income Tax Funds	To account for municipal income tax revenue derived from persons employed at the Arena and Progressive Field with 50% of the revenues shared with the other taxing districts in the City.
Neighborhood Development Investment Fund	To account for revenue earmarked for the Neighborhood Development Investment Fund.
Core City Program Funds	To account for revenue earmarked for certain economic and community development projects.
Supplemental Empowerment Zone	To account for revenue from the U.S. Department of Housing and Urban Development Program designed to help rebuild specified urban communities.

SPECIAL REVENUE FUNDS (for budgetary purposes only)

These funds are rolled into the General Fund for Modified Accrual Financial Statements.

Rainy Day Reserve Fund	To account for revenue which is eligible to be used during significant periods of economic downturn.
Schools Recreation and Cultural Activities Fund	To account for revenue from special taxes earmarked for Cleveland Municipal Schools for recreation and cultural activities.

DEBT SERVICE FUNDS

Debt Service Funds are used to account for the accumulation of financial resources for and the payment of, general long-term debt principal, interest and related costs. The City's Debt Service Funds are described below:

Unvoted Tax Supported Obligations Fund	To account for the accumulation of resources for the payment of General Obligation Bonds of the City. These bonds do not require a vote of the electors, other than self-supporting obligations. They are payable from ad valorem property taxes levied within the limitations provided by law.
Stadium Bond Fund	To account for the accumulation of resources for the payment of nontax revenue bonds pertaining to the Stadium.
Subordinated Income Tax Fund	To account for the accumulation of resources for the payment of Subordinated Income Tax Variable Rate Refunding Bonds payable from pledged income taxes.

DEBT SERVICE FUNDS (Continued)

Lower Euclid Avenue TIF	To account for the accumulation of resources for the payment of Economic Development Bonds payable from tax increment financing revenues and a pledge of the non-tax revenue of the City.
Core City Bonds	To account for the accumulation of resources for the payment of taxable Economic and Community Development Bonds payable from non-tax and net project revenues.
Subordinate Lien Income Tax Fund	To account for the accumulation of resources for the payment of Subordinate Lien Income Tax Bonds payable from pledged income taxes.
Cleveland Stadium Debt Service Fund	To account for the accumulation of resources earmarked for the repayment of debt related to Cleveland Browns Stadium.
Urban Renewal Fund	To account for the accumulation of resources for the payment of tax increment Urban Renewal Bonds payable from deposits made in lieu of taxes.
Urban Renewal Reserve Fund	The account is to be maintained at an amount equal to one year's maximum annual debt service on certain Urban Renewal Bonds and can be used to cover any debt insufficiency payable from certain urban renewal bonds.

CAPITAL PROJECT FUNDS

Capital Project Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds). The City's Capital Project Funds are described below:

Capital/Urban Renewal Bond Construction	To account for all bond proceeds and capital projects costs of bond-funded capital acquisitions, tax increment Urban Renewal Bond issues and construction within the City.
Grant Improvement	To account for capital grant revenues which fund Capital Improvement Projects within the City.
Capital Improvement	To account for miscellaneous revenues which fund capital projects.
Cleveland Stadium Construction	To account for bond proceeds and capital projects costs of the Cleveland Browns Stadium.

CITY OF CLEVELAND, OHIO

NONMAJOR ENTERPRISE FUNDS

Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private sector businesses where the intent of the governing body is that the expense (including depreciation) of providing goods or services primarily or solely to the general public be financed or recovered primarily through user charges. The City's nonmajor Enterprise Funds are as follows:

Water Pollution Control

The Division of Water Pollution Control is a segment of the Department of Public Utilities of the City. The Division of Water Pollution Control was created for the purpose of providing sewage services to customers and to maintain the local sewer system of the City.

Public Auditorium

The Public Auditorium is a multi-purpose performing arts, entertainment and conference center. It was constructed in the grand opera tradition and features a spacious 21,780 square foot registration lobby, a 10,000 seat auditorium, the 3,000 seat Cleveland Music Hall and 600 seat Little Theater.

West Side Market

The West Side Market provides a public market where Cleveland area residents can purchase a variety of quality foods in a centralized location.

East Side Market

The East Side Market provides a public market where Cleveland area residents can purchase a variety of quality foods in a centralized location.

Municipal Parking Lots

The Division of Parking was established to provide municipal parking within the City's limits.

Cemeteries

The Division of Cemeteries was established to provide interment and cremation services for the City and its neighboring communities.

Golf Courses

The Golf Course Division was established to provide the City and neighboring communities with recreational facilities for golfing and cross country skiing. Currently, both City golf courses are being leased out. Seneca is being leased by Cleveland Metroparks and Highland is leased by Mark A Nance Golf Ohio.

INTERNAL SERVICE FUNDS

Internal Service Funds are used to account for the financing of goods or services provided by one department of the City to other departments of the City on a cost-reimbursement basis. The City's Internal Service Funds are described below:

Motor Vehicle Maintenance	The Division of Motor Vehicle Maintenance was established to provide centralized maintenance, repairs and fueling of certain City vehicles.
Printing and Reproduction	The Division of Printing and Reproduction was established to provide printing and reproduction services for all City divisions.
City Storeroom and Warehouse	The City's Storeroom and Warehouse Division provides centralized mailroom service.
Utilities Administration	The Division of Utilities Administration was established to provide administrative assistance to the Department of Public Utilities.
Sinking Fund Administration	The Sinking Fund Administration Fund was established to account for personnel and other operating expenditures related to the administration of the Debt Service Fund.
Municipal Income Tax Administration	The Municipal Income Tax Administration Fund was established to account for operating expenditures related to the collection of municipal income tax for the City and other municipalities.
Telephone Exchange	The Division of Telephone Exchange was established to operate the communications system for the City at minimal cost.
Radio Communications	The Office of Radio Communications was established to operate the 800MHZ radio communication system.
Workers' Compensation Reserve	The Workers' Compensation Reserve was established to account for liabilities related to workers' compensation claims under the retrospective rating policy.
Health Self Insurance Fund	The Health Self Insurance Fund was established to account for liabilities related to health insurance claims.
Prescription Self Insurance Fund	The Prescription Self Insurance Fund was established to account for liabilities related to prescription drug claims.

CITY OF CLEVELAND, OHIO

AGENCY FUNDS

Agency Funds are used to account for assets received and held by the City acting in the capacity of an agent or custodian. The City's Agency Funds are described below:

Municipal Courts	To account for assets received and disbursed by the Municipal Courts as agent or custodian related to Civil and Criminal Court matters.
Central Collection Agency	To account for the collection of the Municipal Income Tax for the City of Cleveland and any other municipalities that employ the Central Collection Agency as their agency.
Other Agencies	To account for miscellaneous assets held by the City for governmental units or individuals.

* This schedule presents only the capital asset balances related to governmental funds, excluding accumulated depreciation. Accordingly, the capital assets reported in internal service funds are excluded from the above amounts. Generally, the capital assets of internal service funds are included as governmental activities in the statement of net assets.

CITY OF CLEVELAND, OHIO
Statistical Section

This part of the City’s Comprehensive Annual Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures and required supplementary information says about the City’s overall financial health.

<u>Contents</u>	<u>Page</u>
Financial Trends	
These schedules contain trend information to help the reader understand how the City’s financial performance and well-being have changed over time.	S3-S6
Revenue Capacity	
These schedules contain information to help the reader assess the City’s most significant local revenue source, the municipal income tax.	S7-S11
Debt Capacity	
These schedules present information to help the reader assess the affordability of the City’s current levels of outstanding debt and the City’s ability to issue additional debt in the future.	S12-S19
Economic and Demographic Information	
These schedules offer economic and demographic indicators to help the reader understand the environment within which the City’s financial activities take place.	S20-S22
Operating Information	
These schedules contain service and infrastructure data to help the reader understand how the information in the City’s financial report relates to the services the City provides and the activities it performs.	S23-S24
Schedule of Statistics – General Fund	S25

Sources: Unless otherwise noted, the information in these schedules is derived from the Comprehensive Annual Financial Reports for the relevant year.

Note:

The Governmental Accounting Standards Board (GASB) issued Statement No. 65 effective for periods beginning after December 15, 2012. This statement changed the treatment of bond issuance costs to expense in the period incurred. Previously, the costs were recorded as assets and amortized over the life of the related debt issued. This change is reflected in the 2013 net position figures. The City did not restate prior years in this statistical table.

In 2011, Water restated their capital assets due to entering into amended Water agreements with 21 member communities prior to 2011. As part of the agreements, ownership of distribution mains was transferred to the Division of Water. The City did not restate these figures in this statistical table.

The Governmental Accounting Standards Board (GASB) issued Statement No. 68 and 71 effective for periods beginning after June 15, 2014. These statements established standards for measuring and recognizing pension liabilities, deferred outflows of resources, deferred inflows of resources and expense/expenditures. The City did not restate prior years in this statistical table.

Note:

Program revenues and expenses previously reported as "Other" program revenues and expenses in Governmental activities on the Statement of Activities are now classified as General Government program revenues and expenses as appropriate.

Business-type activities on the Government-wide Statement of Activities summarizes other Enterprise Funds as Nonmajor activities. These include Sewer, Public Auditorium, West Side Market, East Side Market, Municipal Parking Lots, Cemeteries and Golf Courses.

(1) In 2012, a departmental reorganization occurred that merged the departments of Public Service with Parks, Recreation and Properties becoming the Department of Public Works. The Office of Capital Projects was created from the Divisions of Architecture, Engineering and Construction and Research, Planning and Development and is reported under General Government. In addition, the Division of Consumer Affairs was merged with Community Development and was moved from General Government.

(2) The Governmental Accounting Standards Board (GASB) issued Statement No. 65 effective for periods beginning after December 15, 2012. This statement changed the treatment of bond issuance costs to expense in the period incurred. Previously, the costs were recorded as assets and amortized over the life of the related debt issued. The City did not restate prior years in this statistical table.

(1) In 2012, a departmental reorganization occurred that merged the departments of Public Service with Parks, Recreation and Properties becoming the Department of Public Works. The Office of Capital Projects was created from the Divisions of Architecture, Engineering and Construction and Research, Planning and Development and is reported under General Government. In addition, the Division of Consumer Affairs was merged with Community Development and was moved from General Government. Data for years prior to 2011 is unavailable.

(2) In 2013, other taxes and other shared revenues are reported separately. For years prior to 2013, the figures are combined. Data for years prior to 2013 is unavailable.

The assessed valuation level for real property in Cuyahoga County is 35% of appraised market value, except for certain agricultural land and public utility property.

The assessed valuation of personal property constituting "inventory" was 23% of true value, in 2006 it was reduced to 18.75%, in 2007 to 12.50%, and in 2008 to 6.25%. The percentage decreased to 0% in 2009 and remains at 0% in 2017.

Electric deregulation took place January 1, 2001. Under prior law, an electric company's taxable production equipment was assessed at 100% of true value, while all of its other taxable property was assessed at 88% of true value. Effective in 2002, the valuation on electric utility production equipment was reduced from 100% to 25% of true value, with makeup payments in varying amounts to be made through 2017 to taxing subdivisions by the State of Ohio from State resources. All taxable property remained at 88% true value.

The total direct rate is shown per \$1,000 of assessed value.

Source: Cuyahoga County Fiscal Officer.

Note:

The rates presented for a particular calendar year are the rates that, when applied to the assessed values presented in the Assessed Value Table, generated the property tax revenue billed in that year. The City's basic property tax rate may be increased only by a majority vote of the City's residents. Charter millage is consistently applied to all types of property. The real property tax rates for the voted levies of the overlapping taxing districts are reduced so that inflationary increases in value do not generate additional revenue. Overlapping rates are those of local and county governments that apply to property owners within the City.

(1) Gross revenues include operating revenues plus interest income. Beginning in 2001, a minimum of 40% of passenger facility charges, as well as grant funds from the FAA for the new runway, are dedicated to the payment of debt service charges and are included in gross revenues. Beginning in 2007, the Coverage Account was included in the calculation of debt service coverage.

(2) Direct operating expenses are calculated in accordance with the bond indenture.

Method: Using 1.0 for each full-time employee and 0.50 for each part-time and seasonal employee at year end.

(1) In 2012, a departmental reorganization occurred that merged the departments of Public Service with Parks, Recreation and Properties becoming the Department of Public Works. The Office of Capital Projects was created from the Divisions of Architecture, Engineering and Construction and Research, Planning and Development and is reported under General Government. In addition, the Division of Consumer Affairs was merged with Community Development and was moved from General Government.

(2) In 2010, the Convention Center was sold to Cuyahoga County; however, the City continues to maintain and operate the Public Auditorium.

Water Department					
Water rates per 1st 600 cubic feet of water used (4)	\$ 19.26	\$ 19.26	\$ 19.26	\$ 17.34	\$ 15.51
Average number of water accounts billed monthly (14)	430,478	138,816	139,823	139,460	139,201
Total water collections annually (including P&I)	\$ 295,099,937	\$ 282,194,878	\$ 273,223,067	\$ 261,928,659	\$ 250,250,867
Payments to Cleveland for bulk water purchases	\$ 9,979,059	\$ 21,309,226	\$ 21,889,987	\$ 21,810,862	\$ 20,194,830
Wastewater Department					
Sewer and sanitary calls for service	5,342	4,537	3,919	5,859	4,856
After hours sewer calls (hours)	270	180	438	381	227
Electric Power					
KWH Sold	1,588,113,898	1,612,905,829	1,616,459,441	1,618,081,248	1,620,996,815
Average accounts billed per month	73,363	73,340	73,661	73,746	74,208
Receipts	\$ 190,495,223	\$ 191,759,714	\$ 194,358,017	\$ 183,571,523	\$ 170,397,373

- (1) General obligation bond rating.
- (2) Amounts are new construction starts. The majority of engineering and construction projects are multi-year projects.
- (3) Includes entire area serviced by the Division of Vital Statistics (i.e., Cleveland + suburbs).
- (4) This is the rate for the City of Cleveland residents only. In 2012 rates changed from per 1000 cubic feet to per 600 cubic feet.
- (5) Holiday light setup was contracted to an outside agency in 2009, 2010 and 2011.
- (6) The City went "live" on a new financial system in January 2010. The new system creates journal entries at the transaction level instead of at the summary level like the prior financial system.
- (7) No program was available for asphalt overlay in 2010 and a new program was implemented for crackseal coating. In 2011, this program ended due to state budget cuts and the asphalt overlay program was again funded.
- (8) 2010 data has been changed. Figures included cases from prior years.
- (9) Street sweeping was limited in 2011 and 2012 due to state imposed budget cuts.
- (10) Beginning in 2011, the City no longer provides an organized leaf collection program.
- (11) Economic Development grants received were restated in 2011 for all years shown. They include Neighborhood Development Investment Fund, Supplemental Empowerment Zone, Economic Development Funds, Urban Development Action Funds, WIA Grants and Core City Program Funds. Beginning in 2011 WIA Grants were moved to General Government.
- (12) In 2013, OVI arrests, operating a vehicle impaired, is formerly known as DUI arrests, driving under the influence. They are both counted using the same measures; however, the State of Ohio now refers to them as OVI as does the City of Cleveland.
- (13) Prior to 2015, Public Works reported the refuse disposal and it's cost as of August through July. Public Works provides calculations base on the calendar year.
- (14) Beginning in 2017, the Water Department switched to monthly billing for its customers.

- (1) Includes Dog Kennels, Inspection Garage and House of Corrections.
- (2) These are calculated totals of all trunk mains [20" diameter and larger] (439 miles), distribution mains [16" and smaller] within the City of Cleveland (1,266 miles) plus distribution mains within certain suburbs with updated service agreements (1,134 miles) which transferred ownership of the distribution mains within those suburban boundaries to the City of Cleveland. Not included in these totals are the distribution mains in all master meter communities and any direct service suburban community who has not entered into a new service agreement.
- (3) In 2011, the City leased Seneca golf course. In 2012, the City leased both golf courses.
- (4) Closed Platt Station and Luke Easter Station in 2011. In 2013, square footage occupied decreased due to the demolition of the Miles Broadway building (21,900 sq ft) and the Highland Park Maintenance building (9,000 sq ft).
- (5) In 2012, a departmental reorganization occurred that merged the departments of Public Service with Parks, Recreation and Properties becoming the Department of Public Works. The Office of Capital Projects was created from the Divisions of Architecture, Engineering and Construction and Research, Planning and Development and is reported under General Government. In addition, the Division of Consumer Affairs was merged with Community Development and was moved from General Government.
- (6) In 2013, Cleveland Hopkins demolished their long-term parking area and created a surface lot. They also changed their short-term parking area into the CLE Smart Park Garage which is for both short and long-term parking.
- (7) In 2014, the number of gates reflects physical gates. All prior years totals are the number of aircrafts that can be accommodated at any one time, including physical gates and parking positions.
