# INTRODUCTORY SECTION

This Page Intentionally Left Blank.

June 29, 2022

Honorable Mayor Justin M. Bibb City of Cleveland Council and Citizens of the City of Cleveland, Ohio

#### Introduction

We are pleased to submit the Annual Comprehensive Financial Report (ACFR) of the City of Cleveland (the City) for the year ended December 31, 2021. This report, prepared by the Department of Finance, includes the basic financial statements that summarize the various operations and cash flows related to the City's 2021 activities. Our intention is to provide a clear, comprehensive and materially accurate overview of the City's financial position as of December 31, 2021. The enclosed information has been designed to allow the reader to gain an understanding of the City's finances, including financial instruments and fund performances. The City has complete responsibility for all information contained in this report.

This report consists of management's representations concerning the finances of the City. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the City has established a comprehensive internal control framework that is designed both to protect the City's assets from loss, theft, or misuse and to compile sufficient, reliable information for the preparation of the City's financial statements in conformity with generally accepted accounting principles (GAAP) in the United States of America. Because the cost of internal controls should not outweigh their benefits, this comprehensive framework of internal controls has been designed to provide reasonable, rather than absolute, assurance that the financial statements will be free of material misstatement. As management, we assert that to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The City's financial statements have been audited by the Ohio Auditor of State. The goal of the independent audit is to provide reasonable assurance that the financial statements of the City for the year ended December 31, 2021, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The Ohio Auditor of State concluded, based upon its audit, that there was a reasonable basis for rendering an unmodified opinion that the City's financial statements for the year ended December 31, 2021, are fairly presented in conformity with GAAP. The Independent Auditors' Report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the City was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in the City's separately issued Single Audit Report.

GAAP requires that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The City's MD&A can be found immediately following the Independent Auditors' Report.

#### Structure of this Annual Comprehensive Financial Report

This ACFR is designed to assist the reader in understanding the City's finances. This ACFR consists of the following sections:

- The Introductory Section, which includes this letter of transmittal and contains information pertinent to the City's management and organization.
- The Financial Section contains the Independent Auditor's Report, MD&A, Basic Financial Statements, Required Supplementary Information and various other statements and schedules pertaining to the City's funds and activities.
- The Statistical Section contains numerous tables of financial and demographic information. Much of this information is shown with comparative data for the ten-year period from 2012 through 2021.

References throughout this report to Note 1, Note 2, etc., are to the Notes to Financial Statements included in the Financial Section of this ACFR.

#### **Profile of the Government**

#### The City

The City is a municipal corporation and political subdivision of the State of Ohio. It is located on the southern shore of Lake Erie and is the county seat of Cuyahoga County.

The City is included in the Cleveland-Elyria, OH Metropolitan Statistical Area (MSA), comprised of Cuyahoga, Lake, Lorain, Geauga and Medina counties. This MSA is the 34<sup>th</sup> largest of 384 Metropolitan Areas in the United States and the 2<sup>nd</sup> largest MSA in the State of Ohio.

The City is located in the northeast part of the state, approximately 150 miles north-east of Columbus. Bordering Lake Erie, the City is home to world-renowned medical facilities, professional sports venues, a casino, Severance Hall, numerous lakefront parks, the Port of Cleveland, the Rock and Roll Hall of Fame and operates the nation's tenth largest water system. Interstate highways I-71, I-480, I-77 and I-90 serve as some of the City's major transportation arteries. The City is rich in educational and medical facilities, including Cleveland State University, Case Western Reserve University, the Cleveland Clinic and University Hospitals of Cleveland.

#### City Government

The City operates under and is governed by, the Charter which was first adopted by the voters in 1913 and has been and may be further amended by the voters from time to time. The City is also subject to certain general State laws that are applicable to all cities in the State. In addition, under Article XVIII, Section 3 of the Ohio Constitution, the City may exercise all powers of local self-government and may exercise police powers to the extent not in conflict with applicable general State laws. The Charter provides for a mayor-council form of government.

The City's chief executive and administrative officer is the Mayor, elected by the voters for a four-year term. Justin M. Bibb was elected as Mayor of the City in November 2021. Prior to assuming office as Mayor, Mr. Bibb has worked in government, business and the nonprofit sector as an executive and nonprofit leader. Under the Charter, the Mayor may veto any legislation passed by Council, but a veto may be overridden by a two-thirds vote of all members of the Council.

Legislative authority is currently vested in a 17-member Council. Council members serve four year terms and are elected from wards. The present terms of the Mayor and Council members expire on December 31, 2025. The Council fixes compensation of City officials and employees and enacts ordinances and resolutions relating to City services, tax levies, appropriating and borrowing money, licensing and regulating businesses and trades and other municipal functions. The presiding officer is the President of Council, elected by the Council members. Blaine A. Griffin, was elected as President of Council in November 2021. The Clerk of Council is appointed by Council. The Charter establishes certain administrative departments; the Council may establish divisions within departments or additional departments. The Mayor appoints all of the Directors/Chiefs of the City's 12 departments.

The Director of Finance/Chief Finance Officer and City Controller believe that, to the best of their knowledge, the data contained in this report present fairly the financial position and results of operations of the various funds of the City. All necessary disclosures are included in this report to enable the reader to understand the City's financial activities.

#### Financial Reporting Entity

The City has applied guidelines established by Governmental Accounting Standards Board (GASB) Statement No. 61, *The Financial Reporting Entity: Omnibus an Amendment of GASB Statements No. 14 and No. 34*. Provisions outlined in this statement define the operational, functional and organizational units for which the City, acting as Primary Government, is required to include as part of its reporting entity. The inclusion of a component unit as part of the City's reporting entity requires the appointment of a voting majority of the component unit's board and either (1) the City's ability to impose its will over the component unit or (2) the possibility that the component unit will provide a financial benefit to or impose a financial burden on the City.

Under these provisions, the City's financial reporting entity acts as a single rather than multi-component unit. The provisions permit the entity to include all funds, agencies, boards and commissions that, by definition, comprise components within the primary government itself. For the City, these components include police and fire protection services, waste collection, parks and recreation, health, select social services and general administrative services. Primary enterprise activities owned and operated by the City include a water system, electric distribution system and two airports.

In accordance with GASB Statement No. 61, the Cuyahoga Metropolitan Housing Authority, Cleveland-Cuyahoga Port Authority and Cleveland Municipal School District are defined as related organizations and Gateway Economic Development Corporation of Greater Cleveland is defined as a jointly governed organization. None of these organizations is included within the City's reporting entity.

The City has included the Public Health Department Blended Component Unit as part of its reporting entity.

#### Internal Control

Management of the City is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the City are protected from loss, theft or misuse. The internal control structure ensures that accounting data is compiled to allow for the preparation of financial statements in conformity with GAAP. The internal control structure is designed to provide reasonable assurances that these objectives are met. The concept of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal, state and county financial assistance, the City is also responsible for maintaining a rigorous internal control structure that ensures full compliance with applicable laws and regulations related to those programs. This internal control structure is subject to periodic evaluation by management, external auditors and the internal audit staff of the City. The City is required to undergo an annual audit in conformity with the provisions of the U.S. Office of Management and Budget's Uniform Administration Requirements, Cost Principles and Audit Requirements for Federal Awards (Uniform Guidance). The information related to the Uniform Guidance, including the schedule of expenditures of federal awards, findings and recommendations and auditor's reports on the internal control structure and compliance with applicable laws and regulations are included in a separate report.

#### Accounting and Financial Reporting

The City's accounting system is organized and operated on a fund basis. A fund is defined as an independent fiscal and accounting entity with a self-balancing set of accounts. The types of funds to be used are determined by GAAP and the number of individual funds established is determined by sound financial administration. Each fund is a separate accounting entity with its own self-balancing set of accounts, assets, deferred outflows of resources, liabilities, deferred inflows of resources and fund balance. The City's governmental funds include the General Fund, Capital/Urban Renewal Bond Construction Fund, General Government Fund, Public Health Fund, Special Revenue Funds, Debt Service Funds and Capital Projects Funds. The City's proprietary funds are its Enterprise Funds that provide services to the general public, including utilities and airport service and Internal Service Funds that provide services to City departments, divisions and other governments. The City also maintains Fiduciary Funds to account for assets held by the City in an agent capacity for individuals, private organizations and other governments.

Except for budgetary purposes, the basis of accounting used by the City conforms to GAAP as applicable to governmental units. All governmental funds are accounted for using a current financial resources (current assets, deferred outflows of resources, current liabilities and deferred inflows of resources) measurement focus. The modified accrual basis of accounting is utilized for governmental funds. Revenues are recognized when they are susceptible to accrual (both measurable and available). Expenditures are recognized when the related liability is incurred, except for interest on long-term debt which is recorded when due.

The measurement focus of the City's proprietary funds is on the flow of total economic resources (all assets, deferred outflows of resources, liabilities and deferred inflows of resources). The accrual basis of accounting (revenues are recognized when earned and expenses when incurred) is utilized for the Enterprise and Internal Service Funds.

The City's basis of accounting for budgetary purposes differs from GAAP in that revenues are recognized when received, rather than when susceptible to accrual (measurable and available) and encumbrances and pre-encumbrances are included as expenditures rather than included in fund balances.

#### **Budgeting Procedures**

Detailed provisions regulating the City's budget, tax levies and appropriations are set forth in the Ohio Revised Code and the City Charter. The Mayor is required to submit the appropriation budget, called "The Mayor's Estimate" to City Council by February 1 of each year. The Council may adopt a temporary appropriation measure for the first three months of the year, but must adopt a permanent appropriation measure for the fiscal year by April 1. The Cuyahoga County Fiscal Officer must certify that the City's appropriation measure does not exceed the amounts set forth in the County Budget Commission's Certificate of Estimated Resources.

In June of 2018, GASB Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*, was issued. This Statement is effective for the reporting periods beginning after December 15, 2019. The objectives of this Statement are (1) to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and (2) to simplify accounting for interest cost. As required, the City has implemented GASB Statement No. 89 as of December 31, 2021.

In March of 2020, GASB Statement No. 93, *Replacement of Interbank Offered Rates (IBOR)*, was issued. This Statement is effective for reporting periods beginning after June 15, 2020. The objective of this Statement is to address accounting and financial reporting implications that result from the replacement of an IBOR. As required, the City has implemented GASB Statement No. 93 as of December 31, 2021.

In October of 2021, GASB Statement No. 98, *Annual Comprehensive Financial Report*, was issued. This Statement is effective for reporting periods ending after December 15, 2021. The objective of this Statement is to establish the term annual comprehensive financial report and its acronym *ACFR*. That new term and its acronym replace instances of comprehensive annual financial report and its acronym. As required, the City has implemented GASB Statement No. 98 as of December 31, 2021.

The City maintains budgetary control on a non-GAAP basis at the character level (personnel and related expenditures and other expenditures) within each division. Lower levels within each character are accounted for and reported internally. Lower levels are referred to as the program level. Estimated expenditure amounts must be pre-encumbered and subsequently encumbered prior to the release of purchase orders to vendors or finalization of other contracts. Pre-encumbrances and encumbrances that would exceed the available character level appropriation are not approved or recorded until the Council authorizes additional appropriations or transfers. Unencumbered appropriations lapse at the end of each calendar year. As an additional control over expenditures, the City Charter requires that all contracts in excess of \$50,000 shall first be authorized and directed by ordinance of Council.

Budget-to-actual comparisons are provided in this report for each individual governmental fund for which an appropriated annual budget has been adopted. For the General Fund, this comparison is shown on page 67 as part of the basic financial statements. For other governmental funds with appropriated annual budgets, this comparison is presented in the supplementary information subsection of this report along with more detailed information regarding the General Fund, which starts on page 144.

#### **Factors Affecting Financial Condition**

#### Local Economy

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the City operates.

The City's economic condition draws strength and stability from its evolving role as the focal point of a growing, changing and substantial regional economy. The City is located at the center of one of the nation's heaviest population concentrations. The Cleveland Metropolitan area is a significant local market, housing 2.1 million people. The City also provides superior links to the global markets. The Cleveland-Cuyahoga Port Authority handles the largest amount of overseas cargo on Lake Erie and includes a Foreign Trade Zone. The City is also well-served with extensive highways and Cleveland Hopkins International Airport is serviced by all major airlines. The re-emergence of downtown Cleveland as a vibrant center for national and regional entertainment and major cultural activities signals a turning point in the City's overall fortunes and is paving the way for further economic expansion that will be significantly more entrepreneurial in scope.

#### Major Industries, Economic Conditions and Employment

The City, as well as most large urban municipalities across the nation, has faced significant economic challenges in recent years. Like all manufacturing cities across the country, the City has tried to combat the declining industry base with more professional and service industry opportunities. The City's budget basis income tax collections increased by 4.6% in 2021 as a result of a lower unemployment rate than in 2020 and re-opening of businesses after the COVID-19 pandemic.

While the City's economy has shifted more toward education and health care services, its manufacturing base has assumed a smaller, yet still vital role. Competitive pressures in manufacturing have limited job creation, but the competitive position of the City based industrial companies has improved.

For 2021, the U.S. Bureau of Labor Statistics (BLS) indicates that the Cleveland area employment base continues to become more diversified. The following table summarizes the percentage of nonfarm employment in the Cleveland area by major industry.

| Industry                            | Percent of<br>Workforce |   |
|-------------------------------------|-------------------------|---|
| Education and health services       | 19.02                   | % |
| Trade, transportation and utilities | 18.71                   |   |
| Professional and business services  | 15.26                   |   |
| Government                          | 12.89                   |   |
| Manufacturing                       | 10.74                   |   |
| Leisure and hospitality             | 8.58                    |   |
| Financial activities                | 6.41                    |   |
| Mining, logging and construction    | 3.92                    |   |
| Information                         | 1.22                    |   |
| Other Services                      | 3.25                    |   |
|                                     | 100.00                  | % |

#### Current Projects and 2021 Accomplishments

The 2021 budget focused on continuing the City's commitment to improve the quality of life of its citizens by strengthening its neighborhoods, fostering a favorable business climate and providing superior services.

The City achieved the following 2021 programmatic goals and projects:

Department of Community Development

- The Department continued implementing neighborhood strategies to reduce blight and promote recovery from the economic downturn by making or supporting investments throughout Cleveland. Investments include, but are not limited to demolition, housing renovation, home repair, land reutilization, development of new affordable housing, storefront façade improvements, addressing homelessness and needed public services. All approaches are consistent with the CityWide plan to deploy sustainable and green principles.
- The U.S. Department of Housing and Urban Development (HUD) approved its priorities to focus our resources to address Affordable Housing, Homelessness, Non-Homeless Persons with Special Needs, Stabilizing Neighborhood Housing Markets, Non-Housing Community Development and Public Housing.
- All housing projects that receive City financial assistance, including tax abatement, are required to meet the City's Green Building Standards (GBS). The GBS incorporates national standards such as Leadership in Energy & Environmental Design (LEED) and Enterprise Community Partners' Green Community Standards.
- Eight affordable multi-family and scatter site projects with 184 units were completed in 2021. Included in these projects were Emerald IX, a 71 unit permanent supportive housing project and Prospect Yards, containing 42 affordable units. In addition, Legacy at St. Lukes and La Villa Hispana constructed 57 scatter site single family homes in the City. In total, the Department completed eight projects with a total development cost of \$32 million.
- The commercial revitalization team completed 43 Storefront Renovation Program projects in 2021 which included nine comprehensive building rehabilitations, 22 neighborhood business signs and 12 downtown projects.
- The Department addressed lead hazards in 187 units through the Lead Hazard Reduction Grant.
- Under the Community Engagement Healthy Homes Initiative (HHI) Program, specialists assess neighborhood housing issues and help residents and landlords understand and remove environmental hazards and bring homes to housing code compliance. In addition, the program supports the Department's Exterior Paint Program by helping residents and landlords apply for and complete the paint program.

Department of Building and Housing

- Inspected, condemned and razed over 489 structures.
- Sent 279 prosecution packets to law.
- Filed 137 summons and 1,433 tickets with the Court.
- Issued 4,491 violation notices.
- Issued construction permits valued at \$1,092,815,108 in new construction.
- Boarded and secured 846 vacant structures.
- Issued 619 condemnation violations.

#### Department of Economic Development

- The Department continued to access \$10,000,000 in funding from JobsOhio for the environmental assessment and remediation of the Opportunity Corridor. The grants will help to create "shovel-ready" industrial development sites on land that is adjacent to the Opportunity Corridor, a \$300 million investment connecting Cleveland's University Circle to the I-490 Interchange. The first priority project in the Opportunity Corridor will break ground in June 2022, a 150,000 square foot cold storage building anchored by the Orlando Baking Company.
- The Neighborhood Retail Assistance Program provided \$325,000 of assistance for seven projects that leveraged over \$780,000 of total project investment. Vacant storefronts are being replaced by restaurants, cafés and locally-owned retail shops. These small businesses will create 44 new jobs. A few of the loan recipients include Central Kitchen, Room Service, and The Sauce West Sixth.
- Under the Vacant Property Initiative (VPI) Program, the City provided approximately \$1,740,000 in assistance to 12 borrowers. The total project cost for these borrowers is approximately \$11,500,000 and will create almost 375 new jobs. The borrowers included Broadway Optical, Master Products Corp. and University Tees.
- The Mayor's Neighborhood Transformation Initiative began in the Glenville neighborhood. As a result of the efforts, the first several new homes are under construction, and 40 senior residents have received assistance with stabilizing and improving their homes. The Glenville CircleNorth mixed-use building continued to operate in 2021.
- The Department's support for the Meijer Grocery Store Mixed-Use and Innovation Square projects will lead to new residential housing and a grocery store in the Fairfax neighborhood, south of the Cleveland Clinic and at the terminus of the Opportunity Corridor. These projects broke ground in December 2021 as the culmination of years of work led by the local Community Development Corporation (CDC) to bring fresh grocery options and new residential construction to the neighborhood.

Department of Public Health (CDPH)

- The Division of Environment investigated 5,993 citizen nuisance complaints and issued 1,297 tickets. Throughout 2021, staff continued to be reassigned to support CDPH's COVID-19 response efforts including initial interviews and/or contact tracing.
- The Division of Health program, MomsFirst, served over 950 parents in 2021, conducted 1,880 home visits, 757 virtual visits and made 10,739 phone calls to participants in the program.
- Approximately 90,000 condoms and 6,000 lube packets were distributed to community partners and social service agencies in the surrounding Cleveland area. CDPH Health Clinics conducted 1,463 HIV tests in 2021.
- The Division of Health immunization program administered 297 childhood immunizations, 1,582 childhood (0-18) COVID-19 vaccinations, 41 HPV, three Hepatitis A vaccinations and 543 flu shots. The health centers served 3,609 patients. The Division of Health conducted 158 child day care inspections and 4 abortion clinic inspections.
- Vital statistics issued 30,535 birth certificates and 62,475 death certificates.
- The Division of Air Quality completed 110 asbestos inspections and reviewed 611 asbestos projects, issued 432 City air permits, renewed 81 Ohio EPA permits and issued 18 new Ohio EPA permits. The Division took 53 enforcement actions during the year.
- The Division of Health Office of Epidemiology and Office of Emergency Preparedness (EOP) provided the following disease surveillance and conducted emergency preparedness activities/responses in 2021. Epidemiologists investigated one salmonella, six Coxsackievirus and more than 93 COVID-19 outbreaks. In 2021, OEP conducted over 400 individual COVID-19 Points of Dispensing (POD) clinics at approximately 150 unique locations throughout the City of Cleveland with support from all departments throughout the City of Cleveland with the Department of Public Safety and the Department

of Aging to conduct no less than 60 homebound routes bringing COVID-19 vaccines and flu vaccines to more than 300 patients who were unable to leave their homes due to health conditions. OEP continues to look ahead to preparing for the next public health emergency. In the past year, OEP conducted four departmental communications drills, 12 radio drills, one dispensing drill, one volunteer mobilization drill, one information exchange drill, and one city-wide tabletop exercise as well as all grant deliverables associated with the Public Health Emergency Preparedness (PHEP) grant and the Cities Readiness Initiative (CRI) grant. From all of these activities, OEP completed one After-Action Report/Improvement Plan (AAR/IP), one Integrated Preparedness Plan (IPP) and drafted an updated OEP Strategic Vision.

Department of Aging

- Provided core services to 6,967 unduplicated clients including both older adults and adults with disabilities.
- Secured approximately \$720,000 in grants to support programs for seniors and adults with disabilities.
- 193 home repair jobs were completed in the 3<sup>rd</sup> year of the Age Friendly Home Investment Program for older adults and adults with disabilities. The most common jobs are roof replacement, porch repairs and bathroom modifications. The average value of the home repair grant was \$10,417.
- Utilized the City's Code Red Communication system to provide 65 different informational recorded calls to Cleveland seniors during the COVID-19 pandemic. 423,353 connections were made by live answer or voicemail and provided education and information to older adult residents.
- 902 residents received assistance with their outdoor home maintenance, including grass cutting, leaf raking and snow shoveling services.
- 536 residents participated in the Economic Security Case Management Program.
- 241 residents received a daily wellness call through the Cleveland Care Calls Program. This is a collaborative effort with Public Safety.
- 18 Neighborhood Senior Walks were held, at least one in each ward, to provide opportunities for older adults to get active and to get access to health information including information about COVID-19.

The Office of Equal Opportunity (OEO)

- OEO maintains a registry of certified Minority-Owned Business Enterprises (MBEs), Female-Owned Business Enterprises (FBEs) and Cleveland Small Businesses (CSBs). There are approximately 600 contractors certified by OEO, and certifications are renewed annually. The certification team provides in-depth consultation to applicants, assisting them with certification and educating contractors on doing business with the City. OEO also provides business development and outreach to certified contractors through one-on-one meetings and information sharing on local programming.
- OEO establishes subcontracting goals on City contracts greater than \$50,000 and requires that bidders and proposers demonstrate a good faith effort to engage with certified MBE, FBE and CSB firms to meet those goals.
- OEO evaluates contract bids and proposals for compliance with the goals, and advises the contracting departments on contract awards. OEO then monitors the use of subcontractors, holding bidders and proposers accountable to their subcontracting commitments.
- OEO is responsible for enforcing Chapter 188, the Fannie M. Lewis Cleveland Resident Employment Law, requiring 20% resident worker hour participation and 4% low-income worker hour participation on applicable contracts. However, enforcement is prohibited on public improvement projects. OEO is also the designated Prevailing Wage Coordinator for the City of Cleveland, and standardizes the prevailing wage compliance process for the City.

• OEO continues to utilize two integrated compliance software systems. Business to Government Now (B2GNow) and Labor Compliance Program (LCP) tracker. All certification application and contract compliance reporting is submitted electronically through these systems. B2GNow and LCP tracker allow OEO to efficiently serve the contractor community while collecting large amounts of reliable data on city contracting.

Department of Public Works

- The Division of Recreation served 33,307 nutritious meals in 2021.
- Loew Park's youth baseball field and soccer field were replaced with synthetic turf.
- The Division of Motor Vehicle Maintenance (MVM) performed 51 in house technical training classes. MVM also created an in house Commercial Driver's License (CDL) training program. In addition to technical training, MVM performed 12 Public Employee Risk Prevention Program (PERPP)/Health and Safety classes.
- The Division of Streets Residential Resurfacing Program completed 413,567 sq/yds of street paving in 2021.
- The Division of Waste Collection processed 298,054 tons of solid waste in 2021.
- The Division of Park Maintenance, Cemetery section performed 1,511 internments, completed 1,339 service requests, set 933 headstones and resumed the maintenance and upkeep of all 14 City of Cleveland owned cemeteries in 2021.
- The Division of Park Maintenance, Greenhouse Section, grew, planted and cared for 6,000 annual flowers in Downtown City-owned flowerbeds and planters.
- The Division of Park Maintenance provided 46,995 service visits to vacant lots and 33,817 to vacant structures and performed 55 illegal dumpsite clean-ups from January to March.
- 3,501 trees were pruned.
- 774 trees were removed.
- 1,849 tree emergencies services were provided.
- 263 stumps were removed.
- 1,207 trees were planted.
- 13,501 trees were inspected in right-of-way.
- 507 vacant lot trees were inspected.
- 253 vacant lot trees were serviced by Urban Forestry crews.

#### Department of Public Safety

- In 2021, the Division of Police Training Academy was recognized as a STAR Academy by the Ohio Attorney General's Office. A STAR program must meet at least a dozen extra criteria to help better prepare officers and making them more effective in serving and protecting their communities.
- The Division of Police introduced two initiatives to increase positive interactions between police officers and citizens: officers began utilizing Warning Citations for some moving traffic violations as opposed to issuing a traffic citation; and officers began passing out service comment cards with a QR code to members of the community. These cards allow members of the community to respond about their interaction with the police whether positive or negative. The cards have had an overwhelmingly positive response rate.

- The Division of Police implemented data collection in the areas of Community Engagement, Crisis Intervention Teams, Stops, and Community Problem-Oriented Policing.
- The Division of Police launched Fusus, a video sharing platform, which allows for sharing of public and private cameras in the furtherance of making Cleveland a safer place to live and work. This system also provides a unified platform of mission critical safety systems.
- The Division of Police completed a refresh and upgrade of the body worn cameras utilized by each member in the Division. In 2021, the Division recorded over 841,000 body worn cameras videos. Since the implementation of the use of body worn cameras, the City has seen citizen filed complaints drop by almost 50%.
- The Division of Police upgraded its Use of Force, Pursuits, Firearm Discharge, Complaints Software (Blue Team & IA Pro) to ensure continued Department of Justice (DOJ) Settlement Agreement Compliance as well as improve system efficiency and Office utilization by migrating to a web-based platform.
- In 2021, The Cleveland Division of Fire (CFD) obtained the top Insurance Services Offices (ISO) rating of one. This is the highest rating possible and is a composite rating based on various criteria.
- Two new fire apparatus were placed into service in 2021: one engine and one ladder truck. CFD anticipates adding three battalion rigs, two engines and a tower ladder in 2022. Additionally, the delivery of the new fireboat is expected in August 2022.
- Replaced our records management system with the new ZOLL records management system. This system allows greater customization to better meet the needs of CFD. Upgrading to ZOLL has the increased benefit of the CFD and the Division of Emergency Medical Service (EMS) now being on the same platform to potentially having a single electronic patient care reporting system in the future.
- Received a Federal grant of \$138,000 to complete a community risk assessment. This will help the CFD to identify and adjust to the risks and challenges present in our various diverse neighborhoods.
- CFD went live with our new fire pre-incident planning program. This program uses a custom-built ArcGIS tool to allow front line company officers to create building pre-incident plans that can then be viewed on an web-enabled device. This information is collected and used for planning prior to an emergency incident to increase the safety and efficiency of firefighters responding to emergencies at these buildings, which will result in reduced losses for our community.
- Completed the replacement of all mobile data computers (MDTs) on fire apparatus.
- In 2021, CFD redeployed two vehicles to the fleet. Safety 100 and Safety 200 are innovative multipurpose vehicles that bring additional safety equipment to prolonged emergency scenes. These unique apparatuses' primary goal is to increase safety and decrease injuries. CFD can now deliver large-scale lighting, shelter, Incident Command, and nutritional replenishment with a simple call-out. In addition, these 24/7 vehicles have been outfitted with supplemental self contained breathing apparatus (SCBA) bottles, water rescue tools, and specialty rescue equipment previously not available.
- CFD completed approximately 160 background checks for prospective fire applicants consisting of Federal Bureau of Investigation (FBI), Bureau of Criminal Investigation (BCI) background screens, and division representatives contacting local law enforcement agencies.
- CFD is implementing the Lexipol policy management platform. Lexipol provides fully developed, state-specified policies researched and written by subject matter experts and vetted by attorneys. The policies are based on nationwide standards and best practices while also incorporating state and federal laws and regulations where appropriate.

- Issued a comprehensive annual report of the division's operations, performance metrics, and accomplishments for the 2021 calendar year.
- Fire Training Academy (FTA) Staff completed Firefighter Mile training and testing for two cadet classes, completed an 18-week cadet class for 86 new members of the Cleveland Division of Fire (CFD), delivered eight Fire Officer I classes, three Fire Instructor classes, and an International Trauma Life Support class.
- Took delivery of the Fire Ground Survival Trailer and training props, completed a 4-day train-the-trainer course to become certified to teach the International Association of Firefighters (IAFF) Fire Ground Survival course and taught multiple sessions of Fire Ground Survival to incumbent members of the Division.
- In collaboration with the Ohio Department of Public Safety, Division of EMS conducted a successful audit of the fire charter.
- Hosted the Ohio Fire Academy Mobile Fire Behavior Lab.
- Participated in a food distribution day with the Cleveland Food Bank.
- In 2021, CFD initiated the process to purchase propane-fueled training props. These will include an automobile training prop and a pressure vessel-training prop. These props will replace obsolete training props and increase the efficiency and safety of conducting fire-training evolutions for these two specific types of emergencies.
- The Division of EMS was significantly impacted by the coronavirus pandemic. Early in 2020, in preparation to ensure the safety of all personnel as well as the community being served, EMS collaborated, received guidance from the CDPH and hospital partners on the 2019 Novel Coronavirus, and enhanced guidance for infection control. From the initial 9-1-1 call, callers were screened about exposure to the coronavirus and information was provided to the responding EMTs/Paramedics. The Cleveland EMS Covid-19 Playbook was developed to provide medical, administrative and operational guidelines on managing the coronavirus.
- As an integral part of managing the coronavirus and mitigating the community impact, EMS provided support to the CDPH during their planning and implementation of providing the coronavirus vaccine to the community.
- EMS graduated the first EMT Certification training class. The EMT Certification training program was the first initial certification-training program provided by EMS, allowing the Division to hire non-certified persons to provide the EMT training, then after completion of the EMT Academy, the EMTs provide pre-hospital medical care to the community.
- EMS logistics section replaced/replenished over 430 first aid kits and 95 naloxone kits utilized by the Division of Police (CPD) to provide life-saving first aid. The training of first aid, Cardiopulmonary Resuscitation (CPR), choking, and Automated External Defibrillator (AED) training was continued by the Division of Police.
- EMS continues to collaborate with our local hospital systems to identify opportunities to establish programs to meet the increasing medical needs of the community. The collaborative efforts include the agreement of four hospital systems to have the emergency departments remain open to EMS traffic at all times. This ensures that patients are able to remain within their hospital network unless a specific medical or traumatic emergency dictates otherwise.
- The Department of Public Safety continued its partnership with the Metro Health system to provide Public Safety Medical Director Services, which include Medical Director oversight for the EMS, CFD and CPD.
- The Division of Animal Care and Control (ACC) continued to provide service to residents and care for impounded animals while still navigating through the challenges of the pandemic.
- ACC continued to work with residents by returning animals in the field and offering citations in lieu of impoundment when appropriate.

- ACC continued to make most adoptions by appointment only to limit capacity in the building but also utilized a hybrid approach to allow for outdoor pop-up adoption events. ACC maintained its live outcomes from the previous year, with an almost 94% Live Release Rate for dogs in 2021. The industry standard is 90%.
- ACC became more accessible to the public by allowing owners to come in and reunite with their dogs during normal hours of operation versus the appointment-based system utilized during COVID-19 restrictions. ACC saw a 2% increase in owners reunited with their dogs.
- ACC's CITY DOGS volunteer program continued to support with over 150 volunteers putting in over 15,000 volunteer hours in quality enrichment for the dogs in our care.
- ACC's non-profit partner, Friends of CITY DOGS Cleveland, had another successful year of fundraising, which supported more medical and enrichment needs for dogs in the kennel.
- ACC also continued their partnership with Cleveland Municipal Court to provide a program for individuals who have committed animal-related offenses. The Animal Related Offenses Class (AROC) program's goal is to help educate and create more responsible pet owners. The class is taught by two Animal Control Officers.

#### Department of Public Utilities

- The Division of Water services not only the City, but also 69 direct service communities, seven master meter communities and three emergency standby communities. They provide water to approximately 432,000 city and suburban accounts in the Cleveland metropolitan area. Of these 432,000 accounts, approximately 117,000 accounts were located within the City, accounting for 23.25% of the Division's metered sales revenue. The Division provides billing and payment services for the Northeast Ohio Regional Sewer District (NEORSD) and other communities. The major capital projects included suburban water main renewals, improvements of sedimentation basins at the Nottingham Water Treatment Plant and Phase 2 of Automated Meter Reading installations.
- The Division of Cleveland Public Power (CPP) provided approximately 74,000 residential, business and governmental customers in the City with reliable and affordable power in 2021. CPP sold approximately 1.579 billion Kilowatt hours (KWh) of electricity. The major capital projects included installation of underground duct lines, motor vehicle purchases and general engineering services.
- The Division of Water Pollution Control maintains the local sanitary and storm water collection system within the City. The system is comprised of 1,444 miles of sewer lines, more than 44,000 catch basins and 12 pump/lift stations. In 2021, the Division's sewers transported 1,567,961 cubic feet (Mcf) of water. The major capital outlays were for rehabilitation of the East 185th and Marcella Road sewer lines, rehabilitation of Edgewater Drive sewer lines, motor vehicles purchases and additional sewer re-linings and installations.

#### Department of Port Control

- In 2021, the first two-year extension option of the Master Lease was signed by nine Signatory carriers. The nine Signatory carriers includes United, Delta, American, JetBlue, Southwest, Frontier, Spirit, FedEx and UPS. The term of the extension is 1/1/22 to 12/31/23.
- During 2021, Cleveland Hopkins International Airport (CLE) enplaned 3,646,410 passengers and had aircraft landed weight of 4,609,992,000 pounds.
- During 2021, CLE concessions developer Fraport USA opened two new retailers; TACKL Health on ticketing offering various COVID-19 testing services, The CLUB CLE, a common use passenger lounge on Concourse B, and refreshed the passenger amenity vending locations throughout the terminal.
- In 2021, In-Terminal concessions sales increased by 99%, \$39,792,224 compared to \$20,026,026 in 2020. Airport Concessions Disadvantaged Business Enterprise (ACDBE) sales accounted for 49% of total revenues.

- During 2021, CLE substantially completed the North Airfield Improvements Phase IV Project. The project included work on Taxiways Sierra & Juliet, along with substantial storm water improvements.
- During 2021, CLE opened Phase 1 of the new Ground Transportation Center. The new facility is directly adjacent to the terminal and will accommodate shuttles/buses, taxis, and limos. It will also provide a higher level of customer service to passengers.

Department of Law

- Drafted approximately 690 contracts.
- Reviewed approximately 1,286 contracts for legal form and correctness.
- Prepared and processed 422 requests for legislation for introduction to City Council.
- Obtained 197 search warrants for Housing Court enforcement actions.
- Assisted Department of Building & Housing to obtain legal authorization for 426 demolitions of unsafe structures in the City.
- Prosecuted 1,570 criminal complaints in Housing Court for failing to comply with Building & Housing administrative orders at sites with code violations found at properties.
- Processed 398 claims for property damage and other losses.
- Represented the City in 12 liquor permit hearings and processed 178 liquor permit requests.
- The City's web-based records-request-system (GOVQA) processed 32,602 requests.
- Responded to 158 subpoenas for City records.
- Represented the City in 557 civil cases pending in various state and federal courts.
- Processed 1,201 citizen complaints in the Prosecutors' office.
- Issued 8,396 misdemeanor charges, of which 856 were domestic-violence misdemeanor charges.
- Issued 4,784 felony charges, of which 420 were domestic-violence felony charges.
- Addressed 1,148 operating vehicle impaired (OVI) charges.
- Addressed 24,029 traffic offense charges.
- Represented the City in 228 various labor and employment matters.

Mayor's Office of Prevention, Intervention and Opportunity for Youth and Young Adults (PIOYYA)

- Partnered with approximately 33 providers to offer over 40 programs beyond traditional sports and recreational activities that are aimed at providing youth and the community access to center-based resources, programs and activities that address the root causes of violence; promote healing, wellness, resiliency and self-efficacy; and support our residents in developing the skills and knowledge required to thrive and live quality lives. Programming centers around six (6) areas: Youth and Adult Education; Job and Career Readiness; Health and Wellness; Youth Leadership Development, Mentorship and Community Service; The Arts; and Sports and Recreation.
- Continued phase 2 of the Toxic Stress/Trauma Management project, designed to transform the City's 22 recreation centers into trauma-informed neighborhood resource and recreation centers. Two Social Support

Service Supervisors were identified to oversee and direct the work of eight Social Support Service Specialists assigned to connect patrons of the centers to community-based resources and support services. Through this initiative hundreds of individuals and/or families received support and/or connections to resources/services.

- Provided summer employment opportunities, job and career readiness training and life skills training in collaboration with Youth Opportunities Unlimited to approximately 168 youth.
- Continued to support the Court-Involved Youth reentry and diversion programs designed to connect high-risk and formerly incarcerated youth with appropriate resources/support services and job opportunities to help reduce recidivism.
- Developed and implemented a professional development program to prepare Division of Recreation leadership staff to obtain the Certified Park and Recreation Professional (CPRP) certification, which is the national standard for all parks and recreation professionals who want to be at the forefront of their profession.
- Continued the partnership with Case Western Reserve University to develop standards and clear performance indicators for our Neighborhood Resource and Recreation Centers as a part of our effort to improve the quality of each center and ensure consistency relative to quality across all centers.

#### Office of Capital Projects

- In 2021, the Division worked with the Department of Public Works to resurface 138 asphalt streets in the City and installed 945 Americans with Disabilities Act (ADA) ramps as part of City's Residential Resurfacing Program. The following concrete streets were completed as part of the program:
  - Lakeside (East  $40^{\text{th}}$  to East 53 rd)
  - Storer Intersections (West 63rd, West 62nd, West 59th, West 56th, West 55th Pl, West 54th, West 46th, West 44th)
  - Euclid Avenue (Public Square to East 30th)
- The Division reconstructed over 8.64 lane miles of roadway, added 12.75 lane miles of bicycle facilities, 27 enhanced crosswalks, two pedestrian refuge islands, and over 44,000 square feet of sidewalks while completing the following major streets (secondaries and mains) as part of the City's Complete & Green Street Program in 2021:
  - East 105th Street (East Blvd to Greenlawn Avenue)
  - Battery Park Drive Extension (West 73rd to West 70th)
  - Commerce Avenue (East 40th Street to East 55th Street)
  - Lakeside Avenue (East 26th St. to East 40th Street)
  - Literary Rd (University Road to West 3rd)
  - Miles Avenue (East 175th Street to Broadway)
  - West 14th Street (Quigley to Starkweather)
  - Lake Avenue Road (West 117th St to Detroit)
  - Independence (Crete to Bading)
  - West 65th Street (Denison to Herman)
  - Union (Broadway to Kingsman)
  - Stearns (Euclid to Carnegie)
  - East 110th (MLK to Woodland)
  - East 22nd (Payne to Chester)
  - East 131st (Miles to Union)
- The Bridge Section completed 85 required inspections of bridges and finished the following Capital Repair projects:
  - MLK Bridge over Doan at E. Blvd (Replacement)
  - Willow Lift Bridge (Repair of Lifting Cables)
  - Old Pearl Bridge (New superstructure, deck, and spandrel walls)
  - Tower City Bridges Waterproofing

- Willow Lift Bridge Operation House Repairs
- o 2020 Bridge Deck Repair Phase I
- The Sidewalk & Permits Section issued over 3,500 permits allowing for work in the right of way and then subsequent inspection to ensure quality control. They also coordinated the installation, repair of over 852,000 square feet of sidewalks, and replaced 728 trees in 2021 as part of the City's 50/50 Sidewalk & Tree Damaged Sidewalk Programs.
- The Division of Architecture and Site Development furthered the City's neighborhood revitalization efforts through the implementation, construction and/or rehabilitation of City facilities and infrastructure. The division recently completed the following projects:
  - Construction of New Frederick Douglass Recreation Center
  - o Comprehensive renovation of Kovacic Recreation Center
  - o Roof replacements and masonry repairs at 5 recreation centers
  - Electrical upgrades at Central Recreation Center
  - o Park renovations at Miriam Ortiz-Rush, Harding, Regent, and Walter Burk Parks
  - Park repairs including 8 ball diamonds, 12 tennis courts, 13 basketball courts, park signs, and playground and safety surface repairs
  - Public Safety Facilities
  - Fire Training Academy live fire training apparatus
  - Multi-site roof replacements
  - Public Works Facilities
  - Willard Garage water mitigation phases 1 & 2
  - North Point Inn mechanical systems improvements
  - o 205 St. Clair façade repairs, phase 1
  - Marquee Facilities
  - West Side Market facility assessment
  - City Hall roof repairs phase 1
  - Music Hall interior renovation
  - FirstEnergy Stadium annual capital repairs
  - Cemeteries
  - Woodland Cemetery gatehouse restoration
- The Division of Real Estate managed the following transactions and real estate functions for various departments of the City:
  - Obtained tax exemption for various City-owned properties and processed payment of real estate taxes for over 1,000 non-exempt City properties.
  - Continued oversight of right-of-way and real estate matters for roads and bridge reconstruction projects.
  - Handled real estate transactions needed for various public works and private development projects.
  - Negotiated and completed leases or lease renewals with various entities.
  - Oversaw and coordinated real estate matters for the Cleveland Metropolitan School District's master facilities plan, the Cleveland Public Library facilities master plan, NEORSD Project Clean Lake infrastructure projects, NEORSD storm water management projects, and various projects with the Cleveland Metro parks and City's Department of Public Utilities.
  - Completed construction of the Towpath Trail and construction of a trailhead at Canal Basin Park.

Office of Sustainability

- Hosted the 13<sup>th</sup> Annual Sustainable Cleveland Summit, held virtually due to COVID-19. Organized and facilitated 20 breakout sessions on various topics with 72 presenters with 65 organizations and 624 attendees from 14 countries worldwide.
- Continued implementation of the Cleveland Climate Action Plan, which includes 107 actions throughout six focus areas.

- Continued implementation of the Cleveland Tree Plan, including a focus on policy, governance of the Cleveland Tree Coalition and making progress on community-wide tree goals. In 2021, announced the new equity focused approach for tree planting.
- Released the Cleveland's Clean and Equitable Energy Future report in 2021, which provides a framework to transition Cleveland to 100% clean and renewable energy sources.
- Continued sustainability outreach on various topics through social media channels, e-newsletters, monthly meetings and targeted campaigns.
- Assisted in the review and ongoing efforts to relaunch the Cleveland Curbside Recycling Program, including the hiring of the Recycling Coordinator, program branding materials, and outreach and education.
- Received the LEED for Cities Silver certification award by U.S Green Building Council.
- Secured or managed the following grants:
  - \$80,000 from the U.S. Forest Service to plant more than 150 trees in the Bellaire-Puritas and St. Clair-Superior neighborhoods;
  - \$40,000 from the National Recreation and Parks Association to support community engagement efforts around Cleveland's 10-Minute walk goal to ensure that all Cleveland residents live within a half mile (or 10-minute walk) of a clean, safe, programmed park;
  - \$476,000 from the Robert Wood Johnson Foundation to launch Circular Cleveland, a two-year initiative in partnership with Cleveland Neighborhood Progress to support a more local circular economy in Cleveland;
  - \$10,000 Community Recycling Awareness Grant (CRAG) from the Cuyahoga Solid Waste District to support the distribution of direct mail to households serviced by the Division of Waste and advertisements for the curbside recycling enrollment process;
  - \$100,000 from Partners for Places Funders Network to support the development of Ubuntu Gathering Place;
  - \$50,000 from the OH EPA to support curbside recycling outreach and education; and
  - \$30,000 from the OH EPA to support installation of electric vehicle charging stations at the Frederick Douglass Recreation Center and the Cleveland Hopkins Red Lot.
- Identified Circular Cleveland Ambassadors, passionate residents interested in reducing waste and pollution while also supporting economic opportunities in their communities. Awarded \$40,771 in the first round of funding for the Circular Cleveland Community Grants to 14 local groups and organizations utilizing the funds to divert waste.
- Managed and reported on utility and energy data for all City facilities. Since 2010, the City's energy consumption is down 2% on a weather normalized basis and City buildings are using 9% less energy per square foot, saving approximately \$3.3 million per year in utility costs.
- Received financial and technical assistance from the Northeast Ohio Areawide Coordinating Agency (NOACA) that would help upgrade electrical infrastructure and install electrical vehicle charging stations at the West Side Market and Willard Garage.
- Supported the addition of 15 more miles of bike infrastructure, including trails, bike lanes and sharrows.
- Completed the 2021 Youth Sustainability Leadership Program, hybrid due to COVID-19.
- Purchased 20 water bottle filling stations for use in City facilities.
- Continued to support community choice municipal electricity aggregation with Northeast Ohio Public Energy Council (NOPEC) which resulted in cost savings, rate stability and 100% renewable energy for residents and small businesses; Recognized by the EPA as Green Power Community (GPC) for meeting or exceeding EPA'S GPC usage requirements.

- Continued to be featured in the CDP annual 'A' Listing of Cities for reporting and disclosure on the City's Climate Action planning, mitigation and adaption.
- Completed a City-wide natural gas supply procurement for all municipal accounts, delivering financial cost savings.
- Featured in the American Council for an Energy-Efficient Economy (ACEEE) 2021 City Clean energy scorecard, ranking #34 out of 100 major U.S. cities.
- Supported the Northeast Ohio Areawide Coordinating Agency (NOACA) 2021 Commuter Choice Challenge and encouraged employee participation in the Gohio Commute online tracking platform.
- The 2021 Mayor's Summer Youth Employment Program employed more than 50 area youth from underrepresented communities, constructed and distributed 250 rain barrels, revitalized ten City of Cleveland rain gardens, and plotted more than 1,800 trees for the CityWorks database.

#### 2022 Budget

The City passed a balanced budget for fiscal year 2022 on March 21, 2022. During 2021, the City received funds from the American Rescue Plan Act (ARPA). The City was able to utilize \$108,960,480 of ARPA dollars for recovery of lost revenue resulting from the pandemic. The receipt of the ARPA dollars have enabled the City to have an ending balance in the General Fund of \$131,749,027. These funds will be used to balance the budget for 2022.

The City is below pre-pandemic levels of income tax as compared to 2019; during 2021 the City collected \$429,087,088 while 2019 the collections were \$441,753,856. While the City fared better with income tax collections as compared to 2020, it has not yet fully recovered from the pandemic. The City is also below receipts from 2019 as it relates to Admissions, Parking and Hotel Taxes. However, the City received 60% more in collections during 2021 as compared to 2020. While experiencing a recovery, the City continues to monitor the collection of income tax receipts, and will make adjustments if required.

For fiscal year 2022, the City has conservatively developed a General Fund budget, which reflects revenue estimates of \$647,942,061 and anticipated expenditures of \$709,952,083. Though 2022 is not structurally balanced where annual revenues are equal to or greater than annual appropriations, we have a balanced budget as a result of using our beginning balance.

The estimate of receipts and expenditures for all General Fund departments and divisions, per the 2022 budget are as follows:

- Total revenues and other financing sources are projected to be \$647.9 million. The City's income tax is the largest source of revenue. It is generated by a 2.5% rate on wages for Cleveland residents and non-residents; the City is anticipating to collect \$428.6 million in the General Fund in income tax for 2022.
- Total expenditures and other financing uses are estimated to increase from \$699.8 million to \$710 million.

#### Long-Term financial planning:

Despite the impact of COVID-19 during 2020 and 2021, the City will continue to make investments that create increased service to the citizens of Cleveland. The City has allocated \$8 million from the General Fund to be used for the 2022 streets re-surfacing program. 2022 will have additional funding in the Health Department in order to fund and utilize two mobile health vehicles, which will be used to go to City neighborhoods to serve those in need. During 2022, the Division of Police anticipates three classes, totaling 180 cadets. The Division of Fire anticipates two classes, totaling 80 cadets. The Division of Emergency Medical Service anticipates two classes, totaling 35 cadets.

#### **Business Incentives and creating Economic Development**

Note 20 – Tax Abatements are a requirement in the City's ACFR, based upon *GASB Statement No. 77, Tax Abatement Disclosures*. This footnote disclosure focuses on lost tax dollars and the costs to government entities. The following will reveal the benefits derived from offering business tax incentives.

#### Department of Economic Development

The City uses tax increment financing (TIF) authorized by the Ohio Revised Code (ORC) Chapter 5709 as a tool to support development in the City. TIFs are often used to support financing to close project funding gaps, without which the project would not be able to move forward. Most TIFs authorized by the City are Non-School TIFs, providing that the Cleveland Metropolitan School District receives its share of the tax revenues generated by the development, approximately 60% of the total taxes. TIFs are analyzed by the Department staff to ensure that the project meets a but-for test, confirming that the development would not proceed without the incentive, as well as to determine that the City receives an adequate return on its investment in the form of other taxes, job creation and retention or policy goals.

TIFs authorized from 2011-2020 have leveraged nearly \$3 billion in total investment in the City of Cleveland. Because of these projects, over 6,000 jobs have been retained and created within the City, generating millions of dollars in income taxes to the City. All TIFs authorized in this period have been non-school TIF's, which means the Cleveland Metropolitan School District has benefitted from the new property tax revenue generated during this period. TIF projects have generated over 1,000 hotel rooms, supporting the City's tourist and convention industries.

Despite the challenges caused by the COVID-19 pandemic in 2020, construction continued in the City and TIFs played a key role in supporting three new construction mixed-use projects and three building renovation projects. In addition, TIF was deployed as part of the City's assistance to the Sherwin Williams Company, which announced the construction of a new Headquarters in Downtown Cleveland in March 2020. The Project will result in over \$300,000,000 in investment in downtown, retaining over 3,100 employees and an anticipated growth of Sherwin Williams' workforce by 10%.

#### Department of Community Development

The Community Reinvestment Area (CRA) Program is a direct incentive tax exemption program benefiting property owners who renovate existing or construct new residential buildings to encourage revitalization of the existing housing stock and the development of new structures. This program permits municipalities or counties to designate areas where housing investment has been discouraged.

The tax abatement process starts with the applicant completing an application with supporting documentation of the completed construction/rehabilitation work.

The City of Cleveland reviews the application to ensure the applicant meets program requirements and if the application is in compliance with the program requirements, the City will approve and grant the tax abatement. The City notifies and provides a copy of the instrument granting the tax exemption to the Cleveland Metropolitan School District (CMSD). The City forwards the application to the Cuyahoga County Fiscal Officer office for further processing. The Cuyahoga County Appraisal Department, under the County Fiscal Officer, assigns taxable values to new construction or remodeled residential property.

The Tax Abatement program is an important and useful tool: for developers, as an attractive incentive for promoting home sales; for homebuyers, by making homeownership more affordable; and for the City of Cleveland, helping to make it a City of choice.

#### Monitoring Incentives:

The City of Cleveland (Department of Community Development) is required by statute to file online annually, by March 31st, all CRA tax abatement information with the State of Ohio.

The City of Cleveland pursuant to various sections (5709 and 3735) under the Ohio Revised Code, established a Housing Council. This Housing Council consists of seven members: the Mayor appoints two, one member is appointed by the Planning Commission, two members are appointed by City Council and two are appointed by the other members of the

Housing Council. They serve three-year terms. Their purpose is to look at the property conditions of the residential properties that have been granted CRA incentives.

Tax Abatement is available to both homeowners and developers. Work must be completed under a permit issued by the City of Cleveland Department of Building and Housing on property located in the City of Cleveland only. During Tax Year 2017, the length or term of abatement for existing abatements would vary from 10 to 15 years depending on the type of project. For tax abatements processed after August 8, 2017, pursuant to Ordinance # 244-17, passed May 22, 2017 and effective May 24, 2017, the term for all projects eligible for CRA tax abatement is 15 years, except for the 10-year extension available for certain conversions of historic apartment buildings into condominiums. Pursuant to Ordinance #482-2022 passed May 26, 2022, the percentage of CRA tax abatements will be 100%, 90%, or 85% depending on a number of factors including if the abated property is located in a designated Opportunity Neighborhood, Middle Market Neighborhood or Market Rate Neighborhood as designated by ordinance for tax abatements processed beginning January 1, 2024.

The Residential Property Tax Abatement Program aims to:

- Stimulate community revitalization
- Retain City residents and attract new residents
- Attract homeowners
- Reduce development costs for homeownership and rental projects

Residents and developers seeking tax abatement for residential projects must meet Cleveland Green Building Standards (GBS).

The GBS is designed to save homeowners money on utilities and support local green jobs, while also improving the health of the community and reducing our collective contribution to climate change. The GBS also creates direct benefits for developers and builders, including cost savings from efficient operation, a marketing advantage, and public recognition for high performance homes. Tax abatement has contributed to the development of 24,323 units of housing dating back to 1994. Since 2010 (the first year of the GBS) 4,730 GBS units were completed. In 2020, 1,325 units met the GBS.

- Single family 132 new constructions, 60 rehabs
- Multi-family 283 new constructions, 850 rehabs

#### **Major Initiatives**

As the City plans ahead to achieve increased municipal efficiencies and enhanced infrastructure coordination, the Mayor has launched the following initiatives:

Mayor Bibb's Rescue & Transformation Plan - In 2021, the City of Cleveland received the eighth largest allocation of American Rescue Plan & Recovery Act (ARPA) funds, totaling \$512 million over two years. The City received half of these dollars in June 2021 and will receive the remainder in Summer 2022. Mayor Bibb's Rescue & Transformation Plan outlines priorities and a process for maximizing the use of federal funds including ARPA, the Infrastructure Innovation and Jobs Act (IIJA) and other legislation still under development that is expected over the next few years. A key part of Mayor Bibb's plan is the launch of the Center for Economic Recovery, a strategic policy team that will engage with Cleveland City Council to shape and evaluate ideas for ARPA-funded projects that address the City's most urgent challenges. The Center for Economic Recovery will equitably and strategic decisions to promote the long-term health and vibrancy of the City. Mayor Bibb's Rescue & Transformation Plan identifies ten priorities for federal funding that will make an impact on the everyday lives of Clevelanders. Those priorities include Stabilizing the Budget, Inclusive Economic Recovery, Housing For All, Violence Prevention & Public Safety, Closing the Digital Divide, a Modern & Transparent City Hall, Education for Everyone, Lead-safe Cleveland, Arts & Neighborhood Amenities and Civic Participation Fund.

- *Police Reform* Cleveland is the only city in America that has entered into two Consent Decrees for policing and has long served as a case study for the nation on the need for police reform. In 2021, Cleveland voters mobilized to pass a ballot initiative to improve police accountability and deliver the strongest citizen oversight commission in the United States. Known as Issue 24, the new police accountability measures give citizens the power to make decisions about police recruitment, training and discipline. Mayor Bibb's police reform agenda is focused on improving police accountability and public safety.
- *West Side Market* The West Side Market is a historic institution that must be preserved and protected for future generations. Mayor Bibb's administration is focused on making immediate investments to upgrade facilities and support vendors to drive growth at the West Side Market. In early 2022, the Bibb Administration passed legislation in partnership with Cleveland City Council to cap rental rate increases, expand lease options and open the door for alcohol sales to support vendors and drive growth at the West Side Market.

#### Awards and Acknowledgements

*The Independent Audit:* The City Charter requires an annual audit of the financial statements of all accounts of the City by an Independent Certified Public Accountant. Accordingly, this year's audit was completed by the Ohio Auditor of State. The year ended December 31, 2021, represents the 41<sup>st</sup> consecutive year the City has prepared an Annual Comprehensive Financial Report. In addition to the independent auditors, the City maintains its own Division of Internal Audit. Along with the duty of assisting the independent auditors, the Division of Internal Audit is responsible for strengthening and reviewing the City's internal controls. The Division of Internal Audit performs its own independent operational and financial audits of the City's many funds, departments and divisions. We believe that the City's internal control structure adequately safeguards its assets and provides reasonable assurance of proper recording of all financial transactions.

*Government Finance Officers Association (GFOA) Certificate of Achievement Award:* The GFOA of the United States and Canada awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Cleveland, Ohio for its ACFR for the fiscal year ended December 31, 2020. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized ACFR, the contents of which conform to program standards. Such ACFR must satisfy both GAAP and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. The City has received a Certificate of Achievement for the last 37 years (years ended 1984 – 2020). We believe our current report continues to conform to the Certificate of Achievement program requirements and we are submitting it to the GFOA.

Acknowledgements: The preparation of this report could not have been accomplished without the efficient and dedicated service of the Finance Department, particularly the Division of Financial Reporting and Control. We would also like to thank the Mayor, the cabinet and members of City Council. Without their continued support, the Department of Finance could not have maintained the financial management practices required to ensure the financial integrity of the City. We would like to thank the representatives of the Ohio Auditor of State for their efforts and professional conduct throughout the audit engagement.

Very truly yours,

Ahmed Abonamah Director of Finance/Chief Finance Officer

James E. Gentile, CPA City Controller

### INDEPENDENT AUDITOR'S REPORT

City of Cleveland Cuyahoga County 601 Lakeside Avenue Cleveland, Ohio 44114

To the Honorable Justin M. Bibb, Mayor, Members of City Council and the Audit Committee:

### **Report on the Audit of the Financial Statements**

### Opinions

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Cleveland, Cuyahoga County, Ohio (the City), as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Cleveland, Cuyahoga County, Ohio as of December 31, 2021, and the respective changes in financial position and, where applicable, cash flows thereof and the budgetary comparison for the General Fund for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

### Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the City, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### **Emphasis of Matter**

As discussed in Note 22 to the financial statements, the financial impact of COVID-19 and the continuing emergency measures may impact subsequent periods of the City. We did not modify our opinion regarding this matter

City of Cleveland Cuyahoga County Independent Auditor's Report Page 2

### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to
  fraud or error, and design and perform audit procedures responsive to those risks. Such procedures
  include examining, on a test basis, evidence regarding the amounts and disclosures in the financial
  statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

City of Cleveland Cuyahoga County Independent Auditor's Report Page 3

### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the *management's discussion* and *analysis* and schedules of net pension and other post-employment benefit liabilities and pension and other post-employment benefit contributions be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### Supplementary information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining and individual fund financial statements and schedules and the schedules of capital assets used in the operation of governmental funds are presented for purposes of additional analysis and are not a required part of the basic financial statements.

Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, combining and individual fund financial statements and schedules and the schedules of capital assets used in the operation of governmental funds are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### Other Information

Management is responsible for the other information included in the annual financial report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

City of Cleveland Cuyahoga County Independent Auditor's Report Page 4

### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we will also issue our report dated June 29, 2022, on our consideration of the City's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting or on compliance.

tobu

Keith Faber Auditor of State Columbus, Ohio

June 29, 2022

## MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the City of Cleveland (the City) we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the year ended December 31, 2021. Please read this information in conjunction with the City's financial statements and footnotes that begin on page 60.

### FINANCIAL HIGHLIGHTS

- The assets and deferred outflows of resources of the City exceeded its liabilities and deferred inflows of resources at December 31, 2021 by approximately \$2.988 billion (net position).
- Of the approximately \$2.988 billion of net position, governmental activities accounted for approximately \$497.2 million of net position, while business-type activities net position accounted for approximately \$2.491 billion.
- The City's net position increased by \$431.0 million as compared to 2020. The governmental activities net position increased by \$267.2 million and the business-type activities net position increased by \$163.8 million.
- At the end of the current year, unassigned fund balance for the General Fund was \$228.9 million, which represents the amount available for spending at the City's discretion. The unassigned fund balance equals 42.3% of the total General Fund expenditures and other financing uses.
- In 2021, the City's total long-term debt and other long-term debt-related obligations, excluding premiums, accreted interest and discounts decreased by \$13.2 million. The decrease is due to payments made on debt of \$143.0 million offset by new debt issues for General Obligation bonds of \$56.1 million and Subordinate Lien Income Tax bonds of \$81.8 million.

### **OVERVIEW OF THE FINANCIAL STATEMENTS**

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements are comprised of five components: (1) government-wide financial statements, (2) fund financial statements, (3) General Fund budget and actual statement, (4) notes to the financial statements and (5) required supplementary information. This report also contains other supplementary information in addition to the basic financial statements.

**Government-wide financial statements.** The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private sector business.

The statement of net position presents financial information on all of the City's assets, liabilities and deferred inflows/outflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities presents information showing how the City's net position changed during the most recent year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City principally include: General Government; Public Works; Public Safety; Community Development; Building and Housing; Public Health and Economic Development. The business-type activities of the City principally include: water; sewer; electricity; and airport facilities.

The government-wide financial statements can be found on pages 60-63 of this report.

**Fund financial statements.** A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

*Governmental funds.* Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on the near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the City's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City presents 28 individual governmental funds on a modified accrual basis. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General Fund, the Capital/Urban Renewal Bond Construction Fund, the General Government Fund, and the Public Health Fund. Data from the other 24 governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The City adopts an annually appropriated budget for its General Fund, Enterprise and Internal Service Funds. The City adopts an annually appropriated budget for some of its Special Revenue and Debt Service Funds. The General Fund budgetary comparison has been provided as a separate financial statement to demonstrate compliance with its budget.

The basic governmental fund financial statements can be found on pages 64-67 of this report.

**Proprietary funds.** The City maintains two different types of proprietary funds. The first type is Enterprise Funds. They are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses Enterprise Funds to account for its water, electric, airport, sewer, public auditorium, markets, parking lots, cemeteries and golf course operations. The second type of proprietary fund the City uses is Internal Service Funds to account for its motor vehicle maintenance, printing and reproduction, postal services, utilities administration, sinking fund administration, municipal income tax administration, telephone exchange, radio communications operations, workers' compensation reserve, health self-insurance fund and prescription self-insurance fund. Internal Service Funds are an accounting device used to accumulate and allocate costs internally throughout the City's various functions. Because most of the internal services predominantly benefit governmental rather than business-type functions, they have been included within the governmental activities in the government-wide financial statements, except for the Utilities Administration Fund which has been classified as a business-type activity.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Division of Water, Cleveland Public Power, Water Pollution Control and Department of Port Control Funds, which are considered to be major funds of the City. Conversely, Internal Service Funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the nonmajor Enterprise and Internal Service Funds is provided in the form of combining statements elsewhere in this report.

The basic proprietary fund financial statements can be found on pages 68-72 of this report.

*Fiduciary funds.* Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. All of the City's fiduciary funds are Custodial Funds.

The basic fiduciary fund financial statement can be found on page 73-74 of this report.

**Notes to the financial statements.** The notes provide additional information that is essential to achieve a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 75-132 of this report.

### **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

Information regarding the government-wide net position of the City is provided below:

### Summary Statements of Net Position as of December 31, 2021 and 2020

The net pension liability is reported by the City at December 31, 2021 and is reported pursuant to Government Accounting Standards Board (GASB) Statement No. 68, *Accounting and Financial Reporting for Pensions — an Amendment of GASB Statement No. 27.* In 2018, the City adopted GASB Statement No. 75, which significantly revises accounting for costs and liabilities related to OPEB. For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the City's actual financial condition by adding deferred inflows of resources related to pension and OPEB, the

net pension liability and the net OPEB liability to the reported net position and subtracting the net OPEB asset and deferred outflows of resources related to pension and OPEB.

GASB standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. Prior accounting for pensions (GASB Statement No. 27) and postemployment benefits (GASB Statement No. 45) focused on a funding approach. This approach limited pension and OPEB costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's net pension liability or net OPEB liability/ (asset). GASB Statement No. 68 and GASB Statement No. 75 take an earnings approach to pension and OPEB accounting; however, the nature of Ohio's statewide pension/OPEB plans and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

GASB Statement No. 68 and GASB Statement No. 75 require the net pension liability and the net OPEB liability/(asset) to equal the City's proportionate share of each plan's collective:

- 1. Present value of estimated future pension/OPEB benefits attributable to active and inactive employees' past service
- 2. Minus plan assets available to pay these benefits

GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the employment exchange that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the City is not responsible for certain key factors affecting the balance of these liabilities. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State Statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State Statute. The ORC permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the retirement system. In Ohio, there is no legal means to enforce the unfunded liabilities of the pension/OPEB plans against the public employer. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The retirement system is responsible for the administration of the pension and OPEB plans.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability or the net OPEB liability/(asset). As explained above, changes in benefits, contribution rates, and return on investments affect the balance of these liabilities, but are outside the control of the City. In the event that contributions, investment returns, and other changes are insufficient to keep up with required payments, State Statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability and the net OPEB liability/(asset) are satisfied, these liabilities/(asset) are separately identified within the long-term liabilities/(asset) section of the statement of net position.

In accordance with GASB Statement No. 68 and GASB Statement No. 75, the City's statements prepared on an accrual basis of accounting include an annual pension expense and an annual OPEB expense for their proportionate share of each plan's change in net pension liability and net OPEB liability/(asset), respectively, not accounted for as deferred inflows/outflows of resources.

As a result of implementing GASB Statement No. 75, the City is reporting a net OPEB liability/(asset) and deferred inflows/outflows of resources related to OPEB on the accrual basis of accounting.

As noted earlier, net position may serve, over time, as a useful indicator of a government's financial position. The City's assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by approximately \$2.988 billion at the close of the most recent fiscal year. This represents an increase of 16.9% in 2021. Of the net position from governmental activities, \$725.5 million represents its investment in capital assets (e.g., land, land improvements, buildings, infrastructure, furniture, fixtures, equipment and vehicles), net of accumulated depreciation, less any related, still-outstanding debt issued to acquire, construct or improve those assets. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other resources, since the capital assets

themselves cannot be used to liquidate these liabilities. Another significant portion of net position, \$218.2 million, represents resources that are subject to external restrictions on how they may be used.

In 2021, the total assets and deferred outflows of resources from governmental activities increased by \$336.1 million. This increase is primarily attributed to an increase in cash and cash equivalents of \$341.3 million and an increase in net OPEB asset of \$20.5 million offset by a decrease of \$35.1 million in deferred outflow of resources. The increase in cash and cash equivalents relates to an increase in the General Fund of approximately \$109.0 million in revenue recovery from the American Rescue Plan Act (ARPA) funds and approximately \$146.2 million increase in the General Government Fund which relates to the remaining balance of the ARPA funds awarded to the City. The decrease in deferred outflow of resources is related to investment returns exceeding expectations for pension and changes in assumptions regarding future economic and demographic factors in OPEB.

Also in 2021, the total liabilities and deferred inflows of resources from governmental activities increased by \$68.9 million. This increase is primarily due to an increase of \$24.9 million in deferred inflows of pensions and an increase of \$39.5 million in deferred inflows of OPEB offset by a decrease in net OPEB liability of \$157.2 million and an increase in unearned revenue in the General Government Fund of \$154.2 million due to the ARPA funds received but not spent in 2021.

Of the business-type net position, \$1.744 billion represents its investment in capital assets, net of accumulated depreciation, less any related, still-outstanding debt issued to acquire, construct or improve those assets. These capital assets are used to provide services to their customers. Consequently, these assets are not available for future spending. Although the City's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other resources, since the capital assets themselves cannot be used to liquidate these liabilities. An additional \$196.8 million of net position is subject to external restrictions on their use. The remaining balance of \$550.5 million is unrestricted and may be used to meet the City's ongoing obligations to customers and creditors.

In 2021, business-type total assets and deferred outflows of resources decreased by \$12.0 million. This decrease is primarily attributed to a decrease in deferred outflows of resources related to OPEB of \$9.8 million and pension of \$6.6 million.

Business-type total liabilities and deferred inflows of resources decreased by \$175.7 million mainly due to a decrease in longterm obligations due in more than one year of \$114.5 million resulting from the decrease in revenue bonds payable. Net OPEB liability also decreased by \$110.1 million due to it being an asset in 2021. Information regarding government-wide changes in net position is provided below:

### Changes in Net Position For the Years Ended December 31, 2021 and 2020

Governmental activities increased the City's net position by \$267.2 million as compared to a \$23.3 million decrease in 2020. The increase is primarily attributed to a \$112.2 million decrease in expenses related to changes in assumption in the Ohio Police and Fire OPEB plan and the OPERS pension plan. There was also an increase in revenues for operating grants and contributions of \$88.7 million. This increase in revenue for operating grants and contributions is related to the ARPA funds received from the federal government. Also, there was an increase of \$36.4 million in income taxes due to the lifting of pandemic restrictions as people returned to work.

Business-type activities increased the City's net position by \$163.7 million in 2021 compared to \$47.5 million increase in 2020. The change from the prior year is mainly attributed to a decrease of \$81.1 million in expenses for the Division of Water and \$30.7 million for the Division of Port Control. The decrease in expenses for the Division of Water and the Division of Port Control are primarily due to OPEB expense decreases related to changes in the health care terms as well as changes in assumptions and pension expense decreases related to investment returns exceeding expectations. Also, attributing to this change is the Division of Cleveland Public Power charges for services increased \$10.2 million primarily due to an increase of 2.5% in kilowatt hour (kWh) demand.

Business-type activities are principally accounted for in the City's Enterprise Funds. The City operates four major Enterprise Funds encompassing two airports, a water system, sewer system and an electric distribution system. The City also operates other Enterprise Funds consisting of cemeteries, a public auditorium, municipal parking lots and public market facilities. The City owns two golf courses, with one being managed and operated by an outside entity. The operating results of the City's Major Enterprise Funds are discussed below.

**Division of Water:** The Division operates a major public water supply system, the tenth largest in the United States that serves not only the City, but also sixty-nine direct service, seven master meter and three emergency standby suburban municipalities in the Cleveland Metropolitan Area. They provide water to approximately 432,000 city and suburban accounts in the Cleveland Metropolitan Area. Operating revenue in 2021 decreased to \$325.8 million from \$327.3 million in 2020. The decrease is primarily attributed to a decrease in metered service revenue of \$4.4 million as a result of slightly lower than average consumption. This was offset by an increase in ancillary revenue. Operating expenses, exclusive of depreciation, decreased approximately 29.1% to \$143.1 million compared to \$201.8 million in 2020.

**Division of Cleveland Public Power:** The Division supplies electrical service to approximately 74,000 customers in the City. The Division is responsible for supplying, transmitting and distributing electricity and providing related electrical services to customers within its service area. The Division's 2021 operating revenue increased by 5.5% to \$197.0 million from \$186.8 million in 2020. Purchased power expense increased by 3.0% to \$125.8 million in 2021 from \$122.1 million in 2020. Operating expenses, exclusive of depreciation and purchased power decreased 35.9% to \$28.2 million in 2021 compared to \$44.0 million in 2020.

**Division of Water Pollution Control:** The Division was created for the purpose of supplying sewer services to customers within the Cleveland metropolitan area. The Division currently has approximately 117,500 customer accounts in the City, of which 96.0% are residential and 4.0% commercial. The Division's 2021 operating revenue increased by 0.7% to \$29.6 million from \$29.4 million in 2020. The increase is primarily attributed to a 0.5% increase in consumption. Operating expenses, exclusive of depreciation, decreased 31.0% to \$16.0 million in 2021 compared to \$23.2 million in 2020.

**Department of Port Control:** The City's Department of Port Control includes the Divisions of Cleveland Hopkins International Airport and Burke Lakefront Airport. During 2021, 27 passenger airlines provided scheduled airline service at Cleveland Hopkins International Airport. Burke Lakefront Airport, a federally certified commercial and general aviation reliever airport, provides the majority of its services to air taxi operators serving the City's downtown business activities. The Divisions' change in net position for 2021 was \$27.6 million. There were 37,000 scheduled landings in 2021. Operating revenues increased due to the increased number of passengers and flights. Total operating expenses for 2021 decreased primarily due to reduction in salaries wages and benefits as a result of the net pension and OPEB expenses. Non-operating revenues increased due to an increase in passenger facility charges offset by a decrease in investment income.

### FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental funds.** The focus of the City's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current year, the City's governmental funds reported combined ending fund balances of \$906.8 million, an increase of \$200.1 million and approximately 28.3% in comparison with the prior year. The components of the governmental fund balances include an unassigned balance of \$228.9 million, which indicates the amount available for spending at the City's discretion. An additional \$500.4 million of fund balance is available for expenditures that are legally restricted for a particular purpose. The non-spendable portion of fund balance has \$11.2 million of funds that are not in a spendable form, such as prepaid expenditures. An additional \$83.1 million is committed to fund specific purposes and cannot be reassigned without legislative approval. The remaining assigned balance of \$83.2 million represents funds that the City intends to use for a specific purpose.

The General Fund is the chief operating fund of the City. At the end of the current year, the unassigned fund balance of the General Fund was \$228.9 million and the total fund balance was \$323.2 million. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures and transfers out. Unassigned fund balance represents 42.3% of total General Fund expenditures and other financing uses, while total fund balance represents approximately 59.8% of that same amount.

A two-year comparison of General Fund activity is shown below. The revenues, expenditures and changes in fund balance shown in these comparisons are presented on the modified accrual basis of accounting applicable to governmental funds.

### General Fund

Statement of Revenues, Expenditures and Changes in Fund Balance Information - GAAP Basis 2021 and 2020

|                                   | (Amounts in Thous ands) |             |

| Other financing sources (uses):   |                         |             |
| Transfers out                     | (65,678)                | (56,441)    |
| Sale of City assets               |                         | 9           |
| Net change in fund balance        | 108,608                 | 10,662      |
| Fund balance at beginning of year | 214,554                 | 203,892     |
| Fund balance at end of year       | \$ 323,162              | \$ 214,554  |

The City also presents the Capital/Urban Renewal Bond Construction Fund and the General Government Fund as major governmental funds. The change in fund balances increased by \$67.4 million and \$2.5 million in 2021, respectively. The Public Health Fund is a blended component unit. The Public Health Fund's change in fund balance increased by \$358,000 in 2021.

### Analysis of General Fund Revenues

General Fund revenues and other financing sources totaled \$649.1 million in 2021, an increase of approximately \$67.2 million from 2020. A discussion of each of the major types of General Fund revenues follows.

### Municipal Income Taxes

Ohio law authorizes a municipal income tax, both on corporate income (net profits from the operation of a business or profession) and employee wages, salaries and other compensation at a rate of up to 1% without voter authorization and at a rate above 1% with voter authorization. In 2016, the voters in the City approved increases of one-half of one percent to the rate of the income tax, bringing it to the current 2.5% rate. By the terms of the 1981 voter approval, as amended in 1985, one-ninth of the receipts of the total 2.5% tax (the Restricted Income Tax) must be used only for capital improvements, debt service or obligations issued for capital improvements or the payment of past deficits. The remaining eight-ninths of the municipal income tax is recorded in the General Fund and is pledged to and may also be used for, debt service on General Obligation Bonds of the City, to the extent required and certain other obligation of the City.

The income tax is also imposed on gross salaries and wages earned in the City by non-residents of the City and on salaries, wages, and other compensation of City residents earned within or outside the City. The income tax liability of a City resident employed outside the City is reduced by a credit equal to 100% of the tax paid to the municipality in which the City resident is employed. The tax on business profits is imposed on the part of profits attributable to business conducted within the City. In 2021, approximately 93.1% of the total income taxes paid to the City were derived from non-residents employed in the City and business profits.

In 2021, income tax revenue increased by \$25.6 million, primarily due to an increase in tax collection as a result of a lower unemployment rate than in 2020 stemming from a return to work and re-opening of businesses after the COVID-19 pandemic.

### Property Taxes

Taxes collected from real property in one calendar year are levied in the preceding calendar year on assessed values as of January 1 of that preceding year. Public utility real and tangible personal property taxes collected in one calendar year are levied in the proceeding calendar year on assessed values determined as of December 31 of the second year preceding the tax collection year.

The "assessed valuation" of real property is fixed at 35% of true value and is determined pursuant to rules of the State Tax Commissioner. An exception is that real property devoted exclusively to agricultural use is to be assessed at not more than 35% of its current agricultural use value. Real property devoted exclusively to forestry or timber growing is taxed at 50% of the local tax rate multiplied by the assessed value.

The assessed values of taxable property in the city for the past two years were as follows:

| Tax<br>Collection<br><u>Year</u> | llection Real |           | r        | Public Utility<br>Tangible<br><u>Personal</u> |    |           |  |  |
|----------------------------------|---------------|-----------|----------|---|----|-----------|--|--|
|                                  |               |           | (Amounts | in Thousands                                  | )  |           |  |  |
| 2021                             | \$            | 4,667,229 | \$       | 496,441                                       | \$ | 5,163,670 |  |  |
| 2020                             | \$            | 4,664,325 | \$       | 468,023                                       | \$ | 5,132,348 |  |  |

Property tax revenue increased by approximately \$706,000 in 2021 from 2020 levels.

### State Local Government Funds, Other Taxes and Other Shared Revenues

State Local Government Funds, Other Taxes and Other Shared Revenues include taxes levied and collected by the State of Ohio or counties and partially redistributed to the City and other political subdivisions. Other Taxes and Other Shared Revenues include state income, sales, admission, motor vehicle, parking, hotel, commercial activity, corporate franchise, casino, homestead and rollback, public utility, estate and cigarette taxes as well as liquor fees. State Local Government Funds revenue increased by \$4.3 million or 16.8% in 2021. Other Taxes increased by \$14.2 million or 86.6% from 2020 levels as a result of

sports and entertainment venues as well as local businesses being open in some capacity for the full year. Other Shared Revenues increased by \$4.5 million or 30.3% from 2020 levels mostly due to the Casino revenues increasing due to being open all year.

Ohio subdivisions share in a portion of the State Local Government fund, which includes sales tax, use tax, personal income tax, corporate franchise tax and public utilities excise tax. The percentages of the five taxes supporting these funds have varied over the years. At times, the dollar amount in the funds has been capped at specified levels.

Pursuant to statutory law in Ohio, State LGF revenues are divided into county and municipal portions. The county portion, the larger of the two, is distributed to each of the State's 88 counties and is allocated based upon a statutory formula utilizing county population and county municipal property values. Once received by a county, the funds can either be distributed to all subdivisions using the statutory formula or the county and its subdivisions may agree upon an alternate method for allocating the funds. Cuyahoga County and its recipient communities have chosen the latter method which is comprised of a base allocation and an excess allocation. The excess allocation takes into account such factors as assessed value per capita, per capita income, population density and the number of individuals receiving public assistance. The municipal portion of the LGF is distributed directly by the State to those municipalities that collect an income tax. A municipality receives its share of the funds based upon its percentage of total municipal income taxes collected throughout the state in a given year.

### Analysis of General Fund Expenditures

General Fund expenditures and other financing uses totaled \$540.5 million in 2021, a decrease of 5.4% from 2020. The amount of expenditures and other uses by function on a GAAP basis, including the increases (decreases) over the prior year, are shown in the following table:

| Expenditures and Other Financing Uses  | <u>Actu</u> | ial 2021 | <u>% of</u><br>Total | Act | ual 2020         | <u>% of</u><br>Total | <u>Increase</u><br>(Decrease) | <u>%</u><br>Change |
|--|-------------|----------|----------------------|-----|------------------|----------------------|-------------------------------|--------------------|

| Uses                                   | 3           | 540.499  |                      | 2   | 571,211          |                      | <u>\$ (30,712)</u>            |                    |

The total expenditures and other financing uses decreased by \$30.7 million. The decrease was primarily caused by a decrease in Public Safety expenditures. Public Safety expenditures were offset by the receipt of the ARPA Federal Grant in 2021 to cover the cost of payroll expenses reducing the overall expenditure for Public Safety. The decrease in Public Safety expenditures was partially offset by an increase in General Government expenditures, transfers out, and Public Works. General Government expenditures increased by \$19.7 million in 2021. This is mostly due to 2020 expenditures being offset by \$16.2 million due to receipt of the CARES grant as a result of the COVID-19 pandemic. Salaries and wages and contractual expenditures also had incremental increases for General Government. Transfers out increased in 2021 mostly due to a \$7.7 million transfer to the City's Rainy Day Reserve fund and a \$3.1 million increase in transfers to the Division of Streets.

**Proprietary Funds.** The City's proprietary fund financial statements provide the same type of information found in the government-wide financial statements, but in more detail.

The unrestricted net position of the Division of Water, Water Pollution and Control, Cleveland Public Power and the Department of Port Control Funds amounted to \$367.4 million, \$34.1 million, \$18.4 million and \$137.9 million, respectively, at December 31, 2021. The change in net position for each of the respective funds amounted to an increase of \$101.9 million, an increase of \$12.0 million, an increase of \$27.6 million during 2021. Other factors concerning the finances of the City's proprietary funds have already been addressed in the discussion of the City's business-type activities.

### Major Functional Expense Categories. A discussion of the City's major functional expense categories follows:

### Employees and Labor Relations

As of December 31, 2021 and 2020, the City had approximately 6,940 and 7,159 full-time employees, respectively. Of the 6,940 full-time employees, approximately 5,108 full-time employees are represented by 39 collective bargaining units. The largest collective bargaining units, together with the approximate number of employees represented by such units, include the American Federation of State, County and Municipal Employees, Local 100 - 1,045 members; Cleveland Police Patrolmen's Association (CPPA) - 1,209 members; the Association of Cleveland Firefighters - 756 members; Municipal Foreman and Laborers Union, Local 1099 - 398 members; and Local 507 - 277 members.

There have been no significant labor disputes or work stoppages in the City within the last 38 years.

The Council, by ordinance, establishes schedules of salaries, wages and other economic benefits for City employees. Generally, the terms of these ordinances have been the product of negotiations with representatives of the employees or bargaining units and increases in economic benefits have normally been provided on an annual basis.

Chapter 4117 of the ORC (the Collective Bargaining Law), establishes procedures for and regulates public employer-employee collective bargaining and labor relations for the City and other state and local governmental units in Ohio. The Collective Bargaining Law creates a three-member State Employment Relations Board (the SERB), which administers and enforces the Collective Bargaining Law. Among other things, the Collective Bargaining Law: (i) creates rights and obligations of public employees, public employees and public employee organizations with respect to labor relations; (ii) defines the employees it covers; (iii) establishes methods for (a) the recognition of employees and organizations as exclusive representatives for collective bargaining and (b) the determination of bargaining units; (iv) establishes matters for which collective bargaining is either required, prohibited or optional; (v) establishes procedures for bargaining and the resolution of disputes, including negotiation, mediation and fact finding; and (vi) permits all covered employees to strike, except certain enumerated classes of employees, such as police and fire personnel.

Over the past two years, the total salaries and wages paid to the City's employees from all funds were as follows:

| Year | An      | nount Paid       |
|------|---------|------------------|
|      | (Amount | ts in Thousands) |
| 2021 | \$      | 506,000          |
| 2020 | \$      | 496,000          |

In 2021, there was an increase in salaries and wages of 2.0% from the prior year due to an increase in retroactive salary payments.

### GENERAL FUND BUDGETARY ANALYSIS

In 2021, the principal differences between the original and final budgeted expenditures included a \$23.3 million increase in transfers out due to a provision for the Rainy Day Reserve Fund being added, as well as increases to transfers to other subclasses and the subsidy to Street Construction.

The major differences between the final amended budget and the actual total revenues were an increase of \$18.6 million to miscellaneous revenues due to a workers' compensation refund. Also there was an increase of \$2.9 million to state and local government funds, an increase of \$2.8 million to property taxes, a \$2.1 million increase to income taxes, a decrease of \$2.5 million in other taxes, and a \$1.0 million decrease in fines, forfeits, and settlements. The decrease in other taxes was primarily attributed to lower admissions tax, parking tax and hotel tax collections than expected.

The major differences between the final amended budget and the actual total expenditures were decreases of \$7.2 million in General Government and \$6.8 million in Public Safety.

### CAPITAL ASSETS AND DEBT ADMINISTRATION

*Capital assets:* The City's capital assets for its governmental and business-type activities as of December 31, 2021, amounts to \$4.259 billion (net of accumulated depreciation). This capital assets balance includes land; land improvements; utility plant; buildings, structures and improvements; furniture, fixtures, equipment and vehicles; infrastructure; and construction in progress.

In 2021, the City's net capital assets decreased by approximately 1.0% from 2020 (0.5% percentage increase for governmental activities and a 1.7% decrease for business-type activities). A Summary of the City's capital assets at December 31, 2021 is as follows:

### **Capital Assets, Net of Accumulated Depreciation**

|  | <br>ernmental<br>etivities | Act | ess-Type<br>ivities<br>n Thousands) | Total           |
|--|----------------------------|-----|-------------------------------------|-----------------|
| Land                                   | \$<br>72,204               | \$  | 191,913                             | \$<br>264,117   |

| Utility plant                          |                            |     | 1,647,595                           | 1,647,595       |
| Buildings, structures and improvements | 326,352                    |     | 306,600                             | 632,952         |
| Furniture, fixtures, equipment and     |                            |     |                                     |                 |
| vehicles                               | 73,358                     |     | 175,161                             | 248,519         |
| Infrastructure                         | 407,009                    |     | 191,337                             | 598,346         |
| Construction in progress               | <br>330,093                |     | 401,139                             | 731,232         |
| Total                                  | \$<br>1,275,745            | \$  | 2,982,793                           | \$<br>4,258,538 |

Additions to construction in progress during the current fiscal year and factors affecting the City's capital assets included the following:

- The Division of Cleveland Public Power's main additions to construction in progress during 2021 included Southern Transmission Line, installation of underground duct lines, general engineering services, and auto transformers. The Division's net capital assets decreased by over \$16.0 million in 2021 due to utility plant disposals and decreased capital spending over 2020.
- The Division of Water incurred a net increase of \$34.9 million in capital spending for construction in progress related to water main renewals, the plant enhancement program, Nottingham sedimentation basins, enhancements to the Crown Plant water system and back-up generators. Overall, the Division's investment in capital assets had a net decrease of \$4.7 million from 2020 due to decreased capital spending in 2021 and the disposal of aging assets.
- The Department of Port Control had a net decrease of \$9.9 million in construction in progress related to completed projects in 2021. Major project spending in 2021 for construction in progress included the Primary Road Fire and Domestic Waterline Improvements, the CLE Ground Transportation Center Upgrades Project and the North Airfield Improvements Projects. The reductions to construction in progress were due to project completions. Net capital assets decreased by 4.8%.
- The Division of Water Pollution Control's principal spending for construction in progress in 2021 included the rehabilitation of the East 185<sup>th</sup> Street and Marcella Road sewer lines, rehabilitation of Edgewater Drive sewer lines, East 85<sup>th</sup> Street rehabilitation, and additional sewer installations.
- Construction in progress spending for Governmental Activities had a net increase of \$34.4 million in 2021. Major projects included improvements to various recreational centers, including roof repair or replacement, stadium improvements, infrastructure improvements, and the development of the new police headquarter building.

The primary sources for financing the City's Capital Improvement Projects are general obligation bond proceeds, certificates of participation proceeds, urban renewal bond proceeds, revenue bond proceeds, proceeds from capital leases, interest earned on funds during the construction period, restricted income taxes and funds from the State Issue 2 and Local Transportation Improvement Programs. The City has three primary goals relating to its Capital Improvements: (1) preservation and revitalization of the City's neighborhoods, (2) economic development and job creation and (3) providing cost-effective, basic City services to Cleveland residents and the business community. Additional information on the City's capital assets, including commitments made for future capital expenditures, can be found in Note 14 – Capital Assets.

*Long-term debt and certain other obligations:* At the end of the current fiscal year, the City had total long-term debt and certain other obligations outstanding of \$2.105 billion as shown below. General Obligation Bonds are typically issued for general governmental activities and are backed by the full faith and credit of the City. Revenue bonds are typically recorded in the applicable Enterprise Fund and are supported by the revenues generated by the respective Enterprise Fund. The remainder of the City's debt represents bonds or notes secured solely by specified revenue sources.

The activity in the City's debt obligations outstanding during the year ended December 31, 2021 is summarized below (excluding unamortized discounts, premiums and accreted interest).

|   | Balance<br>January 1,<br><u>2021</u> |           |               |    |          | Debt<br><u>Retired</u> | Balance<br>December 31,<br><u>2021</u> |    |           |

Funds used to meet the debt service requirements of the City's General Obligation Bonds are from certain ad valorem taxes, restricted income taxes and interest earnings. Ad valorem taxes, the primary source of funds, amounted to \$20.4 million in 2021 which represents approximately 53.6% of the debt service requirements on the General Obligation Bonds. These taxes were derived from a levy of \$4.35 per \$1,000 of assessed property. The remaining 46.4% of debt service requirements is retired from a portion of the City's restricted income tax proceeds, homestead and rollback reimbursement from the State, premium generated through the issuance of bonds, interest earnings and other miscellaneous revenue sources generated within the Debt Service Funds.

The City issues its General Obligation Bonds within the context of its Capital Improvement Program. Programs which have benefited due to the issuance of general obligation debt include, but are not limited to, public facilities improvements, bridge and roadway improvements, recreation facilities, cemeteries and urban redevelopment. The City's Enterprise Funds implement their own individual Capital Improvement Programs and issue revenue bond and note debt necessary to fund their programs.

The City's bond ratings for governmental and revenue bonds are as follows as of December 31, 2021:

|   | Moody's<br>Investors<br><u>Service</u> | S&P<br><u>Global</u> | Fitch<br><u>Ratings</u> |
|---|--|----------------------|-------------------------|
| General Obligation Bonds                                    | A1                                     | AA+                  | $\mathbf{A}^+$          |

\* Parking Facilities' bonds only carry an insured rating.

\*\* Not Rated

The ratio of net general bonded debt to assessed valuation and the amount of bonded debt per capita are useful indicators of the City's debt position to management, citizens and investors. Net general bonded debt is total general bonded debt supported by taxes less amounts available in the Debt Service Fund. This data at December 31, 2021 was:

| Net General Bonded Debt:                        | \$354,499,000 |
|---|---------------|
| Ratio of Net Bonded Debt to Assessed Valuation: | 6.87%         |
| Net General Bonded Debt Per Capita:             | \$951.36      |

The ORC provides that the net debt of a municipal corporation, whether or not approved by the electors, shall not exceed 10.50% of the assessed value of all property in the municipal corporation as listed and assessed for taxation. In addition, the unvoted net debt of municipal corporations cannot exceed 5.50% of total assessed value of property. The City's total debt limit (10.50%) is \$542,185,350 and unvoted debt limit (5.50%) is \$284,001,850. At December 31, 2021, the City had capacity under the indirect debt limitation calculation per the ORC to issue approximately \$200 million in additional unvoted debt. These debt limitations are not expected to affect the financing of any currently planned facilities or services.

In addition, the City has entered into various derivative or hedging agreements. Derivative instruments are contracts, the value of which depends on, or derives from, the value of an underlying asset, index or rate. The most common types of derivatives used by governments are interest rate swaps and interest rate locks. A detailed description of each outstanding derivative, including its terms, objectives, risks and fair value, can be found in Note 5 - Debt and Other Long-Term Obligations.

The City reports a deferred outflow of resource and a liability in the amount of the fair value of the interest rate swaps, which reflect the prevailing interest rate environment at December 31, 2021 and an investment loss or gain as appropriate, based on the change in fair value. The specific terms and conditions of each swap have been provided by the respective counterparty for each swap and confirmed by the City's financial advisor.

Additional information on the City's long-term debt can be found in Note 5 – Debt and Other Long-Term Obligations.

# FACTORS EXPECTED TO IMPACT THE CITY'S FUTURE FINANCIAL POSITION OR RESULTS OF OPERATIONS

The United States and the State of Ohio declared a state of emergency in March 2020, due to the COVID-19 pandemic. The financial impact of the ongoing COVID-19 pandemic may continue to impact subsequent periods of the City primarily in remote work and its effects on the income tax revenue, economic factors such as inflation and rising interest rates, and income tax due to the remote work. While any future impacts relating to these factors the City cannot fully predict, the City is actively monitoring public health efforts and corresponding impacts to the economy. The City is also monitoring the subject of municipal taxation and remote work.

### **Other Impacting Factors**

• On May 23, 2022, City Council approved legislation authorizing the issuance of not to exceed \$50,000,000 of General Obligation Bonds.

### NEED ADDITIONAL INFORMATION

This financial report is designed to provide a general overview of the City's finances for all those with an interest in the City's finances. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the Office of the Finance Director, City Hall, Room 104, 601 Lakeside Avenue, Cleveland, Ohio 44114.

The assets, liabilities and deferred outflows/inflows of resources of most of the internal service funds are included in the governmental activities in the statement of net position. The net pension liability and net OPEB liability/(asset) are not due and payable in the current period; (excluding internal service) therefore the liabilities and related deferred inflows/outflows of resources are not reported in governmental funds: Pension OPEB

Net position of governmental activities

The notes to financial statements are an integral part of this statement.

# RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED DECEMBER 31, 2021 (Amounts in Thousands)

| Amounts reported for governmental activities in the statement of activities (pages 62 and 63) are different because:  |           |                   |
|---|-----------|-------------------|
| Net change in fund balances - total governmental funds (page 65)  | \$        | 200,166           |
| Governmental funds report capital outlays as expenditures; however, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.  |           | 7,584             |
| Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.  |           | 6,917             |
| The issuance of long-term debt (e.g., bonds, leases) provides current financial<br>resources to governmental funds, while the repayment of the principal of long-term<br>debt consumes the current financial resources of governmental funds. Neither<br>transaction, however, has any effect on net position. Also, governmental funds<br>report the effect of premiums, discounts, and similar items when<br>debt is first issued, whereas these amounts are deferred and amortized in the<br>statement of activities. This amount is the net effect of these differences,<br>including accrued interest, in the treatment of long-term debt and related items. |           | (79,677)          |
| Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.   |           | 14,197            |
| Contractually required contributions are reported as expenditures in the governmental funds; however, the statement of net position reports these amounts as deferred outflows of resources, except for amounts reported as deferred inflows/outflows of resources, changes in the net pension/OPEB liabilities/(asset) are reported as pension/OPEB expense in the statement of activities:  |           |                   |
| Pension<br>OPEB   |           | 21,805<br>113,736 |
| The net revenue of certain activities of internal service funds is reported with governmental activities.   |           | (17,503)          |
| Change in net position of governmental activities (pages 62 and 63)   | <u>\$</u> | 267,225           |

# STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES (BUDGET AND ACTUAL) - GENERAL FUND FOR THE YEAR ENDED DECEMBER 31, 2021 (Amounts in Thousands)

### NOTES TO FINANCIAL STATEMENTS

### NOTE 1 – DESCRIPTION OF CITY OPERATIONS AND REPORTING ENTITY

*The City*: The City of Cleveland, Ohio (the City) operates under an elected Mayor/Council (17 Council members) administrative/legislative form of government.

**Reporting Entity:** The accompanying financial statements as of December 31, 2021 and for the year then ended have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) applicable to local governments. The Governmental Accounting Standards Board (GASB) is the standard-setting body for establishing governmental accounting and financial reporting principles, which are primarily set forth in the GASB's Codification of Governmental Accounting and Financial Reporting Standards (GASB Codification).

In evaluating how to define the governmental reporting entity, the City complies with the provisions of GASB Statement No. 61, under which the financial statements include all the organizations, activities, functions and component units for which the City (primary government) is financially accountable. Financial accountability is defined as the appointment of a voting majority of the component unit's board and either (1) the City's ability to impose its will over the component unit or (2) the possibility that the component unit will provide a financial benefit to or impose a financial burden on the City.

On this basis, the City's financial reporting entity has a blended component unit. It also includes in its financial statements the financial activities of all departments, agencies, boards and commissions that are part of the primary government, including police and fire protection, waste collection, parks and recreation, health, certain social services and general administrative services. In addition, the City owns and operates several enterprise activities, the principal ones consisting of a water system, a sewer system, an electric distribution system and two airports.

The following entities are related organizations of the City of Cleveland; however, the City's accountability does not extend beyond its appointing authority:

- *Cuyahoga Metropolitan Housing Authority* Created under the Ohio Revised Code, the Cuyahoga Metropolitan Housing Authority provides public housing services. The five-member board consists of two appointed by the Mayor of the City of Cleveland, two appointed by Cleveland City Council and one appointed by the Mayor of the City of East Cleveland with approval from its City Council.
- *Cleveland-Cuyahoga County Port Authority* Created under the Ohio Revised Code, the Cleveland-Cuyahoga County Port Authority conducts port operations and economic development activities. The nine-member Board of Directors consists of three appointed by the Cuyahoga County Executive and six appointed by the City of Cleveland.
- *Cleveland Metropolitan School District (Schools)* In September of 1998, the Mayor of the City of Cleveland was given appointing authority for the Schools. As approved by the State Legislature, the Ohio Revised Code provides for the Mayor to appoint a Chief Executive Officer who must be approved by the Board of Education (the Board). The Board is comprised of nine-members. The members of the Board are appointed by the Mayor from a pool of candidates presented to the Mayor by an independent nominating panel. In November 2002, the voters of Cleveland elected to maintain the current governance structure.

The following entity is a jointly governed organization of the City; however, the City has no ongoing financial interest or responsibility:

Gateway Economic Development Corporation of Greater Cleveland (Gateway) – Gateway is responsible for the operations of a sports complex and related economic development. The five-member board consists of two members appointed by the City, two members appointed by Cuyahoga County and one joint appointment confirmed by both the City and Cuyahoga County. The following entity is a blended component unit of the City:

- Public Health Department Beginning 2019, the Auditor of the State of Ohio determined that the City's Public Health Department was a legally separate entity. It is being reported as a blended component unit. Previously the City reported the Public Health Department activity in the General Fund and Special Revenue Funds. The City's Public Health Department is managed by the City's Director of Public Health, which is appointed by the Mayor. The City's Public Health Department is governed and budgeted just like all other Departments of the City. Since the City's Public Health Department provides services entirely and only to the City, it is reported as a blended component unit. It is included as a major fund in the governmental statements.
- *Major Funds* Beginning 2021, the Capital/Urban Renewal Bond Construction and General Government Funds became major funds. Prior to this, they were reported as Other Governmental Funds.

### NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### Significant Accounting Policies:

The following is a summary of the more significant policies followed during the preparation of the accompanying financial statements.

### A. Government-Wide and Fund Financial Statements

GASB Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, established requirements and a reporting model for the annual financial reports of state and local governments. GASB Statement No. 34 was developed to make annual reports easier to understand and more useful to the people who use governmental financial information to make decisions. Financial information of the City is presented in the following format:

### **Basic Financial Statements:**

1. *Government-wide financial statements* consist of a statement of net position and a statement of activities. These statements report all of the assets, deferred outflows of resources, liabilities, deferred inflows of resources, revenues, expenses, gains and losses of the City. Governmental activities are reported separately from business-type activities. Governmental activities are normally supported by taxes and intergovernmental revenues whereas business-type activities are normally supported by fees and charges for services and are usually intended by management to be financially self-sustaining. Fiduciary funds of the City are not included in these government-wide financial statements.

Interfund receivables and payables, bonds and notes issued and held by the City as investments within governmental and business-type activities have been eliminated in the government-wide statement of net position. Related interest amounts are eliminated in the government-wide statement of activities. These eliminations minimize the duplicating effect on assets and liabilities within the governmental and business-type activities total column.

Internal Service Fund balances, whether positive or negative, have been eliminated against the expenses and program revenues shown as governmental activities in the statement of activities, except for the Utilities Administration Fund which is shown in the business-type activities column.

The statement of activities presents a comparison between direct expenses and program revenues for the different business-type activities of the City and for each function of the City's governmental activities.

Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenue includes (a) charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions, including special assessments that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues. General revenues are considered unrestricted in nature.

Program revenues and expenses previously reported as "Other" program revenues and expenses in governmental activities on the statement of activities are now classified as General Government program revenues and expenses as appropriate.

Business-type activities on the government-wide statement of activities summarizes other Enterprise Funds as Nonmajor activities. These include Public Auditorium, West Side Market, East Side Market, Municipal Parking Lots, Cemeteries and Golf Courses.

2. *Fund financial statements* consist of a series of statements focusing on information about the City's major governmental and enterprise funds. Separate statements are presented for the governmental, proprietary and fiduciary funds.

The City's major Governmental Funds are the General, Capital/Urban Renewal Bond Construction, General Government, and Public Health Funds. Of the City's business-type activities, the Division of Water Fund, Division of Water Pollution Control Fund, Cleveland Public Power Fund and Department of Port Control Fund are considered major Enterprise Funds.

The General Fund is the primary operating fund of the City. It is used to account for all financial resources, except those required to be accounted for in other funds. Its revenues consist primarily of income and property taxes, investment earnings, other taxes, other shared revenues, charges for services, licenses and permits, fines, forfeits and settlements.

General Fund expenditures represent costs of General Government; Public Works (including waste collection); Public Safety (including police and fire); Building and Housing; Community Development; and Economic Development. General Fund resources are also transferred annually to support other services which are accounted for in other separate funds.

The Capital/Urban Renewal Bond Construction Fund is a Capital fund used to account for all bond proceeds and capital projects costs of bond funded capital acquisitions, tax increment Urban Renewal Bond issues and construction within the City. It is not annually appropriated.

The General Government Fund is a Special Revenue fund used to account for revenue earmarked for general government activities. It is not annually appropriated.

The Public Health Fund is for all public health activity for the City including operating and grant activity.

The Division of Water Fund is a segment of the Department of Public Utilities of the City. The Division of Water was created for the purpose of supplying water services to customers within the Cleveland Metropolitan Area.

The Cleveland Public Power Fund is a segment of the Department of Public Utilities of the City. The Cleveland Public Power Fund was established by the City to provide electrical services to customers within the City.

The Division of Water Pollution Control Fund is a segment of the Department of Public Utilities of the City. The Division of Water Pollution Control was created for the purpose of supplying sewer services to customers within the Cleveland metropolitan area.

The Department of Port Control Fund was established to account for the operations of the City's airport facilities.

While not considered major funds, the City maintains Internal Service Funds that are used to account for the financing of goods or services provided by one department or division to another department, division or other government on a cost-reimbursement basis.

Also maintained by the City are fiduciary funds, such as Custodial Funds that are used to account for assets held by the City as an agent for individuals, private organizations or other governments.

- 3. The City's General Fund budget and actual statement is presented as part of the basic financial statements.
- 4. Notes to Financial Statements provide information that is essential to a user's understanding of the basic financial statements.
- 5. The Required Supplementary Information is essential to a user's understanding of the City's pension and other post-employment liabilities and contributions made to fund it.

### B. Financial Reporting Presentation

The accounts of the City are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund balance (equity), revenues and expenditures (expenses). The fund types and classifications that the City reports are as follows:

### GOVERNMENTAL FUNDS

- 1. **General Fund** The General Fund is used to account for and report all financial resources not accounted for and reported in another fund.
- 2. **Special Revenue Funds** Special Revenue Funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures of specified purposes other than debt service or capital projects. The term proceeds of specific revenue sources establishes that one or more specific restricted or committed revenues should be the foundation for a special revenue fund.
- 3. **Debt Service Funds** Debt Service Funds are used to account for and report financial resources that are restricted, committed or assigned to expenditure for principal and interest. Debt Service Funds should be used to report resources if legally mandated (i.e. debt payable from property taxes). Financial resources that are being accumulated for principal and interest maturing in future years also should be reported in debt service funds.
- 4. **Capital Project Funds** Capital Project Funds are used to account for and report financial resources that are restricted or committed to expenditures for capital outlays, including the acquisition or construction of capital facilities and other capital assets. Capital Project Funds exclude those types of capital-related outflows financed by proprietary funds or for assets that will be held in trust for individuals, private organizations, or other governments.

### **PROPRIETARY FUNDS**

- 1. **Enterprise Funds** The Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private business enterprises, where the intent of the governing body is that the costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges.
- 2. Internal Service Funds The Internal Service Funds are used to account for the financing of goods or services provided by one department or division to other departments or divisions or to other governments on a cost-reimbursement basis. The City's most significant Internal Service Funds are used to account for Motor Vehicle Maintenance, Municipal Income Tax Administration, Workers' Compensation Reserve, Health Self Insurance Fund and Prescription Self Insurance Fund.

### FIDUCIARY FUNDS

 Custodial Funds – Custodial Funds are used to account for assets held by the City for individuals, private organizations, or other governments. The City's more significant Custodial Funds are used to account for Municipal Court and income tax collections for other municipalities.

Fiduciary funds are not included in the government-wide statements.

### C. Measurement Focus and Basis of Accounting

Except for budgetary purposes, the basis of accounting used by the City conforms to GAAP as applicable to governmental units. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

The government-wide, proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus. The government-wide, proprietary and fiduciary fund financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the City gives (or receives) value without directly receiving (or giving) equal value in exchange, include income taxes, property taxes, grants, unrestricted shared revenue and donations. On an accrual basis, revenue from income taxes is recognized in the period in which the taxpayer's liability occurs and revenue from property taxes is recognized in the fiscal year for which the taxes are levied. On an accrual basis, revenue in the form of unrestricted shared revenue is recognized when the provider government recognizes its liability to the City. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include: (1) timing requirements which specify the year when the resources are required to be used or the year when use is first permitted; (2) matching requirements, in which the City must provide local resources to be used for a specified purpose; and (3) expenditure requirements, in which the resources are provided to the City on a cost-reimbursement basis.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when both measurable and available. Revenues are considered to be available when they are collected within the current period or soon enough thereafter to pay liabilities of the current period. The City generally considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after year end. Expenditures are generally recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments and compensated absences, which are recognized as expenditures only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt are reported as other financing sources.

In applying the susceptible-to-accrual concept under the modified accrual basis, the following revenue sources are deemed both measurable and available (i.e., collectible within the current year or within sixty days after year end and available to pay obligations of the current period): income taxes, investment earnings and other shared revenues. Reimbursements due for federal or state funded projects are accrued as revenue at the time the expenditures are made or, when received in advance, recorded as unearned revenue until expenditures are made. Property taxes and special assessments, though measurable, are not available to finance current period obligations. Therefore, property tax receivables are recorded and deferred until they become available. Other revenues, including licenses, fees, fines and forfeits and charges for services are recorded as revenue when received in cash because they are generally not measurable until actually received.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Operating expenses are necessary costs incurred to provide the goods or services that are the primary activity of the fund. Non-operating revenues, such as investment income and passenger facility charges, result from non-exchange transactions or ancillary activities.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed. The City uses unrestricted resources that are committed first, assigned second and unassigned last.

### D. Budgetary Procedures

The City is required by State law to adopt annual budgets for the General Fund, certain Special Revenue Funds (including the Division of Streets, Restricted Income Tax, Rainy Day Reserve, Schools Recreation and Cultural Activities and Cleveland Stadium Operations Funds), Debt Service Funds (except for Cleveland Stadium Debt Service Fund) and Proprietary Operating Funds. Modifications to the original budget are approved by City Council throughout the year. The City maintains budgetary control by not permitting

expenditures to exceed appropriations for personnel costs (including benefits) and other costs (including debt service and capital outlay), within a division of the City, without the approval of City Council. Adjustments to the budget can only be made within a division and then within each category. Further legislation is needed in order to move budget amounts from "personnel" to "other" or vice versa, or between divisions. City Council adopted two appropriation amendments during 2021 which reallocated appropriations and increased the budget by 2.0% from the original budget. Unencumbered appropriations for annually budgeted funds lapse at year end.

The City's budgetary process does not include annual budgeting for certain Special Revenue Funds, including the Capital/Urban Renewal Bond Construction Fund, the General Governmental Fund, the Public Health Fund, the Cleveland Stadium Debt Service Fund and Capital Project Funds. Appropriations in these funds remain open and carry over to succeeding years (i.e., multi-year) until the related expenditures are made or until they are modified or canceled. Appropriations for these funds are controlled on a project basis.

The City's budgetary process accounts for certain transactions on a basis other than GAAP. The major differences between the budget basis and the GAAP basis are that:

- Revenues are recorded when received in cash (budget) as opposed to when susceptible to accrual (GAAP).
- Expenditures are recorded when paid in cash (budget) as opposed to when the liability is incurred (GAAP).
- Encumbrances and pre-encumbrances are recorded as the equivalent of expenditures (budget) as opposed to being included in fund balances (GAAP).

A reconciliation of the General Fund's results of operations for 2021 reported on the budget basis versus the GAAP basis is as follows:

|  | (Amounts in Thousands) |
|--|------------------------|
| Excess (deficiency) of Revenues and Other Financing Sources over (under) |                        |
| Expenditures and Other Financing Uses (Budget Basis)                     | \$<br>82,809           |
| Adjustments:   |                        |
| Revenue Accruals   | (114,514)              |
| Expenditure and other financing sources (uses) Accruals                  | 101,228                |
| Encumbrances and Pre-Encumbrances  | <br>39,085             |
| Net Change in Fund Balance   | \$<br>108,608          |
|  |                        |

### E. *Other Significant Accounting Policies*

*Cash and Cash Equivalents*: Cash resources of certain individual funds are combined to form a pool of cash and investments which is managed by the City Treasurer. Investments in the Pooled Cash and Segregated Accounts, consists of obligations of the U.S. Treasury, agencies and instrumentalities; State Treasurer Asset Reserve Fund (STAR Ohio); commercial paper; U.S. Government Money Market Mutual Funds; guaranteed investment contracts; manuscript debt; bonds and other State of Ohio obligations; certificates of deposit; and repurchase transactions are carried at fair value (see Note 4 – Pooled And Segregated Cash And Investments) based on quoted market values, where applicable. Interest earned on pooled cash and investments is distributed to the appropriate funds utilizing a formula based on the month-end balance of cash and investments of each fund. Cash equivalents are defined as highly liquid investments with a maturity of three months or less at the time they are purchased by the City.

*Investments*: The City follows the provisions of GASB Statement No. 72, *Fair Value Measurement and Application,* which requires governmental entities to record their investments at fair value within the fair value hierarchy. The hierarchy is based on the valuation inputs used to measure fair value of the assets. Level 1 inputs are quoted prices in an active market for identical assets. Level 2 inputs are significant other observable inputs valued by pricing sources used by the City's investment managers. Level 3 inputs are significant unobservable inputs.

The City has invested funds in STAR Ohio during 2021. STAR Ohio is an investment pool managed by the State Treasurer's Office, which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the U.S. Securities and Exchange Commission (SEC) as an investment company, but has adopted GASB Statement No. 79, *Certain External Investment Pools and Pool Participants*, for the purpose of measuring the value of shares in STAR Ohio. The City measures their investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides a NAV share that approximates fair value.

Unbilled Revenue: Unbilled revenues are estimates for services rendered but not billed to customers at year end.

**Recoverable Costs of Purchased Power:** The City passes through certain power costs to the customer as Energy Adjustment Charges. The power costs related to recoverable costs of purchased power will be billed to customers in future billing periods.

*Inventory of Supplies*: Utility funds' inventory is valued at average cost. All other enterprise and internal service funds' inventory is valued at cost using the first in/first out method. Inventory generally consists of construction materials, utility plant supplies and parts inventory not yet placed into service. Inventory costs are charged to operations when consumed. Inventory purchased by governmental funds are treated as expenditures when acquired.

**Prepaid Expenses and Other Assets:** Payments made to vendors for services that benefit future periods are recorded as prepayments in both government-wide and fund financial statements. A current asset for the prepaid amount is recorded at the time of purchase and the expenditure is reported in the year in which services are consumed.

**Restricted Assets:** Issuance of debt and amounts set aside for payment of Enterprise Fund revenue bonds and construction loans are classified as restricted assets since their use is limited by applicable bond indentures. Passenger facility charges are restricted for capital expenditures or related debt. Construction loans are restricted to fund approved capital projects.

*Capital Assets*: Capital assets, which include property, plant, equipment and infrastructure assets (e.g., roads, bridges, sidewalks and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements to the extent the City's capitalization threshold is met. The City defines capital assets as assets with an estimated useful life in excess of one year and an individual cost of more than \$5,000 for land, furniture, fixtures, equipment and vehicles; and \$10,000 for all other assets or projects. Assets are recorded at historical cost or estimated historical cost, if historical cost is not available. Contributed capital assets are recorded at their acquisition value on the date contributed.

As permitted under the implementation provisions of GASB Statement No. 34, the historical cost of infrastructure assets acquired, significantly reconstructed or that received significant improvements prior to January 1, 1980 have not been included as part of governmental capital assets in the government-wide financial statements.

Capital assets in the proprietary funds are capitalized in the fund in which they are utilized. The valuation basis for proprietary fund capital assets are the same as those used for the general capital assets.

Costs for maintenance and repairs are expensed when incurred. However, costs for repairs and upgrading that materially add to the value or life of an asset and meet the above criteria are capitalized

The City depreciates capital assets on a straight-line basis using the following estimated useful lives:

| Assets                                      | Years  |
|---|--------|
| Land improvements                           | 15-100 |
| Utility plant                               | 5-100  |
| Buildings, structures and improvements      | 5-60   |
| Furniture, fixtures, equipment and vehicles | 3-60   |
| Infrastructure                              | 3-50   |

**Compensated Absences:** The City accrues for compensated absences such as vacation, sick leave and compensatory time using the termination payment method specified under GASB Statement No. 16, *Accounting for Compensated Absences*. In the government-wide and proprietary funds financial statements, the entire amount of unpaid compensated absences is reported as a liability. A liability for compensated absences is accrued in the governmental funds only if the amount is currently due and payable at year end. These amounts are recorded as accrued wages and benefits in the fund from which the employees who have accumulated leave are paid. The remaining portion of the liability is not reported in the governmental funds.

Normally, all vacation time is to be taken in the year available. The City allows employees to carryover vacation time from one year to the next. Sick days not taken may be accumulated until retirement. An employee is paid one-third of accumulated sick leave upon retirement, calculated at the average of the highest three years of pay, with the balance being forfeited.

Uniformed police and fire employees are eligible to defer earned vacation time and overtime, with the appropriate approvals, until retirement. Once deferred, the employee cannot use deferred time as vacation. Deferred vacation is paid to the employee upon retirement, calculated using their current hourly rate at the date of retirement. Deferred overtime is paid once a year upon request up to the amount budgeted for the year for such purpose. If requests exceed the budgeted amounts, the requests are to be paid on a pro-rata basis.

**Long-Term Obligations:** In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities and proprietary fund type statements of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Losses on refundings are deferred and amortized over the life of the new debt, or the life of the refunded debt, whichever is shorter. Bonds payable are reported net of the applicable unamortized bond premium or discount.

In the governmental fund financial statements, bond premiums and discounts are reported as other financing sources and uses during the period in which they are incurred. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures.

**Swap Agreements:** The City may enter into interest rate swap agreements to modify interest rates on outstanding debt. The City has accordingly recorded the fair value of each swap in the government-wide financial statements. As further described in Note 5 – Debt And Other Long-Term Obligations, the City has two swap agreements outstanding at December 31, 2021, one for its Subordinated Income Tax Variable Rate Refunding Bonds and one on the Parking Facilities Refunding Revenue Bonds.

*Grants Revenues*: Grants and assistance awards made on the basis of entitlement programs are recorded as grant receivables and revenues when entitlement occurs. Reimbursement-type grants are recorded as grant receivables and revenues when the related expenditures (expenses) are incurred. The City accounts for loans receivable related to the Economic Development Funds, Urban Development Action Funds, Community Development Block Grants, Neighborhood Development Investment Funds and Supplemental Empowerment Zone as restricted or committed fund balance in the fund financial statements as applicable to the extent that these loans do not have to be repaid to the Federal government. The loan proceeds are earmarked for future reprogramming under federal guidelines and are not available to fund current operating expenditures of the City.

*Encumbrances and Pre-Encumbrances*: Encumbrance accounting, under which purchase orders, requisitions, contracts and other commitments for expenditures are recorded as encumbrances or preencumbrances to reserve the applicable portion of the appropriation.

*Interfund Transactions*: During the course of normal operations, the City has numerous transactions between funds, including the allocation of centralized expenses and transfers of resources to provide services, construct assets and service debt. Such transactions are generally reflected as transfers or direct expenses of the fund that is ultimately charged for such costs.

Statement of Cash Flows: The City utilizes the direct method of reporting cash flows from operating activities in the Statement of Cash Flows as defined by the GASB Statement No. 9, Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities that use Proprietary Fund Accounting. In the statement of cash flows, cash receipts and cash payments are classified according to operating, noncapital financing, capital and related financing and investing activities.

**Deferred Outflows/Inflows of Resources:** In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represent a consumption of net assets that applies to future periods and so will not be recognized as an outflow of resources (expense/expenditure) until then. In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represent an acquisition of net assets that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time.

*Net Pensions/OPEB Liabilities/(Asset):* For purposes of measuring the net pension/OPEB liabilities/(asset), deferred outflows of resources and deferred inflows of resources related to pension/OPEB and pension/OPEB expenses, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net positon have been determined on the same basis as they are reported by the pension/OPEB systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB systems report investments at fair value.

### F. Accounting Pronouncements

In June of 2018, GASB Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*, was issued. This Statement is effective for the reporting periods beginning after December 15, 2019. The objectives of this Statement are (1) to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and (2) to simplify accounting for interest cost. As required, the City has implemented GASB Statement No. 89 as of December 31, 2021.

In March of 2020, GASB Statement No. 93, *Replacement of Interbank Offered Rates (IBOR)*, was issued. This Statement is effective for reporting periods beginning after June 15, 2020. The objective of this Statement is to address accounting and financial reporting implications that result from the replacement of an IBOR. As required, the City has implemented GASB Statement No. 93 as of December 31, 2021.

In October of 2021, GASB Statement No. 98, *Annual Comprehensive Financial Report*, was issued. This Statement is effective for reporting periods ending after December 15, 2021. The objective of this Statement is to establish the term annual comprehensive financial report and its acronym *ACFR*. That new term and its acronym replace instances of comprehensive annual financial report and its acronym. As required, the City has implemented GASB Statement No. 98 as of December 31, 2021.

#### NOTE 3 – RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

A. Explanation of certain differences between the governmental fund balance sheet and the governmentwide statement of net position.

The governmental fund balance sheet includes a reconciliation between *fund balance – total governmental funds and net position – governmental activities* as reported in the government–wide statement of net position. One element of that reconciliation explains that long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds. The details of this 1.022 billion difference are as follows:

(Amounts in Thousands)

|   | , , | ,           |
|---|-----|-------------|
| Bonds, certificates of participation and loans payables   | \$  | (871,482)   |
| Other payable   |     | (14,000)    |
| Unamortized bond premium/discount                         |     | (58,448)    |
| Accrued interest payable                                  |     | (5,474)     |
| Claims and adjustments                                    |     | (4,594)     |
| Loss on refunding   |     | 11,332      |
| Compensated absences                                      |     | (78,923)    |
| Net adjustment to fund balance - total governmental funds |     |             |
| to arrive at net position - governmental activities       | \$  | (1,021,589) |

Another element of that reconciliation states that net pension/OPEB liabilities/(asset) are not due and payable in the current period; therefore, the liabilities/(asset) and the related deferred outflows of resources and deferred inflows of resources are not reported in the governmental funds. The details of differences are as follows:

|  | (Amount   | s in Thousands)   |
|--|-----------|-------------------|
| Deferred outflows of resources - pension   | \$        | 103,138           |
| Deferred inflows of resources - pension  |           | (130,689)         |
| Net pension liability  |           | (658,533)         |
| Net adjusment to <i>fund balance - total governmental funds</i> to arrive at <i>net position - governmental activities</i> | <u>\$</u> | (686,084)         |
|  | (Amou     | nts in Thousands) |
| Deferred outflows of resources - OPEB  | \$        | 56,968            |
| Deferred inflows of resources - OPEB   |           | (90,358)          |
| Net OPEB liability   |           | (77,160)          |
| Net OPEB asset   |           | 19,174            |
| Net adjusment to <i>fund balance - total governmental funds</i> to arrive at <i>net position - governmental activities</i> | \$        | (91,376)          |

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures and changes in fund balances and the government-wide statement of activities.

The governmental fund statement of revenues, expenditures and changes in fund balances includes a reconciliation between *net changes in fund balances – total governmental funds* and *changes in net position of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains that governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. The details of this \$7.6 million difference are as follows:

|  | (Amounts in Thousands) |          |  |  |
|--|------------------------|----------|--|--|
| Capital outlay   | \$                     | 66,937   |  |  |
| Contributed Capital  |                        | 9,168    |  |  |
| Depreciation expense   |                        | (68,358) |  |  |
| Loss on capital asset disposals                                      |                        | (163)    |  |  |
| Net adjustment to changes in fund balances - total governmental      |                        |          |  |  |
| funds to arrive at change in net position of governmental activities | \$                     | 7,584    |  |  |

Another element of that reconciliation states that revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the fund statements. The details of this \$6.9 million difference are as follows:

|  | (Amounts in Thousands) |          |  |  |
|--|------------------------|----------|--|--|
| Reversal of prior year deferred inflows of resources   | \$                     | (89,354) |  |  |
| Current year deferred inflows of resources   |                        | 96,271   |  |  |
| Net adjustment to <i>changes in fund balances</i> -<br>total governmental funds to arrive at <i>change in net position</i> |                        |          |  |  |
| of governmental activities   | \$                     | 6,917    |  |  |

Another element of that reconciliation states that the issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. The net effect of these differences, including accrued interest and in the treatment of long-term debt is \$79.7 million which is detailed as follows:

|   | (Amounts in Thousands) |           |  |  |  |
|---|------------------------|-----------|--|--|--|
| Debt issued or incurred:                                    |                        |           |  |  |  |
| Issuance of general obligation bonds and other obligations  | \$                     | (151,060) |  |  |  |
| Accrued interest  |                        | 4,902     |  |  |  |
| Premium on debt   |                        | (12,104)  |  |  |  |
| Principal repayments:                                       |                        |           |  |  |  |
| General obligation debt and other obligations               |                        | 54,472    |  |  |  |
| Refunding of general obligation bonds and other obligations |                        | 24,113    |  |  |  |
| Net adjustment to changes in fund balances - total          |                        |           |  |  |  |
| governmental funds to arrive at change in net position of   |                        |           |  |  |  |
| governmental activities                                     | \$                     | (79,677)  |  |  |  |

Another element of that reconciliation states that some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. The details of this \$14.2 million difference are as follows:

|  | (Amounts in Thousands) |        |  |  |
|--|------------------------|--------|--|--|
| Compensated absences   | \$                     | 5,452  |  |  |
| Claims judgements  |                        | 8,745  |  |  |
| Net adjustment to changes in fund balances - total governmental funds to arrive at change in net position of |                        |        |  |  |
| governmental activities  | \$                     | 14,197 |  |  |

### NOTE 4 – POOLED AND SEGREGATED CASH AND INVESTMENTS

Monies for the Debt Service Funds, certain Capital Project Funds, certain Custodial Funds, Department of Port Control, Division of Water, Division of Water Pollution Control, Division of Cleveland Public Power, Division of Municipal Parking Lots, Cemeteries, Golf Courses, Public Auditorium and certain Special Revenue Funds are deposited or invested in individual segregated bank accounts.

Monies of all other funds of the City, including the accounts of the General Fund, Public Health Fund, other Special Revenue Funds, other Capital Project Funds, other Enterprise Funds, Internal Service Funds and other fiduciary funds are maintained or invested in a common group of bank accounts. Collectively these common bank accounts and investments represent the Pooled Cash Account (PCA). Each fund whose monies are included in the PCA has equity therein.

Certain funds have made disbursements from the PCA in excess of their individual equities in the PCA. Such amounts have been classified as due to other funds and due from other funds between the Restricted Income Tax Special Revenue Fund and the respective funds that have made disbursements in excess of their individual equities in the PCA.

The City has restrictive arrangements for certain segregated monies held in the banks' trust departments in which the City must act in conjunction with a trust officer in order to make investments. The City's role is that of investment manager and the trust officer's role is that of purchasing agent. For other segregated monies, the City acts alone in placing investments with the banks. Amounts held in escrow are designated for a special purpose and are entrusted to a third party to fulfill certain legal provisions.

**Deposits:** Ohio law requires that deposits be placed in eligible banks located in Ohio. The City's policy is to place deposits only with major commercial banks having offices within the City of Cleveland. Any public depository in which the City places deposits must pledge as collateral eligible securities of aggregate market value equal to the excess of deposits not insured by the Federal Deposit Insurance Corporation. Further, City ordinance requires such collateral amounts to exceed deposits by 10%. Collateral that may be pledged is limited to obligations of the following entities: the United States and its agencies, the State of Ohio, the Ohio Student Loan Commission and any legally constituted taxing subdivision within the State of Ohio. The City also requires that non-pooled securities pledged be held by either the Federal Reserve Bank or other trust institution, as designated by the City, as trustee. This collateral is held in joint custody with the financial institution pledging the collateral and cannot be sold or released without written consent from the City.

Monthly, the City determines that the collateral has a market value adequate to cover the deposits and that it has been segregated either physically or in book entry form. At year end, the carrying amount of the City's deposits including certificates of deposit was \$152,800,000 and the actual bank balance totaled \$160,148,000. The difference represents outstanding warrants payable and normal reconciling items. Based on the criteria described in GASB Statement No. 3, *Deposits with Financial Institutions, Investments (Including Repurchase Agreements) and Reverse Repurchase Agreements* and GASB Statement No. 40, *Deposit and Investment Risk Disclosures – an Amendment of GASB Statement No.* 3, \$160,148,000 of the bank balance was insured or collateralized with securities held by the City or by its agent in the City's name.

Custodial credit risk for deposits is the risk that in the event of bank failure, the City will not be able to recover deposits or collateral for securities that are in possession of an outside party. At year end, the City's deposits were fully insured or collateralized. All deposits are collateralized with eligible securities pledged and deposited either with the City or with a qualified trustee by the financial institution as security for repayment of all public monies deposited in the financial institution whose market value at all times is equal to at least 110% of the carrying value of the deposits being secured.

*Investments*: The City's investment policies are governed by State Statutes and City ordinances which authorize the City to invest in obligations of the U.S. Treasury, agencies and instrumentalities; State Treasurer Asset Reserve Fund (STAR Ohio); commercial paper; U.S. Government Money Market Mutual Funds; guaranteed investment contracts; manuscript debt; bonds and other State of Ohio obligations; certificates of deposit; and repurchase transactions. Such repurchase transactions must be purchased from financial institutions as previously discussed in "Deposits" or registered broker/dealers. Repurchase transactions are not to exceed a period of one year and confirmation of securities pledged must be obtained. Generally, investments are recorded in segregated accounts by way of book entry through the bank's commercial or trust department and are kept at the Federal Reserve Bank in the depository institution's separate custodial account for the City, apart from the assets of the depository institution. Ohio statute prohibits the use of reverse repurchase agreements.

Investment securities are exposed to various risks such as interest rate, market and credit. Fair values of securities fluctuate based on the magnitude of changing market conditions; therefore, significant changes in market conditions could materially affect portfolio value.

The following is a summary of the fair value hierarchy of the fair value of investments of the City (excluding STAR Ohio and money market mutual funds) as of December 31, 2021:

|                     | Fair                   | Fair Value Measurements Using |        |    |         |  |
|---------------------|------------------------|-------------------------------|--------|----|---------|--|
| Type of Investment  | Value                  | L                             | evel 1 |    | Level 2 |  |
|                     | (Amounts in Thousands) |                               |        |    |         |  |
| U.S. Treasury Notes | \$<br>212              | \$                            | 212    | \$ |         |  |
| Commercial Paper    | 31,145                 |                               |        |    | 31,145  |  |
| Manuscript Debt     | 4,618                  |                               |        |    | 4,618   |  |
| Other               | <br>331                |                               |        |    | 331     |  |
|                     |                        |                               |        |    |         |  |
| Total Investments   | \$<br>36,306           | \$                            | 212    | \$ | 36,094  |  |

*Interest Rate Risk:* In accordance with its investment policy, the City limits its exposure to fair value losses caused by rising interest rates, investing primarily in short-term investments maturing within five years from the date of purchase. The intent is to avoid the need to sell securities prior to maturity.

*Custodial Credit Risk:* For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of the investments or collateral securities that are in the possession of an outside party. The City does not have an investment policy dealing with investment custodial risk beyond the requirement in the State Statute.

*Credit Risk:* The City's investments as of December 31, 2021 include U.S. Treasury Notes, STAR Ohio, commercial paper, money market mutual funds, manuscript debt and other investments. The City maintains the highest ratings for its investments. Investments in the Dreyfus Government Cash Management Mutual Fund, First American Government Obligations Fund, Federated Government Obligations Fund, Government Obligations Fund, Morgan Stanley Government Institutional Mutual Funds and STAR Ohio carry a rating of AAAm, which is the highest money market fund rating given by S&P Global. Ohio law requires that STAR Ohio maintain the highest rating provided by at least one nationally recognized standard rating service. Investments in U.S. Bank N.A. Open Commercial Paper carries a Moody's rating of P-1. The City has no investment policy that would further limit its investment choices.

The City's investments shown in the following table include those which are classified as cash equivalents in accordance with the provisions of GASB Statement No. 9:

|                                |    |           |    |           |          | Investment I    | Matur | <u>rities</u>  |

STAR Ohio is an investment pool created pursuant to Ohio statutes and managed by the Treasurer of the State of Ohio. The fair value of the City's position in STAR Ohio is equal to the value of the shares the City owns in the investment pool. Investment type "Other" consist of deposits into collective cash escrow pools managed by either Bank of New York, Huntington or U.S. Bank, as trustees.

*Concentration of Credit Risk:* The City places a limitation on the amount it may invest in any one issuer to help minimize the concentration of credit risk. As of December 31, 2021, the investments in U.S. Treasury Notes, STAR Ohio, commercial paper, money market mutual funds, manuscript debt and other are approximately 0.01%, 56.00%, 1.60%, 42.13%, 0.24%, and 0.02%, respectively, of the City's total investments.

(Concluded)

Internal Service Funds predominantly serve the governmental funds, except the Utilities Administration Fund, which serves only business-type activity funds. Long-term liabilities for all Internal Service Funds, except the Utilities Administration Fund, are included as part of the totals for governmental activities in the government-wide statement of net position. At December 31, 2021, \$1,755,000 and \$10,641,000 of the Internal Service Funds, except for Utilities Administration Fund, compensated absences and net pension, respectively, were included in the governmental activities. Long-term liabilities for the Utilities Administration Fund are included as part of the totals for business-type activities in the government-wide statements. At December 31, 2021, \$1,327,000 and \$5,659,000 of the Utilities Administration Fund compensated absences and net pension, respectively, were included in business-type activities.

The Subordinated Income Tax Refunding Bonds were issued initially to fund the City's obligation for the employer's accrued liability to the Police and Firemen's Disability and Pension Fund of the State of Ohio. All other bonds were issued to fund capital related activities.

The accrued wages and benefits liability will be paid from the fund from which the employees' salaries are paid. The estimated claims payable liability will be paid from the fund that incurred the liability or from Judgment Bond proceeds.

A detailed summary of principal due for General Obligation Bonds and business-type activities debt by purpose is as follows for 2021:

|   | Original        | Balance                   |     |                |    |            | _  | Balance                   |

The schedule of minimum principal and interest payments for construction loans above includes the amortization for a loan provided to the Division of Water Pollution Control by the Ohio Water Development Authority (OWDA) in 2019. This amortization is based upon the full amount expected to be financed, regardless of whether the City has received all the loan proceeds. At December 31, 2021, the amount financed on the loan, which is reflected in the amortization schedule, equals the actual loan balance shown on the schedule of long-term debt outstanding and changes in long-term debt obligations. However, the amortization schedule is still tentative and will be finalized by OWDA. OWDA loans and Ohio Public Works Commission loans are direct borrowings.

OWDA completed an interest rate buy-down in 2015 which resulted in interest rate savings on the current loans. Market rate loans with interest rates higher than 4.0% saw a reduction in rates to 4.0% while rates over 3.0% on OWDA loans were reduced to 3.0%. The buy-down commenced retroactively to the January 1, 2016 payment.

### **General Obligation Bonds**

*General Obligation Bonds*: General Obligation Bonds are backed by the full faith and credit of the City. Such bonds are payable from ad valorem property taxes levied within the limitations provided by law, irrespective of whether such bonds are secured by other receipts of the City in addition to such ad valorem property taxes.

Effective July 28, 2021, the City issued \$56,095,000 Various Purpose and Refunding General Obligation Bonds, Series 2021A. Approximately \$54.9 million of the proceeds of these bonds will be used to pay costs of permanent improvements to roads and bridges, to parks and recreation facilities and to various other public facilities. Proceeds in the amount of \$1,354,849 were also used to currently refund \$1,345,000 of the Series 2011 General Obligation Bonds on July 28, 2021 to achieve debt service savings of approximately \$372,000 or 27.7%.

On February 26, 2020, the City issued \$69,820,000 Subordinate Lien Income Tax Refunding Bonds, Series 2020A (Federally Taxable). A portion of these bonds were used to refund \$17,340,000 of outstanding Various Purpose and Refunding General Obligation Bonds, also an additional portion of \$44,545,000 was used to refund outstanding 2014-2015 Subordinate Lien Income Tax Bonds for debt service savings.

Effective July 30, 2020, the City issued \$60,685,000 Various Purpose General Obligation Bonds Series 2020A. The proceeds of these bonds will be used to provide funds for public facilities improvements, parks and recreation improvements, road and bridge improvements and for neighborhood development projects.

Under the direct debt limitation imposed by the Ohio Revised Code, the City had the capacity to issue \$284,001,850 of additional unvoted debt at December 31, 2021.

### **Other Governmental Obligations**

**Subordinated Income Tax Variable Rate Refunding Bonds:** Effective June 1, 1994, the City issued \$74,700,000 of Subordinated Income Tax Variable Rate Refunding Bonds, Series 1994. The proceeds were used to fund the City's obligation for the employer's accrued liability to the Ohio Police and Fire Pension Fund (the Fund). The principal use of the proceeds was the current refunding of the City's obligation to the Fund for the employer's accrued liability in the amount of \$104,686,400, which was payable in semi-annual installments of \$2,696,243 through May 15, 2035. Pursuant to Section 742.30 (C) of the Ohio Revised Code, the City and the Fund entered into an agreement that permitted the City to make a one-time payment to the Fund to extinguish the City's obligation. The payment amount of \$70,493,204 was calculated by applying a 35% discount factor to the \$104,686,400 accrued liability plus adding accrued interest of \$2,447,044.

On November 18, 2015, the City issued \$28,975,000 Subordinate Lien Unrestricted Income Tax Refunding Bonds, Series 2015 (Police & Fire Pension Payment). The City issued these bonds in order to refund \$30,310,000 of the outstanding Series 2008 Subordinate Lien Unrestricted Income Tax Bonds (Police & Fire Pension). Proceeds of the Series 2015 Bonds in the amount of \$33,492,387 were placed in an irrevocable escrow account to pay the principal and interest on the refunded bonds on the call date. As a result, the refunded bonds were defeased and the liability for those bonds was removed from long-term debt. The City completed the refunding in order to achieve debt service savings of \$1,867,000 and an economic gain (the difference between the present values of the old and new debt service) of \$1,809,000 or 5.97%.

The Series 2015 Bonds are unvoted special obligations secured by a pledge of and a lien on the unrestricted municipal income taxes of the City, to the extent that such income taxes are not needed to pay debt service on the City's currently outstanding unvoted General Obligation Bonds or unvoted General Obligation Bonds issued in the future.

### Interest Rate Swap Transaction:

<u>Terms:</u> On February 7, 2003, the City sold an option to JPMorgan Chase Bank (JPM) that gives JPM the right to execute an interest rate swap at its discretion at any time until the option expires on May 15, 2024 on a declining notional amount equal to the outstanding principal amount of the City's Subordinated Income Tax Variable Rate Refunding Bonds, Series 1994. The swaption is now associated with portions of the Series 2015 Bonds. Under the swap agreement, the City will be the fixed rate receiver, receiving the fixed rate of 4.88% and JPM will be the floating rate receiver, receiving interest on what would have been the outstanding notional amount of the original 1994 Bonds of \$15,600,000 at December 31, 2021, at a rate equal to the weekly Securities Industry and Financial Markets Association (SIFMA) index. If the option is exercised, the stated termination date under the swap agreement with JPM will be May 15, 2024. The obligation of the City under the swap agreement to make periodic floating rate payments (but not any termination payment) is secured by a subordinate pledge of the income tax receipts, subordinate to the pledge of the income tax receipts made under the "General Bond Ordinance" securing the City's General Obligation Bonds. The payment of any termination payment is subordinate to the payment of debt service on the Subordinate Lien Unrestricted Income Tax Bonds, Series 2015, and the periodic floating rate payments.

<u>Objective</u>: The City entered into the swaption in order to potentially capture in the future the savings which could be derived from converting these bonds back to a variable rate if or when the option is exercised. In exchange for selling the option to JPM, the City received a premium payment of \$1,700,000.

<u>Basis Risk</u>: There is no basis risk for the City associated with this transaction with the exception of the risk inherent in all variable rate debt. If the option is exercised, the City will receive a fixed rate of 4.88% which is 12 basis points less than the fixed rate being paid on the Series 2015 Bonds. This transaction would leave the City paying the weekly SIFMA rate plus 12 basis points.

<u>Counterparty Risk</u>: The City selected JPM as a counterparty partly due to its credit strength. Over the long-term, it is possible that the credit strength of JPM could change and this event could trigger a termination payment on the part of the City.

<u>*Termination Risk:*</u> The swap agreement may be terminated prior to its stated termination date under certain circumstances. Upon termination, a payment may be owed by the City to JPM, or by JPM to the City, depending upon the prevailing economic circumstances at the time of the termination.

*Fair Value*: The fair value of the swaption at December 31, 2021 as reported by JPM was approximately \$640 which would be payable by the City.

**Subordinated Lien Income Tax Bonds:** On September 22, 2021, the City issued \$81,755,000 Subordinate Lien Income Tax and Refunding Bonds, Series 2021A. These bonds were primarily issued to provide funds for public facility improvements and more specifically, \$60,000,000 for the construction of a new police headquarters. A portion of the bond proceeds in the amount of \$22,535,785, along with \$222,812 from the debt service fund, were placed in an irrevocable escrow account to refund \$21,495,000 of outstanding Subordinate Lien Income Tax Bonds issued in 2012 and 2014. As a result, the refunded bonds were defeased and the liability for those bonds was removed from long-term debt. The City completed the refunding in order to achieve debt service savings of \$2,437,000 and an economic gain (the difference between the present values of the old and new debt service) of \$2,102,000 or 9.8%.

Effective February 26, 2020, the City issued \$69,820,000 Subordinate Lien Income Tax Refunding Bonds, Series 2020A (Federally Taxable). The proceeds of these bonds were used to refund \$44,545,000 of various outstanding Subordinate Lien Income Tax Bonds (Series 2014A-1, Series 2014 B-3, Series 2015 A-2 and Series 2015 A-3) and \$17,340,000 of outstanding Series 2012 Various Purpose and Refunding General Obligation Bonds. Proceeds in the amount of \$69,202,375 along with \$907,187 from the debt service fund, were placed in an irrevocable escrow account to pay the principal and interest on the refunded bonds on the call date. As a result, the refunded bonds were considered to be defeased and the liability for those bonds has been removed from long-term debt. This refunding resulted in debt service savings of \$10.26 million and an economic gain (the difference between the present values of the old and new debt service) of \$8.50 million or 13.7%.

These bonds are special obligations of the City and are not general obligation debt and are not secured by a pledge of the full faith and credit of the City. The bonds are payable from the City's municipal income tax revenues to the extent those revenues are not needed to pay debt service charges on the City's unvoted general obligation debt or unvoted general obligation debt issued in the future. It is the City's intention to continue paying the debt service on the Subordinate Lien Income Tax Bonds from the Restricted Income Tax collections to the extent that funds are available from that portion of income tax receipts. The portion of the debt service not covered by the Restricted Income Tax, if any, will be paid from the unrestricted General Fund portion of income tax receipts.

### Non-Tax Revenue Bonds – Economic Development Bonds Series 2003A and Series 2003B (Lower Euclid Avenue

**Project):** In November 2003, the City issued \$7,200,000 Economic Development Revenue Bonds, Series 2003A and \$1,000,000 Economic Development Revenue Bonds, Series 2003B-1 for the Lower Euclid Avenue Project. In November 2004, the final \$1,000,000 Economic Development Revenue Bonds, Series 2003B-2 were issued. The proceeds of these bonds were made available to the owners of certain properties on Euclid Avenue for the construction and renovation of commercial restaurant and retail facilities and the construction of a parking garage. These Tax Increment Financing (TIF) Bonds are secured by a pledge of (a) service payments in lieu of taxes received by the City from the owners of certain properties located within a tax increment financing district, (b) loan payments payable to the City and (c) by a pledge of certain non-tax revenues of the City, subject to the prior pledge by the City of such non-tax revenues to secure other obligations of the City. Only the Series 2003A Bonds remain outstanding.

### Non-Tax Revenue Bonds – Taxable Economic and Community Development Revenue Bonds (Core City):

Effective November 17, 2021, the City issued \$13,210,000 of Taxable Economic and Community Development Revenue Bonds, Series 2021 (Core City Fund). These are taxable bonds issued for eligible industrial and commercial development projects and provided funds for a portion of the City's contribution towards a new downtown headquarters for the Sherwin Williams Company. The principal and interest on these bonds will be paid from non-tax revenues of the City.

On October 9, 2020, the City issued \$2,050,000 of Taxable Economic and Community Development Bonds, Series 2020 (Core City Fund) through a private placement with Zions Bancorporation, N.A. These bonds were issued to provide funds for eligible projects including the acquisition, construction, equipping or improvement of multi-unit housing and commercial development and for the preparation or remediation of sites for these purposes. The principal and interest on these bonds are to be paid from the non-tax revenues of the City and net project revenues.

Events of default are those set forth in the indenture and include, but are not limited to, failure to pay principal of or interest on the bonds and failure to perform pursuant to certain covenants and provisions under the indenture. Upon an event of default and subject to certain provisions of the indenture, the Trustee may pursue any available remedy to enforce the payment of principal or interest on the bonds or the observance and performance of any other covenant, agreement or obligation under the Indenture or any other instrument providing security, directly or indirectly, for the bonds. There is no right to accelerate the payment of principal or interest on the bonds under the indenture.

Effective April 9, 2015, the City issued \$15,280,000 Taxable Economic and Community Development Revenue Bonds, Series 2015 (Core City Fund). Similar to the 2020 Bonds, the proceeds of these bonds will be used to provide funds for eligible projects, including, but not limited to, the acquisition, construction, equipping or improvement of multi-unit housing and commercial development and the preparation or remediation of sites for these purposes. The principal and interest on these bonds are to be paid from non-tax revenues of the City and net project revenues.

On September 4, 2014, the City issued \$12,365,000 Taxable Economic and Community Development Refunding Revenue Bonds, Series 2014 (Core City Fund). The City issued these bonds in order to refund \$11,845,000 of the outstanding Taxable Economic and Community Development Bonds, Series 2004. Net proceeds of the Series 2014 Bonds in the amount of \$12,156,019 were deposited into an irrevocable escrow account to pay the principal and interest on the refunded bonds on December 1, 2014. As a result, the refunded bonds were defeased and the liability for the Series 2004 Core City Bonds was removed from long-term debt. This refunding resulted in \$1,248,000 of debt service savings and an economic gain of \$1,219,000 or 10.3%. The Series 2014 Bonds were issued as fixed rate securities and are special obligations of the City, payable from non-tax revenues and net project revenues.

Effective May 30, 2013, the City refunded the outstanding variable rate \$25,360,000 Series 2008 Taxable Economic and Community Development Refunding Revenue Bonds with \$25,360,000 Taxable Economic and Community Development Bonds, Series 2013A. The bonds remained variable rate bonds and were privately place with KeyBank National Association for a period of five years. In May 2018, the City entered into a new three-year direct placement of the Series 2013A Bonds with PNC Bank, National Association upon the expiration of the old direct placement. On May 3, 2021, the City entered into a new three-year direct placement of the then outstanding \$19,160,000 Series 2013A Bonds with U.S. Bank National Association. As a result of this transaction, the interest rate on the bonds was converted from a variable Index Rate to a Bank Fixed Rate until May 3, 2024.

Events of default under the agreement with the bank include, but are not limited to, 1) failure to pay principal of or interest on the Series 2013A Bonds or parity debt payable from the City's general fund or failure to pay other obligations under the agreement; 2) failure to perform pursuant to certain covenants and provisions under the indenture or the Continuing Covenants Agreement; 3) certain representations and warranties under the agreement prove untrue in a material respect; 4) occurrence of bankruptcy and insolvency events; and 5) ratings downgrades of parity debt of the City below certain levels. Upon an event of default, the Bonds shall bear interest at a default rate and the bank may cause a special mandatory redemption of the 2013A Bonds in accordance with the terms of the supplemental indenture and agreement. Under the agreement with the bank, no party has a right to accelerate the principal or interest on the 2013A Bonds. However, certain fees and expenses set forth in the agreement can be declared immediately due and payable under certain circumstances. The Bonds are payable from the City's non-tax revenues and net project revenues.

*Annual Appropriation Bonds – Flats East Bank:* On December 21, 2010, the City issued \$11,000,000 City Annual Appropriation Bonds through the Cleveland-Cuyahoga County Port Authority. The proceeds of the bonds were used to provide funds for land purchase and public improvements in the area of the Flats East Development Project. The bonds are special obligations of the Port Authority payable from appropriation payments made by the City under a cooperative agreement. The City's obligation to make payments is subject to and dependent upon annual appropriations being made by the City. The City intends to make these debt service payments from the Restricted Income Tax collections.

*Certificates of Participation (COPS) - Stadium*: In June 1997, Certificates of Participation (COPS) in the amount of \$139,345,000 were issued to assist in the construction of an open-air stadium for the play of professional football and other events. The City makes lease payments subject to annual appropriation by City Council and certification by the

Director of Finance as to the availability of funds from those appropriations. These obligations do not constitute a debt or pledge of the full faith and credit of the City.

Effective April 22, 2010, the City issued \$63,225,000 Series 2010A COPS and \$69,900,000 Series 2010B COPS to refund all of the outstanding \$108,390,000 Series 2007 COPS. Proceeds of the Series 2010 COPS were used to currently refund the Series 2007 COPS on the day of closing, to fund a required debt service reserve fund deposit in the amount of \$8,324,045, to make a termination payment on the existing hedge agreement with UBS in the amount of \$17,322,000 and to pay costs of issuing the COPS. The final payment on the Series 2010A COPS was made November 15, 2020. The Series 2010B COPS were purchased by Wells Fargo Bank, National Association, as floating rate obligations for a period of three years, the interest on which is reset weekly based on the SIFMA index plus a spread. As a result of this refunding, the City achieved an economic gain (the difference between the present values of the old and new debt service) of approximately \$3,461,000 or 3.19%.

Effective March 21, 2013, the City completed a conversion and remarketing of the Series 2010B COPS. This was done in order to change the index rate being charged on the bonds as well as to extend the interest rate period until March 2018. The Series 2010B COPS were again purchased by Wells Fargo Bank, National Association. Effective March 1, 2018, the City entered into an amended and restated Continuing Covenants Agreement with Wells Fargo Municipal Capital Strategies, LLC on the 2010B Stadium COPS. The agreement extended to March 2021 the period of time during which Wells Fargo Municipal Capital Strategies, LLC will be the owner of the COPS as a direct placement.

On March 18, 2021, the City entered into a Second Amended and Restated Continuing Covenants Agreement with Wells Fargo Municipal Capital Strategies, LLC on the \$69,900,000 2010B Stadium Certificates of Participation. Under this new agreement, the COPS were converted from Index Rate Certificates to a long-term rate until November 15, 2023.

Events of default under the agreement with the bank include, but are not limited to, 1) failure to pay principal of or interest on the Series 2010B COPS or parity debt payable from the City's general fund or failure to pay other obligations under the agreement; 2) failure to perform pursuant to certain covenants and provisions under the indenture or the Continuing Covenants Agreement; 3) certain representations and warranties under the agreement prove untrue in a material respect; 4) occurrence of bankruptcy and insolvency events; and 5) ratings downgrades of parity debt of the City below certain levels. Upon an event of default, the 2010B COPS shall bear interest at a default rate and the bank may cause a special mandatory redemption of the 2010B COPS in accordance with the terms of the supplemental indenture and agreement. Under the agreement with the bank, no party has a right to accelerate the principal or interest on the 2010B COPS. However, certain fees and expenses set forth in the agreement can be declared immediately due and payable under certain circumstances.

*Capital Lease Arrangements*: The City has entered into various agreements to lease equipment. Such agreements are treated as lease purchases (Capital Leases) and are classified as long-term lease obligations in the financial statements. The lease contracts contain annual one-year renewal options that can be exercised by the City if sufficient funds are appropriated by City Council. Upon the exercise of each annual one-year renewal option and satisfaction of the lease obligations related thereto, title to the equipment will pass to the City.

The assets recorded by the City under Capital Leases were as follows as of December 31, 2021:

|                                   | -  | overnmental<br><u>Activities</u><br>nts in Thousands) |
|-----------------------------------|----|---|
| Furniture, fixtures and equipment | \$ | 41,522  |
| Less – accumulated depreciation   |    | (37,947)  |
| Net book value                    | \$ | 3,575   |

*West 150<sup>th</sup> Street Improvement Loan (SIB):* The Ohio Public Works Commission (OPWC) approved a loan to the City to finance a portion of the West 150<sup>th</sup> Street Improvement project. OPWC committed up to \$1,949,332 at a 0% interest rate for 20 years. The City and the City of Brook Park have an agreement to share the debt service requirements of the OPWC loan. The City of Brook Park will pay 100% of the annual debt service requirements and the City will reimburse the City of Brook Park 65% of the annual debt service requirement. The SIB is a direct borrowing.

*Cleveland Browns Stadium Obligation:* Pursuant to an agreement entered into in 2014 between the City and Cleveland Browns Stadium Company LLC (Browns), the City has agreed to pay the Browns \$2,000,000 per year on or before June 1 for fifteen years. This period of time coincides with the years remaining on the lease. These payments are to offset the capital improvements made by the Browns. The Browns may use this annual payment as they deem appropriate, including for operations and maintenance expenses. This payment is subject to annual appropriation by the City.

**Ohio Water Development Authority Loan:** This loan is payable from Economic Development revenues secured by a separate loan agreement, a promissory note and loan guarantee, as well as other departmental resources. This loan is a direct borrowing.

Lines of Credit: The City has no unused lines of credit.

Pledged Collateral: The City has no assets pledged as collateral for debt.

Accrued Wages and Benefits: Accrued wages and benefits, included in long-term obligations, consist of the noncurrent portion of vacation and sick pay benefits earned by employees of the City. The City accrues vacation and sick pay benefits when earned and future compensation is likely.

**Police and Fire Overtime and Deferred Vacation Pay:** Uniformed employees of the Police and Fire Divisions accumulate overtime compensation in accordance with the union contracts and the requirements of the Fair Labor Standards Act. In addition, uniformed employees may defer earned vacation time, with the appropriate approvals, until retirement. The liabilities for overtime and deferred vacation time, at current pay rates including their related fringe benefits and converted to straight time hours, at December 31, 2021, follow:

|                 |       | Overtime     |    |                              |      | Deferred Vacation        |          |               |  |  |

### **Business-Type (Enterprise Fund) Obligations**

*Airport System Revenue Bonds*: These bonds are secured by the pledge of airport revenues and moneys in the special funds which include, among others, the bond service fund, bond service reserve fund, the renewal and replacement fund and the airport development fund, as defined in the revenue bond indenture. Further, the City has assigned to the trustee all its interests in and rights to the airline use agreements under the revenue bond indenture.

On October 1, 2019, the City issued \$341,675,000 Airport System Revenue Bonds Series 2019 A-C. The \$301,665,000 Series 2019A Taxable Bonds were issued to advance refund the \$235,150,000 Series 2012A Bonds and to currently refund the outstanding \$52,050,000 of Series 2013A Bonds. Bond proceeds in the amount of \$248,355,650 along with \$3,694,402 released from the debt service reserve fund and \$2,965,914 released from the Series 2012A Bond Fund, were placed in an irrevocable escrow account for the payment of the principal and interest on the Series 2012A Bonds. Additionally, \$51,232,251 of Series 2019A Bonds proceeds, along with \$817,749 released from the debt service reserve fund to redeem the 2013A Bonds on October 1, 2019. The \$34,605,000 Series 2019B AMT Bonds currently refunded the variable rate \$20,100,000 Series 2009D Bonds and the \$18,170,000 Series 2014A Bonds. Lastly, the \$5,405,000 Series 2019C Non-AMT Bonds currently refunded the outstanding variable rate \$5,975,000 Series 2008D Bonds. As a result of this refunding, the City achieved an economic gain (the difference between the present values of the old and new debt service) of \$22,494,000 of net present value debt service savings or 6.8% while also eliminating all of Port Control's remaining variable rate bonds and terminating its letters of credit and direct placements on those bonds.

*Public Power System Revenue Bonds*: These bonds are payable from the net revenues derived from the Public Power System and are secured by a pledge of and lien on such net revenues.

On February 19, 2020, Public Power System Revenue Bonds, Series 2020, were issued in the amount of \$83,580,000. The \$63,110,000 Series 2020A Tax-Exempt Bonds were issued to advance refund \$65,325,000 of outstanding Series 2014 Public Power System Refunding Revenue Bonds. The \$20,470,000 Federally Taxable Series 2020B Bonds were

issued to advance refund \$11,560,000 of outstanding Series 2014 Public Power System Refunding Revenue Bonds and \$6,510,000 of the outstanding Series 2016 Public Power System Refunding Revenue Bonds. Bond proceeds in the amount of \$97,525,417, along with \$1,697,178 from the debt service fund, were placed in an irrevocable escrow account to pay the principal and interest on the refunded bonds when due. As a result of this refunding, the City realized an economic gain (the difference between the present values of the old and new debt service) of \$11,897,000 or 14.3%.

*Waterworks Improvement Revenue Bonds*: These bonds are payable from the revenues derived from operation of the Waterworks System after the payment of all operating and maintenance expenses (net revenue) and from monies and investments on deposit in the Revenue Fund, the Debt Service Fund, the Debt Service Reserve Fund, the Contingency Fund and the Additions and Improvements Fund.

On June 6, 2020, the City issued \$15,815,000 Federally Taxable Water Revenue Bonds, Series EE, 2020 to advance refund \$14,565,000 of the outstanding Water Revenue Bonds, Series X, 2012. Net bond proceeds in the amount of \$15,677,657, along with \$303,438 from the Series X debt service fund, were placed in an irrevocable escrow account to pay the principal and interest on the refunded bonds when due. As a result of this refunding, the Division of Water realized an economic gain (the difference between the present values of the old and new debt service) of \$2.7 million or 18.7%.

Effective June 11, 2020, the City issued \$70,270,000 of tax-exempt Water Revenue Bonds, Series FF, to currently refund all of the outstanding variable rate \$90,800,000 Series AA, 2015, Bonds (direct placement). The Series AA Bonds were refunded in order to eliminate the risks associated with potential fluctuations in variable interest rates. The Series FF Bonds refunded the last remaining variable rate bonds issued by Water.

The City issued \$99,145,000 Water Revenue Bonds, Series GG, 2020 (Federally Taxable) on August 13, 2020. These bonds advance refunded \$11,725,000 of Water Revenue Bonds, Series X, 2012, that did not produce savings at the time of the refunding earlier in the year. The Series GG Bonds also advance refunded \$76,060,000 of Water Revenue Bonds, Series Y, 2015. Net bond proceeds in the amount of \$98,460,704, along with \$293,728 from the Series X and Series Y debt service funds, were placed in an irrevocable escrow account to pay the principal and interest on the refunded bonds when due. As a result of this refunding, the City achieved another \$8.34 million of net present value debt service savings for the Division of Water or 9.5%.

In conjunction with the issuance of the Water Revenue Bonds, Second Lien Series A 2012, the City established a Subordinate Bonds indenture for the Division of Water. Bonds issued under this indenture are special obligations of the City payable solely from and secured solely by a pledge of and lien on the Subordinate Pledged Revenues and the Subordinate Pledged funds. The Subordinate Pledged Revenues generally consist of the net revenues of the Division which remain after the payment of all operating expenses and the deposit of all funds required to be made on behalf of the Senior Lien bonds. Bonds issued under this indenture are subordinate to those issued as senior lien bonds under the Division of Water's Amended and Restated Indenture.

*Water Pollution Control Revenue Bonds:* On April 14, 2016, the City issued \$32,390,000 Water Pollution Control Revenue Bonds, Series 2016 (Green Bonds). This was the first series of revenue bonds issued by the Division, with the bonds being issued under and secured by a newly created Master Trust Agreement. The proceeds of these bonds were used to pay capital costs relating to the acquisition, construction and improvement of the system along with funding the debt service reserve requirement and paying the costs of issuing the bonds.

In conjunction with the issuance of the Series 2016 Water Pollution Control Revenue Bonds, the City entered into a Master Trust Agreement for the Series 2016 Bonds and any future series of revenue bonds. Under the terms of the Trust Agreement, the Bonds are special obligations payable solely from and secured by a pledge of and lien on the net revenues of the Division and the Special Funds. The Special Funds include the construction fund, the debt service fund, the rate stabilization fund, the contingency fund and the balance subfund.

*Ohio Water Development Authority and Ohio Public Works Commission Loans*: These loans are payable from net revenues derived from the Waterworks and Water Pollution Control Systems. These obligations do not have a lien on revenues of the Divisions. OWDA and OPWC loans are direct borrowings.

**Parking Facilities Refunding Revenue Bonds:** These bonds are payable from net revenues generated from certain parking facilities and other operating revenues of the Division of Parking Facilities, including parking meter revenue. In addition, the City has pledged other non-tax revenue to meet debt service requirements. The City has pledged and assigned to the trustee a first lien on pledged revenues consisting of fines and penalties collected as a result of the

violation of municipal parking ordinances and fines, waivers and costs relating to citations for misdemeanor offenses and the special funds as defined within the bond indenture.

Effective October 6, 2011, the City completed the sale of the City-owned Gateway North Parking Garage to Rock Ohio Caesars Gateway LLC. The garage is now used by the purchaser in conjunction with a casino constructed in the Higbee Building adjacent to the garage. The net proceeds of the sale of the garage received by the City totaled \$20,915,504. Of this amount, \$19,578,288 was placed into an irrevocable escrow fund, along with \$1,967,425 released from the debt service reserve fund as a result of the transaction, to be used to pay the principal and interest as it comes due on \$16,145,000 Parking Facilities Refunding Revenue Bonds, Series 2006. As a result, these bonds were considered to be defeased and the liability for the bonds was removed from long-term debt. In addition, \$480,000 of the sale proceeds was used to terminate the portion of an existing basis swap which was associated with the bonds being defeased. Sale proceeds were also utilized to pay costs of the transaction. As a result of this transaction, the City expects to save approximately \$600,000 annually through 2022.

Effective August 15, 2006, the City issued \$57,520,000 of Parking Facilities Refunding Revenue Bonds, Series 2006. The bonds were issued to currently refund \$56,300,000 of the outstanding Parking Facilities Refunding Revenue Bonds, Series 1996. In addition, proceeds were also used to fund a portion of a payment owed by the City upon early termination under an interest rate swaption agreement entered into in 2003. At the time of the issuance of the Series 2006 Bonds, the City entered into a basis swap agreement with UBS, AG (UBS) which is described below.

On April 16, 2013, the City entered into a novation agreement with UBS and PNC Bank, National Association (PNC) under which the basis swap was transferred from UBS to PNC effective March 15, 2013. All of the terms of the original basis swap remain the same. The City agreed to transfer the swap to PNC based upon UBS' mandate to downsize its swap portfolio.

### Interest Rate Swap Transaction:

<u>Terms:</u> Simultaneously with the issuance of the City's \$57,520,000 Parking Facilities Refunding Revenue Bonds, Series 2006 on August 15, 2006, the City entered into a floating-to-floating rate basis swap agreement with a notional amount equal to the total declining balance of the Series 2006 Bonds. UBS was the counterparty on the transaction. As stated above, the basis swap was transferred to PNC Bank, National Association in 2013. Under the swap agreement for the Series 2006 Bonds, the City is a floating rate payor, paying a floating rate based on the SIFMA index. The counterparty is also a floating rate payor, paying the City 67% of one month LIBOR. The City also received an upfront payment in the amount of \$1,606,000. Net payments are exchanged semi-annually each March 15 and September 15. The obligation of the City to make periodic payments (but not any termination payment) is secured by a pledge of and lien on the parking revenues and additional pledged revenues as defined in the trust indenture securing the Parking Facilities Refunding Revenue Bonds, Series 2006, on parity with the pledge and lien securing the payment of debt service on the bonds.

<u>Objective</u>: The City entered into the swap in order to maximize the savings associated with the refunding of the bonds and to reduce the City's risk exposure. The actual overall savings to be realized by the City will depend upon the net payments received under the swap agreement.

**Basis Risk**: By entering into a swap based upon the 30 day LIBOR rate of interest, the City has undertaken basis risk associated with a change in tax rates and structure. While the average relationship between the SIFMA (tax-exempt) and LIBOR (taxable) interest rates has been 67%, this relationship may not always apply. Since late 2008, this relationship has been significantly higher or lower for various periods of time due to disruptions in the financial markets. The payments received from the counterparty may be less than the amount owed to the counterparty, resulting in a net increase in debt service. From 2013 to early 2016, the SIFMA/LIBOR relationship was significantly lower than 67%. In this case, payments received from the counterparty were greater than the amount owed to the counterparty which resulted in a net decrease in debt service. In addition, a reduction in federal income tax rates, such as the one that was approved in late 2017, might increase the percentage relationship between SIFMA and LIBOR and increase the cost of the financing. In 2021, payments owed by the counterparty to the City exceeded payments owed to the counterparty by \$1,440.

<u>Counterparty Risk</u>: The City selected a highly rated counterparty in order to minimize this risk. However, over the long-term it is possible that the credit strength of PNC could change and this event could trigger a termination payment on part of the City.

<u>Termination Risk</u>: The swap agreement may be terminated prior to its stated termination date under certain circumstances. Upon termination, a payment may be owed by the City to PNC or by PNC to the City, depending upon the prevailing economic circumstances at the time of the termination. The City obtained insurance to mitigate much of the risk associated with termination due to the event of a downgrade of the City's bond rating. An amount due by the City to PNC upon early termination of the agreement is insured by FSA (now Assured Guaranty Municipal Corp.) up to a maximum amount of \$8,000,000.

*Fair Value*: The fair value of the swap at December 31, 2021 as reported by PNC totaled approximately \$1,000, which would be owed by the City.

**Debt Covenants:** The Enterprise Funds' bond agreements have certain restrictive covenants and principally require that bond reserve funds be maintained for most series of bonds and that fees charged to customers be in sufficient amounts, as defined, to satisfy the obligations under the indenture agreements. In addition, special provisions exist regarding covenant violations, redemption of principal and maintenance of properties in good condition.

### **Defeasance of Debt**

The City has defeased certain debt by placing cash or the proceeds of new bonds in irrevocable trusts to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and defeased bonds are not recorded in the City's financial statements.

The aggregate amount of defeased debt outstanding at December 31, 2021 is as follows:

|    |                  | Bond Issue                                |   |  |

### **Airport Special Facilities Revenue Bonds**

Airport Special Facilities Revenue Bonds, Series 1998, totaling \$75,120,000, were issued in 1998 to finance the design and construction of certain airport facilities leased to Continental Airlines, including a new regional jet concourse. Because principal and interest on these bonds are unconditionally guaranteed by Continental Airlines (now United Continental Holdings, Inc.) and paid directly by Continental Airlines, these bonds do not constitute a debt, liability or general obligation of the City or a pledge of the City's revenues. As such, no liabilities relating to these bonds are included in the accompanying financial statements.

### **Pledges of Future Revenues**

The City has pledged future airport revenues to repay \$559,680,000 in various Airport System Revenue Bonds issued in various years since 2007. Proceeds from the bonds provided financing for airport operations. The bonds are payable from airport net revenues and are payable through 2048. Annual principal and interest payments on the bonds are expected to require less than 69% of net revenues. The total principal and interest remaining to be paid on the various Airport System Revenue Bonds is \$692,027,000. Principal and interest funded in the current year and total net revenues (including other available funds) were \$65,744,000 and \$94,166,000 respectively.

The City has pledged future power system revenues, net of specified operating expenses, to repay \$171,053,000 in various Public Power System Revenue Bonds issued in various years since 2008. Proceeds from the bonds provided financing for Public Power System improvements. The bonds are payable from Public Power System net revenues and are payable through 2038. Annual principal and interest payments on the bonds are expected to require less than 59% of net revenues. The total principal and interest remaining to be paid on the various Public Power System Revenue Bonds is \$296,926,000. Principal and interest paid for the current year and total net revenues were \$15,877,000 and \$27,067,000 respectively.

The City has pledged future water system revenues, net of specified operating expenses, to repay \$404,670,000 in various Senior Lien Water Revenue Bonds and Subordinate Lien Bonds issued in various years since 2012. Proceeds from the bonds provided financing for Water System improvements. The bonds are payable from Water System net revenues and are payable through 2042. Annual principal and interest payments on the bonds are expected to require less than 46% of net revenues. The total principal and interest remaining to be paid on the various Senior and Subordinate Lien Water Revenue Bonds is \$497,984,000. Amounts deposited for principal and interest in the current year on the Senior Lien Bonds and total net revenues were \$41,550,000 and \$133,236,000 respectively.

The City has pledged future water pollution control revenues to repay \$29,435,000 in Water Pollution Control Revenue Bonds issued in 2016. Proceeds from the bonds are being used to pay capital costs relating to the acquisition, construction and improvement of the system. The bonds are payable from water pollution control net revenues and are payable through 2045. Annual principal and interest payments on the bonds are expected to require less than 29% of net revenues. The total principal and interest remaining to be paid on the Water Pollution Control Revenue Bonds is \$51,195,000. Principal and interest funded in the current year and total net revenues (including other available funds) were \$2,132,000 and \$7,451,000 respectively.

The City has pledged future revenues from certain parking facilities, net of specified operating expenses and other operating revenues to repay \$3,930,000 of Parking Facilities Refunding Revenue Bonds issued in 2006. Proceeds from the bonds initially issued provided financing for the construction of parking facilities. The bonds are payable from parking facilities net revenues and are payable through 2022. Annual principal and interest payments on the bonds are expected to require the full amount of net operating revenues. The total principal and interest remaining to be paid on the Parking Facilities Refunding Revenue Bonds is \$4,136,000. Principal and interest paid for the current year (including net swap payments) and total net revenues were \$4,131,000 and \$1,440,000 respectively.

In 2021, no additional pledged revenue was required to meet the debt service on the Parking Facilities Refunding Revenue Bonds. The trust indenture requires, among other things, that the Division will fix parking rates and will charge and collect fees for the use of the parking facilities and will restrict operating expenses. As of December 31, 2021, the Division of Parking Facilities was in compliance with the terms and requirements of the trust indenture.

### **Derivative Instruments**

Derivative instruments are contracts, the value of which depends on, or derives from, the value of an underlying asset, index or rate. The most common types of derivatives used by governments are interest rate swaps and interest rate locks. The City has entered into various derivative or hedging agreements since 1999. A detailed description of each outstanding derivative, including its terms, objectives, risks and fair value, can be found in the section discussing the bonds to which the derivative relates.

The derivative instruments are classified as Level 2 inputs of the fair value hierarchy and are considered to be significant other observable inputs. The derivative instruments are calculated using the zero-coupon discounting method which takes into consideration the prevailing interest rate environment, the specific terms and conditions of a given transaction and assumes that the current forward rate implied by the yield curve are the market's best estimate of future spot interest rates. The income approach is then used to obtain the fair value of the swaps, where future amounts are converted to a single current (discounted) amount, using a rate of return that takes into account the relative risk of nonperformance associated with the cash flows and time value of money.

The table below presents the fair value balances and notional amounts of the City's derivative instruments outstanding at December 31, 2021, classified by type and the changes in fair value of these derivatives during fiscal year 2021 as reported in the 2021 financial statements. The fair values of the interest rate swaps, which reflect the prevailing interest rate environment at December 31, 2021 and the specific terms and conditions of each swap, have been provided by the respective counterparty for each swap and confirmed by the City's financial advisor.

### NOTE 6 – RISK MANAGEMENT

Self Insurance: The City is exposed to various risks of loss related to torts; thefts of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City does not carry commercial insurance for such risks, except for certain proprietary funds and the football stadium. In accordance with GASB Statement No. 10, Accounting and Financial Reporting for Risk Financing and Related Insurance Issues, claims liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported (IBNRs). Claims that meet this criteria are reported as liabilities of either governmental or business-type activities in the government-wide statement of net position. In the fund financial statements, claims liabilities that relate to proprietary funds are reported. The current portion of claims is reported as a fund liability in governmental funds; however, the long-term portion of claims liabilities is not reported.

The result of the process to estimate the claims liability is not an exact amount as it depends on many complex factors, such as inflation, changes in legal doctrines and damage awards. Accordingly, claims are re-evaluated periodically to consider the effects of inflation, recent claim settlement trends (including frequency and amount of pay-outs) and other economic and social factors. The estimate of the claims liability also includes amounts for incremental claim adjustment expenses related to specific claims and other claim adjustment expenses, regardless of whether allocated to specific claims. Estimated recoveries, for example from salvage or subrogation, are another component of the claims liability estimate.

Changes in the estimated claims payable for all funds during the years ended December 31, 2021 and 2020 were as follows:

|  | <u>2021</u><br>(Amounts in | <u>2020</u><br>Thousands) |
|--|----------------------------|---------------------------|
| Estimated claims payable, January 1<br>Current year claims (including IBNRs) and changes | \$ 13,550                  | \$ 18,675                 |
| in estimates   | 2,683                      | 5,963                     |
| Claim payments   | (6,709)                    | (11,088)                  |
| Estimated claims payable, December 31  | \$ 9,524                   | \$ 13,550                 |

The estimated claims liabilities are based on the estimated cost of settling claims (including incremental claim adjustment expenses) through a case-by-case review of all outstanding claims and by using historical experience. Claims payable are included as accounts payable on the modified accrual financial statements and are reclassed to long-term obligations as due within one year or due in more than one year on the statement of net position.

*Insurance*: Certain proprietary funds carry insurance to cover particular liability risks and property protection. Otherwise, the City is generally self-insured. No material losses, including incurred but not reported losses, occurred in 2021. There was no significant decrease in any insurance coverage in 2021. In addition, there were no insurance settlements in excess of insurance coverage during the past five years.

The City provides the choice of two separate health insurance plans to its employees. The operating funds are charged a monthly rate per employee by type of coverage.

Expenses for claims are recorded on a current basis. Claims are accrued based upon an actuarially estimated claims liability IBNR. These estimates are based on past experience and current claims outstanding. Actual claims may differ from the estimates. This claims liability is recorded in the Internal Service Fund and the government-wide statements as claims payable.

Changes in the estimated claims payable for the Health and Prescription Self Insurance Funds during the year ended December 31, 2021 and 2020 were as follows:

|  | <u>2021</u><br>(Amounts in | <u>2020</u><br>Thousands) |
|--|----------------------------|---------------------------|
| Estimated claims payable, January 1<br>Current year claims (including IBNRs) and changes | \$ 11,508                  | \$ 9,466                  |
| in estimates   | 109,097                    | 100,788                   |
| Claim p ay ments   | (108,721)                  | (98,746)                  |
| Estimated claims payable, December 31  | \$ 11,884                  | \$ 11,508                 |

In January of 2003, the City exercised the option of retrospective rating as the premium rating mechanism for its workers' compensation program. The total estimated claims liability outstanding at December 31, 2021 was \$15,637,000. Of this amount, \$7,552,000 was recorded as a fund liability within each respective fund. The remaining \$8,085,000 is due in future years and is recorded as a liability in the Workers' Compensation Reserve Internal Service Fund. This liability is funded by charging the appropriate funds their proportionate share of this liability and recording the associated due to or due from as appropriate.

### **NOTE 7 – CONTINGENCIES**

*General Contingencies*: Various claims and lawsuits are pending against the City. In accordance with GASB Statement No. 10, those claims which are considered "probable" are accrued (see Note 6 – Risk Management), while those claims that are considered "reasonably possible" are disclosed but not accrued.

As of December 31, 2021, the City had \$16,721,000 in claims for which an unfavorable outcome is deemed to be reasonably possible.

These estimates were based on a case-by-case review of outstanding claims by the City's in-house legal department.

**Contingent Liabilities:** The City is a member of American Municipal Power (AMP) and has participated in the AMP Generating Station (AMPGS) Project. This project was intended to develop a pulverized coal power plant in Meigs County, Ohio. The City's project share was 80,000 kilowatts (kW) of a total 771,281 kW, giving the City a 10.37% project share. The AMPGS Project required participants to sign "take or pay" contracts with AMP. As such, the participants are obligated to pay any costs incurred for the project. In November 2009, the participants voted to terminate the AMPGS Project due to projected escalating costs. All project costs incurred prior to the cancellation and related to the cancellation were therefore deemed impaired and participants were obligated to pay those incurred costs. Prior to 2014, payment of these costs was not required due to AMP's pursuit of legal action to collect them from Bechtel Corporation (Bechtel). As a result of a March 31, 2014 legal ruling, the AMP Board of Trustees on April 15, 2014 and the AMPGS participants on April 16, 2014, approved the collection of the impaired costs and provided the participants with an estimate of their liability. The City's estimated share at March 31, 2014 of the impaired costs was \$13,813,694. The City received a credit of \$6,447,719 related to its participation in the AMP Fremont Energy Center (AFEC) Project and another credit of \$3,617,994 related to the AMPGS costs deemed to have future benefit for the project participants, classified as Plant Held for Future Use (PHFU), leaving an estimated net impaired costs balance of \$3,747,981. Because payment is now probable and reasonably estimable, the City is reporting a payable to AMP in its business-type activities and in the Cleveland Public Power fund for these impaired costs. AMP financed these costs on its revolving line of credit. Any additional costs (including line-of-credit interest and legal fees) or amounts received related to the project will impact the City's net impaired cost balance either positively or negatively. These amounts will be recorded as they become estimable.

In late 2016, AMP reached a settlement in the Bechtel litigation. On December 8, 2016, at the AMPGS Participants meeting, options for the allocation of the Settlement funds were approved. The AMPGS Participants and the AMP Board of Trustees voted to allocate the Settlement among the participants and the AMP General Fund based on each

participant's original project share in kW including the AMP General Fund's project share. Since March 31, 2014, the City has made payments of \$2,768,327 to AMP toward its net impaired cost estimate. Also since March 31, 2014, the City's allocation of additional costs incurred by the project is \$170,475 and interest expense incurred on AMP's line-of-credit of \$299,353. As part of the Bechtel Settlement, the City received a credit of \$394,149 against its stranded cost liability, resulting in a net impaired cost estimate at December 31, 2021, of \$1,055,333.

The City does have a potential PHFU liability of \$4,109,062 resulting in a net total potential liability of \$5,164,395, assuming the assets making up the PHFU (principally the land comprising the Meigs County site) has no value and also assuming the City's credit balance would earn zero interest. Stranded costs as well as PHFU costs are subject to change, including future borrowing costs on the AMP line of credit. Activities include negative items such as property taxes as well as positive items like revenue from leases or sale of all or a portion of the Meigs County site property.

The City intends to recover these costs and repay AMP over the next 8 years through a power cost adjustment, thus this incurred cost has been capitalized and reported as a regulated asset, as allowed by GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities.* The City intends to recover 50% of these costs from the customers through the Energy Adjustment Charge passed along to customer's monthly bills.

Cleveland Public Power (CPP) has various claims that could result in a material adverse effect on the CPP fund. This amount is indeterminable at this time.

**Contingencies Under Grant Programs:** The City participates in a number of federally assisted Investment Act Grant Programs, principal of which are Community Development Block Grants, the Healthy Start Initiative, Federal HOME Program, Youth Opportunity Area Grant, Workforce Innovation and Opportunity Act (WIOA) Grant, Empowerment Zone and Federal Aviation Administration Airport Improvement Grant Programs. These programs are subject to financial and compliance audits by the grantors or their representatives.

In addition to the federally assisted Investment Act Grant Programs, the City also received American Rescue Plan Act (ARPA) funds in 2021. These federal funds are subject to financial and compliance audits by the grantor or their representative and are subject to availability.

### NOTE 8 – INTERFUND TRANSACTIONS AND BALANCES

*Interfund Transactions:* During the course of normal operations, the City records numerous transactions between funds including expenditures and transfers of resources to provide services, subsidize operations and service debt.

The City has the following types of transactions among funds:

Nonreciprocal interfund transfers – Flows of assets between funds without equivalent flows of assets in return and without a requirement for repayment. This includes transfers to subsidize various funds.

For the year ended December 31, 2021, transfers consisted of the following:

|   |           |           |                                |    |               |                |                  | Transfers In     |                     |                  |

*Interfund Balances:* Interfund balances at December 31, 2021 represent charges for services or reimbursable expenses. These remaining balances resulted from the time lag between the dates that (1) interfund goods or services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting records and (3) payments between funds are made. All are expected to be paid within one year.

Reciprocal interfund services provided and used – Purchases and sales of goods and services between funds for a price approximating their external exchange value.

Interfund receivable and payable balances as of December 31, 2021 are as follows:

|                           |              | Due From               |                                 |                                      |  |   |   |   |   |  |   |                                     |                                     |

### NOTE 9 – INCOME TAXES

During 2021, the City income tax rate remained at 2.5% and the credit provided to City residents for income taxes paid to other municipalities remained at 100% with a maximum credit limited to 2.5%. A portion of the City income tax is restricted in its use to capital expenditures and debt service and is included in the Restricted Income Tax Special Revenue Fund. All other income tax proceeds are included in the General Fund.

Employers within the City are required to withhold income taxes on employee compensation and remit withholdings to the City at least quarterly. Corporations and other individual taxpayers are required to pay their estimated tax quarterly and file a declaration annually.

### **NOTE 10 – PROPERTY TAXES**

Property taxes include amounts levied against all real and public utility property located in the City. The 2020 levy for collection in 2021 was based upon an assessed valuation of approximately \$5.2 billion. Ohio law prohibits taxation of property from all taxing authorities in excess of 10 mills of assessed value without a vote of the people. Under current procedures, the City's share is 4.4 mills, of which 4.35 mills is dedicated to debt service and .05 mills is dedicated to the payment of fire pension obligations. A revaluation of all property is required to be completed no less than every six years, with a statistical update every third year. The last update was completed in 2021. Assessed values are established by the Cuyahoga County (County) Fiscal Officer. The County Treasurer collects property taxes on behalf of all taxing districts in the County including the City.

Real property taxes, excluding public utility property, are assessed at 35% of appraised market value. Pertinent real property tax dates are:

- Collection Dates February 10 and July 15 of the current year
- Lien Date January 1 of the year preceding the collection year
- Levy Date October 1 of the year preceding the collection year

An electric company's taxable utility production equipment is assessed at 25% of true value, while all of its other taxable property is assessed at 88% of true value. Pertinent public utility tangible personal property tax dates are:

- Collection Dates February 10 and July 15 of the current year
- Lien Date January 1 of the year preceding the collection year
- Levy Date October 1 of the year preceding the collection year

### NOTE 11 – DEFERRED INFLOWS / DEFERRED OUTFLOWS OF RESOURCES

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represent a consumption of net assets that applies to future periods and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represent an acquisition of net assets that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time.

On the modified accrual basis of accounting, the City has recorded certain receivables relating to property taxes and unavailable revenue. Unavailable revenues and property taxes levied to finance 2021 operations have been reported as deferred inflows of resources in the governmental fund balance sheet for the following:

|                                      | Governmental Type Funds |         |                 |  |    |   |               |         |  |
|--------------------------------------|-------------------------|---------|-----------------|--|----|---|---------------|---------|--|
|                                      |                         | General | Gov<br><u>F</u> | eneral<br>ernment<br><u>`unds</u><br>mounts in |    | Other<br>vernmental<br><u>Funds</u><br>sands) | <u>Totals</u> |         |  |

### NOTE 12 – DEFINED BENEFIT PENSION PLANS

*Net Pension Liability:* The net pension liability reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions between an employer and its employees of salaries and benefits for employee services. Pensions are provided to an employee on a deferred-payment basis as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents the City's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments (COLA) and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

The ORC limits the City's obligation for this liability to annually required payments. The City cannot control benefit terms or the manner in which pensions are financed; however, the City does receive the benefit of employees' services in exchange for compensation including pension.

GASB Statement No. 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State Statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State Statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan's unfunded benefits is presented as a long-term net pension liability on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in accrued wages and benefits on both the accrual and modified accrual bases of accounting.

**Ohio Public Employees Retirement System (OPERS):** City employees, other than full-time police and firefighters, participate in OPERS. OPERS administers three separate pension plans. The Traditional Pension Plan is a cost-sharing, multiple-employer defined benefit pension plan. The Member-Directed Plan is a defined contribution plan and the Combined Plan is a cost-sharing, multiple-employer defined benefit pension plan. While members (e.g. City employees) may elect the Member-Directed Plan and the Combined Plan, substantially all employee members are in OPERS' Traditional Plan; therefore, the following disclosure focuses on the Traditional Pension Plan.

OPERS provides retirement, disability, survivor and death benefits and annual COLA to members of the Traditional Plan. Authority to establish and amend benefits is provided by Chapter 145 of the ORC. OPERS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about OPERS' fiduciary net position that may be obtained by visiting <u>https://www.opers.org/financial/reports.shtml</u>, by writing to OPERS, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 800-222-7377.

Senate Bill (SB) 343 was enacted into law with an effective date of January 7, 2013. In the legislation, members were categorized into three groups with varying provisions of the law applicable to each group. The following table provides age and service requirements for retirement and the retirement formula applied to final average salary (FAS) for the three member groups under the traditional plan as per the reduced benefits adopted by SB 343 (see OPERS Annual Comprehensive Financial Report referenced above for additional information):

**Group A** Eligible to retire prior to January 7, 2013 or five years after January 7, 2013

### State and Local

Age and Service Requirements: Age 60 with 60 months of service credit or Age 55 with 25 years of service credit

### Formula:

2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30 **Group B** 20 years of service credit prior to January 7, 2013 or eligible to retire ten years after January 7, 2013

### State and Local

Age and Service Requirements: Age 60 with 60 months of service credit or Age 55 with 25 years of service credit

### Formula:

2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30 Group C Members not in other Groups and members hired on or after January 7, 2013

### State and Local

Age and Service Requirements: Age 57 with 25 years of service credit or Age 62 with 5 years of service credit

### Formula:

2.2% of FAS multiplied by years of service for the first 35 years and 2.5% for service years in excess of 35 FAS represents the average of the three highest years of earnings over a member's career for Groups A and B. Group C is based on the average of the five highest years of earnings over a member's career. Members who retire before meeting the age and years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount.

When a benefit recipient has received benefits for 12 months, an annual COLA is provided. This COLA is calculated on the base retirement benefit at the date of retirement and is not compounded. For those retiring prior to January 7, 2013, the COLA will continue to be a 3.0% simple annual COLA. For those retiring subsequent to January 7, 2013, beginning in calendar year 2019, the COLA will be based on the average percentage increase in the Consumer Price Index (CPI), capped at 3.0%.

*Funding Policy:* The ORC provides statutory authority for member and employer contributions. For 2021, member contribution rates were 10.0% of salary and employer contribution rates were 14.0%.

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll. The City's contractually required contribution was \$43,537,000 for 2021. All required payments have been made.

**Ohio Police & Fire Pension Fund (OP&F)**: City full-time police and firefighters participate in OP&F, a cost-sharing, multiple-employer defined benefit pension plan administered by OP&F. OP&F provides retirement and disability pension benefits, annual COLA and death benefits to plan members and beneficiaries. Benefit provisions are established by the Ohio State Legislature and are codified in Chapter 742 of the ORC. OP&F issues a publicly available financial report that includes financial information and required supplementary information and detailed information about OP&F fiduciary net position. The report that may be obtained by visiting the OP&F website at www.op-f.org or by writing to the OP&F Pension Fund, 140 East Town Street, Columbus, Ohio 43215-5164.

Upon attaining a qualifying age with sufficient years of service, a member of OP&F may retire and receive a lifetime monthly pension. OP&F offers four types of service retirement: normal, service commuted, age/service commuted and actuarially reduced. Each type has different eligibility guidelines and is calculated using the member's average annual salary. The following discussion of the pension formula relates to normal service retirement.

For members hired after July 1, 2013, the minimum retirement age is 52 for normal service retirement with at least 25 years of service credit. For members hired on or before July 1, 2013, the minimum retirement age is 48 for normal service retirement with at least 25 years of service credit.

The annual pension benefit for normal service retirement is equal to a percentage of the allowable average annual salary. The percentage equals 2.5% for each of the first 20 years of service credit, 2.0% for each of the next five years of service credit and 1.5% for each year of service credit in excess of 25 years. The maximum pension of 72.0% of the allowable average annual salary is paid after 33 years of service credit.

Under normal service retirement, retired members who are at least 55 years old and have been receiving OP&F benefits for at least one year may be eligible for a COLA. The age 55 provision for receiving a COLA does not apply to those who are receiving a permanent and total disability benefit and statutory survivors.

Members retiring under normal service retirement, with less than 15 years of service credit on July 1, 2013, will receive a COLA equal to either 3.0% or the percent increase, if any, in the CPI over the 12-month period ending on September 30 of the immediately preceding year, whichever is less. The COLA amount for members with at least 15 years of service credit as of July 1, 2013 is equal to 3.0% of their base pension or disability benefit.

|   | Police  | Firefighters |
|---|---------|--------------|
| 2021 Statutory Maximum Contribution Rates |         |              |
| Employer                                  | 19.50 % | 24.00 %      |
| Employee                                  | 12.25   | 12.25        |
| 2021 Actual Contribution Rates            |         |              |
| Employer:                                 |         |              |
| Pension                                   | 19.00   | 23.50        |
| Post-employment Health Care Benefits      | 0.50    | 0.50         |
| Total Employer                            | 19.50 % | 24.00 %      |
| Employee                                  | 12.25 % | 12.25 %      |

*Funding Policy:* The ORC provides statutory authority for member and employer contributions as follows:

Employer contribution rates are expressed as a percentage of covered payroll. The City's contractually required contribution to OP&F was \$38,223,000 for 2021. All required payments have been made.

**Pension Liabilities, Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**: The net pension liability for OPERS was measured as of December 31, 2020 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. OP&F's total pension liability was measured as of December 31, 2020 and was determined by rolling forward the total pension liability as of January 1, 2020 to December 31, 2020. The City's proportion of the net pension liability was based on the City's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

|                                |                | OPERS    |              | OP&F       |    | Total   |

| Total                    | \$                     | (128,406)  | \$ | (19,301) | \$ | (147,707) |

*Actuarial Assumptions – OPERS:* Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation. The total pension liability in the December 31, 2020, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

| Valuation Date                               | December 31, 2020                    |
|--|--------------------------------------|
| Wage Inflation                               | 3.25%                                |
| Future Salary Increases, including inflation | 3.25 to 10.75%                       |
| COLA or Ad Hoc COLA                          | 3.25%, simple                        |
|  | Pre 1/7/2013 retirees: 3%, simple    |
|  | Post 1/7/2013 retirees: .50%, simple |
|  | through 2021, then 2.15%, simple     |
| Investment Rate of Return                    | 7.2%                                 |
| Actuarial Cost Method                        | Individual Entry Age                 |
| Mortality Tables                             | RP-2014                              |

Pre-retirement mortality rates are based on the RP-2014 Employees Mortality Table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates are based on the RP-2014 Healthy Annuitant Mortality Table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates for disabled retirees are based on the RP-2014 Disabled Mortality Table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates for disabled retirees are based on the RP-2014 Disabled Mortality Table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Mortality rates for a particular calendar year are determined by applying the MP-2015 Mortality Improvement Scale to all of the above described tables.

The most recent experience study was completed for the five year period ended December 31, 2015.

The long-term rate of return on defined benefit investment assets was determined using a building-block method in which best-estimate ranges of expected future rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future rates of return by the target asset allocation percentage, adjusted for inflation.

The allocation of investment assets with the Defined Benefit Portfolio is approved by the Board as outlined in the annual investment plan. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the defined benefit pension plans. The table below displays the Board-approved asset allocation policy for 2020 and the long-term expected real rates of return:

| Asset Class            | Target<br>Allocation | Weighted Average<br>Long-Term Expected<br>Real Rate of Return<br>(Arithmetic) |  |  |  |  |
|------------------------|----------------------|---|--|--|--|--|
| Fixed Income           | 25.00 %              | 1.32 %  |  |  |  |  |
| Domestic Equities      | 21.00                | 5.64  |  |  |  |  |
| Real Estate            | 10.00                | 5.39  |  |  |  |  |
| Private Equity         | 12.00                | 10.42   |  |  |  |  |
| International Equities | 23.00                | 7.36  |  |  |  |  |
| Other Investments      | 9.00                 | 4.75  |  |  |  |  |
| Total                  | 100.00 %             | 5.43 %  |  |  |  |  |

**Discount Rate:** The discount rate used to measure the total pension liability was 7.2%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefits payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the City's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate: The following table presents the City's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.2%, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.2%) or one-percentage-point higher (8.2%) than the current rate:

|                              | Decrease<br>6.2%) | Current Discount Rate<br>(7.2%)<br>(Amounts in Thousands) |         | Increase<br>8.2%) |
|------------------------------|-------------------|---|---------|-------------------|
| City's proportionate share   |                   |   |         |                   |
| of the net pension liability | \$<br>560,564     | \$  | 290,351 | \$<br>65,819      |

Actuarial Assumptions – OP&F: OP&F's total pension liability as of December 31, 2020 is based on the results of an actuarial valuation date of January 1, 2020 and rolled-forward using generally accepted actuarial procedures. The total pension liability is determined by OP&F's actuaries in accordance with GASB Statement No. 67, *Financial Reporting for Pension Plans – An Amendment of GASB Statement No. 25*, as part of their annual valuation. Actuarial valuations of an ongoing plan involve estimates of reported amounts and assumptions about probability of occurrence of events far into the future. Examples include assumptions about future employment mortality, salary increases, disabilities, retirements and employment terminations. Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of January 1, 2020, are presented below:

| Valuation Date             | January 1, 2020       |
|----------------------------|-----------------------|
| Actuarial Cost Method      | Entry Age Normal      |
| Investment Rate of Return  | 8.00%                 |
| Projected Salary Increases | 3.75%-10.50%          |
| Payroll Increases          | 3.25%                 |
| Inflation Assumptions      | 2.75%                 |
| Cost of Living Adjustments | 2.20% per year simple |

The most recent experience study was completed December 31, 2016.

*Health Mortality:* Mortality for non-disabled participants is based on the RP-2014 Total Employee and Healthy Annuitant Mortality Tables rolled back to 2006, adjusted according to the rates in the following table and projected with the Conduent Modified 2016 Improvement Scale. Rates for surviving beneficiaries are adjusted by 120.0%.

| Age        | Police | Fire |
|------------|--------|------|
| 67 or less | 77 %   | 68 % |
| 68-77      | 105    | 87   |
| 78 and up  | 115    | 120  |

**Disabled Mortality:** Mortality for disabled retirees is based on the RP-2014 Disabled Morality Tables rolled back to 2006, adjusted according to the rates in the following table, and projected with the Conduent Modified 2016 Improvement Scale.

| Age        | Police Fire |      |  |
|------------|-------------|------|--|
| 59 or less | 35 %        | 35 % |  |
| 60-69      | 60          | 45   |  |
| 70-79      | 75          | 70   |  |
| 80 and up  | 100         | 90   |  |

The long-term expected rate of return on pension plan investments was determined using a building-block approach and assumes a time horizon, as defined in the Statement of Investment Policy. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted average of the expected real return premiums for each asset class, adding the projected inflation rate and adding the expected return from rebalancing uncorrelated asset classes.

Best estimates of the long-term expected geometric real rates of return for each major asset class included in OP&F's target asset allocation as of December 31, 2020 are summarized below:

| Asset Class                     | Target<br>Allocation | Long-Term Expected<br>Real Rate of Return |
|---------------------------------|----------------------|---|
| Domestic Equity                 | 21 %                 | 4.10 %                                    |
| Non-US Equity                   | 14                   | 4.80                                      |
| Private Markets                 | 8                    | 6.40                                      |
| Core Fixed Income *             | 23                   | 0.90                                      |
| High Yield Fixed Income         | 7                    | 3.00                                      |
| Private Credit                  | 5                    | 4.50                                      |
| U.S. Inflation Linked Bonds *   | 17                   | 0.70                                      |
| Midstream Energy Infrastructure | 5                    | 5.60                                      |
| RealAssets                      | 8                    | 5.80                                      |
| Gold                            | 5                    | 1.90                                      |
| Private Real Estate             | 12                   | 5.30                                      |
| Total                           | 125 %                |   |

\* levered 2.5x

Note: Assumptions are geometric

OP&F's Board of Trustees has incorporated the risk parity concept into OP&F's asset liability valuation with the goal of reducing equity risk exposure, which reduces overall Total Portfolio risk without sacrificing return and creating a more risk-balanced portfolio based on their relationship between asset classes and economic environments. From the notional portfolio perspective above, the Total Portfolio may be levered up to 1.25 times due to the application of leverage in certain fixed income asset classes.

**Discount Rate:** The total pension liability was calculated using the discount rate of 8.0%. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State Statute. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return 8.0%. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, a long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the City's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate: Net pension liability is sensitive to changes in the discount rate and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 8.0%, as well as what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (7.0%), or one percentage point higher (9.0%) than the current rate.

|                              |                       |         |                         | Current        |     |         |  |                   |
|------------------------------|-----------------------|---------|-------------------------|----------------|-----|---------|--|-------------------|
|                              | 1% Decrease<br>(7.0%) |         | Discount Rate<br>(8.0%) |                |     |         |  | Increase<br>9.0%) |
|                              |                       | (A      | moun                    | ts in Thousand | ds) |         |  |                   |
| City's proportionate share   |                       |         |                         |                |     |         |  |                   |
| of the net pension liability | \$                    | 691,139 | \$                      | 496,462        | \$  | 333,538 |  |                   |

### NOTE 13 – DEFINED BENEFIT OPEB PLANS

*Net OPEB Liability/(Asset):* The net OPEB liability/(asset) reported on the statement of net position represents a liability/(asset) to employees for OPEB. OPEB is a component of exchange transactions between an employer and its employees of salaries and benefits for employee services. OPEB is provided to an employee on a deferred-payment basis as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for OPEB is a present liability/(asset) because it was created as a result of employment exchanges that already have occurred.

The net OPEB liability/(asset) represents the City's proportionate share of each OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each OPEB plan's fiduciary net position. The net OPEB liability/(asset) calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

The ORC limits the City's obligation for this liability/(asset) to annually required payments. The City cannot control benefit terms or the manner in which OPEB is financed; however, the City does receive the benefit of employees' services in exchange for compensation including OPEB.

GASB Statement No. 75 assumes the liability/(asset) is solely the obligation of the employer, because they benefit from employee services. OPEB contributions come from these employers and health care plan enrollees which pay a portion of the health care costs in the form of a monthly premium. The ORC permits, but does not require, the retirement systems to provide healthcare to eligible benefit recipients. Any change to benefits or funding could significantly affect the net OPEB liability/(asset). Resulting adjustments to the net OPEB liability/(asset) would be effective when the changes are legally enforceable. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The proportionate share of each plan's unfunded benefits is presented as a long-term net OPEB liability/(asset) on the accrual basis of accounting. Any liability for the contractually-required OPEB contribution outstanding at the end of the year is included in accrued wages and benefits on both the accrual and modified accrual bases of accounting.

*Plan Description – OPERS:* OPERS administers three separate pension plans: the Traditional Pension Plan, a costsharing, multiple-employer defined benefit pension plan; the Member-Directed Plan, a defined contribution plan; and the Combined Plan, a cost-sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan.

OPERS maintains a cost-sharing, multiple-employer defined benefit post-employment health care trust, which funds multiple health care plans including medical coverage, prescription drug coverage and deposits to a Health Reimbursement Arrangement to qualifying benefit recipients of both the Traditional Pension and the Combined Plans.

This trust is also used to fund health care for Member-Directed Plan participants, in the form of a Retiree Medical Account (RMA). At retirement or refund, Member Directed Plan participants may be eligible for reimbursement of qualified medical expenses from their vested RMA balance.

In order to qualify for postemployment health care coverage, age and service retirees under the Traditional Pension and Combined Plans must have twenty or more years of qualifying Ohio service credit. Health care coverage for disability benefit recipients and qualified survivor benefit recipients is available. The health care coverage provided by OPERS meets the definition of OPEB as described in GASB Statement No. 75. See OPERS' Annual Comprehensive Financial Report referenced below for additional information.

The ORC permits, but does not require, OPERS to provide health care to its eligible benefit recipients. Authority to establish and amend health care coverage is provided to the Board in Chapter 145 of the ORC.

Disclosures for the health care plan are presented separately in the OPERS financial report. Interested parties may obtain a copy by visiting <u>https://www.opers.org/financial/reports.shtml</u>, by writing to OPERS, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 800-222-7377.

*Funding Policy:* The ORC provides the statutory authority requiring public employers to fund postemployment health care through their contributions to OPERS. When funding is approved by the OPERS Board, a portion of each employer's contribution to OPERS is set aside to fund OPERS health care plans.

Employer contribution rates are expressed as a percentage of the earnable salary of active members. In 2021, state and local employers contributed at a rate of 14.0% of earnable salary. This is the maximum employer contribution rates permitted by the ORC. Active member contributions do not fund health care.

Each year, the Board determines the portion of the employer contribution rate that will be set aside to fund health care plans. The portion of employer contributions allocated to health care for members in the Traditional Pension Plan and Combined Plan was 0.0% for both plans. The Board is also authorized to establish rules for the retiree or their surviving beneficiaries to pay a portion of the health care provided. Payment amounts vary depending on the number of covered dependents and the coverage selected. The employer contribution as a percentage of covered payroll deposited into the RMA for participants in the Member-Directed Plan for 2021 was 4.0%.

For the year ended December 31, 2021, OPERS did not allocate any employer contributions to the OPEB plan.

*Plan Description – OP&F:* The City contributes to the OP&F sponsored healthcare program, a cost-sharing, multipleemployer defined post-employment healthcare plan administered by a third-party provider. This program is not guaranteed and is subject to change at any time upon action of the Board of Trustees. OP&F provides health care benefits including coverage for medical, prescription drug, dental, vision and Medicare Part B Premium to retirees, qualifying benefit recipients and their eligible dependents.

OP&F provides access to postretirement health care coverage for any person who receives or is eligible to receive a monthly service, disability, or statutory survivor benefit or is a spouse or eligible dependent child of such person. The health care coverage provided by OP&F meets the definition of OPEB as described in GASB Statement No. 75.

The ORC allows, but does not mandate, OP&F to provide OPEB benefits. Authority for the OP&F Board of Trustees to provide health care coverage to eligible participants and to establish and amend benefits is codified in Chapter 742 of the ORC.

OP&F issues a publicly available financial report that includes financial information and required supplementary information for the plan. The report may be obtained by writing to OP&F, 140 East Town Street, Columbus, Ohio 43215-5164. The report is also available on the OP&F's website at <u>www.op-f.org.</u>

*Funding Policy:* The ORC provides for contribution requirements of the participating employers and of plan members to the OP&F defined benefit pension plan. Participating employers are required to contribute to the pension plan at rates expressed as percentages of the payroll of active pension plan members, currently 19.5% and 24.0% of covered payroll for police and fire employer units, respectively. The ORC states that the employer contribution may not exceed 19.5% of covered payroll for police employer units and 24.0% of covered payroll for fire employer units. Active members do not make contributions to the OPEB Plan.

OP&F maintains funds for health care in two separate accounts. There is one account for health care benefits and one account for Medicare Part B reimbursements. A separate health care trust accrual account is maintained for health care benefits under IRS Code Section 115 trust. An Internal Revenue Code 401(h) account is maintained for Medicare Part B reimbursements.

The Board of Trustees is authorized to allocate a portion of the total employer contributions made into the pension plan to the Section 115 trust and the Section 401(h) account as the employer contribution for retiree health care benefits. For 2020, the portion of employer contributions allocated to health care was 0.5% of covered payroll. The amount of employer contributions allocated to the health care plan each year is subject to the Trustees' primary responsibility to ensure that pension benefits are adequately funded and is limited by the provisions of Sections 115 and 401(h).

The OP&F Board of Trustees is also authorized to establish requirements for contributions to the health care plan by retirees and their eligible dependents or their surviving beneficiaries. Payment amounts vary depending on the number of covered dependents and the coverage selected.

The City's contractually required contribution to OP&F was \$941,000 for 2021. All required payments have been made.

**OPEB Liability/(Asset), OPEB Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB**: The net OPEB liability/(asset) and total OPEB liability/(asset) for OPERS were determined by an actuarial valuation as of December 31, 2019, rolled forward to the measurement date as of December 31, 2020, by incorporating the expected value of health care cost accruals, the actual health care payment and interest accruals during the year. OP&F's total OPEB liability was measured as of December 31, 2020 and was determined by rolling forward the total OPEB liability as of January 1, 2020, to December 31, 2020. The City's proportion of the net OPEB liability/(asset) was based on the City's share of contributions to the retirement plan relative to the contributions of all participating entities. Following is information related to the proportionate share and OPEB expense:

|  | <br><b>OPERS</b> |          | OP&F        |      | Total     |
|--|------------------|----------|-------------|------|-----------|
|  |                  | (Amounts | s in Thousa | nds) |           |
| Proportionate Share of the Net               |                  |          |             |      |           |
| OPEB Liability/(Asset)                       | \$<br>(35,117)   | \$       | 77,160      | \$   | 42,043    |
| Proportion of the Net OPEB Liability/(Asset) | 1.971128%        | 7.       | .282615%    |      |           |
| Change in Proportionate Share                | 0.012987%        | (0.2     | 210829)%    |      |           |
| OPEB Expense                                 | \$<br>(215,807)  | \$       | 6,084       | \$   | (209,723) |

At December 31, 2021, the City reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

|   | OPERS |         | OP&F  |          | Total |         |
|---|-------|---------|-------|----------|-------|---------|
| Deferred Outflows of Resources  |       | (Am     | ounts | in Thous | ands) |         |

| share of contributions  |       | 32      |       | 3,912    |       | 3,944   |
| Total Deferred Inflows of Resources                                     | \$    | 107,330 | \$    | 31,807   | \$    | 139,137 |

The \$941,000 reported as deferred outflows of resources related to OPEB resulting from City contributions subsequent to the measurement date will be recognized as a reduction/(increase) of the net OPEB liability/(asset) in 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

|                          | OPERS |          | (      | OP&F      |      | Total    |

Actuarial Assumptions – OPERS: Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan and include the types of coverage provided at the time of each valuation and the historical pattern of sharing of costs between OPERS and plan members. The total OPEB liability/(asset) was determined by an actuarial valuation as of December 31, 2019, rolled forward to the measurement date as of December 31, 2020. The actuarial valuation used the following actuarial assumptions applied to all prior periods included in the measurement in accordance with the requirements of GASB Statement No. 74, *Financial Reporting for Postemployment Benefits Plans Other Than Pension Plans*:

| Wage Inflation               | 3.25%                   |
|------------------------------|-------------------------|
| Projected Salary Increases,  |                         |
| including wage inflation     | 3.25% to 10.75%         |
| Single Discount Rate:        |                         |
| Current Measurement Date     | 6.00%                   |
| Prior Measurement Date       | 3.16%                   |
| Investment Rate of Return    | 6.00%                   |
| Municipal Bond Rate:         |                         |
| Current Measurement Date     | 2.00%                   |
| Prior Measurement Date       | 2.75%                   |
| Health Care Cost Trend Rate: |                         |

|                              | 3.50%, ultimate in 2035 |
| Prior Measurement Date       | 10.50%, initial         |
|                              | 3.50%, ultimate in 2030 |
| Actuarial Cost Method        | Individual Entry Age    |

Pre-retirement mortality rates are based on the RP-2014 Employees Mortality Table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality improvement back to the observation period base year of 2006. The base year for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year of 2006. The base year for males and females are based on the RP-2014 Disabled Mortality Table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Mortality rates for a particular calendar year are determined by applying the MP-2015 Mortality Improvement Scale to all of the above described tables.

The most recent experience study was completed for the five year period ended December 31, 2015.

The long-term expected rate of return on health care investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

The allocation of investment assets with the Health Care Portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Assets are managed on a total return basis with a long-term objective of continuing to offer a sustainable health care program for current and future retirees. OPERS' primary goal is to achieve and maintain a fully funded status for the benefits provided through the defined pension plans. Health care is a discretionary benefit. The table below displays the Board-approved asset allocation policy for 2020 and the long-term expected real rates of return:

|                              |                      | Weighted Average<br>Long-Term Expected |
|------------------------------|----------------------|--|
| Asset Class                  | Target<br>Allocation | Real Rate of Return<br>(Arithmetic)    |
| Fixed Income                 | 34.00 %              | 1.07 %                                 |
| Domestic Equities            | 25.00                | 5.64                                   |
| Real Estate Investment Trust | 7.00                 | 6.48                                   |
| International Equities       | 25.00                | 7.36                                   |
| Other Investments            | 9.00                 | 4.02                                   |
| Total                        | 100.00 %             | 4.43 %                                 |

**Discount Rate:** A single discount rate of 6.00% was used to measure the total OPEB liability/(asset) on the measurement date of December 31, 2020. Projected benefit payments are required to be discounted to their actuarial present value using a single discount rate that reflects (1) a long-term expected rate of return on OPEB plan investments (to the extent that the health care fiduciary net position is projected to be sufficient to pay benefits), and (2) a tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate are not met). This single discount rate was based on the actuarial assumed rate of return on the health care investment portfolio of 6.00% and a municipal bond rate of 2.00%. The projection of cash flows used to determine this single discount rate assumed that employer contributions will be made at rates equal to the actuarially determined contribution rate. Based on these assumptions, the health care fiduciary net position and future contributions were sufficient to finance health care investments was applied to projected costs through the year 2120, the duration of the projection period through which projected health care payments are fully funded.

Sensitivity of the City's Proportionate Share of the Net OPEB Liability/(Asset) to Changes in the Discount Rate: The following table presents the City's proportionate share of the net OPEB liability/(asset) calculated using the single discount rate of 6.00%, as well as what the City's proportionate share of the net OPEB liability/(asset) would be if it were calculated using a discount rate that is one-percentage-point lower (5.00%) or one-percentage-point higher (7.00%) than the current rate:

|                                   |                        |         |      | Current                  |                        |          |
|-----------------------------------|------------------------|---------|------|--------------------------|------------------------|----------|
|                                   | 1% Decrease<br>(5.00%) |         | Di   | is count Rate<br>(6.00%) | 1% Increase<br>(7.00%) |          |
| City's proportionate share        |                        | (A      | moun | ts in Thous ands         | .)                     |          |
| of the net OPEB liability/(asset) | \$                     | (8,735) | \$   | (35,117)                 | \$                     | (56,826) |

Sensitivity of the City's Proportionate Share of the Net OPEB Liability/(Asset) to Changes in the Health Care Cost Trend Rate: Changes in the health care cost trend rate may also have a significant impact on the net OPEB liability/(asset). The following table presents the net OPEB liability/(asset) calculated using the assumed trend rates, and the expected net OPEB liability/(asset) if it were calculated using a health care cost trend rate that is one-percentage-point lower or one-percentage-point higher than the current rate.

Retiree health care valuations use a health care cost-trend assumption that changes over several years built into the assumption. The near-term rates reflect increases in the current cost of health care; the trend starting in 2021 is 8.50%. If this trend continues for future years, the projection indicates that years from now virtually all expenditures will be for health care. A more reasonable alternative is that in the not-too-distant future, the health plan cost trend will decrease to a level at, or near, wage inflation. On this basis, the actuaries project premium rate increases will continue to exceed wage inflation for approximately the next decade, but by less each year, until leveling off at an ultimate rate, assumed to be 3.50% in the most recent valuation.

|                                   | Current Health Care<br>Cost Trend Rate |                    |     |                       |    |          |  |
|-----------------------------------|--|--------------------|-----|-----------------------|----|----------|--|
|                                   |  | Decrease<br>2.50%) |     | Assumption<br>(3.50%) |    | Increase |  |
| City's proportionate share        |  | (A                 | mou | nts in Thousands      | .) |          |  |
| of the net OPEB liability/(asset) | \$                                     | (35,985)           | \$  | (35,117)              | \$ | (34,171) |  |

*Actuarial Assumptions – OP&F:* OP&F's total OPEB liability as of December 31, 2020, is based on the results of an actuarial valuation date of January 1, 2020 and rolled-forward using generally accepted actuarial procedures. The total OPEB liability is determined by OP&F's actuaries in accordance with GASB Statement No. 74, as part of their annual valuation. Actuarial valuations of an ongoing plan involve estimates of reported amounts and assumptions about probability of occurrence of events far into the future. Examples include assumptions about future employment mortality, salary increases, disabilities, retirements and employment terminations. Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results, are presented below:

| Valuation Date             | January 1, 2020, with actuarial liabilities rolled forward to December 31, 2020 |
|----------------------------|---|
| Actuarial Cost Method      | Entry Age Normal  |
| Investment Rate of Return  | 8.00%   |
| Projected Salary Increases | 3.75% to 10.50%   |
| Payroll Growth             | Inflation rate of 3.25%   |
| Single Discount Rate:      |   |
| Current Measurement Date   | 2.96%   |
| Prior M easurement Date    | 3.56%   |
| Cost of Living Adjustments | 2.20% Simple per year   |

Mortality for non-disabled participants is based on the RP-2014 Total Employee and Healthy Annuitant Mortality Tables rolled back to 2006, adjusted according to the rates in the following table, and projected with the Conduent Modified 2016 Improvement Scale. Rates for surviving beneficiaries are adjusted by 120.0%.

| Age        | Police | Fire |     |     |  |
|------------|--------|------|-----|-----|--|
| 67 or less | 77     | 0/0  | 68  | 0/0 |  |
| 68-77      | 105    | /0   | 87  | /0  |  |
| 78 and up  | 115    |      | 120 |     |  |

Mortality for disabled retirees is based on the RP-2014 Disabled Mortality Tables rolled back to 2006, adjusted according to the rates in the following table, and projected with the Conduent Modified 2016 Improvement Scale.

| Age        | Police | Fire |
|------------|--------|------|
| 59 or less | 35 %   | 35 % |
| 60-69      | 60     | 45   |
| 70-79      | 75     | 70   |
| 80 and up  | 100    | 90   |

The most recent experience study was completed for the five year period ended December 31, 2016, the prior experience study was completed December 31, 2011.

The long-term expected rate of return on OPEB plan investments was determined using a building-block approach and assumes a time horizon, as defined in the Statement of Investment Policy. A forecasted rate of inflation serves as the baseline for the return expected. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate and adding the expected return from rebalancing uncorrelated asset classes. Best estimates of the long-term expected geometric real rates of return for each major asset class included in OP&F's target asset allocation as of December 31, 2020, are summarized below:

| Asset Class                  | Target<br>Allocation | Long-Term Expected<br>Real Rate of Return |
|------------------------------|----------------------|---|
|                              |                      |   |
| Domestic Equity              | 21 %                 | 4.10 %                                    |
| Non-US Equity                | 14                   | 4.80                                      |
| Private Markets              | 8                    | 6.40                                      |
| Core Fixed Income *          | 23                   | 0.90                                      |
| High Yield Fixed Income      | 7                    | 3.00                                      |
| Private Credit               | 5                    | 4.50                                      |
| U.S. Inflation Lined Bonds * | 17                   | 0.70                                      |
| Master Limited Partnerships  | 5                    | 5.60                                      |
| Gold                         | 5                    | 1.90                                      |
| RealAssets                   | 8                    | 5.80                                      |
| Private Real Estate          | 12                   | 5.30                                      |
| Total                        | 125 %                |   |

\* levered 2.5x Note: Assumptions are geometric

OP&F's Board of Trustees has incorporated the risk parity concept into OP&F's asset liability valuation with the goal of reducing equity risk exposure, which reduces overall Total Portfolio risk without sacrificing return and creating a more risk-balanced portfolio based on the relationship between asset classes and economic environments. From the notional portfolio perspective above, the Total Portfolio may be levered up to 1.25 times due to the application of leverage in certain fixed income asset classes.

**Discount Rate:** The total OPEB liability was calculated using the discount rate of 2.96%. The projection of cash flows used to determine the discount rate assumed the contribution from employers and from members would be computed based on contribution requirements as stipulated by State Statute. Projected inflows from investment earnings were calculated using the longer-term assumed investment rate of return 8.0%. Based on those assumptions, OP&F's fiduciary net position was projected to not be able to make all future benefit payments of current plan members. Therefore, a municipal bond rate of 2.12% at December 31, 2020 and 2.75% at December 31, 2019, was blended with the long-term rate of 8.0%, which resulted in a blended discount rate of 2.96%.

Sensitivity of the City's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate: Net OPEB liability is sensitive to changes in the discount rate and to illustrate the potential impact the following table presents the net OPEB liability calculated using the discount rate of 2.96%, as well as what the net OPEB liability would be if it were calculated using a discount rate that is one-percentage-point lower (1.96%), or one-percentage-point higher (3.96%) than the current rate.

*Capital Grant Programs:* The City participates in the State Issue 2 program and the Local Transportation Improvement Program. Through these programs, the State of Ohio (State) provides financial assistance to the City for its various road and bridge improvements and storm water detention facilities. The Ohio Public Works Commission (OPWC) is the State agency which oversees the allocation of State bond proceeds and tax revenue to selected projects which have met funding requirements. Upon approval of the OPWC, the City and the State create project agreements establishing each entity's financial contribution toward each project. During 2021, the State funded \$4,402,935 of road and bridge improvement projects.

### NOTE 15 – SERVICE CONCESSION ARRANGEMENTS

In 2010, the City entered into an agreement with Cleveland Metropolitan Park District (Cleveland Metroparks) under which Cleveland Metroparks will operate and collect user fees from Seneca Golf Course for 99 years. Cleveland Metroparks has paid the City \$99 for this agreement. They have agreed to complete at least \$4,000,000 of capital improvements. As completed, all capital improvements performed by Cleveland Metroparks will become an asset of Seneca Golf Course and the City. Upon expiration of the agreement, all improvements will vest in the City. Cleveland Metroparks is required to operate and maintain the golf course in accordance with the City Contract.

The City reports the golf courses and related equipment as a capital asset with a carrying amount of \$2,707,000 at year end.

### NOTE 16 – SEGMENT INFORMATION

The City has issued revenue bonds and construction loans to finance the activities accounted for in the following Enterprise Funds:

- Division of Water
- Cleveland Public Power
- Department of Port Control
- Water Pollution Control
- Municipal Parking Lots

Investors in the revenue bonds rely solely on the revenues generated from the specific enterprise activity to which the debt obligations pertain for repayment.

Shown below is summarized financial information for the City's enterprise activity that has issued long-term obligations and is not reported as a major fund in the proprietary funds financial statements:

### NOTE 17 - FUND BALANCES / NET POSITION

**Fund Balance Classifications:** Fund balance is classified into five categories (1) Nonspendable, (2) Restricted, (3) Committed, (4) Assigned and (5) Unassigned. Nonspendable fund balances include amounts that are not in spendable form or are legally required to remain intact. Restricted fund balances include amounts that have external restrictions by either grantors, debt covenants, laws or other governments. Committed fund balances include amounts that are committed to a specific purpose. To establish, modify or rescind committed fund balances legislation must go before administration with passage by council ordinance. Per City policy, assigned fund balances include amounts that have an intended use by the Mayor and/or the Director of Finance to be used for a specific purpose. Unassigned fund balances include amounts that have not been assigned to any purpose. The General Fund is the only fund that reports a positive unassigned fund balance amount. In other governmental funds, if expenditures incurred for specific purposes exceed the amounts restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance. Fund expenditures and encumbrances are from restricted resources to the extent of the restricted fund reserve and followed by committed then assigned and unassigned resources.

Below are the fund balance classifications for the governmental funds by category with specific purpose information at December 31, 2021:

|  |    |                        |    | Capital/<br>Urban<br>Renewal |    |  |          |                                    |     |                           |            |                     |

*Net Position:* Net position represents the difference between assets, deferred outflows of resources, liabilities and deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings issued to acquire, construct or improve those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. The City applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available. Net position is restricted for debt service, loans and other purposes. Other purposes include street construction and maintenance, grant programs and debt or capital funding from restricted income tax.

**Rainy Day Reserve Fund:** The City, in accordance with Section 5705.13(A), of the Ohio Revised Code, has established by ordinance the Rainy Day Reserve Fund (Rainy Day). The Rainy Day's goal is to accumulate at least 5% for budget stabilization and up to 5% for self-insurance claims liabilities. The City funds the Rainy Day through transfers from the General Fund, when funds become available. In order to use the Rainy Day, the City must pass an ordinance. The amount of the Rainy Day is reported within the unassigned fund balance classification in the City's General Fund.

### NOTE 18 – GATEWAY ECONOMIC DEVELOPMENT CORPORATION

In accordance with an agreement with Gateway Economic Development Corporation (Gateway), Gateway is required to reimburse the City for the excess of the debt service requirements of the Parking Facilities Refunding Revenue Bonds attributed to the two Gateway garages over the net revenues generated by the two Gateway garages. In October 2011, the City sold one of the Gateway garages and defeased the applicable bonds. Going forward the amounts required to be reimbursed will be calculated based upon the net revenues of the remaining garage and remaining applicable bonds outstanding.

The first garage on the Gateway site was completed in January 1994. The second garage was completed in August 1994.

In 2021, net revenues generated by the remaining Gateway garage were less than the debt service payments attributed to that garage by \$2,328,000. Cumulative debt service payments funded by the City that are due from Gateway totaled \$59,399,000 at December 31, 2021. Due to the uncertainty of collecting such amounts, an allowance has been recorded to offset the amounts in full; therefore, these amounts do not appear in the accompanying financial statements.

To enhance the security of the bonds issued by the County for the construction of facilities at Gateway, the City has agreed to pledge annually a percentage of admissions taxes on all events held at the arena to pay debt service if other revenue sources are not sufficient. Any exempted admissions tax not required for debt service will be reimbursed to the City. The City's current admissions tax rate is 8%. For the year ended December 31, 2021, the City pledged \$1,368,375.

### NOTE 19 – COMPLIANCE AND ACCOUNTABILITY

At December 31, 2021, the following funds had a net position deficiency. These deficiencies are the result of changes in accounting for net pension and net OPEB liabilities for which there are no repayment schedules.

|                                     | An         | nount          |

| Municipal Income Tax Administration |            | 6,972          |

### NOTE 20 – TAX ABATEMENTS

Pursuant to Governmental Accounting Standards Board Statement No. 77, the City is required to disclose certain information about tax abatements as defined in the Statement. For purposes of GASB Statement No. 77, a tax abatement is a reduction in tax revenues that results from an agreement between one or more governments and an individual or entity in which (a) one or more governments promise to forgo tax revenues to which they are otherwise entitled and (b) the individual or entity promise to take a specific action after the agreement has been entered into that contributes to economic development or otherwise benefits the City or the citizens of the City. The City has entered into such agreements. A description of each of the City's abatement programs where the City has promised to forgo taxes follows:

### Community Reinvestment Area (CRA)

Pursuant to Ohio Revised Code 3735, the City established a Community Reinvestment Area which includes all land within the boundaries of the City. The City authorizes abatements through passage of public ordinances, based on residential investment criteria and through an application process, including proof that the improvements have been made. The abatement equals an agreed upon percentage of the additional property tax resulting from the increase in assessed value as a result of the improvements. The amount of the abatement is deducted from the recipient's property tax bill.

The establishment of the Community Reinvestment Area gave the City the ability to provide incentives for the development of safe and affordable housing in Cleveland's neighborhoods. The City's tax abatement program provides incentives for current residents to rehabilitate their homes and to attract new residents into the City.

Taxes are abated on the improved value of a parcel, where new construction occurs, or on the structure where remodeling applies. The collection of taxes continues on the land and unimproved portion of a remodeled structure. The tax abatement is revoked when the tax abated property has code violations and the property is not maintained and/or when the portion of taxes on a property or parcel that was not abated becomes delinquent.

### **Ohio Enterprise Zone Program**

Pursuant to Ohio Revised Code 5709, the City established an Enterprise Zone in 1995, which included all land within the boundaries of the City. The City authorizes incentives through passage of public ordinances, based upon each project's criteria and through a contractual application process with each business, including proof that the improvements have been made. The abatement equals a percentage of the additional real property tax resulting from the increase in real property tax bill. Abated taxes may be recouped if the project is not completed and/or required job creation is not met. The establishment of the Enterprise Zone gave the City the ability to retain and expand businesses located in the City and create new jobs by partially abating real property taxes of new or improved business real estate including mixed-use and commercial improvements.

The City has offered tax incentives including Enterprise Zone tax abatements of up to 60% for a period of ten years to businesses making a substantial investment in the City with new development or redevelopment of commercial real property. To qualify, the City considers projects where the enterprise must meet one of the following conditions:

- An investment in an expansion must equal at least 10% of the market value of the facility prior to the expenditure.
- The renovation of an existing facility requires expenditures totaling at least 50% of the market value of the subject facility.
- When occupying a vacant facility or site an enterprise must incur expenditures to renovate or expand the facility equal to at least 20% of the market value of the subject facility.
- Establishing a new facility in an Enterprise Zone.

Businesses which submit applications for tax abatement must be willing and able to attest that without abatement, the proposed investment would not take place in the City. The business must justify this statement documenting that the investment would not be cost effective without abatement or that they are considering a more economically advantageous location outside the City. Additionally, to address the existence of food deserts, the City extended the term of the tax abatement to the maximum allowable amount. Accordingly and pursuant to Ohio Revised Code 5709.62, the City offers up to a 15-year, 75% tax abatement to business improving real property with a grocery store.

### Tax Increment Financing (TIF)

The City uses tax increment financing authorized by the Ohio Revised Code (ORC) Chapter 5709 as a tool to support development in the City and are often used to support financing to close project funding gaps, without which the project would not be able to move forward. TIFs are analyzed by Department of Economic Development staff to ensure that the project meets a "but-for" test, confirming that the development would not proceed without the incentive, as well as to determine that the City receives an adequate return on its investment in the form of other taxes or policy goals.

A TIF works by locking in the taxable worth of real property at the value it holds at the time the authorizing legislation was approved by City Council. Payments derived from a percentage of the increased assessed value of any improvement to real property beyond that amount are directed towards a separate fund to finance construction of public infrastructure defined within the TIF legislation. While the property holders continue to pay their full property taxes, the incremental payments above the base value are called paid-in-lieu of taxes (PILOT).

Most TIFs authorized by the City are "Non-School" TIFs, providing that the Cleveland Metropolitan School District receives its share of the tax revenues generated by the development, approximately 60% of the total taxes.

As a result of these projects, thousands of jobs have been created, adding millions of dollars to the City in total payroll and income tax revenue generated annually.

Below is the information relevant to the disclosure of these programs for the year ended December 31, 2021.

| Tax Abatement Program             | Taxe<br><u>For the</u> | Amount of<br>es Abated<br><u>e year 2021</u><br>in Thous ands) |
|-----------------------------------|------------------------|--|
| Community Reinvestment Area (CRA) | \$                     | 5,819  |
| Enterprise Zone Program           |                        | 250  |
| Tax Increment Financing (TIF)     |                        | 2,997  |

### NOTE 21 – ASSET RETIREMENT OBLIGATION

Ohio Revised Code Section 6111.44 requires the City to submit any changes to their sewage treatment system to the Ohio EPA for approval. Through this permitting process, the City would be responsible to address any public safety issues associated with their sewage treatment system and the permit would specify the procedures required to dispose of all or part of the sewage treatment system. At this time, the City does not have an approved permit from Ohio EPA to dispose of all or part of their sewage treatment system. Due to the lack of specific legal requirements for retiring the sewage treatment system, the City has determined that the amount of the Asset Retirement Obligation cannot be reasonably estimated.

### NOTE 22 – COVID-19

The United States and the State of Ohio declared a state of emergency in March 2020 due to the COVID-19 pandemic. The financial impact of the pandemic and the ensuing emergency measures may continue to impact subsequent periods.

The City was awarded approximately \$174.0 million in federal funding to combat the effects of COVID-19 and approximately \$512.0 million in the American Rescue Plan Act (ARPA) funding of which \$255.9 was received in 2021. As of December 31, 2021, the City spent \$144.8 million of the federal funding and \$112.0 million of the ARPA funds.

### NOTE 23 – SUBSEQUENT EVENTS

On May 23, 2022, City Council approved legislation authorizing the issuance of not to exceed \$50,000,000 of General Obligation Bonds. These bonds will be issued to fund park and recreation improvements, public facility improvements, road and bridge improvements and the acquisition of heavy duty trucks and vehicles.

(2) Information prior to 2014 is not available. The City will continue to present information for years available until a full ten-year trend is compiled.

### Notes to Schedule:

Change in assumptions. There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for 2014-2016. For 2017, the following were the most significant changes of assumptions that affected the total pension liability since the prior measurement date: (a) reduction in the actuarially assumed rate of return from 8.0% down to 7.5% (b) for defined benefit investments, decreasing the wage inflation from 3.75% to 3.25% and (c) changing the future salary increases from a range of 4.25%-10.05% to 3.25%-10.75%. There were no changes in assumptions for 2018. For 2019, the following were the most significant changes of assumptions that affected the total pension liability since the prior measurement date: (a) the assumed rate of return and discount rate were reduced from 7.5% down to 7.2%. There are no changes for 2020 and 2021. CITY OF CLEVELAND, OHIO

Information presented for each year was determined as of the City's measurement date, which is the prior year end.
 Information prior to 2014 is not available. The City will continue to present information for years available until a full ten-year trend is compiled.

## Notes to Schedule:

Change in assumptions. In 2018, changes in assumptions were made based upon an updated experience study that was completed for the five-year period ending December 31, 2016. Significant changes included a reduction of the discount rate from 8.25% to 8.00%, a reduction in the wage inflation rate from 3.75% to 3.25% and transition from the RP-2000 mortality tables to the RP-2014 mortality tables. There are no changes for 2020 and 2021. CITY OF CLEVELAND, OHIO

#### NONMAJOR GOVERNMENTAL FUNDS

#### SPECIAL REVENUE FUNDS

Special Revenue Funds are used to account for specific revenues that are legally restricted or committed by the City to expenditures for particular purposes. The City's Special Revenue Funds are described below:

| Division of Streets                             | To account for motor vehicle license tax and gasoline excise tax used for the repair and building of streets.   |
|---|---|
| Restricted Income Tax                           | To account for one-ninth of the City's income tax collections. Monies are to be used for capital improvement purposes, repayment of debt and elimination of any deficit balance in any fund of the City.                  |
| Cleveland Stadium Operations                    | To account for the operating activities of Cleveland Browns Stadium.  |
| Community Development Block Grants              | To account for revenue from the federal government<br>and expenditures as prescribed under the Community<br>Development Block Grant Program.  |
| Community Development Funds                     | To account for revenue earmarked for citywide development.  |
| Building and Housing Funds                      | To account for revenue earmarked to administer and enforce the<br>provisions of the Cleveland building, housing and zoning codes<br>plus the national electrical code and state building, plumbing<br>and elevator codes. |
| Urban Development Action Funds                  | To account for revenue from the federal government under the Urban Development Action Grant Program.  |
| Economic Development Funds                      | To account for revenue earmarked to revitalize distressed cities by stimulating economic development.   |
| Workforce Innovation and Opportunity Act (WIOA) | To account for revenue and expenditures from the State of Ohio under the Workforce Innovation and Opportunity Act.  |
| Public Works Funds                              | To account for specific revenue earmarked for the public works activity.  |
| Public Safety Funds                             | To account for revenue earmarked for public safety activities.  |
| Gateway Shared Income Tax Funds                 | To account for municipal income tax revenue derived from persons employed at the Arena and Progressive Field with 50% of the revenues shared with the other taxing districts in the City.                                 |
| Neighborhood Development Investment Fund        | To account for revenue earmarked for the Neighborhood Development Investment Fund.  |

#### **SPECIAL REVENUE FUNDS (Continued)**

| Core City Program Funds       | To account for revenue earmarked for certain economic and community development projects.  |
|-------------------------------|--|
| Supplemental Empowerment Zone | To account for revenue from the U.S. Department of Housing<br>and Urban Development Program designed to help rebuild<br>specified urban communities. |

#### SPECIAL REVENUE FUNDS (for budgetary purposes only)

These funds are rolled into the General Fund for Modified Accrual Financial Statements.

| Rainy Day Reserve Fund                             | To account for revenue which is eligible to be used during significant periods of economic downturn.                              |
|--|---|
| Schools Recreation and Cultural<br>Activities Fund | To account for revenue from special taxes earmarked for<br>Cleveland Municipal Schools for recreation and cultural<br>activities. |

#### **DEBT SERVICE FUNDS**

Debt Service Funds are used to account for the accumulation of financial resources for and the payment of, general long-term debt principal, interest and related costs. The City's Debt Service Funds are described below:

| Unvoted Tax Supported Obligations Fund | To account for the accumulation of resources for the<br>payment of General Obligation Bonds of the City. These<br>bonds do not require a vote of the electors, other than self-<br>supporting obligations. They are payable from ad valorem<br>property taxes levied within the limitations provided by law. |
|--|--|
| Subordinated Income Tax Fund           | To account for the accumulation of resources for the payment<br>of Subordinated Income Tax Variable Rate Refunding Bonds<br>payable from pledged income taxes.   |
| Lower Euclid Avenue TIF                | To account for the accumulation of resources for the payment<br>of Economic Development Bonds payable from tax increment<br>financing revenues and a pledge of the non-tax revenue of the<br>City.   |
| Core City Bonds                        | To account for the accumulation of resources for the payment<br>of taxable Economic and Community Development Bonds<br>payable from non-tax and net project revenues.  |
| Subordinate Lien Income Tax Fund       | To account for the accumulation of resources for the payment<br>of Subordinate Lien Income Tax Bonds payable from pledged<br>income taxes.   |
| Cleveland Stadium Debt Service Fund    | To account for the accumulation of resources earmarked for the repayment of debt related to Cleveland Browns Stadium.  |

#### CAPITAL PROJECT FUNDS

Capital Project Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds). The City's Capital Project Funds are described below:

| Grant Improvement              | To account for capital grant revenues which fund<br>Capital Improvement Projects within the City. |
|--------------------------------|---|
| Capital Improvement            | To account for miscellaneous revenues which fund capital projects.                                |
| Cleveland Stadium Construction | To account for bond proceeds and capital projects costs of the Cleveland Browns Stadium.          |

#### NONMAJOR ENTERPRISE FUNDS

Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private sector businesses where the intent of the governing body is that the expense (including depreciation) of providing goods or services primarily or solely to the general public be financed or recovered primarily through user charges. The City's nonmajor Enterprise Funds are as follows:

| Public Auditorium      | The Public Auditorium is a multi-purpose performing arts,<br>entertainment and conference center. It was constructed in the<br>grand opera tradition and features a spacious 21,780 square foot<br>registration lobby, a 10,000 seat auditorium, the 3,000 seat<br>Cleveland Music Hall and 600 seat Little Theater. |
|------------------------|--|
| West Side Market       | The West Side Market provides a public market where<br>Cleveland area residents can purchase a variety of quality<br>foods in a centralized location.  |
| East Side Market       | The East Side Market provides a public market where<br>Cleveland area residents can purchase a variety of<br>quality foods in a centralized location.  |
| Municipal Parking Lots | The Division of Parking was established to provide municipal parking within the City's limits.   |
| Cemeteries             | The Division of Cemeteries was established to provide<br>interment and cremation services for the City and its<br>neighboring communities.   |
| Golf Courses           | The Golf Course Division was established to provide the<br>City and neighboring communities with recreational<br>facilities for golfing and cross country skiing. Currently, one<br>of the City golf courses is being leased out. Seneca is being<br>leased by Cleveland Metroparks.                                 |

#### **INTERNAL SERVICE FUNDS**

Internal Service Funds are used to account for the financing of goods or services provided by one department of the City to other departments of the City on a cost-reimbursement basis. The City's Internal Service Funds are described below:

| Motor Vehicle Maintenance           | The Division of Motor Vehicle Maintenance was<br>established to provide centralized maintenance, repairs and<br>fueling of certain City vehicles.  |
|-------------------------------------|--|
| Printing and Reproduction           | The Division of Printing and Reproduction was established<br>to provide printing and reproduction services for all City<br>divisions.  |
| City Storeroom and Warehouse        | The City's Storeroom and Warehouse Division provides centralized mailroom service.   |
| Utilities Administration            | The Division of Utilities Administration was established<br>to provide administrative assistance to the Department<br>of Public Utilities.   |

\* This schedule presents only the capital asset balances related to governmental funds, excluding accumulated depreciation. Accordingly, the capital assets reported in internal service funds are excluded from the above amounts. Generally, the capital assets of internal service funds are included as governmental activities in the statement of net assets.

## CITY OF CLEVELAND, OHIO Statistical Section

This part of the City's Annual Comprehensive Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures and required supplementary information says about the City's overall financial health.

| <u>Contents</u>   | <b>Page</b>  |
|---|--------------|
| Financial Trends  |              |
| These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.   | <b>S3-S6</b> |
| Revenue Capacity  |              |
| These schedules contain information to help the reader assess the City's most significant local revenue source, the municipal income tax.   | S7-S11       |
| Debt Capacity   |              |
| These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future. | S12-S19      |
| Economic and Demographic Information  |              |
| These schedules offer economic and demographic indicators to help the reader understand<br>the environment within which the City's financial activities take place.                             | S20-S22      |
| Operating Information   |              |
| These schedules contain service and infrastructure data to help the reader understand how   | S23-S24      |
| the information in the City's financial report relates to the services the City provides and<br>the activities it performs.   |              |
| Schedule of Statistics – General Fund   | S25          |

**Sources:** Unless otherwise noted, the information in these schedules is derived from the Annual Comprehensive Financial Reports for the relevant year.

GASB issued Statement No. 65 effective for periods beginning after December 15, 2012. This statement changed the treatment of bond issuance costs to expense in the period incurred. Previously, the costs were recorded as assets and amortized over the life of the related debt issued. This change is reflected in the 2013 net position figures. The City did not restate prior years in this statistical table.

GASB issued Statement No. 68 and 71 effective for periods beginning after June 15, 2014. These statements established standards for measuring and recognizing pension liabilities, deferred outflows of resources, deferred inflows of resources and expense/expenditures. The City did not restate prior years in this statistical table.

GASB issued Statement No. 75 effective for periods after June 15, 2017. This statement established standards for measuring and recognizing OPEB liabilities, deferred outflows of resources, deferred inflows of resources and expense/expenditures. The City did not restate prior years in this statistical table.

Note:

Program revenues and expenses previously reported as "Other" program revenues and expenses in Governmental activities on the Statement of Activities are now classified as General Government program revenues and expenses as appropriate.

Business-type activities on the Government-wide Statement of Activities summarizes other Enterprise Funds as Nonmajor activities. In years 2018 and prior these include Sewer, Public Auditorium, West Side Market, East Side Market, Municipal Parking Lots, Cemeteries and Golf Courses. In 2019, Sewer was reclassified as a major enterprise fund.

(1) In 2012, a departmental reorganization occurred that merged the departments of Public Service with Parks, Recreation and Properties becoming the Department of Public Works. The Office of Capital Projects was created from the Divisions of Architecture, Engineering and Construction and Research, Planning and Development and is reported under General Government. In addition, the Division of Consumer Affairs was merged with Community Development and was moved from General Government.

(2) GASB issued Statement No. 65 effective for periods beginning after December 15, 2012. This statement changed the treatment of bond issuance costs to expense in the period incurred. Previously, the costs were recorded as assets and amoritzed over the life of the related debt issued. The City did not restate prior years in this statisistical table.

(3) In 2019, the Division of Water Polution Control (Sewer) was reclassified as a major enterprise fund. Previously the fund was included with Nonmajor Business-Type Activities.

(1) In 2012, a departmental reorganization occurred that merged the departments of Public Service with Parks, Recreation and Properties becoming the Department of Public Works. The Office of Capital Projects was created from the Divisions of Architecture, Engineering and Construction and Research, Planning and Development and is reported under General Government. In addition, the Division of Consumer Affairs was merged with Community Development and was moved from General Government. Data for years prior to 2011 is unavailable.

(2) In 2013, other taxes and other shared revenues are reported separately. For years prior to 2013, the figures are combined. Data for years prior to 2013 is unavailable.

The assessed valuation level for real property in Cuyahoga County is 35% of appraised market value, except for certain agricultural land and public utility property.

Electric deregulation took place January 1, 2001. Under prior law, an electric company's taxable production equipment was assessed at 100% of true value, while all of its other taxable property was assessed at 88% of true value. Effective in 2002, the valuation on electric utility production equipment was reduced from 100% to 25% of true value, with makeup payments in varying amounts to be made through 2021 to taxing subdivisions by the State of Ohio from State resources. All taxable property remained at 88% true value.

The total direct rate is shown per \$1,000 of assessed value.

#### Note:

The rates presented for a particular calendar year are the rates that, when applied to the assessed values presented in the Assessed Value Table, generated the property tax revenue billed in that year. The City's basic property tax rate may be increased only by a majority vote of the City's residents. Charter millage is consistently applied to all types of property. The real property tax rates for the voted levies of the overlapping taxing districts are reduced so that inflationary increases in value do not generate additional revenue. Overlapping rates are those of local and county governments that apply to property owners within the City.

#### Note:

The County does not identify delinquent collections by the year for which the tax was levied.

(1) The current tax levy is the total amount of taxes assessed for the year.

(2) State reimbursement of rollback and homestead exemptions are included.

(3) Total levy includes the delinquent levy.

Note:

Population and Personal Income data are presented on page S21. In 2014, this table was modified to include Note/Loans payable, as it is part of the Governmental Debt.

In 2018, this table recalculated all figures that had premiums and discounts. The premiums and discounts are now reflected in the type of debt.

#### Note:

Net Bonded Debt includes all general obligation bonded debt less balance in debt service fund, plus bond premium.

In 2018, the City restated prior years net bonded debt to include bond premium. As a result, this also affected the ratio of net bonded debt to assessed value of taxable property and net bonded debt to assessed value of taxable property and net bonded debt per capita.

(1) Gross revenues include operating revenues plus interest income. Beginning in 2001, a minimum of 40% of passenger facility charges, as well as grant funds from the FAA for the new runway, are dedicated to the payment of debt service charges and are included in gross revenues. Beginning in 2007, the Coverage Account was included in the calculation of debt service coverage

(2) Direct operating expenses are calculated in accordance with the bond indenture.

(1) Gross revenues include operating revenues plus interest income.

(2) Direct operating expenses are calculated in accordance with the bond indenture.

(3) Per indenture, interest expense was reduced by amount released from reserve fund at the start of year through 2019.

Method: Using 1.0 for each full-time employee and 0.50 for each part-time and seasonal employee at year end.

(1) In 2012, a departmental reorganization occurred that merged the departments of Public Service with Parks, Recreation and Properties becoming the Department of Public Works. The Office of Capital Projects was created from the Divisions of Architecture, Engineering and Construction and Research, Planning and Development and is reported under General Government. In addition, the Division of Consumer Affairs was merged with Community Development and was moved from General Government.

(1) General obligation bond rating.

General obligation bond rating.
 Amounts are new construction starts. The majority of engineering and construction projects are multi-year projects.
 Includes entire area serviced by the Division of Vital Statistics (i.e., Cleveland + suburbs).
 This is the rate for the City of Cleveland residents only. In 2012 rates changed from per 1000 cubic feet to per 600 cubic feet.
 Street sweeping was limited in 2012 due to state imposed budget cuts.
 Economic Development grants received were restated in 2011 for all years shown. They include Neighborhood Development Investment Fund, Supplemental Empowerment Zone, Economic Development Funds, Urban Development Action Funds, WIA Grants and Core City Program Funds.
 The state correction cubic feet to be been budget cuts.

(7) In 2013, OVI arrests, operating a vehicle impaired, is formerly known as DUI arrests, driving under the influence. They are both counted using the same measures; however, the State of Ohio now refers to them as OVI as does the City of Cleveland.

(8) Prior to 2015, Public Works reported the refuse disposal and it's cost as of August through July. Public Works provides calculations base on the calendar year.

(9) Beginning in 2017, the Water Department switched to monthly billing for its customers.

| Water lines (miles) (2)             | 3,928 | 3,933 | 3,945 | 3,878 | 3,544 |
| Vehicles                            | 774   | 761   | 722   | 719   | 748   |

(1) Includes Dog Kennels and Inspection Garage.

(2) These are calculated totals of all trunk mains [20" diameter and larger] (433 miles), distribution mains [16" and smaller] within the City of Cleveland (1,284 miles) plus distribution mains within certain suburbs with updated service agreements (2,161 miles) which transferred ownership of the distribution mains within those suburban boundaries to the City of Cleveland. Not included in these totals are the distribution mains in all master meter communities and any direct service suburban community who has not entered into a new service agreement.

(3) In 2012, the City leased both golf courses. In 2018, the City took back the operations of Highland Park Golf Course.

(4) In 2013, square footage occupied decreased due to the demolition of the Miles Broadway building (21,900 sq ft) and the Highland Park Maintenance building (9,000 sq ft). In 2021, the new Frederick Douglass Rec Center, the fire training tower and the pool houses were added.

(5) In 2012, a departmental reorganization occurred that merged the departments of Public Service with Parks, Recreation and Properties becoming the Department of Public Works. The Office of Capital Projects was created from the Divisions of Architecture, Engineering and Construction and Research, Planning and Development and is reported under General Government. In addition, the Division of Consumer Affairs was merged with Community Development and was moved from General Government.

(6) In 2013, Cleveland Hopkins demolished their long-term parking area and created a surface lot. They also changed their short-term parking area into the CLE Smart Park Garage which is for both short and long-term parking.

(7) In 2014, the number of gates reflects physical gates. All prior years totals are the number of aircrafts that can be accommodated at any one time, including physical gates and parking positions.
