

Winter Weather Safety Tips

1. **Stay Healthy** - get vaccinated with the flu and COVID-19 vaccines
2. **Take Caution** – use caution while driving in snow and icy conditions, and while clearing snow from your home. Ask for help when necessary.
3. **Heat Your Home Safely** - get your furnace, chimney and wood stove cleaned and serviced. Make sure electric space heaters are being used safely. Get a Carbon Monoxide alarm
4. **Dress Warmly** - wear dry, loose-fitting layers that will hold your body heat and cover exposed skin, like your face, head and hands. Invest in good footwear. Warm, waterproof and anti-slip boots are key for winter
5. **Prevent Falls** - prevent slips on ice and snow by wearing sturdy shoes or boots and walking at a slow pace
6. **Keep Your Home Warm** - place weather stripping around doors and windows to help keep the heat in
7. **Be Prepared** - keep a flashlight handy and avoid candles
8. **Be a Winter Buddy** - check on your neighbors to make sure they are safe and have heat and they do the same for you

ENERGY SAVING TIPS

1. Set your thermostat as low as comfortable
2. Turn off the lights when you are not using them
3. Close the doors to rooms not being used
4. Check for drafts around doors, outlets, and windows, and caulk or insulate if possible
5. Make sure the fireplace damper is closed unless in use
6. If you never use your fireplace, plug and seal your chimney flue
