## **Cleveland Division of Fire will Sound Alarm to Signal Need for Smoke Alarm Battery Change**

*Change Your Clock, Change Your Battery*

**CLEVELAND** – On Saturday November 1 at 6:05 p.m., emergency sirens will sound for one minute in unison to urge residents to change their smoke alarms when they adjust their clocks for daylight saving time this weekend.

The “Change Your Clock, Change Your Battery” campaign is a national home fire safety program sponsored by the National Fire Protection Association (NFPA) and endorsed locally by the Cleveland Division of Fire and the American Red Cross.

Working smoke alarms cut the risk of injuries and fatalities related to residential fires in half by providing an early warning signal creating critical extra seconds to escape, according to the NFPA. Although smoke alarms are in a large percentage of Cleveland homes, nearly one-third do not work because of worn or missing batteries.

In addition to urging residents to change smoke alarm batteries, the Cleveland Division of Fire’s Public Education Office recommends that every resident take a few minutes to review fire-safety measures. This includes checking the smoke alarms, establishing an emergency escape route, (identify two ways out of each room), and designating a common meeting place once outside of the home.
